

S.V.U. COLLEGE OF SCIENCES

M.Sc. PSYCHOLOGY

*SYLLABUS & REGULATIONS
WITH EFFECT FROM 2018-2019*

**SRI VENKATESWARA UNIVERSITY
TIRUPATI**

SYLLABUS

Choice Based Credit System (CBCS)

M.Sc. Psychology programme CBCS pattern (with effect from 2018-2019)

VISION:

To develop skillful and qualified psychologists by providing theoretical and experimental learning in all applied areas of Psychology to disseminate the knowledge to the community for a healthy society.

MISSION:

- To help the students' masters and keep abreast the knowledge in all fields of psychology.
- To equip the students with different techniques to apply in the field essentially and develop their career accordingly
- To support research and areas of research necessary for the advancement of knowledge in all discipline
- To analyze their strength and promote self-esteem confidence and well-being through education and support services.

Programme Objectives

- Students will gain necessary knowledge and develop specialized skills in the different areas of psychology.
- Students will think, predict, evaluate critically and analyse the human behaviour with the help of psychological applications to cater the needs of Local al and global problems.
- Students will be able to implement the scientific skills for development of educational, vocational , adolescent , family , different organisations etc.,

Programme Outcomes and Course Outcomes

Programme Outcomes

Upon completion of the M.Sc. Psychology programme, the candidate should be able to:

No.	Programme Outcomes
PO1	Scientific knowledge: To apply the knowledge of Psychology, management , education sociology social work and linguistics.
PO2	Problem analysis: To identify, formulate, review literature, and analyze scientific problems in reaching conclusions using first principles of behavioral sciences and related other sciences
PO3	Investigation: To apply the knowledge based on research and related methods, including design of experiments, data collection, analysis and interpretation to provide valid conclusions
PO4	Design & Development: To plan, design and develop experiments to measure the experimental/survey/ observation data taking the safety and environmental

	considerations
PO5	Modern tool usage: To select standardized/ updated psychological testing material for investigating the identified problem with an understanding of its limitations.
PO6	Psychologist & Society: To assess and solve the problems related to societal, health and safety issues using the professional skills learned.
PO7	Environment and sustainability: To demonstrate the knowledge acquired for understanding the environmental issues and evolve methods for sustainable development.
PO8	Ethics: To understand ethical principles, professional ethics and responsibilities, and apply to solve Psychological/societal problems.
PO9	Individual & Team work: To function effectively as an individual / member of a team / team leader to solving different issues,
PO10	Communication: To effectively communicate on various issues particularly with psychosocial problems /community problems with in society, writing of reports and design of presentations.
PO11	Project Management and Finance: Acquire basic and advanced skills in various fields of psychology for self-employment and entrepreneurship
PO12	Lifelong learning: To recognize the importance of learning process throughout the life in view of psychological changes that occur from time-to-time.

SRI VENKATESWARA UNIVERSITY :: TIRUPATI

SVU COLLEGE OF SCIENCES CHOICE BASED CREDIT SYSTEM (CBCS) Scheme of Instruction and Examination

(For Regular students those who study in S.V.U. College (Campus), Tirupati and Affiliated P.G College Centers

(from the batch of students admitted during the academic year 2018-2019)

M.Sc. (Psychology) Degree Course

FIRST SEMESTER

**First and Second Semester are Common for M.Sc. Psychology and
M.Sc. Counseling Psychology**

FIRST SEMESTER

Course Code	Title of the Course	Core / Foundation / Elective	Hours of Teaching	No. of Credits	Marks		Total
			Theory Practical		IA	SEE	
PSY 101	General Psychology-I	Compulsory Foundation	06	04	20	80	100
PSY 102	Social Psychology	Core	06	04	20	80	100
PSY 103	Psychopathology-I	Core	06	04	20	80	100
PSY 104	Psychological Measurements-I	Core	06	04	20	80	100
PSY 105	Practical -I & II	Core	08	04	-	-	100
PSY 106	Human values and Professional Ethics – I	Elective Foundation	04	04	-	-	100
Total			36	24	-	-	600

SECOND SEMESTER							
PSY 201	General Psychology-II	Compulsory Foundation	06	04	20	80	100
PSY 202	Applied Social Psychology	Core	06	04	20	80	100
PSY 203	Psychopathology-II	Core	06	04	20	80	100
PSY 204	a. Psychological Measurements & Statistics b. Research Methodology c. Computer Applications in Psychological Research	Core	06	04	20	80	100
PSY 205	Practical - I & II	Core	08	04			100
PSY 206	Human values and Professional Ethics-II	Elective Foundation	04	04			100
Total			36	24			600
THIRD SEMESTER							
PSY 301	Lifespan Developmental Psychology - Infancy to Adolescence	Compulsory Foundation	06	04	20	80	100
PSY 302	Personality	Core	06	04	20	80	100
PSY 303	Counseling Psychology-I	Core	06	04	20	80	100
PSY 304	a. School Psychology b. Organizational Behaviour and HRM c. Health Psychology d. Psychology of Disability	Generic Elective	06	04	20	80	100
PSY 305	Practical - I & II	Core	08	04			100
PSY 306	a. Personality Development b. Inter Personal Communication Skills	Elective Foundation	04	04			100
Total			36	24			600

FOURTH SEMESTER							
PSY 401	Lifespan Developmental Psychology – Adulthood and Later Maturity	Compulsory Foundations	06	04	20	80	100
PSY 402	Theories of Personality	Core	06	04	20	80	100
PSY 403	Counseling Psychology - II	Core	06	04	20	80	100
PSY 404	a. Psychology of Aging – Applied Aspects b. Consumer Behaviour and Marketing c. Rehabilitation Psychology	Generic Elective	06	04	20	80	100
PSY 405	Practical I & II	Core	08	04	20		100
PSY 406	a. Behaviour Change b. Life Skills	Elective Foundation	04 -	04	20		100
Total			36	24			600

SEMESTER – I

Course Code	Course Title	No of Hours Per week	No of Credits
Psy-101	GENERAL PSYCHOLOGY-I	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	
(Common for both M.Sc. Psychology and M.Sc. Counseling Psychology)			

Objectives:

- a. To understand the concepts and scope of psychology
- b. To comprehend the biological basis of behavior
- c. To study the perception and sensation
- d. To understand the concepts and learning theories

Unit – I: Psychology as Science

- a. Definition, Nature, Scope and Aims of Psychology
Basic and Applied Fields of Psychology.
- b. Historical Origins -The rise of Experimental Psychology. The Emergence, development and decline of the Schools of Psychology

Methods of Study – Observation method, Experimental method, Survey and case study method.

Unit – II: Biological Basis of Behaviour

- a. Genetic perspective – Chromosomes, DNA, Genes Dominant – Recessive Genes Principle

The Evolutionary Perspective – Natural Selection

The Environmental perspective – Principle of learning - Nature and Nurture controversy.

- b. Nervous System: Basic unit and divisions of Nervous system – Localization of brain functions.

Endocrine System: Pituitary, Adrenaline, Thyroid, Parathyroid, Gonads and Pancreas.

Receptors, Connectors, Effects and Adjuster mechanisms.

Sensory process – Senses and sensory organs, general characteristics of Senses and Sensory thresholds, Subliminal Perception, Signal Detection Theory.

Unit – III: Perceptual Process

- a. Relationship between sensation and perception, Approaches to perception – Gestalt, information Processing approach, the Cognitive approach, Integrative approach.

b.

Attention as perceptual sampling process, Phenomena of Attention.

Types and Factors influencing Attention.

Principles of perceptual organization and Figure and Ground Relationship.

- c. Perceptual experiences – Visual space perception, Perceptual constancies; Perceptual movement. Errors in perception, Perceptual Defence and Vigilance,

Factors influencing perception – Learning, motivation, values and socio economic status, culture and perception.

Unit – IV: Learning:

- a. Nature and definition of Learning

Experimental approaches to learning – Connectionist and Cognitive

- b. Brief discussion of learning theories, Pavlov, Thorndike, Skinner, Hull, Tolman and Miller.

Measurement in learning and learning curves

Transfer of training of education and transfer, experimental analysis of transfer of training, stimulus and response similarly.

Motor and verbal learning - Motor skills, distribution of practice, warm up, patterns of movement & knowledge of results.

Verbal learning – process in verbal learning.

Organization, practice, individual differences.

Experimental analysis of behaviour – behaviour modification, shaping, discrimination learning, Neurophysiology of learning.

Course Code	Course Title	No of Hours Per week	No of Credits
Psy-102	SOCIAL PSYCHOLOGY	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	
(Common for both M.Sc. Psychology and M.Sc. Counseling Psychology)			

Objectives:

- a. To understand the concepts of social psychology
- b. To comprehend the social perception and cognition.
- c. To study the socialization
- d. To understand the meaning and theories of attitudes

Unit – I: Introduction

- a. Definition, understanding social behaviour
Historical origins; relationship with other social sciences
- b. Research methods in social psychology: Field, Observation, Experimental, Survey.

Unit – II: Social Perception and Social Cognition

- a. Person perception and object perception; Bem's theory of self perception. Social perception; communication; social interaction.
- b. The process of attribution; Kelley's theory of causal attribution: Major sources of bias; practical applications of attribution theory.

Social Cognition – Major cognitive strategies: affect and cognition, self awareness, applications of self awareness.

Unit – III: Socialization

- a. Definition and goals of socialization, socialization process; the context of socialization
- b. Social motives: Sex role identity, agencies of socialization, the development of self concept, self evaluation.

Theories of Moral development (Piaget & Kohlberg).

Unit – IV: Attitudes

- a. Formation of attitudes, Components of attitudes, functions of attitudes, the link between attitudes and behaviour.
- b. Attitude scales: Likert, Thurstone, Bogardas scales; Measurement: Self report and other techniques.

Theories of Attitude formation and change: Balance theory, congruity theory, cognitive dissonance theory.

Course Code	Course Title	No of Hours Per week	No of Credits
Psy-103a	<u>PSYCHOPATHOLOGY-I</u>	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	
(Common for both M.Sc. Psychology and M.Sc. Counseling Psychology)			

Objectives:

- a. To understand the meaning abnormal behavior and historical and current trends
- b. To comprehend the models of abnormal behaviour and approaches to therapies
- c. To know the classification and assessment of abnormal behaviour
- d. To evaluated different approaches to therapies for abnormal behaviour

Unit – I: Abnormal Psychology

- a. Meaning and Definitions of Psychological abnormality. Criteria of normality and abnormality.
- b. Historical - How abnormality viewed and treated in the past: Current trends.

Unit – II: Models of Abnormality

- a. Biological model; Psychodynamic model
- b. Behaviouristic model; Cognitive model
Humanistic – Existential and Socio-cultural model

Unit – III: Classification and Assessment

- a. Clinical Assessment and Diagnosis
Classification of Psychological Disorders – DSM V; ICD.10.
- b. Causes of abnormal behaviour; Biological, Psych-social and Socio Cultural factors.

Unit – IV: Approaches to Therapies

- a. Biological therapy: Chemo therapy, Electro therapy, Brain –wave therapy
- b. Psychosocial Approaches to therapy; Psychoanalytic therapy, Behaviour therapy, Humanistic – Existential therapies, Interpersonal therapy, Transactional Analysis and Group Therapy, Socio-cultural approaches to therapy; Current issues and trends in Treatment.

Psy-104	<u>PSYCHOLOGICAL MEASUREMENT-I</u>	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	
(Common for both M.Sc. Psychology and M.Sc. Counseling Psychology)			

Objectives:

- a. To understand the assessment and psychological measurements
- b. To comprehend the development of psychological tests and principles of test construction.
- c. To know the Principles of Test Construction
- d. To understand the test Development and test Standardization Procedures

Unit – I: Psychological Measurement

- a. Introduction – Psychological Assessment and Psychometrics - Nature.
Psychophysical Measurements – Psychophysical Theory-Psychophysics and Sensory limens, Psychophysical laws.
- b. Modern Psychophysics – Psychological Scaling methods – Rating scales – Attitude Scales

Unit –II: Developments in Psychological Measurement

- a. Early History of Psychological Measurement – Psychophysics – Mental Testing – Contributions of Galton and Binet; Interest in the mentally deficiency; Later Developments; Contemporary Status of Psychological Measurement.
- b. The Psychological Test: Definition, Types – Factors influencing test performance – Test administrative procedures – Testing conditions – rapport, examiner effects, situational variables – test anxiety.
Ethical and Professional Concerns in Testing – Control in the use of Psychological tests; Sources of Psychological tests.

Unit – III: Principles of Test Construction

- a. Test Formulation – Content selection - Item writing – Item analysis – Objectives and use of Item analysis; Item Difficulty; Item validity, Item discrimination – Item reliability – Internal consistency.
- b. Reliability – basic concepts, methods of test reliability – reliability of speed & power tests – Special problems in reliability.
Validity – basic concepts, methods of test validity – general problems.

Unit – IV: Test Development and Test Standardization Procedures

- a. Basic steps in Test development: Instructions in Test Administration
- b. Development of Norms – Types of norms – Interpretation of Test scores – Statistical Indices – Computers usage in Testing.

PSY 105: PRACTICAL I & II PRACTICUM IN THE CF & CC**Semester - II**

Course Code	Course Title	No of Hours Per week	No of Credits
Psy-201	GENERAL PSYCHOLOGY – II	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	
(Common for both M.Sc. Psychology and M.Sc. Counseling Psychology)			

Objectives:

1. To understand fundamentals of motivation and emotion
2. To understand basic concepts of memory and forgetting
3. To comprehend the thinking and intelligence
4. To evaluate the personality of individuals

Unit – I: Motivation and Emotion

- a. Historical antecedents of motivation from mechanism to cognition. Motivation sequence and motivational concepts – instinct, drive, motive and incentive.

Physical and Psycho - social motives – A brief study of motivational theories – Freud, Mc Dougall, Maslow, S-R and Cognitive.

Measurement of Motivation – Issues and techniques – cross cultural perspective of motivation.

- b. Emotions – nature, development, differentiation and expression of emotions, physiological basis of emotion.

Brief review of theories of emotion – Physiological – James – Lange theory, Cannon Bard theory, Behavioural facial feedback theory and Schachter two factory theory and cognitive appraisal theory of emotion.

Measurement of emotions – Physiological, expressive and cognitive measures.

Unit – II: Memory and Forgetting

- a. Models of memory – information processing model – sensory memory, short – term memory, long –term memory, encoding, storage and retrieval.
- b. Factors influencing memory – Repetition, meaningful learning, whole Vs part learning, massed and spaced practising, Motivation, feed back and passage time

Measurement of Memory – study habits, mnemonic devices, Nature of forgetting, theories of forgetting: Interference theory, motivation theory, Decay theory, Trace-change theory.

Unit – III: Thinking

- a. Nature and tools of thinking

Tools of thinking – images and types of image

Concepts – development and process of concept formation and types of concepts. Language – Structure of language, acquisition of language and the relationship between language and thinking.

- b. Varieties of thinking: Reasoning – inductive and deductive reasoning. Problem solving – types of problem solving – trial and error, insight, algorithms. Heuristics steps and impediments in problem solving. Critical thinking, Inference and pittals.

Piaget model of cognitive development.

Unit – IV: Intelligence

- a. Nature and distribution of intelligence
Differences in intelligence – individual, gender and racial factors, Influence of heredity and environment.
- b. Theories of Intelligence – Spearman, Thurstone, Guilford, Cattell, Stenberg and Gardner

Psy-202	APPLIED SOCIAL PSYCHOLOGY	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	
(Common for both M.Sc. Psychology and M.Sc. Counseling Psychology)			

Objectives:

- a. To understand the Social Influence
- b. To acquaint with social exchange process in social behaviour.
- c. To comprehend the prejudice and discrimination
- d. To understand what is psychological groups and individuals.

Unit – I: Social Influence

- a. Forms of Social influence: Conformity, compliance and obedience Asch’s experiments on conformity; factors affecting conformity; the bases of conformity.
- b. Compliance: Tactics used in compliance; Ingratiation, reciprocity and multiple requests, guilt and compliance.

Obedience: Milgram’s Studies on destructive obedience, resisting the effects of destructive obedience, modeling as a basis for unintentional social influence.

Unit – II: Social Exchange Process

- a. The nature of co-operation and competition, bargaining and negotiation, resolving interpersonal conflicts through bargaining; perceived fairness in social exchange; equity and inequity, factors for restoring fairness in social exchange.
- b. Prosocial behaviour: altruism: Characteristics influencing altruism, theories of altruism: reinforcement theory, cognitive theory:
Bystander effect, explanations, the characteristics of the helper and the helpee; Interpersonal attraction and love: Types of love. Determinants of attraction: physical attractiveness, attitude, similarity and reciprocity.

Unit – III: Prejudice and Discrimination:

- a. Sources of prejudice. Combating prejudice, sex & gender prejudice: nature and origin, discrimination against women.
- b. Aggression and Violence. Theoretical perspectives, social and cultural determinants of aggression; individual determinants, prevention and control of human aggression.

Unit –IV: Groups and Individuals

- a. Groups: Nature and functions: group formation, how groups function: roles, Status, norms and cohesiveness; groups and task performance: Social Facilitation, Theories of Social Facilitation; Social Loafing, Decision making by groups.
- b. Leadership: Definition, types of leaders, characteristics of a leader, functions of a leader, theories of leadership.

(Common for both M.Sc. Psychology and M.Sc. Counseling Psychology)			

Objectives :

- a. To understand anxiety and mood disorders
- b. To acquaint with somatic disorders.
- c. To study Psychosis and Cognitive Disorders
- d. To understand Psychological Disorders Across the Life Span

Unit – I: Anxiety and Mood Disorders

- a. Generalised Anxiety disorders and phobias - Panic, Obsessive - compulsive disorders
- b. Mood disorders – Suicide - Etiology and treatment

Unit – II: Psycho - Somatic Disorders

- a. Stress-Coping and maladaptive behaviour, psychosomatic disorders, Eating disorders
- b. Substance - related disorders, sexual disorders, Etiology and treatment

Unit – III: Psychosis and Cognitive Disorders

- a. Schizophrenia and sub types, Cognitive disorders : Amnesic disorders
- b. Dementia: Delirium, etiology and treatment

Unit – IV: Psychological Disorders Across the Life Span

- a. Personality disorders
- b. Disorders of childhood, adulthood and old age, etiology and treatment

(IX edition) New Delhi: Tata McGraw Hill Publishing Co. Ltd.,
- William J. Ray (2015). Abnormal Psychology – Neuroscience Perspectives on Human
Behaviour and Experience. New Delhi: Sage Publications.

Outcomes:

- a. Understood anxiety and mood disorders
- b. Acquainted with somatic disorders.
- c. Studied Psychosis and Cognitive Disorders
- d. Understood Psychological Disorders Across the Life Span

Course Code	Course Title	No of Hours Per week	No of Credits
Psy-204a	PSYCHOLOGICAL MEASUREMENTS AND STATISTICS	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	
(Common for both M.Sc. Psychology and M.Sc. Counseling Psychology)			

Objectives :

- a. To become acquaint with intelligence and achievement tests
- b. To learn the measurement of personality tests
- c. To understand the Statistics for Psychological Measurement
- d. To know the Distribution of Scores on Variables

Unit- I: Intelligence and Achievement Tests

- a. Intelligence Tests – Definition, Binet’s Scales; Wechsler Scales (WISC, WAIS); Individual Vs. Group tests; Verbal Vs. performance Scales of intelligence; Intelligence tests as clinical instruments; Multifactor Test Batteries
 Tests of Intellectual Impairment
 Achievement Test – Definition; Characteristics of Achievement Tests; Achievement Tests for Special Areas.
- b. Special Abilities – Definition of Aptitude, Motor and Manual tests; DAT Battrey, Multiple Aptitude Test Battery, Special Aptitude tests; Evaluation of Aptitude test.
 Tests of interests, Values and Attitudes.

Unit – II: Personality Tests

- a. Self Report Measures - Personality Inventories - 16 PF, MMPI, CPI; EPI (Eysenck).
- b. Projective Tests – Thematic Apperception test, Children Apperception test, Rorschach Ink Blot test, Picture Arrangement test, Rosenzweig Picture Frustration test, CAT.
 Situation Tests: Semantic Differential, Socio-metric methods, Psychodrama.
 Neuropsychological Tests as diagnostic tools.

Unit – III: Statistics for Psychological Measurement

- a. Introduction to statistics – Importance in Psychological Measurement.
- b. Measures of Central Tendency of scores, Measures of Variation of scores, Measures of Associations, Multi Variate statistical methods .

Unit – IV: Distribution of Scores on Variables

- a. Graphic Representation of test data

b. Frequency distribution – Normal Probability Curve (NPC)

Tests of significance of Some Statistics

Use of Statistical Packages – SPSS in psychological research.

Course Code	Course Title	No of Hours Per week	No of Credits
Psy-204b	RESEARCH METHODOLOGY	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	

Objectives :

- a. To understand basic research and applied research including experimental research.
- b. To comprehend the problem & hypothesis
- c. To know Sampling & Data Collection
- d. To understand about research designs.

Unit – I: Introduction to Research Methodology

- a. Types of Research: Basic Research, Expost facto, Applied Research and other Researches: Formation of Experimental Research.

- b. Research Variables and their Control: Independent variables – dependent variables and extraneous variables, and experimental control.

Unit – II: Problem & Hypothesis

- a. Problem : Selection of problem – statement of the problem and ways in which a problem is manifested, Types of Problems.
- b. Hypothesis : The nature of hypothesis, the manner of stating a hypothesis, Criteria of hypothesis and formulation of hypothesis

Unit – III: Sampling & Data Collection

- a. Sampling: Procedures of sampling – randomization – purposive sampling – Stratified and Random sampling, Probabilistic and Non – Probabilistic Methods.
- b. Methods of Data collection: Interview method, survey method, questionnaires and rating scales.

Unit – IV: Research Designs

- a. Research Designs: Two Randomized group design, two matched group design, more than two group design, Factorial Design – 2x2, 2x2x2 design – Concept of ANOVA, MANOVA AND MANCOVA.
Role of Computers in the analysis of data – Statistical Packages – Ethics in Human Research
- b. Presenting research results: Writing a research project report: Publishing an article and making an oral presentation.

Course Code	Course Title	No of Hours Per week	No of Credits
Psy-204c	COMPUTER APPLICATIONS IN PSYCHOLOGICAL RESEARCH	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	
(Common for both M.Sc. Psychology and M.Sc. Counseling Psychology)			

Objectives

- a. To understand the basic components of computer
- b. To know and working in Ms Office, power point and internet services.
- c. To comprehend the application of computer knowledge through creating emails, scientific journals and data scoring
- d. To be able to understand **Statistical Packages**

Unit – I: Introduction to Computers

- a. Definitions – Basic components of computer –block diagram – Input / Output devices – Key board- Mouse and scanner – directories and sub-directories.
- b. Evolution of Computer generations – Fundamentals in Computers

Unit – II: MS Office-I

- a. MS word: Creating, Opening and saving files- Editing and formatting text- spell and grammar check- auto correct- creating of tables and columns- mail merge- word art- concept of a macro print preview.
- b. MS PowerPoint: Creating power point slide- editing and formatting the presentation etc.,

Unit – III: MS Office-II & Internet Services

- a. MS Excel: Work sheet- entering data and creating work sheets and work books- opening and saving workbooks- editing and formatting-sorting, filtering and pivot tables- creating

graphs and charts- mathematical and statistical functions. MS accesses; opening and saving, features and data entry and usage.

- b. Use of Internet Services – Creating e-mail- sending mails- browsing websites of Psychology, browsing scientific journals- search engines- data storing

Unit – IV: Statistical Packages

- a. Use of Statistical Packages in Psychological Researches - Introduction to SPSS - What is SPSS – Purposes – Using the Windows in SPSS
- b. SPSS Windows – SPSS file types – Creating and modifying Data Files – Data Modification – Descriptive Statistics – Inferential Statistics.

PSY 205: PRACTICAL I & II PRACTICUM IN THE CF & CC

THIRD SEMESTER

Course Code	Course Title	No of Hours Per week	No of Credits
Psy-301	LIFE SPAN DEVELOPMENTAL PSYCHOLOGY: INFANCY TO ADOLESCENCE	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	

Objectives:

- a. To understand human development
- b. To become aware of infancy and babyhood
- c. To comprehend the Early and Late Childhood and Adolescence.
- d. To know the development of Adolescence

Unit – I: Human Development

- a. Principles and factors of development; scope of life span development; periods of the human life span, Perspectives on human development; the mechanistic perspective, the organismic perspective, the psychoanalytic perspective and the humanistic perspective.
- b. Fertilization; the mechanisms of heredity; heredity and environment; chromosomal abnormalities; prenatal diagnosis of birth defects; Prenatal influences, maternal nutrition, maternal drug intake and other maternal-factors; prenatal stages and characteristics.

Unit – II: Infancy and Babyhood

- a. Infancy and babyhood: The birth process, birth complications, infancy; sub divisions, physical characteristics; major adjustments; physical and psychological development of infants, growth and motor development, environmental influences on motor development, mortality in infancy; early learning, classical conditioning, operant conditioning, habituation.
- b. Intellectual development: The psychometric approach, Piagetian approach, Information processing approach, language and speech development.

Social and Personality Development: the psychosexual (Freud) and psychosocial (Erikson) theories, emotions, the family's role in personality and social development; socialization developmental tasks; physical and psychological hazards

Unit – III: - Early and Late Childhood

- a. Early childhood: Physical growth and motor development; childhood health and illness; sleep pattern and problems. Intellectual development: Piaget's pre-operational stage; language' early childhood; the development of social speech; schooling: preschool, benefits.

Social and personality development: Theoretical perspectives on personality: Sigmund Freud, Erikson, effect of child-rearing practices on personality development. Play: social play and cognitive play, implications, Hazards of early childhood.

- b. Late childhood:

Physical development, growth, motor development, intellectual development, Piaget's stage of concrete operations, moral development, Piaget's theory, Kohlberg's studies. Language development: Communication ability, measuring intelligence in school children, creativity in children.

Children in School: the teachers influence, educating handicapped children, learning disability. Social and personality development, theoretical perspectives; Freud, Erikson; social groups, influences, self-concept in school children; the child in the family; emotional disturbances; Hazards of late childhood.

Unit – IV: - Adolescence

- a. Physical development: physiological changes of adolescence, psychological impact of physical changes; health problems.

Intellectual development: Piaget's stages of concept development, moral development: Kohlberg's stage of normal development;

- b. Social and personality development: theoretical perspectives on personality development: Hall, Freud, Erikson; the search for identity; Relationship with parents, peers, friends, sexual identity.

Sessional Marks: 20		End Semester Examination Marks: 80	

Objectives:

- a. To study biological, psychological determinants
- b. To know socio cultural determinants & Soft Skills
- c. To acquaint with soft skills
- d. To learn more on Soft skills

Unit – I: Definitions and Nature of Personality

- a. Issues and approaches to personality - Personality Vs. Character, Personality Vs Individuality,
- b. How Personality consciousness show itself, Is personality consistent?

Unit – II: Determinants

- a. Determinants of Personality - Hereditary potentials, environmental factors, heredity Vs. social determinants - family, educational determinants;
- b. Physical, intellectual, emotional, gender determinants

Unit – III: Development

- a. Development of personality, early personality development, socialization – toilet training, sex typing
- b. Mechanisms of socialization – identification

Unit – IV: Assessment

- a. Assessment of personality, principles of assessment – standardization - reliability, validity, norms;
- b. Techniques of assessment - direct and indirect case study method, personality tests psychometric test, projective tests.

Objectives :

- a. To understand the meaning of counseling and ethics in counseling
- b. To comprehend the process of counseling and techniques
- c. To understand the counseling process
- d. To be acquainted with the counseling techniques

Unit- I: Introduction

- a. Definition and Nature of Counseling. Historical development, goals and expectations of counseling - past and current status of counseling.
- b. Counseling and guidance – its relation with psychotherapy, Social Work and Clinical Psychology - Limitations.

Unit –II: Counselee Characteristics - Ethics in Counselling

- a. Characteristics of Counselee - Characteristics of an effective counselor, selection and training of counselors - The role and functions of counselors.
- b. Legal and ethical considerations in counseling

Unit – III: Counselling Process

- a. Counseling process - the Counseling set up - Structure and Influence of external conditions - phase of counseling.
- b. Termination and follow up. Handling transference and resistance - Group counseling.

Unit-IV: Techniques

- a. Counseling techniques – verbal and non-verbal techniques - tools of counseling, the psychological tests used in counseling.
- b. Evaluation of counseling – Value orientations in counseling

Course Code	Course Title	No of Hours Per week	No of Credits
Psy-304a	SCHOOL PSYCHOLOGY	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	

Objectives

- a. To understand the role of school on psychological development
- b. Legal and ethical guidelines for school services.
- c. Acquire the relation with other applied sciences
- d. To understand assessment and remedial techniques

Unit – I: Emergence of School Psychology as a Profession

- a. Defining School Psychology: and objectives

Major influences in the development: Early need of psychological services in schools – influence of testing movement - influence of developments in psychology and other behavioural sciences influence of mental health and child centered educational movements - influence of professional associations and organizations. Emerging viewpoints in school psychological services.

- b. Conceptual models for its development and future trends – Legal and ethical guidelines for services.

b. School Psychology as a Special Branch of Psychology

- a. School psychology in relation to developmental psychology, Differential Psychology, Experimental Psychology, Social Psychology, Cognitive Psychology, Developmental Psychology, Biological Psychology, Educational Psychology and Guidance and Counseling.
- b. Limiting factors of School psychologist's role: The community, the school, training programs, certification requirements, professional self- image and special problems of the job itself.

Unit – II: Position of School Psychologist in School

- a. Administration of organization - superintendents role - administrative relationship - defining functions - communication with administrative staff - job perspective - administrative attitudes towards mental health - legal responsibilities - developing an

appropriate administrative role. Working with school personnel: School executive and teachers.

- b. Position of School Psychologist in Educational process: Curriculum development - group testing - attendance policies - special classes - promotion and retention policies - class placement - class grouping - transition from elementary to high school - remedial classes — appraisal of teachers pupils records - faculty morale.

School & society - as a member of school faculty - as seen by students - as viewed by parents and community.

Unit – III: Educational Psychological Assessment Services

- a. Principles & Concepts: Methods, procedures & techniques, appraisal of Intelligence, aptitude, interest, social & perceptual competence of school children.
- b. Referrals: Dynamics & types; case study, case conference; Records and Reports and making recommendation.

Unit – IV: Remedial Services:

- a. Principles and concepts of Remedial Services – Identification of mental health needs of school children – Special needs of exceptional learners with learning disabilities, mental retardation, neuro-psychological impairment, emotional & social handicap, cultural handicap, attention deficit disorders, multiple disabilities
- b. Techniques for detecting maladjustment among pupils: screening guides and interviews – contrast between screening techniques and psycho-diagnosis.

Sessional Marks: 20		End Semester Examination Marks: 80	

Objectives

- To understand organization and the Individual differences
- To comprehend the motivation and leadership
- To study the decision making and organizational effectiveness.
- To know the organizational change due to development

Unit - I: Introduction

- What is an Organization? Individual differences in organizations, learning organizations, Organisational culture Psychological process in organization - personality.
- Learning principles, perception, Social perception, learning contact, psychological contact and commitment.

Unit- II: Motivation – Leadership

- Motivation: Concept; motivation process; theories of motivation. psychological groups: definition; types of groups; functions fulfilled by groups, group process, dynamic of groups, structure of groups, why people join groups?
- Leadership: Who is a leader? leadership, characteristics of an effective and ineffective leaders; leadership styles; theories of leadership.

Unit - III: Decision Making Conflicts

- Decision making: Individual decision making and group decision making: Decision making Techniques; conflict - Nature and sources of conflict - consequences of conflict.
- Types of conflict: Management of conflicts. Power - Bases of power; Sources of power, Impression Management. -

Unit - IV: Organisational Effectiveness & Change

- Organisational effectiveness and management of change – what is effectiveness, concept, nature, models: values bases effectiveness an social constraints - methods of improving organizational effectiveness, management of change and development.
- Meaning of organization change, cultural process; structured change; models of change; stress management - meaning of stress, sources of stress, consequences of organization stress and coping strategies.

CPsy-304c	HEALTH PSYCHOLOGY	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	

Objectives :

- a. To understand the concept of the Health psychology
- b. To acquaint with and health behaviour.
- c. To comprehend the health behaviour enhancement and management.
- d. To know the future of the health psychology

Unit – I: Introduction

- a. Introduction, definition - need for health psychology - relating health psychology to other fields - maintaining a healthy state and coping with illness – Biomedical and Biomedicosocial model.
- b. Environmental psychology - environmental effects on Human Behaviour - the effect of human behaviour environment, urban life - health care, Socio-cultural perspective - cross cultural studies - epidemiological studies - social pathology - divorce - communal violence.

Unit –II: Health Behaviour - Enhancement

- a. Health Behaviour and Primary prevention Health behaviours - changing health habits through cognitive behavioural approaches - Transheoretical model and Social engineering – Health enhancing behaviours - Health compromising behaviours.
- b. Stress and Coping – Sources of stress and moderators of stress experience - coping resources and coping styles - Social support - Management of stress.

Unit-III: Management

- a. Management of chronic illness - quality of life - emotional responses to chronic illness - personal issues - coping and rehabilitation - psychological intervention - heart disease, Hypertension, Stroke and diabetes.
- b. Psychological issues in advancing to hospital care - problems of survivors. Psychomenuro immunology, AIDS, Cancer and Arthritis.

Unit – IV: Future

- a. Challenges for the future Health promotion - Stress and Management - Health services - Management of serious illness - Trends for the future - Becoming a health Psychologist.
- b. Organized efforts to mental health - governmental and voluntary organisations; international efforts for mental health - limitations in mental health efforts.

Psy-304d	PSYCHOLOGY OF DISABILITY	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	

Objectives:

- a. To understand historical development – Models of disabilities in the past and present scenario
- b. To comprehend Assessment of Disability, Psychological Aspects
- c. To know Behavioral Management
- d. To acquaint with Organizational services

Unit – I: Introduction

- a. Definition of Disability, impairment, handicap – disability across cultural contexts, disability in the Indian setting – the past, the present and a continued challenge.
- b. The Psycho-social effects of disability; minority and underprivileged social status – stereotype effects – Assessment of disabilities.

Unit – II: Types of Disabilities

- a. Sensory disabilities – the visually impaired – incidence, causes, the hearing impaired – incidence, causes. The speech impaired – incidence, causes.
- b. Management of the handicapped – Institutional and Home management – General principles – the visually impaired – the learning impaired – the speech impaired – the crippled.

Disabilities old age – Diseases – rehabilitation, life Style Management

Unit – III: Mental Retardation & Learning Disabilities

- a. Mental Retardation – Definition and categorization of MR, Educational and vocational training.
- b. Learning Disabilities – slow learners, mentally retarded child in class room; intervention related issues: Emergent needs and skills. Making ordinary schools as special.

Unit – IV: Disability Services

- a. Disability and Services – Institutionalized Services – Rehabilitation – Homes and Day care Centres – outdoor programmes.
- b. Community – Based Rehabilitation – Camps Approach to rehabilitation.

Psy-404a	PSYCHOLOGY OF AGING - APPLIED ASPECTS	04	4
Sessional Marks: 20		End Semester Examination Marks: 80	

Objectives

- a. To understand the lifespan and gero-psychology
- b. To know different views about ageing
- c. To study the Psychological aspects of Care giving – Care giving stress – Interventions for caregivers
- d. To gain the various Elder as Resources.

Unit – I: Scope and Methodology

- a. Introduction, Psychology of Aging – Scope History and Multidisciplinary nature of Aging, Life Span Development and Gero-Psychology – Population Aging & Implications. Specific methodology in the study of aging
- b. The process of aging – conceptual and biological changes – Biological, generic and non generic view – Psychological approaches – Sociological view points – Bodily changes and their Psychological implications

Unit – II: Social and Familial Status of the Aged

- a. Areas of Personal and Social Adjustment in Old Age – Physical and physiological changes, psychological changes – cognition, personality.

Adjustment to – Physical changes, roles and interests, retirement, income, lesiure, widowhood, singleness, impending death – psychological implications

- b. Aged in the family – roles and responsibilities – aged in the community – public perceptions of the aged – ageism – aged as a minority group.

Intergenerational relationships – Intra familial dynamics – Generation Gap – Public Perceptions towards the aged.

Unit – III: Eldercare - Services

- a. Concept of elder care – Impact of demographic & Socio-technological changes on elder care - Care needs of the elderly – Psychological aspects of Care giving – Care giving stress – Interventions for caregivers – elder abuse in care setting and Interventions.

Familial, Institutional and Community Models of Elder care.

- b. The Organization of Elder Care Services

Need for elder care services – Types of elder care services – Home Care, Respite care, Hospice – Institutional care – Adult Day care – Nutrition and Health care Services – Recreational Services, Transportation Services – Role of geropsychologist's in these services.

Psychological services – Counselling – Legal services – Helplines – Crises centers – Role of NGOs in elder care services – Use of Assistive Technologies and Quality of life.

Unit – IV: Welfare and Policy Issues

- a. Concept of Welfare of the Aged – Welfare needs of elderly – Welfare Programmes for the elderly in India – Role of state in the welfare of the aged – National Policy for older persons – Its action – plan – barriers – evaluation.

Elder as Resource – Human resource Development in the elderly – Improving Self Competence – Third Age Universities.

- b. Ageing in the Indian Culture – Ashrama Dharmas – Aging Research in the Indian Context – Current Trends.
