## Content and learning products and services

### Digital content

- Full range of ebooks: flat ePDFs to interactive ePubs
- OERs
- Digital assets (online and/or offline)

- Online assessment
- Learning and revision apps

### Learner Management

### Systems MOOCs

Because many institutes don't allow learners to take tablets home, a blended approach -- print textbooks AND ebooks -- is needed.

## ICT in education

Information and Communication Technology (ICT) can contribute to universal access to education, equity in education, the delivery of quality learning and teaching, teachers' professional development and more efficient education management, governance and administration (UNESCO).

## WHAT IS OBE?

**Utilize OBE curriculum** that outlines specific, measureable outcomes

1

Method of curriculum design and teaching that focuses **on what students can actually do after they are taught.**

2

It is stated clearly **NOT what the lecturer is going to teach**, but what the outcome of that teaching is intended to be and at what standard

3

# OUTCOME -BASED EDUCATION

## Outcome-Based Education (OBE)

- OBE is an educational process that focuses on what students can do or the qualities they should develop after they are taught.
- OBE involves the restructuring of curriculum, assessment and reporting practices in education to reflect the achievement of high order learning and mastery rather than accumulation of course credits.
- Both structures and curricula are designed to achieve those capabilities or qualities.
- Discourages traditional education approaches based on direct instruction of facts and standard methods.
- It requires that the students demonstrate that they have learnt the required skills and content.

t tirumala ramashri is presenting

## Focus and Benefits of OBE

OBE addresses the following key questions.....

- What do we want the students to have or be able to do?
- How can we best help students achieve it?
- How will we know whether (they) students have achieved it?
- How do we close the loop for further improvement (Continuous Quality Improvement (CQI))?

• Benefits of OBE

- More directed & coherent curriculum.
- Graduates will be more “relevant” to industry & other
- Stakeholders (more well rounded graduates).
- Continuous Quality Improvement (CQI) is in place.
