About the International Conference

World Environment Day 2022 is the biggest international day for the environment. Led by the United Nations Environment Programme (UNEP), and held annually since 1974, it has grown to be the largest global platform for environmental outreach. It is celebrated by millions of people across the world. World Environment Day 2022 is hosted by Sweden. "Only One Earth" is the campaign slogan, with the focus on "Living Sustainably in Harmony with

Nature". The main objective of the conference is to enhance the environmental awareness of the students, scholars, and administrators. Thousands of miles of the journey start with the first step. Let's join your hands to protect our planet for sustainable development. Education and Development are two sides of the same coin. Anything can be achieved through education. Environmental Education is the need of the hour. The role of Information and Communication Technology (ICT) has a pivotal role in the process of protecting our environment.
