TRAINING ON BASICS OF TAILORING FOR WOMEN (Income Generating Programme)

REPORT

By

**Prof. K. Sudharani
Director**

**Centre for Extension Studies
S.V.U. College of Arts
Sri Venkateswara University
TIRUPATI-517502
2021**

Training on basics of tailoring for Women

India is heading on the path of economic development and growth but there are many challenges on the way to development and one of the biggest challenges is how to make the right way of a growing economy to benefit the society as a whole.

At present a major share of economic growth is utilised for urban development ignoring much on the rural front. Rural areas are still underdeveloped and they are still fighting for daily income. Globalisation has made the market in India very competitive. The lower segment of the work force particularly in rural areas is under tremendous pressure to improve their productivity and sustainability. Any kind of transformation in society can be brought with the help of knowledge and that too if provided at the root level and relevant to the situation. Urban and rural communities have a different level of access to information. Majority of Indians who are living in rural areas are the least benefitted communities as they lack knowledge. By promoting latest information and resource support, the villagers can live a better life, earn and be part of the development. Government and NGO's are putting in efforts to overcome the gap between urban and rural areas. In addition to that, universities have the equal responsibility in this regard being the important knowledge generators. They have to play a significant role in transferring knowledge created by them under their social responsibility. Universities as Institutions of higher education of research are making the social responsibility as a critical component by serving the community. Sri Venkateswara

University has expanded to 54 departments organised in to four colleges offering courses in broad spectrum of fields ranging from rural development to different branches of Arts, Science, Commerce and Engineering. Centre for Extension Studies established in S.V. University and organising extension activities along with some other departments thus meeting the social responsibility of the university.

As the people are unemployed during some seasons, and majority of the women and adolescent girls are willing to undergo vocational training. Recognising need of skill promotion among rural community, the Centre for Extension Studies proposed to organise income generating programmes. To impart skills and enable them to use their acquired skills to find livelihood, suitable vocational training programmes based on the local needs and vocational training programmes based on the local needs and requirements of employment providers shall be organised.

To make such poor and needy rural women empower and self-reliant, Centre for Extension studies, S. V. University with the financial support of S.V.University has organised income generating program. The centre has selected 10 poor women of a remote village Sivaram Puram. The training is being provided by master trainer C. Lakshmid devi for two hours every day. In this training basics in tailoring 15 women are being trained on usage of machine, hemming stitching of khajas, buttons, hooks, cutting and stitching petticoats and blouses. All women attended training regular enthusiastically and learn with interest. The duration of the programme was 15 days i.e., from 01-02-2021 to 15-02-

2021. Tailoring machines and room as training centre at Piler were hired from owner C. Lakshmidēvi. The materials needed for the course such as scissors, threads, needles and cloth were supplied by the centre. All the trainees were trained on the basic skills of tailoring.

The organization of the programme could have not been possible without the support and financial inputs of the university and the staff of the centre for extension studies. We express our deep appreciation for their generous support and cooperation of T. Surendra

and the rural community for the successful organization of the programme that resulted in this report. Special thanks are due to C. Lakshmidēvi, resource person for her contribution as trainer. Special appreciation is extended to trainees for their interest, attending the course regularly and learning the skills of tailoring.

The Director and staff of the Centre for Extension Studies acknowledges thanks to the university administrators for the administrative and financial support to organize this programme.

TRAINING ON ORGANIC FARMING FOR FARMERS

(Income Generating Programme)

REPORT

By
Prof. K. Sudharani

Training on organic farming for farmers

Income Generating Programme

India is heading on the path of economic development and growth but there are many challenges on the way to development and one of the biggest challenges is how to make the right way of a growing economy to benefit the society as a whole. At present a major share of economic growth is utilised for urban development ignoring much on the rural front. Rural areas are still underdeveloped and they are still fighting for daily income. Globalisation has made the market in India very competitive. The lower segment of the work force particularly in rural areas is under tremendous pressure to improve their productivity and sustainability. Any kind of transformation in society can be brought with the help of knowledge and that too if provided at the root level and relevant to the situation. Urban and rural communities have a different level of access to information. Majority of Indians who are living in rural areas are the least benefited communities as they lack knowledge. By promoting latest information and resource support, the villagers can live a better life, earn and be part of the development. Government and NGO's are putting in efforts to overcome the gap between urban and rural areas. In addition to that, universities have the equal responsibility in this regard being the important knowledge generators. They have to play a significant role in transferring knowledge created by them under their social responsibility. Universities as Institutions of higher education of research are making the social responsibility as a critical component by serving the community. Sri Venkateswara University has expanded to 54 departments organised in to four

colleges offering courses in broad spectrum of fields ranging from rural development to different branches of Arts, Science, Commerce and Engineering. Centre for Extension Studies established in S.V. University and organising extension activities along with some other departments thus meeting the social responsibility of the university.

As the people are unemployed during some seasons, and majority of the women and adolescent girls are willing to undergo vocational training. Recognising need of skill promotion among rural community, the centre for extension studies proposed to organise income generating programmes. To impart skills and enable them to use their acquired skills to find livelihood, suitable vocational training programmes based on the local needs and vocational training programmes based on the local needs and requirements of employment providers shall be organized.

Centre for Extension Studies conducted a survey in the nearby villages to know the interest of rural community to take vocational training. The survey revealed that they are interested to take training on different vocational aspects. Due to time and financial constraints and the interest of the majority of the farmers the centre proposed to organize training programme on organic farming

Fertilization increases efficiency and obtains better quality of product recovery in agricultural activities. Fertilizer industry is considered to be source of nutrient supplier to the soil. Consumer society, in order to meet the growing need for food, agricultural land per unit area required to achieve maximum efficiency and high quality product. It is known that the nutrition of the

plant is one of the most important factors that determine agricultural productivity and quality. Rate of nutrients in the soil affects the quality of yield. In the permanent agricultural land, the soil will be very poor in nutrients. As a result inefficient to give good produce. Therefore, fertilization remains a priority at all times. However, excessive use of chemical fertilization reported adverse effects leading to air, water pollution, green house effect and damaging the health of human beings, animals and also plants whereas in the place of chemical fertilizers, application of organic fertilizers and pesticides not only increases the soil nutrients, but also maintains good soil health, resistance to pest attacks and also nutritional status of the food products. Recognizing this, the Centre for Extension Studies proposed to organize awareness and income generating programme on preparation and marketing of organic fertilizers and pesticides. Initially the staff of the centre approached non-governmental organizations involved in these programmes and three resource persons were utilized to train the community on payment basis.

The discussions were held with the staff of the IKP and 15 women interested to learn about the organic fertilizers were identified at Yadamvari palli village. They were formed as a group. The programme was inaugurated at rythumitra office, Chattevaripalem. Dr. Sudha Rani spoke about the purpose of organising these programmes, massive usage of chemical fertilizers, its adverse effects on environment, health etc., Resource persons explained the advantages and benefits of using organic fertilisers. T. Ananda, Prasad, Narasimhulu staff of the Centre for Extension Studies, S.V. University also

attended the programme. Dr. R. B. Sathyavathi, Assistant Professor, Dept. of Adult Education spoke about the need of community development programmes. After that the booklets, printed and published by the Centre for Extension Studies were distributed to the trainees. Sudhakar Reddy, (BIRD, NGO) and R. Sahadevaiah (WINS, NGO) were resource persons cum trainers of the programme. The training was commenced from 12 - 01-2021 to 26-01-2021. Sudhakar Reddy, the trainer working on the preparation and marketing of organic fertilizer in the NGO has lot of experience in motivating the rural community to adopt the usage of organic fertilizers. He trained the group for eight days i.e., from 12-01-2021 to 19-01-2021. Sahadevaiah trained the group for eight days i.e., from 20-01-2021 to 26-01-2021. The topics discussed were integrated pest management, Crop rotation, Organic fertilizers, Organic pesticide, Indigenous knowledge systems, water conservation, soil fertility, usage of crop residues and integrated nutrient management

The organization of the programme could have not been possible without the support and financial inputs of the university and the staff of the centre for extension studies. We express our deep appreciation for their generous support and cooperation of Surendra and the rural community for the successful organization of

the programme that resulted in this report. Special thanks are due to Sudhakar Reddy and R. Sahadevaiah, resource persons for their contribution as trainers. Special appreciation is extended to trainees for their interest and attending the course regularly.

TRAINING ON FABRIC PAINTING AND EMBROIDERY FOR WOMEN

(Income Generating Programme)

REPORT

By

Prof. K. Sudharani

Director

Centre for Extension Studies

S.V.U. College of Arts

Sri Venkateswara University

TIRUPATI-517502

2021

Training on Fabric Painting and Embroidery for Women

Increasing women's participation in the productive sector is a major challenge within the rural areas of India. In spite of witnessing considerable growth within the economy in the last two decades, underemployment, low educational levels, a high rate of dropouts and lack of proper vocational training which can provide better employment opportunities, are still prevalent. In particular, women with a low level of training and education, and those who run a family on their own, need to organize themselves in order to increase their productivity and income. According to 2011 Census, nearly 70 per cent of the country's population lives in rural areas. Notwithstanding, various schemes and programmes run by different ministries towards the furtherance of rural woman's rights and the existence of provisions like reservations in local governments and Self Help Group (SHGs); there is still wide gender gap in the sphere of economic and employment. As per Census 2011, the workforce participation rate for females is 25.51% against 53.26% for males (Ministry of Statistics & Programme Implementation, 2017). This manifests the continuance of gender lopsided in labour participation in the country. In order to eradicate this asymmetrical the need of the hour is to address the demand and implementation of skill development and training programme for a highly disposed yet enormously untended segment of the society i.e., rural women.

Dearth of quality trainers, inadequacies in training programmes and high dropout rates remain hurdles to skill development. Most training institutes are located in the nearest small towns, inaccessible to most, especially women, due to the lack of public transport facilities. A significant and, highly welcoming step in addressing

this skill gap is the New Education Policy 2020 which integrates Vocational education into all school and higher education institutions in a phased manner over the next decade. A bulk of workforce (70%) emanates from rural India and if, through effective implementation of the policy, we can get them interested in vocational training and provide them that training through their schooling years, we would have made great strides towards developing a competent and trained manpower. But the women at present in the rural areas are not able to enter in to the educational institutions need Vocational Education and training to improve farm and nonfarm productivity that improves rural incomes. Skill is the bridge between job and workforce. Women often have different training needs than men, since they are more likely to work as contributing family workers, subsistence farmers, home-based micro entrepreneurs, or low-paid seasonal laborers, in addition to handling their domestic work and care responsibilities. Skills development is a key to improving household productivity, employability and income-earning opportunities for women and also for enhancing sustainable rural development and livelihoods. Recognizing this, Centre for extension studies proposed and organizing income generating programmes for women and farmers every year. During the year three programmes were organized. One among them was fabric painting and embroidery.

In the beginning a survey was done in the selected villages and identified the programmes which the target group were interested to learn. T. Surendra, Community Coordinator, DRDA conducted the survey, had interaction with community and finalized the list of trainees from Sivarampuram village for the fabric painting course. The resource person by name K. Prema

kumari was contacted and she has given her acceptance to be the resource person for the programme. Initially 13 women came forward to participate in the training programme and finally 10 women were regularly attended the programme. The duration of the programme was 15 days i.e., from 12 -01-2021 to 26-01-2021. The materials needed for the course such as fabric paints, brushes, trace papers, carbon papers, threads and frames were supplied by the centre. All the trainees were trained on the basic skills of fabric painting and embroidery.

The organization of the programme could have not been possible without the support and financial inputs of the university and the staff of the centre for extension studies. We express our deep appreciation for their generous support and cooperation of T. Surendra and the rural community for the successful organization of the programme that resulted in this report. Special thanks are due to K. Premakumari, resource person for her contribution as trainer. Special appreciation is extended to trainees for their interest, attending the course regularly and learning the skills of fabric painting and embroidery.

National Webinar on

**NATIONAL WEBINAR ON EXTENSION EDUCATION-
ROLE OF LIFE LONG LEARNING CENTERS**

Report

26th February, 2021

Dr. K. Sudha Rani

Webinar Director

**Centre for Extension Studies
Sri Venkateswara University
Tirupati - 517 502**

Centre for Extension Studies was established in the year 1990 in Sri Venkateswara University, Tirupati. Since then involved in organizing extension activities and not offering any academic courses. Along with need based surveys and income generating programmes the centre has been organizing seminars periodically. Due to the spread of Covid-19, national webinar was organized. The prosperity of the country depends on the individuals and it is possible when the individuals become resources by improving their competencies and skills. Education is the means to promote the competencies among individuals. In order to meet the educational needs of growing population, the formal education institutions and non formal education came in to existence. In addition to that UGC in India has recognized extension as third dimension equivalent to teaching and research in its Landmark policy work of 1977. With this policy, extension has emerged as 3rd main function of universities. It is essential that the higher education institutions have the responsibility of extending the knowledge and talents

of various departments to the community. At present the extension activities being taken up now and then by individual departments and not able to keep their attention on these programmes. Though the efforts of other departments/ centre for Life Long Learning has been doing Yeoman service of extension work facing so many hurdles and problems. In view of this, the present webinar on 'Extension education- Role of Life Long Learning Centres' is proposed and the stalwarts working in these centers are invited as speakers to enlighten the participants about the functions & importance of these centres in community development. The director of the webinar is Prof. K. Sudha Rani.

The inauguration of webinar was started at 10 AM with Welcome by Dr. T. Ananda, Post Doctoral Fellow, Dept. of Economics. Prof. K. Sudha Rani explained the purpose of the programme. Dr. V. Jagadeeswari welcomed & introduced the chief guest Prof. L. Raja Sir, Dean of School of Health Sciences and Rural

Development. In his address he stressed the need of extending the services and experiences of different disciplines in the universities to needy people. He said that Village Placement Programme practicing in GRI enabled the students to train the village community on computer skills & English language. MoU and inter change of students with foreign universities enabled the students to know about the culture and life style of the areas they visited. Formation of Farmers Clubs Establishment for children clubs Project of total transformation of village are the other innovation undertaken by the Centre for Life Long Learning, GRI. Dr.R.B.Sathyavathi, Assistant Professor, Department of Adult Education & Extension Education proposed vote of thanks to the chief guest.

Dr. Asha Patil from SNDT Women's University, Mumbai was the next speaker welcomed and introduced by Dr. E.Mahadeva Reddy, Academic Consultant, Department of Adult Education & Extension. Madam has given a detailed account of the activities that the Centre for Life Long Learning, SNDT Women's University, Mumbai is undertaking. She narrated methods and approaches that they are practicing in organizing employment demand courses, job placements quality of life improvement programmes and providing telephone counseling and problem solving. Dr. M. Subramanyam, Academic Consultant, Department of Adult Education & Extension Proposed Vote of Thanks. The next speaker is Prof.J.P. Dubey, welcomed and introduced by Dr. M.C. Obulesu, Academic Consultant, Department of Adult Education & Extension. Prof.J.P.Dubey reviewed the emergence of adult education and

discussed about the status transformation of adult education to lifelong learning. He said that the entry of private sector imbalanced the system and the efforts made by several universities are not intended for supporting the system of life. He also said that services are not found reflecting in the body of research. He suggested planning the programmes considering society's expectations from higher education institutions. Dr.D.Ramana, Academic Consultant, Centre for Women Studies proposed vote of thanks. In valedictory remarks, Prof. K.Sudha Rani said that many departments in different universities are organizing diversified programmes to different target groups. The strategies, approaches and problem solving methods might be different and sharing their experiences will definitely improve the quality of these programmes. In this programme distinguished speakers highlighted the programmes that they are organizing for development of community. The information and knowledge gained in this programme will help the participants to strengthen the extension activities of their departments. She thanked and expressed her gratitude to the distinguished speakers for their acceptance and valuable speech. At the end Dr. P. Raja Rajeswari proposed vote of thanks.

About the College

Sri Venkateswara University is a state university in Tirupati, Andhra Pradesh, India. It was founded in 1954 by the then Chief minister Tanguturi Prakasam Pantulu. The first vice-chancellor of the university was S Govindarajulu Naidu. The university is named after Lord Venkateswara whose shrine is located in the city.

The university campus covers a large area located on the West side of Tirupati, surrounded by the other universities in the city, namely Sri Padmavati Mahila Visvavidyalayam, Sri Venkateswara Veterinary University, Sri Venkateswara Vedic University, Sri Venkateswara Institute of Medical Sciences and Rashtriya Sanskrit Vidyapeetha.

It holds a NAAC rating of "A+" with a score of 3.52 out of 4. It was the 31st university to be built in India, and it is the second oldest university in Andhra Pradesh, after Andhra University.

Invitation from Organizer

We have the honor and great privilege to inform all concerned people including Students, Research Scholars, Scientists, Academicians, Researchers, Microbiologists, Nutritionists, Industry, NGO Representatives from all parts of our country to attend this Webinar Workshop.
