

Drug De Addiction

SV University, Tirupati conducted awareness programmes on **Drug De Addiction** on 4th January. Drugs are dangerous to health. Millions of Indians are dependent on alcohol, cannabis, and opiates, and drug misuse is a pervasive phenomenon in Indian society. While most people think that addicts have a choice, in reality, an addict needs professional help because it is a chronic disorder. Drug addiction not only affects the substance abuser but also impacts families. They go through mental stress, face social consequences, and are pushed into financial crisis. The objective of the programme is to make the students aware about ill effects of drug addiction and the need for drug de-addiction.
