

4.1.1 - The institution has adequate facilities for teaching - learning. viz., classrooms, laboratories, computing equipment, etc.

To implement the plans and achieve the desired goal, the departments have created adequate infrastructure in terms of State of art laboratories, computer labs, libraries, faculty rooms, classrooms, and seminar hall with audio-visual facilities. The departments are maintaining a conducive environment for the students to achieve their dreams.

SVU has a well-developed high-tech campus equipped with modern facilities and learning resources to achieve academic excellence according to its vision and strategic objectives. The infrastructure facilities and learning resources are categorized as under:

(a) Learning Resources include resources and infrastructure required for the library, laboratories, computer center, classroom teaching, events, meetings, and conferences.

(b) Support facilities include hostels, non-resident students' centers, canteens, convocation hall, seminar halls, international seminar hall complex, committee rooms, dairy, agricultural farms, biodiversity park, sports grounds, and creche.

(c) Utilities include safe drinking water, restrooms, and power generators. Classes are scheduled for optimal utilization of the available physical infrastructure.

Sophisticated equipment available in the laboratories is not redundantly duplicated and availability is ensured by judicious time-sharing. Sharing of laboratory facilities is also encouraged between faculties. Apart from the central facilities, such as Computer Canter, Central Library, USIC, there are many laboratories that cater to students from other faculties.
