Sc. Virology program syllabus to be implemented from the academic year 2021-22 onwards.

1. It is resolved to have M.Sc Virology program code as VIR to maintain uniformity as per University PG programs and to introduce each two of core theory, one compulsory foundation and one elective foundation courses, two relevant practicals and Human and Professional Ethics as an audit course (self study-no credits) in the first and second semesters of M.Sc. Virology program.
2. It is resolved to introduce each two of core theory, two generic elective courses along with one relevant practical and two open electives (offered to the students of other disciplines) in the third and fourth semesters of M.Sc. Virology program, where among the electives student can choose one and 10 students are minimum to run the course in the respective semester.
3. It is resolved to introduce Medical Lab Technology as skill development course in the third semester and Communicative English and Fundamentals of Computers as skill enhancement add-on course (self-study-no credits) in the third semester of M.Sc Virology program.
4. It is resolved to introduce project work with 4 credits and Industrial Biotechnology as multidisciplinary course, where student can choose either one of it as per their interest in the fourth semester of M. Sc. Virology program. To make the students competitive for various scientific examinations, Teaching and Research Aptitude course has been introduced as a skill enhancement add-on course (self-study, no credits) in the fourth semester of M. Sc Virology program (Enclosed M. Sc Virology program structure and syllabus).

(P.T.O)

5. It is resolved that the revised syllabus of M.Sc., Virology program is very relevant and appropriate to match the NEP-2020 guidelines and with the current needs of the students to progress further, hence recommended for approval of the revised syllabus from the academic year 2021-22 onwards.
