

Theme of the Conference

This conference is aimed to provide platform to explore the innovative ideas of Research scholars, Computer Science & Engineering students and Academicians in different research areas.

- To develop computational thinking using Machine Learning algorithms to explore the Artificial Intelligence applications and also to the increase the expectations for automation systems that exhibit human intelligence.
- To enrich how to use Machine Learning algorithms for various computational applications for modelling of data analysis, visualization or prediction through the development of Machine Learning algorithms.
- And also to obtain deep insights of Artificial Intelligence and Machine Learning algorithms to deal with computational and mathematical approaches for understanding and processing of data.

Conference Topics

- Cyber Security
- Artificial Intelligence
- Data Mining
- Machine Learning and Statistical Methods
- Digital Image Processing
- Big Data Analytics

And any other domain related topics of the conference objective

Call for Papers and Important

We encourage Students, Researchers and Academicians to submit their best work in AI and Computational Thinking and to attend in order to discuss the latest theories.

- **Last Date for Submission** : 15th May, 2024
- **Author Notification** : 01st June, 2024
- **Camera Ready Paper** : 05th June, 2024
- **Conference Dates** : 14th - 15th June, 2024

Mode of Presentation : Hybrid

The Mode of Presentation for the event is Hybrid, allowing participants to engage both in-person and virtually. This approach combines the benefits of physical attendance with the convenience of remote access, ensuring a dynamic and inclusive experience for all participants.

Registration Fee Details

- **Industry Participants** : 2500/-
- **Academicians** : 2000/-
- **Students** : 1500/-
