

SRI VENKATESWARA UNIVERSITY

Accredited By 'NAAC' With 'A+' Grade

2.3.2: Teachers use ICT enabled tools including online resources for effective teaching and learning process

2.3.2.2: All the Departments (Soft Skills)

Course Name : *Advanced Simulation Process*

Course Duration : 16 Hrs.

Course Overview

- **Course Description**
 - Advanced Simulation Processes and Solutions introduces the finite element modelling and analysis tool integrated in NX.
- **Intended Audience**
 - It is intended for design engineers and analysts who want to learn the details of how to do finite element analysis on NX models.
- **Prerequisites**
 - Education: Diploma completed or Degree 2nd year completed in any one of following Streams.
 - Aeronautical, Automobile, Civil, Industrial, Marine, Mechanical, Mechatronics, Metallurgy, Production and Manufacturing Engineering.
 - Software:
 - The Essentials for NX Designers class, or in self-paced training: Essentials – NX Basics and the CAD Foundation courses.
 - Working knowledge of NX Modelling. Basic understanding of finite element analysis principles.
- **Course Objective**
 - Objective of this course is to covers the details of the FEA processes from preparing a model, meshing, applying boundary conditions, solving, and post-processing the results, and covers applications of various analysis types, contact analysis, durability, and optimization.
- **Course Contents**
 - Analysing a model
 - Introduction to Advanced Simulation
 - Working with Advanced Simulation
 - Selecting entities
 - Basic meshing techniques
 - Boundary conditions
 - Boundary condition techniques
 - Using fields in boundary conditions
 - Solving
 - Post-processing
 - Reports

- Preparing the geometry
 - Geometry idealization
 - Geometry abstraction
 - Synchronous modeling
 - Geometry repair
 - Mesh collectors
 - Material and physical properties
 - Element size and mesh density
 - Beam modelling
 - Connecting meshes
 - Bolt modelling and pre-loads
 - 3D swept meshing
 - Manual meshing
 - Mesh quality

Course Name : Basics of PLC

Course Duration : 10 Hrs.

Course Overview

○ **Prerequisites :**

Education: Diploma Completed or B.E/B.Tech 3rd year completed in any one of following Streams.

Electrical, Electronics, Instrumentation, Mechanical, Mechatronics Engineering.

Software: There are no prerequisites for this class.

○ **Course Objective :** On completion of this course the participant will be able to:

- Identify the components and performance characteristics of the SIMATIC S7-1200 PLC
- Install a PLC system, including the HMI and communication cabling
- Use the various address types to edit, reload, structure and run a program
- Document, test, and basically troubleshoot the control system and its program
- Understand and create binary operations, timers, counters etc.
- Interface an HMI with the PLC control system

○ **Course Content :**

- Siemens low-voltage control gear and switchgear - overview of products
- Overview and significant performance characteristics of the SIMATIC S7-1200 system family
- The components of the TIA Portal: SIMATIC STEP 7 Basic and WinCC Basic
- Program execution in automation systems
- Binary and digital operations in Ladder language
- Setup and assembly of the SIMATIC S7-1200 automation system
- Addressing and wiring the signal modules
- Hardware and software commissioning of the SIMATIC S7-1200 with the TIA Portal
- SIMATIC S7-1200 hardware configuration and parameterization
- Introduction to the Touch panel (HMI)
- Saving and documentation of the implemented program changes with the TIA Portal
- Deeper understanding of contents through practical exercises on TIA system model

Course Name : **Essentials for NX Designers**

Course Duration : 12 Hrs.

Course overview

- **Intended audience**
 - This course is suited for designers, engineers, manufacturing engineers, application programmers, NC programmers, CAD/CAM managers, and system managers who need to manage and use NX.
- **Prerequisites**
 - **Education**: Diploma completed or Degree 2nd year completed in any one of following Streams.
 - Aeronautical, Automobile, Civil, Industrial, Marine, Mechanical, Mechatronics, Metallurgy, Production and Manufacturing Engineering.
 - **Software**: **None**
- **Course objectives**
 - After successfully completing this course, you should be able to:
 - Open and examine NX models.
 - Create and edit parametric solid models.
 - Create and modify basic assembly structures.
 - Create and modify simple drawings.
- **Course Contents**
 - Opening and Working with Parts
 - Getting to know the NX Interface
 - Impact of Coordinate Systems on Parts
 - Creating Parts with Sketches
 - Sweeping geometry to create part features
 - Creating and editing geometric relationships with formulas
 - Creating datum geometry to support design intent
 - Examining the structure of a model
 - Editing and manipulating sketches
 - Trimming a solid body
 - Creating swept features with offset and draft
 - Creating and editing holes
 - Creating and manipulating shell features
 - Copying and mirroring part segments
 - Blending and chamfering edges
 - Modifying geometry of imported parts
 - Loading and working with assemblies
 - Adding and positioning parts in an assembly
 - Creating simple drawings

Course Name : Basics of Induction Motors

Course Duration : 6 Hrs.

Course Overview

○ **Prerequisites :**

Education: Diploma Completed or B.E/B.Tech 2nd year completed in Electrical /
Electronics / Instrumentation Engineering.

Software: There is no prerequisites for this class.

○ **Course Objective :** On completion of this course the participant will be able :

- To understand the nameplate details of Induction Motors.
- To do the Installation, Maintenance & Control of Induction motor.
- To do the Assembling and Dismantling of Induction Motor.
- To do the Testing of Induction Motor.
- To do the Overhauling of Induction Motor
- To Configure SIMOCODE

○ **Course Content :**

- Construction: Description of various parts & their significance in motor operation.
- Operation, working principle & basic equations.
- Speed Torque Characteristics, Effects of supply variations over the motor performance.
- Transformer equivalent circuit of induction motor
- Efficiency of induction motor, various losses in the induction motor.
- Types of insulating materials used & their temperature ranges,
- Product spectrum of Siemens motor.
- Comparison of normal and energy efficient motor.
- Various reasons of high starting current of an induction motor & their effects on supply system.
- Starters- DOL & Star-Delta etc.
- Soft starter – brief overview.

- VFD – brief overview
- Installation, Commissioning and Maintenance guidelines of Induction motor.
- General faults in the induction motor and their countermeasures.
- Motor dismantling & assembling.
- Advanced control of induction motor-SIMOCODE overview.
 - Variant, Range and features
 - Power and control Connections
 - Parameterization and configuration of SIMOCODE PRO
 - Concept of integrating SIMOCODE PRO with automation system.
 - Motor Protection, Communication and Control using SIMOCODE PRO
 - SIMOCODE PRO Add-On Components
 - Additional functions using SIMOCODE PRO

Course Name : *MILLING-Numerical Control Programming*

Course Duration : 12 Hrs.

Course Overview

- **Course Description**
 - This course teaches the use of the CNC Milling Control Programming using Sinumerik Controllers.
- **Intended audience**
 - This course is intended for Manufacturing Engineers, Process planners.
- **Prerequisites**
 - Education: Diploma 3 year Students or Degree 2nd year completed in any one of following Streams.
 - Aeronautical, Automobile, Industrial, Marine, Mechanical, Mechatronics, Metallurgy, Production and Manufacturing Engineering.
 - *Software: None*

Course Objectives

- **Elements of CNC machine**
- Introduction To CNC Programming
- Introduction to SIEMENS 808D controller.
- Cutting Tools and Parameter selection Milling
- Milling Work holding & Tool Holding Devices
- Basics Milling Programming
- Programming using Siemens standard cycles for Milling
- Hands on practical – All standard Cycles of 808D Milling

Course Contents

- Up milling
- Down Milling
- Cutting Tools in Milling
- Facing Operation
- Chamfer & Radius Operations
- Contour Cycle
- Facing Cycle
- Drilling Cycle
- Reaming Cycle
- Boring Cycle
- Rectangular Pocket Milling

- Circular Pocket Milling
- Spigot Milling Cycle
- Groove Milling Cycle
- Threading Cycle
- High Speed Milling
- Step by Step Programming Procedure & Safety

Course Name: *Robcad Advanced Modeling and Kinematics*

Course Duration: 8 Hrs

Course overview

- **Intended audience**
 - Robcad Advance Modelling and Kinematics is designed, to cover all the Advanced Modelling methods in Robcad.
- **Prerequisites**
 - We recommend a basic knowledge in Tecnomatix Robcad.

Course objectives

By the end of this course, you will learn about:

- The Robcad modelling tools, Smart search, set editor, gun search, and gun define tools
- The Slider and four bar linkages, Mechanism Coupling
- The Kinematic Looping
- How to define and create simple and complex kinematics functions with various types of joints
- How to model Robot and Attribute Based Searching of components
- How to define the training and CAM joint

Course Contents

- Advanced Modeling and Kinematics Overview
- Advanced Modeling
- Automatic Kinematic Creation
- Kinematic Functions and More
- Attribute Based Component Searching
- Modeling a Robot

Course Name : **Robcad Basics**

Course Duration : 6Hrs.

Course overview

○ **Intended audience**

This course is intended for designers, engineers, application programmers Individuals who wish to become knowledgeable on the creation of basic robotic simulations

○ **Prerequisites**

We recommend a basic knowledge in Essentials for NX Designers.

○ **Course objectives**

In this course, you will learn to create Robotic Process Verification Simulations and Workcell, Basic Simulation Techniques etc.

○ **Course Contents**

- Introduction to Robcad
- Workcell Layout
- Modeling and Kinematics
- Processing

Basic Simulation Techniques

Course Name : *TURNING-Numerical Control Programming*

Course Duration : 12 Hrs.

Course Overview:

- **Course Description**
 - This course teaches the use of the CNC Turning Numerical control programming on Siemens 808D controller
- **Intended Audience**
 - This course is designed for manufacturing engineers, process planners
- **Prerequisites**
 - Education: Diploma 3 year Students or Degree 2nd year completed in any one of following Streams.
 - Aeronautical, Automobile, Industrial, Marine, Mechanical, Mechatronics, Metallurgy, Production and Manufacturing Engineering.
 - Software: None

Course Objective

- After successfully completing this course, you should be able to perform the following activities on CNC Turning Machine:
 - **Introduction to Manufacturing, History & Processes**
 - Introduction to Conventional Lathe
 - Introduction to MCMT/CNC
 - Mechanical Elements of CNC machine
 - Introduction to CNC Programming
 - Introduction to SIEMENS 808D controller.
 - Geometric Dimensioning & Tolerancing
 - Cutting Tools and Parameter Selection Turning
 - Programming using Siemens standard cycles for Turning
 - Hands on practical – All standard Cycles of 808D Turning

Course Contents:

- History of Manufacturing
- Basics Manufacturing Processes
- History of Lathe
- Types of Lathe
- Elements of Lathe
- Types of Lathe Operations
- History of CNC
- Types of CNC Machines
- Mechanical Elements of CNC M/C
- Electrical Elements of CNC M/C
- Different Machine Modes
- Introduction to Turning Controller
- Introduction to Milling Controller
- ISO Machine Tool Axis
- Right Hand Thumb Rule
- Lathe & Milling Coordinate Systems
- Absolute and Incremental Programming
- Introduction To G-Codes
- Introduction To M-Codes
- Other Codes
- Facing Operation
- Turning Operation
- Radius Turning
- Chamfer Operation
- Taper Operation
- Stock Removal Cycle
- Contour Cycle
- Drilling Cycle
- Grooving Cycle
- Undercut Cycle
- Cut-Off Cycle
- Threading Cycle

Course Name : Using Teamcenter

Course Duration : 10 Hrs.

Course overview :-

○ **Intended audience**

- This course is suited for Managers, designers, engineers, manufacturing engineers, application programmers, NC programmers, CAD/CAM managers, and system managers who need to manage and use NX.

○ **Prerequisites**

- Education: Degree completed in any one of following Streams.
 - Aeronautical, Automobile, Civil, Industrial, Marine, Mechanical, Mechatronics, Metallurgy, Production and Manufacturing Engineering, Electrical, Electronics & Communication, Electronics & Instrumentation, Petroleum Engineering, MBA (Any Specialization), M.Tech (Any Specialization), .
- Software: There are no prerequisites for this class.

○ **Course objectives**

- After successfully completing this course, you should be able to:
 - To learn the basic concepts of product lifecycle management.
- To use Teamcenter to perform basic user tasks.
- To create and work with Teamcenter items and item revisions.
- To organize, manage, and secure product data.
- To use various navigation methods to locate, view, and report on product data.
- To use the Structure Manager application to view, build, and edit product structure.
- To navigate the classification hierarchy and use standard product data in product structures.
- To use the embedded viewer to locate and view visualization data.
- To use Workflow Viewer to assign tasks, perform tasks, and track the completion of tasks in a workflow process.
- To use Change Manager to create change objects and track a change object through the change process to completion.
- To use the thin client to manage and navigate to various Teamcenter objects and functions.

○ **Course Contents**

- Introduction to Teamcenter
- Working in My Teamcenter
- Working with items in Teamcenter
- Viewing and modifying object properties
- Creating and managing datasets
- Applying data security practices
- Performing and managing searches
- Working in projects
- Opening and viewing product structures
- Controlling assembly configuration views
- Creating and managing product structures
- Working with product structures
- Configuring a product structure with variants
- Navigating the relation hierarchy of an object
- Classifying and using standard data
- Viewing and working with visualization files
- Initiating a workflow
- Managing workflow task assignments
- Managing Teamcenter data through the Microsoft Office integration
- Using Change Manager
- Creating and managing change objects
- Elaborating and executing the change
- Working in the Teamcenter thin client

Academic meetings were held between the faculty of mentor and mentee institutes during their visits:

Mentee institute faculty visited to mentor institute Mechanical Engineering department on 28.02.2019

VISIT BY Dr. A.K. Jain, Mr. Animesh Sharma, Mr. Yogender Kumar, , dated: 28.02.2019 to 01.03.2019

2 day workshop on “Hands-on Experience on Internet of Things” dated: 01.03.2019 along with Brochure.

3 day workshop on “Data acquisition using lab view” dated: 28.02.2019

Siemens centre of excellence established by Siemens industry through A.P. State Government

GOAL SETTING MUST FOR ACHIEVING SUCCESS IN CAREER, STUDENTS TOLD

CISCO CEO advises pupils to work with dedication and commitment to scale new heights in life

'Have a clear vision to achieve success'
 CISCO CEO Padmasree Warrior has said that every student should have a goal and vision to succeed in their career. She was addressing a seminar on Career Tips for Engineering, organised by the Skill Development Corporation in association with SVU Engineering College at the SVU Senate Hall here on Tuesday.

Citing the example of telecommunications development, Padmasree Warrior said that in olden days, one had to book a trunk call to speak, but today communication is done in a fraction of a second. "Digital technology is playing a key role in every field and added that a mechanical engineer should not restrict himself to his field of study, but understand other engineering branches too. She advised the students to focus on project-based engineering, program-based engineering and acquiring leadership skills. Mohandas Warrior spoke on how to build technology companies. "The failure

will make you think and would enable you to emerge stronger," he said. He stated that there is no need to worry about failure, as it is the stepping stone to success.

Dr. Lakshminarayana said that he was part of World Bank project in SV College of Engineering. He recalled that the Warrior couple promised to deliver a lecture on next

gen education at the university two-and-a-half years ago. He thanked them for accepting the invitation to deliver the lecture.

He stated that the young minds have bright future. "We want to invite more distinguished personalities for the benefit of engineering, science and arts graduates," he said. He said that Chief Min-

ister N Chandrababu Naidu appreciated the initiatives taken by Skill Development Corporation.

SVU Rector G. Janaki Ramiah said that the country had achieved commendable progress due to technological innovations. He said that the tradition of teaching and learning has great significance in the Indian society.

➤ 3 faculty members from mentee Institute IGEC, Sagar attended guest lecture by the Industry experts namely (1). "Carrier Tips for Engineering's' by Smt.Padmasree Warrior, Former CEO CISCO, NIO (US) and (2). "How to Build Technology Companies That Last" by Mr. Mohandas Warrior, Former CEO Alfalight Inc. (US) on 26.02.2019.

Life Skills

Yoga and Meditation

Yoga is becoming incredibly popular because of its ability to impact people directly. With increasing study in this field, it is being adopted not only by housewives but also by various industries like sport, fashion, MNC's in a big way. It also brings together physical and mental disciplines to achieve a peaceful body and mind; it helps manage stress and anxiety and keeps you relaxing. It also helps in increasing flexibility, muscle strength and body tone. It improves respiration, energy and vitality.

Meditation Improves Students' Behaviour

- Improved memory and concentration.
- Increased confidence and self-esteem.
- Improved sense of self-worth.
- A more positive body image.
- Greater creativity.
- Feelings of calmness and inner peace.
- Higher grades and test scores.
- Improved behavioural profile.

REPORT ON TWINING ACTIVITIES DURING THE VISIT OF
FACULTY FROM THE SRI VENKATESWARA UNIVERSITY
COLLEGE OF ENGINEERING, TIRUPATI (TEQIP - 1.3) TO
INDIRA GANDHI ENGINEERING COLLEGE, SAGAR (M.P)
(TEQIP - 1.1)

G. TWINING ACTIVITY		Action taken
1.	Signing of long term and short term planning by both principals	Already completed
2.	Courses conducted for students of I.I institute	<ol style="list-style-type: none">1. Prof. G.V. Marutheswar, taught Electrical machines and drives.2. Prof. G. Umamaheswara Reddy taught Microprocessor and Micro controllers (8086, Peripheral devices and 8051 micro controller)3. Prof. V. Diwakar Reddy taught, workshop on Fundamentals of Design, Manufacturing process (Rolling) & Metrology and inspection (Gear Measurements)4. Prof. B. Madhusudana Reddy taught Engineering Mechanics, Bending moments, shear force and other related structural engineering aspects.5. Dr. D. Vivekananda Reddy taught Software Engineering, Networking and DBMS.6. Prof. G. N. Pradeep Kumar discussed various student related activities with respect to placement and career planning.
3.	Students exchange for courses / lab work / project / GATE training etc.,	It is agreed to have exchange of students between the two institutes for imparting training for project work, lab work, GATE related aspects during Jan.2019.
4.	Training supporting staff / faculty for academic development	It is agreed to provide training to supporting staff and faculty in their respective branches during Jan. – May 2019.
5.	Academic meeting for sharing of Research and Technological and advancements with students	Mentee institute agreed to depute students from different branches to undergo various training programs including Siemens CoE and other CoEs and Labs at the mentor institute, based on the academic schedule.
6.	Academic meeting for sharing of research and technological advancements with faculty	It is agreed to share research and technological advancement through frequent interactions in the form of joint publications, research activities. Dr. Manish, Asst. Professor, Geology had a technical interaction over Phone with Dr. Sai Prasad, Dept. of Geology, S.V. University, regarding Joint research activities, submit research proposals and publications. It is proposed to establish in collaboration with SVU an Innovation / Incubation Cell.

VISIT REPORT

Name of the College : **INDIRA GANDHI ENGINEERING COLLEGE, SAGAR, MP**

Program visited under TEQIP – III Mentoring / Twinning System

The college visits on 13th & 14th Nov. 2018 in the premises of INDIRA GANDHI ENGINEERING COLLEGE, SAGAR, MP. On the first day all faculty meeting was held with the visiting team, in the morning session followed by a presentation as per schedule give below.

Date and Time	Name of the topic covered	Venue	Number of students attended*
13-11-2018 12:30 to 01:30 pm	Presentation on Siemens Center of Excellence (CoE) (SVUCE)	Language Lab, Department of Mech. Engg.	36 students of B.Tech 3 rd & 4 th Year
13-11-2018 03:00 to 4:30 pm	Presentation on Fundamentals of Design	Language Lab, Department of Mech. Engg.	31 students of B.Tech 3 rd & 4 th Year
14-11-2018 10:00AM to 12:30Pm	Presentation on Manufacturing Processes – Rolling	Third Year Class room	35 students of 3 rd Year B.Tech
14-11-2018 01:30 to 02:00Pm	Presentation on Short Documentary video on Sri Venkateswara University, Tirupati	Language Lab, Department of Mech. Engg.	All branches.

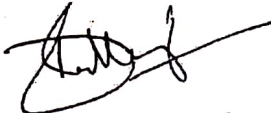

*Attendance Sheet attached.

It is brought into the limelight that the training programs giving in Siemens Center of Excellence at Sri Venkateswara University College of Engineering, Tirupati. Students were paid attention and were asked the full details of the training program. A copy of the list of training programs given in CoE is submitted to the Department Head of IREC, Sagar.

Later, a topic on Fundamentals of Design is delivered, covering need and need analysis in Design, standards of specifications, how to define objectives?, How to perform synthesis in design etc. Worked out examples is exercised with students following by interaction.

On the next day, Rolling in manufacturing processes is delivered as per the request by the students and student's doubts were clarified. After the secession a documentary video on Sri Venkateswara University, Tirupati is presented to all the departments. In the final secession, a meeting was held with all faculty members of IGEC, Sagar to discuss the plan of action for future programs.

Finally, I am thankful to the Principal, Teqip Co-ordinator, SVUCE for giving this opportunity to interact with the other University students under TEQIP – III, Mentoring and Twinning program.

Report on TEQIP –III Twinning Program by Mentoring Institute

Visit to Indira Gandhi Engineering College, Sagar, Madhya Pradesh

on 13th 14th November, 2018

Ref: Proceedings of the Principal, No. SVUCE/TEQIP -III / Twinning .2018, dated:08-11-2018.

It is submitted that I have visited Indira Gandhi Engineering College (IGEC), Sagar, Madhya Pradesh from 13th November, 2018 to 14th November, 2018 along with our team headed by our beloved Principal Prof. G.N. Pradeep Kumar garu. On 13th November, 2018, Forenoon session, after exchanging pleasantries, our team was interacted with faculty members of IGEC and enlighten the importance of TEQIP to the Technical Institutes, in turn faculty and students of IGEC will benefit to get accreditation of NBA, NAAC, NIRF ranking for IGEC B.Tech Programmes. It went on for a period of one hour from 10.30 A.M.

At 11.30 A.M., I have visited the Department of ECE, IGEC, and interacted with Head and faculty members. I have explained them about blended learning. I told them about MOOCs in Swayam portal, how to register courses in swayam.gov.in, MOOCs and Spoken Tutorials offered by IIT Bombay, Mumbai. I also explained about the MOODLE - Education Learning Environment System for a period of 2 hours.

I taught ECE students from 3.00 PM to 04.30 PM about NPTEL Lectures, e-learning, MOOCs in Swayam portal, how to register courses in swayam.gov.in, MOOCs and Spoken Tutorials offered by IIT Bombay, Mumbai.

On 13th November, 2018, Forenoon session, I taught ECE students from 10.30 AM to 01.00 PM about the Microprocessors and Applications course.

INDIVIDUAL REPORT

From:
Dr. B. Madhusudana Reddy
Assistant Professor
Dept. of Civil Engineering
S.V.U. College of Engineering
Tirupati - 517502.

To
The Coordinator
TEQIP-III
S.V.U. College of Engineering
Tirupati - 517502.

Sir,

Sub:- Individual Report - Visit to Indira Gandhi Engineering College, SAGAR, MP
as part of Twinning Program of SVUCE - Regarding.

As a part of SVUCE team's visit to the above college under TEQIP-III/Tinning Program on 13th & 14th Nov. 2018, I was associated with the other five faculty of the college including Prof. GN. Pradeep Kumar, Principal, SVUCE.

On the first day of the visit, on 13th Nov, our team interacted all faculty at the college level. Later, I have visited the Civil Engineering Dept. of the college and interacted with the 3rd year students whose class was running during that time. I have touched the general aspects of Structural Engineering. I told them that I can handle a class of their desired topic in the area of structural Engineering subjects. They asked me to take up "Rolling Loads and Influence Lines" topic.

Again, on the after-noon I met the entire Civil Engineering students available in the department and discussed the future prospects of the Civil Engineers and what are the areas where in Civil Engineering graduates can fit. I have enquired the students about their ambitions, many told that they are interested in the Govt. Sector; few are interested for higher education and self sustaining practices.

I regret to put that punctuality among the students is lagging in attending the classes in time. Also, there is no proper maintenance of Verandahs, Class rooms and Wash rooms etc.,

On the second day forenoon I have taken a '2' hours class on the topic of "Rolling Loads and Influence Lines" for 3rd year B.Tech students. It is observed that students were smart and they are easily grasping the content taught. I have seen their syllabus of this subject, it is well designed. On the afternoon of the second day I met the faculty of the Civil Engineering in the HOD office. There are only three permanent faculty available for the department and the rest are on contract basis. Among the three permanent faculty, one is of Geology professional. HOD belongs to Geo-tech area and another senior faculty belongs to Structural Engineering area. It is learnt that the department is running good consultancy under the stewardship of permanent faculty.

Dr. B. MADHUSUDANA REDDY, Ph.D, MIE
Assistant Professor

28.02.2019

Report on visit to Department of Mechanical Engineering and
SIEMEN'S CoE

Visited the laboratories of Mechanical Engineering and Andhra Pradesh Skill Development Centre in Semen's CoE of Sri Venkateswara University College of Engineering, Tirupati on 28.02.2019 by the following faculty members of IGEC, Sagar, M.P.

1. Mr. Animesh Sharma
2. Mr. Yogender Kumar

During the visit they were exposed to the laboratories and preliminary training is given in 3D Printing, NXCad, advanced manufacturing laboratory. The visit is concluded by identifying the wide research areas of the departments of Mechanical Engineering. The area of research is identified by both the faculty members of Mentor & Mentee Institute are.

1. Advanced Manufacturing Technology.
2. Advanced Welding Technology.
3. Design Optimization.
4. Thermal Engineering.
5. PLC Training from semen's CoE.

Both the Mentor and Mentee Institute has agreed to undergo joint Research & Publications in the above cited area of research.

Mr. Animesh Sharma, IGEC, Sagar and Mr. Yogender Kumar, IGEC, Sagar and Prof. V. Diwakar Reddy, SVUCE, Tirupati have agreed for conducting joint research & publication of research in the areas of Advanced Design optimization and Thermal Engineering.
