Course
M.A Rural Development & Management

Choice Based Credit System (CBCS)
Academic Year 2023 – 24 Onward

S.V.U.College of Arts
Sri Venkateswara University: Tirupati
Department of Adult Education

M.A. Course in Rural Development &Management

About the Department

The Department of Adult and Continuing Education, Sri Venkateswara University was established in 1972. At present 3 teaching faculty, 3 Academic Consultants and 2 Supporting Staff are working in the Department. The Department has well equipped Library, Computer Lab and Seminar hall. Since its inception, the Department has been designing and implementing a variety of Teaching, Research and Extension Activities. Initially, the Department offered PG Diploma in Adult Education during 1973-78. The Department has been offering 2 PG courses i.e. M.A. Adult Education (since 1980) with an intake of 21 students & MA Rural Development & Management (since 2012) with an intake of 20 students by following choice based credit system and semester pattern. Under research, the department is offering M.Phil, PhD programmes in both Adult Education and Rural Development. The Department is undertaking individual & sponsored research projects with the financial support of UGC, NCERT, SSA, ICSSR, Planning Commission, and Ministry of Tribal Welfare. So far the Department produced 39 Ph.D's and 17 M.Phil's. Further 337 Project works as a part of MA Course were completed. Directorate of Adult Education, Govt. of India, New Delhi has empanelled the Department as external evaluating agency to evaluate Adult Education Programmes. Since 1998 to till date Adult Education programmes of different states, Jana Sikshan Sansthans & SRCs were evaluated. The Department has organized 1 International conference and 63 National seminars, published 112 books and 444 research articles in National and International Journals. The Department has initiated dissemination of research findings through publication of Journal of Adult Education & Extension and several books. Under Extension, the Department has Regional Resource Centre during 1978 to 1986; Population Education Resource Centre in 1989; Nucleus cell during 1989 to 1991; to provide resource support to adult education programmes. The major contribution of the Department in the field of Adult Education was Preparation of Primers to the adult learners, material preparation and training to the field functionaries etc. In addition to the above, the Department has adopted villages and organized Literacy promotion programmes, Awareness programmes, Health camps to develop favorable attitude among the rural community. Recognizing the potentialities of the Department, the University Grants Commission, New Delhi has granted special Assistance Programme DRS – I for the period 2009 – 14, DRS – II for the period 2015 to 2020; to work on 3 main thrust areas namely: vocational training, research, and career guidance & counseling. In the area of career guidance & counseling the department organized training programmes to the: coordinators of

career guidance and counseling cells, guidance and counseling camps for students. In addition to the above, the Department organized: Computer Courses, Tailoring, Saree Printing, Painting, Embroidery, Candle Making, Detergent Making, Vermin Compost to student & non student youth and women. Recognizing the potentialities and contributions of the Department in the field of Adult Education; The Ministry of Human Resource Development has awarded NLM, UNESCO award to the Department during the year 2006, which has brought laurels & image to the Department and the university.

Achievements bagged by the Department so far:

NLM, UNESO Award – 2006
SAP - DRS – I & DRS – II
Organized 1 International & 61 National Seminars
Published 112 Books and 444 Articles
Publication of Journal – Journal of Adult Education & Extension. ISSN No
Completed 70 Research projects and 24 Evaluation Projects
Trained more than 1000 Literacy Educators
Eradicated illiteracy in 4 Adopted Villages
Trained 300 students on computer skills
Trained 300 Women on vocational aspects

Vision

The Department notion is to be acted as nodal center to disseminate the knowledge, conduct research at Local and higher level i.e. National bodies and organizing extension activities for needy people. As a whole the department wish to build the community with an adequate skills and sound human resources. And also, to play a vital role in the preparation of Planning in terms of Literacy and Rural Community Development Programmes, which have been introduced by State and Central Governments.

Mission

The Department of Adult Education has confined to three domains, i.e., Teaching, Research and Extension. The teaching learning activity is to enhance the aptitude and Personality development of students. It is preparing the students towards Self-Reliance, Self-Development and Self-Employment. Eventually the students have been trained as dynamic citizens.

As far as research is concerned the department has been conducting the qualitative and quantitative research on thrust areas. The enhancement of the literacy at the grassroot level and evaluating the National Bodies at the higher level are the main targets of the Department. The Department is also disseminating the research findings through Publications.

In the case of extension activities, the department is preparing materials for field functionaries and conducting surveys on Welfare Schemes of State and Central Governments. The department has been conducting Health camps, Literacy camps, Vocational training programmes, awareness programmes and also conducting the celebrations on National/International important days in Rural areas to bring cognitive changes among rural people. One of the aims of the Department is adopting backward hamlets to change their environment and mind for respectable life. To strengthen the departmental Extension activities as well as the students all round development, the department wishes to exchange the MOU with RASS, NGO, Tirupati.

The staff members are permitted to participate in Induction and Capacity Building Programmes to meet the academic demands.

Department Objectives:

- To train the students to mastery over the subjects in terms of Literacy Programmes and Rural Development aspects.
- To provide an adequate skill on research methods viz, Qualitative and Quantitative.
- To enhance the sense of Integrity on Adult Learners Problems and Rural People Issues.
- To know and prepare the students to conduct extension and outreach activities.

The Department has been following University and UGC guidelines to enhance, revision and implement the course curriculum for two Post Graduate Programmes. i.e. M.A. Adult Education and M.A. Rural Development and Management. The courses are providing theoretical and practical knowledge to the students. The traits of the course curriculum are development of Cognitive and Effective domain of students and train them as socially responsible citizens. Visit the Institutions, NGO's & Rural areas to draw factual information and do research on thrust areas. In turn the students can get employment in GO's NGO's or start their own social institution. Apart from that the course Inculcates Personal, family, Social values, Human values, Gender equality and Professional values to lead the respectable life. The course emphasis on Employability, Entrepreneurship and Skill Development. The programmes principles and outcomes are meant for students and community development.

Programme Specific Outcomes

To enable the student…

- To Know the Philosophised, Sociological and Psychological background of Adult Education and Learning. Identify the five years policy programmes and Teaching Learning methods (TLM) in Adult Education.
- To Understand the Research Techniques and methods to Identify the problems in Adult Education class management and Learners Issues. To raise the Efficiency among students in field work.
- To enhance the Level of skills to participate in grass rood Level activities and Learning aspects and also visualise the need and Importance of guidance & counselling for Adult Learners.

- To recognise the importance of human Resource in Adult Education Programmers and Identify the need of Environmental Protection and role of NGOS.

Programme Objectives:

To enable the students:

- To acquire knowledge on Rural aspects, Social structure and role of Rural Institutions in Rural Development.
- To Identify the significance of Literacy growth, Agriculture and Horticulture Expansion for Sustainable development of rural people.
- To inculcate the family, social and human values which are essential in personal life in particular and social life general.
- To identify the importance of Natural resource and its prominence in Rural Development.
- To examine the dire need of Rural Banking, Economic Support for agriculture and its allied sectors survival in Rural areas.
- To discover the Problems of Rural Backwardness and its impact on Rural Life style by conducting micro studies.

Programme Outcomes: POs

After completion of MA Rural Development Programme the student is able to:

- Obtain knowledge on all aspects of Rural Development in terms of Literacy, Education, Health, Housing, Sanitation, Economy, Agriculture. Rural Industries, Rural Technology and Service Sectors to encounter the problems and serve the Rural area.
- Discover and analyse the Natural and Rural Resources like Land, Water, Vegetation, Live stocks, Mines, Human resources and their share in community and Nation Development.
- Identify and investigate the causes of Rural backwardness and its impact amenities and employment in particular and people life general.
- Facilitate and develop the rural people by following human resources index and using Natural resources.

- Conduct Social Audit, Action Research, Case studies on social issues by adopting appropriate tools and methods to identify the social, economic and psychological problems of Rural people.
- Construct Social network among Agriculture, Small Scale Industry, Banking Services, Micro finance, Marketing and Service Sectors which are part and parcel of Social Development.
- Conduct awareness camps to safeguards the Soil, Water, Air by avoiding Pesticides, Chemicals in Agriculture management and provide strategies, methods to protect environment.
- Inculcate moral values, Ethics and social responsibilities and towards gender disparities, social aspects and distribution of Natural Resources for sustainable development.
- Develop team spirit to carry out Rural welfare programmes and identify the core problems on multiple aspects which are prevailing in Rural Community.
- Exchange Information and Ideas with Rural people to develop self-confidence in participation of Rural development programmes.
- Enhance competency to prepare and implement the Rural projects for common man welfare and Rural Development.
- Generate enthusiasm, curiosity and motivation towards Life Long Learning which is basic principle of Rural Development.

Programme Educational Objectives (PEO):

To enable the students to:

- Strengthen the theory and practical training to encounter the Rural problems.
- Inculcate the sense of Integrity and Empathy towards Rural aspects, Causes and Backwardness.
- Describe the Rural Technology and Governance for Implementation of welfare programmes of rural people.
- Compare the relationships between Rural growth and Nation GDP.

2020-21 academic year

Choice Based Credit System

SEMESTER-I

S.No	Course Code	Components of study	Title of the Course	Contact Hours	No. of Credits	I.E	END SEM.Exam	Total Marks
1	MARDM-1.1	Core	INTRODUCTION TO RURAL DEVELOPMENT	6	4	20	80	100
2	MARDM-1.2	Core	INDIAN RURAL SOCIAL SCENE	6	4	20	80	100
3	MARDM-1.3	Core	INDIAN ECONOMIC SCENE	6	4	20	80	100
4	MARDM-1.4	Core	EDUCATION FOR RURAL DEVELOPMENT	6	4	20	80	100
5	MARDM-1.5	CF	RURAL DEVELOPMENT INSTITUTIONS	6	4	20	80	100
6	MARDM 1.6	EF	HUMAN VALUES & PROFESSIONAL ETHICS-I	3	2	10	40	50
Total				33	22	-	--	550

SEMESTER-II

S.No	Course Code	Components of study	Title of the Course	Contact Hours	No. of Credits	I.E	END SEM.Exam	Total Marks
1	MARDM-2.1	Core	RURAL INDUSTRIALISATION	6	4	20	80	100
2	MARDM 2.2	Core	RESEARCH METHODS IN RURAL DEVELOPMENT	6	4	20	80	100
3	MARDM-2.3	Core	AGRICULTURE & RURAL BIO TECHNOLOGY	6	4	20	80	100
4	MARDM 2.4	Core	FIELD WORK& PRACTICALS	6	4	-	-	100
5	MARDM-2.5	CF	RURAL MARKETING & MANAGEMENT	6	4	20	80	100
6	MARDM 2.6	EF	HUMAN VALUES & PROFESSIONAL ETHICS-II	3	2	10	40	50
Total				33	22	-	--	550

SEMESTER-III

S. No	Course Code	Components of study	Title of the Course	Contact Hours	No. of Credits	I.E	END SEM. Exam	Total Marks
1	MARDM-3.1	Core	NATURAL RESOURCES MANAGEMENT -LAND	6	4	20	80	100
2	MARDM3.2	Core	NATURAL RESOURCES MANAGEMENT -WATER	6	4	20	80	100

	MARDM-1.4c		RURAL ENTREPRENUERSHIP					
	MARDM-1.4d		VOCATIONAL EDUCATION & TRAINING					
5	MARDM-1.5a	OE	HUMAN RESOURCES DEVELOPMENT IN RURAL SECTORS	6	4	20	80	100
	MARDM-1.5b		DEVELOPMENT STRATEGIES & VOLUNTARISM					
	MARDM-1.5c		POPULATION & DEVELOPMENT					

Note: *Among the Generic Electives the student shall choose three; # Among the Open Electives the student shall choose one.

Course 1.1: INTRODUCTION TO RURAL DEVELOPMENT

UNIT-1: Rural Development: Concept, Definition Nature and Scope of Rural Development; Need for Rural Development; Historical evolution of the concept of Rural Development in the Indian Context; Causes of Rural Backwardness.

UNIT-II: Health conditions and Services in Rural Areas: Accessibility of health facilities; Health schemes - Arogya Sree, NTR Vaidya Seva; Issues in Community Health- National Health Policy of India/National Rural Health Mission; Janani Suraksha Yojana; AYUSH programme; National AIDS Control programme.

UNIT-III: Rural Housing: Status, National Housing and Habitat policy - Different Schemes of housing policy, Indira Awaas Yojana, NTR Gruha Kalpa.

UNIT-IV: Status of Rural areas: Composition of Rural Population, Rural Work Force, Problems of Unemployment and Under employment; Conditions and Problems of Agricultural Labour; Rural poverty; Levels of Living of Rural People; Integrated Rural Development.

Course1.6: HUMAN VALUES & PROFESSIONAL ETHICS-I

Unit –I: Ethics : Definition, Nature, Its relation to Religion, Politics, Business, Legal, Medical and Environment. Need and Importance of Professional Ethics –Ethical Values in various professions.

Unit – II: Values: Nature - Good and Bad, Ends and Means, Actual and potential values, Objective and Subjective Values; Analysis of basic moral concepts – right, ought, duty obligation, justice, responsibility and freedom, good behavior and respect for elders. Characters and conduct.

Unit –III: Individual and Society Ahimsa (Non-Violence), Satya (Truth) Brahmacharya (Celibacy) Asteya (Non possession) and Aparigraha (Non-Stealing) Purusharthas (Cardinal Virtues) Dharma (Righteousness), Artha (Wealth), Kama (fulfillment Bodily Desires) MOksha (Liberation)

Unit-IV: Crime and Theories of punishment – (a) Reformative, retributive and Deterrent (b) Views on Manu and Yajnavalkya.

Books for study:

1. Johan S Mackenjie: Amanual of ethics
2. "the Ethics of Management "by Larue Tone Hosmer, Richard D.Irwin 1nc.
3. "Management Ethics – integrity at work by josph A. Petrick and John F Quinn response Books: New Delhi.
4. "Ethics in Management" by S.A. S herlekar, Him

Course Out Comes:

1. know the importance of professional ethics and to implement the ethical values in various Professions.

2. understand about the Good and bad values and to analyze the basic moral concepts.

3. inculcate the students in the aspects of pursharthas .

4. Know different crimes and its impact on personal and social life and theories of punishment.

Course2.1: RURAL INDUSTRIALISATION

UNIT- I: Rural Industrialization: Concept, Need and Importance of Rural Industrialization in the context of Rural Development; Gandhian Approach to Rural Industrialization; Appropriate Technology for Rural Industries.

UNIT-II: Rural Industrial Sectors: Small Scale, Handloom, Agro-based Industries, Rural Artisans, Handicrafts and Sericulture; Marketing: Problems of Marketing, Marketing Strategy and Information System for Rural industries; Consortium Approach, Exhibitions.

UNIT-III: Industrial Promotion Organizations: District Industries Centre (DIC), National Institute for Small Industries Extension and Training (NISIET), Small Industry Development Organization (SIDO), Small Industries Service Institutions (SISI); Consultancy Organizations, Financial Organizations, Regional Rural Banks and State Finance Corporations.

UNIT-IV: Small-Scale and Micro Enterprises: Introduction, Changed Nomenclature; Definition of Micro Enterprises, National Importance of Micro and Small Enterprises (MSEs), Problems of Micro and Small Enterprises (MSEs); Khadi and Village Industries (KVIs) - Coir industry, Handlooms, Power Looms, Handcrafts.

Reference books:

Battacharya S.N. : Rural Industrialization in India

Bepion Behari : Rural Industrialization in India

Rao R.V. : Rural Industrialization in India

Bagli V : Khadi and Village Industries in the Indian Economy

Kripalani J.B. : Gandhian Thought

Vasant Desai : Organization and Management of Small Scale Industries

Sundaram J.B. : Rural Rurai Industrial Development

K.V.I.C. : Khadi and Village Industries The Gandhian Approach

Vasant Desai : Problems and Prospects of Small Scale Industries in India.

Course Out Comes:

1. Recognize the importance of Rural Industrialization and technology for Rural Development.
2. Identify the small-scale industries problems, marketing and its strategies.
3. Analyze the role of District industries centres, NISIET and SISI for providing financial support for small scale industries.
4. Identify the problems of Micro and small enterprises with regard to handlooms, power looms and handcrafts.

3: High; 2: Medium; 1: Low

Course2.2: RESEARCH METHODS IN RURAL DEVELOPMENT

UNIT-I: Social Science Research: Need and significance, Types – Basic, Applied, Action; Methods – Historical, Experimental, Survey, Case Study; Formulation of Hypotheses.

UNIT-II: Sampling: Stratified Sampling, Multistage Sampling, Purposive Sampling, Systematic Sampling; Tools of Data Collection: Questionnaire - Schedule - Interview – Observation.

UNIT-III: Numerical Methods of Quantitative Data: Presentation – Mean, Median, Mode; Standard Deviation - Correlation - Regression - Chi-square Test; Micro Soft Office: MS Word - Excel - Power Point – SPSS.

UNIT –V: Report writing: Steps involved in writing of a report; Graphical Methods of Quantitative Data Presentation – Histogram, Pie Chart - Bar Diagrams;

Reference books

Gupta C.B. : An Introduction to Statistical Methods

Moser C.A. : Survey Research in Social Investigation

Simson and Kelkn : Basic Statistics

Babbie : Survey Research

Das Gupta : Village Studies in the Third World

Goodo & Halt : Social Research Methods

Mason and Lind : Statistical Techniques in Business and Economics

Microsoft : Manuals on Microsoft Office

SPSS : Manuals on SPSS

Course Outcomes

1. Understanding the concepts and methods of research.
2. Adopting the suitable sampling methods for research studies.
3. Developing tools for research studies.
4. Ability of research report writing.

3: High; 2: Medium; 1: Low

Course2.3: AGRICULTURE & RURAL BIO TECHNOLOGY

UNIT-1: Agriculture: History and development of agriculture in India; Objectives, Socio-economical perspectives; Significance and Status of production of cereals (wheat/rice); Pulses (Arhar/gram); Oil (Sunflower/soybean);Vegetable (Potato) ; Sugars (Sugarcane).

UNIT-III: Crop residues and their application to Rural Development: Fibrous, Stoves, Straw, Husk (Hulls), Oil cakes; Sugarcane (buggies, tops, molasses, presumed), Vegetable (Tomato, potato, cabbage).

UNIT-III: Mushroom Technology: Introduction, Nutritional/medicinal importance, Cultivation of edible mushrooms; Vermi compost Technology: Significance, methodology of production, merits and demerits, impact on agriculture development.

UNIT-V: Biogas & Rural Development: Concept, Applications, Biogas Plants, and problems; Bio-pesticides - introduction, Types, Advantages, and disadvantages, Social impact; Tissue culture, Vegetative propagation, Soil-less farming.

Books reference

Fruit Preservation : S.Srivastva

Fruit and vegetables : B.Jain

Forest in India : V.P.Agrwal

A Hand Book of Social Forestry : S.S. Negi

A Text Book of Agroforestry : Gautam

Krishi Vaniki : S.S. Srivastva

Biogas : O.P.Chawla

COURSE OUTCOMES

1. Realising the history and development agriculture in India.
2. Identifying different aspects of sustainable agriculture in rural development.
3. Indicating the Importance of allied sectors of agriculture in India.
4. Recollecting the process of biogas and pesticides.

Course2.4: FIELD WORK& PRACTICALS

Every Student has to participate in the field visits to the following rural development/ Agriculture related institutes to expose himself in the field projects and programmes:

1) Prepare a Report on any one of the following issues - Health conditions and Services in Rural Areas, Rural Housing and Status of Rural Population;
2) Prepare a Report on any of the formal and Non-formal education programmes;
3) Prepare a Report on any one of the following issues - PRIs, Cooperative Societies and Rural Banks ;
4) Prepare a Report on any one of the following Agricultural Training Institutions – KVKs, FTCs and NIRDPR.
5) Prepare a Report on any one of the following Community Based Organisations - Watershed Committees -Village Forest Committees -Water User Associations-Village Education-Committees -Mothers Committees.

The project activity reports will be submitted by the students and assessed by the Internal and External Examiners. Each student has to face the Viva-Voice which will be of 25 marks**.**

(Marks for Viva 25)

(Total : 100)

Course Outcomes:

1.Application of knowledge and skills in project designing

2.Ability to do research work.

3.Finding solutions to the problems identified in his research work.

4.Preparing the research report.

Course2.6: HUMAN VALUES & PROFESSIONAL ETHICS-II

Unit – I: Value Education: Definition- relevance to present day concept of human values; Self introspection-Self esteem. Family values-Components, structure and responsibilities of family; Neutralization of anger – adjustability – threats of family life – status of women in family and society – caring for needy and elderly – time allotment for sharing ideas and concerns.

Unit –II: Medical ethics: Views of charka, Sushurta and Hippocratus on moral responsibility of medical practitioners. Code of ethics for medical and healthcare professionals. Euthanasia, Ethical obligation to justice in health care, human cloning problems of abortion. Ethical issues in genetic engineering and Ethical issues raised by new biological technology or knowledge.

Unit –III: Environmental ethics: Ethical theory, Man and nature- Ecological crisis, Pest control, Pollution and waste Climate change; Energy and population, justice and environmental health.

Unit- IV: Social ethics: Organ trade, human trafficking, Human rights violation and social disparities; Feminist ethics, surrogacy/pregnancy; Ethics of media - Impact of Newspapers, Television, Movies and Internet.

Books for study:

1. John S Mackenjie: A manual of ethics
2. "the Ethics of Management" by Larue Tone Hosmer, Richard D.Irwin Inc.
3. "Management Ethics – integrity at work\ by joseph A.Petick and john f. Quinn Response Books:New delhi
4. "Ethics in managemen'By S.A.Sherlkar, Himalaya Publishing House,
5. Harold H. Titus: Ethics for Today
6. Maitra.S.K. Hindu Ethics
7. William Lilly: Introduction to Ethics
8. Sinha.A Manual of Ethics
9. Manu: Manava Dharma Sastra or the Institute of Manu: Comprising the Indian system of Duties: Religious and Civil (ed)G.C.Haughton

10. Susruta Samhita: Tr.Kaviraj Kunjanlal, Kunjalal Brishagratha. Chowkamba Sankrit series, VolI,II and III, Varnasi, Vol I OO, 16-20,21-22 and 74-77 only.
11. Caraka Samhita :Tr.Dr.Ram Karan Sarna and Vaidya Bhagavan Dash, Chowkambha.

Course Out Comes :

1: Understand and recognize the importance of Value Education & Human Values and also try to follow the traditional values of family, women and elders in the society.

2: Examine code of ethics for medical and health care professionals. They Can sensitize the rural people on Health Issues & Problems.

3: Explain the Environmental Protection and relationship between Man and Nature, causes of pollution and impact on environmental health.

4: Recognize the need of Social ethics and fight against the anti-social activities, Organ trade, Human trafficking etc.

SRI VENKATESWARA UNIVERSITY: TIRUPATI
S.V.U COLLEGE OF ARTS
DEPARTMENT OF ADULT & CONTINUING EDUCATION

Course
M.A. ADULT & CONTINUING EDUCATION

Choice Based Credit System (CBCS)
Academic Year 2023 – 24
Amended as per NEP-2020

About the Department

The Department of Adult and Continuing Education, Sri Venkateswara University was established in 1972. At present 3 teaching faculty, 3 Academic Consultants and 2 Supporting Staff are working in the Department. The Department has well equipped Library, Computer Lab and Seminar hall. Since its inception, the Department has been designing and implementing a variety of Teaching, Research and Extension Activities. Initially, the Department offered PG Diploma in Adult Education during 1973-78. The Department has been offering 2 PG courses i.e. M.A. Adult Education (since 1980) with an intake of 21 students & MA Rural Development & Management (since 2012) with an intake of 20 students by following choice based credit system and semester pattern. Under research, the department is offering M.Phil, PhD programmes in both Adult Education and Rural Development. The Department is undertaking individual & sponsored research projects with the financial support of UGC, NCERT, SSA, ICSSR, Planning Commission, and Ministry of Tribal Welfare. So far the Department produced 39 Ph.D's and 17 M.Phil's. Further 337 Project works as a part of MA Course were completed. Directorate of Adult Education, Govt. of India, New Delhi has empanelled the Department as external evaluating agency to evaluate Adult Education Programmes. Since 1998 to till date Adult Education programmes of different states, Jana Sikshan Sansthans & SRCs were evaluated. The Department has organized 1 International conference and 63 National seminars, published 112 books and 444 research articles in National and International Journals. The Department has initiated dissemination of research findings through publication of Journal of Adult Education & Extension and several books. Under Extension, the Department has Regional Resource Centre during 1978 to 1986; Population Education Resource Centre in 1989; Nucleus cell during 1989 to 1991; to provide resource support to adult education programmes. The major contribution of the Department in the field of Adult Education was Preparation of Primers to the adult learners, material preparation and training to the field functionaries etc. In addition to the above, the Department has adopted villages and organized Literacy promotion programmes, Awareness programmes, Health camps to develop favorable attitude among the rural community. Recognizing the potentialities of the Department, the University Grants Commission, New Delhi has granted special Assistance Programme DRS – I for the period 2009 – 14, DRS – II for the period 2015 to 2020; to work on 3 main thrust areas namely: vocational training, research, and career guidance & counseling. In the area of career guidance & counseling the department organized training programmes to the: coordinators of

career guidance and counseling cells, guidance and counseling camps for students. In addition to the above, the Department organized: Computer Courses, Tailoring, Saree Printing, Painting, Embroidery, Candle Making, Detergent Making, Vermin Compost to student & non student youth and women. Recognizing the potentialities and contributions of the Department in the field of Adult Education; The Ministry of Human Resource Development has awarded NLM, UNESCO award to the Department during the year 2006, which has brought laurels & image to the Department and the university.

Achievements bagged by the Department so far:

NLM, UNESO Award – 2006
SAP - DRS – I & DRS – II
Organized 1 International & 61 National Seminars
Published 112 Books and 444 Articles
Publication of Journal – Journal of Adult Education & Extension. ISSN No
Completed 70 Research projects and 24 Evaluation Projects
Trained more than 1000 Literacy Educators
Eradicated illiteracy in 4 Adopted Villages
Trained 300 students on computer skills
Trained 300 Women on vocational aspects

Vision

- The Department notion is to be acted as nodal center to disseminate the knowledge, conduct research at Local and higher level i.e. National bodies and organizing extension activities for needy people. As a whole the department wish to build the community with an adequate skills and sound human resources. And also, to play a vital role in the preparation of Planning in terms of Literacy and Rural Community Development Programmes, which have been introduced by State and Central Governments.

Mission

- The Department of Adult Education has confined to three domains, i.e., Teaching, Research and Extension. The teaching learning activity is to enhance the aptitude and Personality development of students. It is preparing the students towards Self-Reliance, Self-Development and Self-Employment. Eventually the students have been trained as dynamic citizens.
- As far as research is concerned the department has been conducting the qualitative and quantitative research on thrust areas. The enhancement of the literacy at the grassroot level and evaluating the National Bodies at the higher level are the main targets of the Department. The Department is also disseminating the research findings through Publications.
- In the case of extension activities, the department is preparing materials for field functionaries and conducting surveys on Welfare Schemes of State and Central Governments. The department has been conducting Health camps, Literacy camps, Vocational training programmes, awareness programmes and also conducting the celebrations on National/International important days in Rural areas to bring cognitive changes among rural people. One of the aims of the Department is adopting backward hamlets to change their environment and mind for respectable life. To strengthen the departmental Extension activities as well as the students all round development, the department wishes to exchange the MOU with RASS, NGO, Tirupati.
- The staff members are permitted to participate in Induction and Capacity Building Programmes to meet the academic demands.

Department Objectives:

- To train the students to mastery over the subjects in terms of Literacy Programmes and Rural Development aspects.
- To provide an adequate skill on research methods viz, Qualitative and Quantitative.
- To enhance the sense of Integrity on Adult Learners Problems and Rural People Issues.
- To know and prepare the students to conduct extension and outreach activities.

The Department has been following University and UGC guidelines to enhance, revision and implement the course curriculum for two Post Graduate Programmes. i.e. M.A. Adult Education and M.A. Rural Development and Management. The courses are providing theoretical and practical knowledge to the students. The traits of the course curriculum are development of Cognitive and Effective domain of students and train them as socially responsible citizens. Visit the Institutions, NGO's & Rural areas to draw factual information and do research on thrust areas. In turn the students can get employment in GO's NGO's or start their own social institution. Apart from that the course Inculcates Personal, family, Social values, Human values, Gender equality and Professional values to lead the respectable life. The course emphasis on Employability, Entrepreneurship and Skill Development. The programmes principles and outcomes are meant for students and community development.

Programme Specific Outcomes

To enable the student…

- To Know the Philosophised, Sociological and Psychological background of Adult Education and Learning. Identify the five years policy programmes and Teaching Learning methods (TLM) in Adult Education.
- To Understand the Research Techniques and methods to Identify the problems in Adult Education class management and Learners Issues. To raise the Efficiency among students in field work.
- To enhance the Level of skills to participate in grass rood Level activities and Learning aspects and also visualise the need and Importance of guidance & counselling for Adult Learners.
- To recognise the importance of human Resource in Adult Education Programmers and Identify the need of Environmental Protection and role of NGOS.

Programme Objectives:

To enable the students:

- To understand the basic principles and aspects of Life Long Learning and motivational techniques of Adult Learner.
- To know the importance of different teaching methods, Curriculum and Teaching Learning materials to organize the Literacy classes.
- To acquire training skills, Soft skills and Guidance & Counselling to conduct Literacy classes.
- To recognize the significance of monitoring, Evaluation in Lifelong learning(LLL) and Inclusive Policies for Human Resource Development.
- To conduct action research, Project work and field studies on Literacy aspects and Adult Learners Problems.

Programme Outcomes: POs

After completion of M.A. Adult Education programme the student is able to

- Acquire knowledge in relation to types of education, policies of Adult Education aspects, Adult Psychology & Learning and Evaluation of Adult Education Programmes and progress.
- Identify and Analyse the significance of Teaching Learning materials, Unique Curriculum and Vocational training for Adults to attend the Literacy classes.
- Trace and Investigate the Problems of Adult Learners in terms of Socio, Economic and Cultural aspects and provide guidance & Counselling for Adult learners.
- Design and develop materials and strategies for people participation in Community/ Mass Literacy programmes.
- Conduct Social Research by using and adopting appropriate tools to identify the problems of learners, Teacher educators and ministerial staff in connection with literacy classes.

- Recognise the Literacy importance skills and apply to social reforms and community development.

SRI VENKATESWARA UNIVERSITY: TIRUPATI

S.V.U. COLLEGE OF ARTS

DEPARTMENT OF ANCIENT INDIAN HISTORY, CULTURAL ARCHEOLOGY

Course

M.A. ANCIENT INDIAN HISTORY, CULTURAL ARCHEOLOGY

Choice Based Credit System (CBCS)

Academic Year 2023 – 24

Amended as per NEP-2020

About the department:

The Department of Ancient Indian History, Culture and Archaeology [AIHC&A], Sri Venkateswara University, was established in 1993. The Department is offering two years Post-Graduation (M.A.) in AIHC & Archaeology, P.G. Diploma in Epigraphy (one year evening course) and Ph.D. Research programme encompassing all the specializations. The faculty members are specialized in the fields of Pre and Proto-History, political and cultural history, Epigraphy, Numismatics, Art, Architecture, Museology and Tourism.

Epg pathshala (e-content development an UGC/ MHRD programme under NMIECT)

In these three decades the Department has proved its ability and academic excellence and recognized as one of the best Departments. The commitment of the faculty resulted in achieving this goal. The UGC also recognized the academic activities of the Department and sanctioned E-content development project (**Epgpathshala**) for the post graduation subject **Indian Culture** by selecting Prof. P. Bhaskar Reddy as Principal Investigator, an MHRD programme under NMIECT being executed by UGC with **Rs. 1.12 Crore** during 2015-2018. The e-content for 524 Modules in four quadrants for 15 courses was successfully completed by involving subject experts at national level. The uploaded modules of the programme are in free access in ***www.epgp.inflibnet.ac.in*** and also in several digital platforms through YouTube. The content and its quality is well appreciated by the viewers.

Vision

- The P.G. courses designed as per NEP guide lines 2021 with an aim to impart knowledge and skills in Archaeology, Ancient and Medieval Indian History, Andhra History, Ancient World cultures and influences with emphasis on the study of political, social, economic, religious, cultural development and changes. The content of the courses is designed to fulfill the requirement of UPSC,APPSC, NET and SET aspirants

Mission

- The Dept. Aimed to train the students with profession and knowledge in Archaeology, Tourism, Museology, Soft skill, Laboratory methods in Archeology, Science and Technology to equip the students with the solid foundation to build upon the fundamentals, useful skills and expertise that can assist employment in Tourism Industry, Archaeology and Museums.
- Enlighten the students in several aspects from unidisciplinary approach to multidisciplinary study.
- To train in the knowledge of practical value to students and researchers about different specializations of Archaeological and Cultural History at Regional, National and Global.

Programme Specific Outcomes

- The department is specialized in teaching and research in Archaeology, Ancient and Medieval Indian History and Culture.
- The courses are designed with an aim to impart knowledge and skills in Archeology, Ancient and Medieval Indian History, Andhra history, ancient world cultures and influences with emphasis on the study of political, social, economic, religious, cultural development and changes.
- There are basic courses in core section on history which are thematic and cut across chronological divisions and regional polities.
- The ancient history courses encouraged the study on sources for the study, evolution of social structures, economy, civilizations, religious traditions, cultural developments, political processes as well as historical geography and chronology.
- Emphasis is also given to the study of Medieval history and culture with a focus on transition in Indian history from ancient to medieval and medieval to colonial period, through a reconstruction of structural continuities, regional polities, social and economic developments, as well as changes in the spheres of religion, culture and languages.
- The courses dealing with archaeological studies provide basic concepts, theoretical training in field methods including process of archaeological investigation, excavation techniques, methods of Data retrieval, Chronology and Dating Methods, Prehistory,

Proto-History, Historical Archaeology, Epigraphy, Numismatics, Art and Architecture.

- The Tourism and Museology courses can equip the students with the solid foundation to build upon the fundamentals, useful skills and expertise that can assist employment in Tourism Industry and Museum.

Programme Objectives:

- The P.G. courses are designed as per NEP guide lines 2021 with an aim to impart knowledge and skills in Archaeology, Ancient and Medieval Indian History, Andhra History, Ancient World cultures and influences with emphasis on the study of political, social, economic, religious, cultural development and changes.

Programme Outcomes:

- There are basic courses in core section on history which are thematic and cut across chronological divisions and regional polities.
- The ancient history courses encouraged the study on sources, evolution of social structures, economy, civilizations, religious traditions, cultural developments, political processes as well as historical geography and chronology.
- Emphasis is also given to the study of Medieval history and culture with a focus on transition in Indian history from ancient to medieval and medieval to colonial period, through a reconstruction of structural continuities, regional polities, social and economic developments, as well as changes in the spheres of religion, culture and languages.
- The courses dealing with archaeological studies provide basic concepts, theoretical training in field methods including process of archaeological investigation, excavation techniques, methods of Data retrieval, Chronology and Dating Methods, Prehistory, Proto-History, Historical Archaeology, Epigraphy, Numismatics, Art and Architecture.
- The Tourism ,Museology, Soft skill, Laboratory methods in Archeology, Science and Technology courses can equip the students with the solid foundation to build upon the fundamentals, useful skills and expertise that can assist employment in Tourism Industry, Archaeology and Museums.

- The Department of Ancient Indian History, Culture and Archaeology [AIHC&A], Sri Venkateswara University, was established in 1993. The Department is offering two years Post-Graduation (M.A.) in AIHC & Archaeology, P.G. Diploma in Epigraphy (one year evening course) and Ph.D. Research programme encompassing all the specializations. The faculty members are specialized in the fields of Pre and Proto-History, political and cultural history, Epigraphy, Numismatics, Art, Architecture, Museology and Tourism. .

Programme Educational Objectives (PEO's):

- The AIHC& Archeology is designed to enlighten the students in several aspects from unidesciplinary approach to multi disciplinary.
- The content of the cores are aimed to impart knowledge to the aspirants of UGCNET, APPSAC and other competitive examination.

RESTRUCTURED CURRICULUM FOR AIHC & Archaeology

UNIT- I:

Ancient Egyptian Civilization - Sources - Geographical Factors - The Old Kingdom - The Middle kingdom – The New Kingdom - Egyptian Society –Government - Economy -Religion - Art and Architecture.

Mesopotamian Civilization - Geographical Factors - The Sumerians and city - States - The Babylonian Empire - Science - Literature, Society

UNIT-II:

Law Codes of Hammurabi - Hittite conquest - Assyrian conquest - The Chaldean or New Babylonian empire - Persian Invasion [539 B.C.]

Ancient Greece - Historical background - Geographical influence -Development of city - states - Athenian Democracy - Wars with Persia [492 B.C.]

UNIT-III:

Greek Philosophy - Education - Literature - Science - Art and Architecture - Decline of Greece - the Age of Alexander the Great.

Ancient China - Geographical factors - Political history - The Han dynasty Polity - Economic conditions - Trade and Commerce.

UNIT-IV:

Ancient China Religion and Philosophy - Buddhism - Confucianism –Taoism - Art and Architecture.

Ancient Rome - Geography of the Italian peninsula - The age of the Kings -The Roman Republic - Conquest of Italy [366-264 B.C.] - The Punic Wars -Republic to Empire [133 to 31 B.C.]

UNIT -V :

The first Triumvirate. - Rule of Julius Caesar [49-44 B.C.] - Society - Religion - Philosophy – literature - Art and Architecture - Engineering and Technology.

Indus Civilization – Origin – extent - Urbanization its features Art and Architecture - Harappan society - Economy, Agriculture, Trade and Commerce - Religion - Script - End of Indus Civilization.

Suggested readings:

1. Wooley L and Hawker, J. - History of Mankind, UNESCO, Vols. 1-3.
2. Chester G Starr.-History of Ancient World, Oxford University Press, New York, 1974.
3. Max Savelle. - A History of World Civilization, New York, 1963.
4. Swain Edgar. - History of World Civilization, McGraw Hill Book Co., 1984.
5. Wells, HJ. - A Short History of the World, New Delhi, 1922 [2nd Ed. 2007].
6. Herman Schinider. - History of the World Civilization, London, 1931.
7. Hutchinson Ancient World History of Civilization.
8. Breastead, J.H. - A History of Egypt, New York, 1909.
9. Oppenhiem, A.L. - Ancient Mesapotamia, Chicago, 1964.
10. Delaportie, L. - Mesopotamian civilization, New York, 1925.
11. Finely, M.I. - Ancient Greeks, Penguin Books, Reprint, 1991.

12. Bury, J.B. - A History of Greece, New York, 1951.

13. Fair bank, J.K., - [Ed]., Ancient Cities of Indus.

14. Allchin, B., &. Allchin, R., - The Rise of Civilization in India and Pakistan, Revised edition, 1983.

15. Possell George [ed], Ancient Cities of Indus, New Delhi, 1979.

16. Bodo Veethoff, - Introduction to Chinese history from Ancient times to 1912, London.

17. Mommensen, T., - History of Rome, New York, 1903.

Course Outcome:

- Students gain familiarity with the rise and characteristic features of the ancient world Civilizations, its regional extent and variation.
- Students can understand the glory of the civilizations, the nature of its cities and material remains and institutions.

105	**PRINCIPLES AND METHODS OF ARCHAEOLOGY**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- This course introduces to the students the basic concept of Archaeology, the definition, aims and scope of archaeology and its development as a discipline, practical approaches in archaeology, highlighting their applications in interpreting the human past.
- The course includes theoretical training in field methods including process of archaeological investigation from the discovery of sites to their excavation and analysis excavation techniques, methods of Data retrieval, Chronology and Dating Methods, Documentation, Conservation and Preservation, and the role of archaeology in heritage management

UNIT- I:

Archaeology - Definition and Scope - Relationship with History, Anthropology and pure Sciences - Kinds of Archaeology.

UNIT-II:

History of Indian Archaeology – Foundation for Indological Studies-Sir William Jones-Establishment of Asiatic Society – James Prinsep -Alexander Cunningham - Robert Bruce Foote – John Marshall –Mortiner Wheeler.

UNIT-III:

Archaeological Explorations - Aims and Methods of Exploration – Chance finds – Maps and place names – Scientific methods of explorations – Aerial photography - Remote sensing GPS (Global Position System) - Geographic Information system – Excavation – Purposes - Methods of Excavation – Vertical and Horizontal Excavations – Burial excavations.

UNIT-IV:

Field Conservation and Preservation – Documentation and Data Analysis - Dating Methods in Archaeology - Relative and absolute methods of dating, Thermolumineiscence - Radio Carbon dating – Dendrochronology.

UNIT -V :

Marine Archaeology – Aim and scope – Objectives of Marine Archaeology – The Equipments used in Marine Archaeology – Sources for the study of Marine Archaeology – Birth of Marine Archaeology – Marine History of India with special reference to Dwaraka. Establishment of Marine Archaeology in India.

Suggested readings:

1. Wheeler, R.E.M.,- Archaeology from the Earth, Oxford, 1954.
2. Childe, V.G., - Piecing together the past, London, 1956.
3. Graham Clark., - Archaeology and Society, London, 1960.
4. Raman, K.V.,-Principles and Methods of Archaeology, Madras, 1986.
5. Srivatsava, K.M.,-New Era of Indian Archaeology, New Delhi, 1990.
6. Michael H Dey., - Fossil Man, London, 1972.
7. Butzer, K.W., - Geomorphology from the Earth, New York, 1982.
8. ShinlyGoreinstein - An Introduction to Archaeology
9. Dilip K Chakrabarthi- India: An Archaeological History, New Delhi, 2001.
10. Daniel Glyn., - The Origin and Growth of Archaeology, Penguin books, 1967.
11. Paddayya, K., -New Archaeology and its aftermath, Pune, 1990.
12. K. Rajan,- Archaeology, Principles and Methods, Manoopathippakam, Thanjavur, 2002.

Course Outcome:

- Students can develop a strong foundation on the basic understanding of the nature, fundamentals, development and value of archaeology as a discipline.
- Familiarized with basic descriptive technique and preliminary study of various categories of objects and the practical methods of doing Archaeological work.

106	**HUMAN VALUES AND PROFESSIONAL ETHICS –I**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- The ethos of Indian culture has been value-oriented throughout the ages.
- The rich literary heritage of India is a treasure of values and ethics to be acquired, pursued and imparted to the future generations of the present day.
- An enquiry into varying dimensions of human values may lead to furtherance of our knowledge and to ethical values suited for the modern world.

UNIT- I:

Definition and Nature of Ethics- Its relation to Religion, Politics, Business, Legal, Medical and Environment.Need and Importance of Professional Ethics - Goals - Ethical Values in various Professions.

UNIT-II:

Nature of Values- Good and Bad, Ends and Means, Actual and potential Values, Objective and Subjective Values, Analysis of basic moral concepts- right, ought, duty, obligation, justice, responsibility and freedom. Good behavior and respect for elders, Character and Conduct.

UNIT-III:

Ahimsa (Non- Violence), Satya (Truth), Brahmacharya (Celibacy), Asteya (Non-possession) and Aparigraha(Non- stealing). Purusharthas(Cardinal virtues)-Dharma (Righteousness), Artha(Wealth), Kama(Fulfillment Bodily Desires). Moksha(Liberation).

UNIT-IV:

Bhagavad Gita- (a) Niskama karma. (b) Buddhism- The Four Noble Truths – AryaAstangamarga, (c) Jainism- mahavratas and anuvratas. Values Embedded in Various Religions, Religious

Tolerance, Gandhian Ethics.

UNIT -V :

Crime and Theories of punishment- (a) Reformative, Retributive and Deterrent. (b) Views on manu and Yajnavalkya.

Suggested readings:

John S Mackenjie: A manual of ethics.

2. The Ethics of Management" by Larue Tone Hosmer. Richard D. Irwin Inc.

3. "Management Ethics' integrity at work' by Joseph A. Petrick and John F. Quinn. Response Books: New Delhi.

4. "Ethics in Management" by S.A. Sherlekar, Himalaya Publishing House.

5. Harold H. Titus: Ethics for Today

6. Maitra, S.K: Hindu Ethics

7. William Lilly: Introduction to Ethics

8. Sinha: A Manual of Ethics

Course Outcome:

- Students can understand the need and importance of human values and professional ethics which are essential for positive human behavior and actions in our daily lives.
- They inspire the fundamental goodness of human beings and society at large.

	II SEMESTER	
201	**HISTORY OF INDIA FROM 550 A.D TO 1206 A.D.**	**CREDITS -4**
Sessional Marks 20		**End semester Examinations Marks 80**

Objectives:

- This course aims at imparting comprehensive historical knowledge pertaining to the early medieval India. This age witnesses the emergence of various local and regional dynasties in North and south India and their place in history and culture are dealt in detail.

11. Sherwani, H.K. - History of the QutbShahi dynasty, New Delhi, 1974.
12. Richards, J. - Mughul Administration in Golkonda, Oxford, 1975.
13. Narayana Rao, V- Symbols of substance, Court and State in Nayaka period, OUP, 1992.
14. Satyanarayana, K. - A Study of the History and Culture of the Andhras, Vol. II, 1983.

Course Outcome:

- This course provides comprehensive knowledge on the last imperial political formation in South India and the history of Vijayanagara, Bahmani and contemporary pretty powers.
- It helps to understand with the context of polity, economy, culture, religious and ideological changes.

203-B	**PRE AND PROTO HISTORIC CULTURES OF INDIA**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- The course intended to provide knowledge on the basic features of prehistoric archaeology, quaternary periods, pre-historic sites, and India's place in human evolution.
- The focus then shifts to different traits associated with Palaeolithic, Mesolithic and Neolithic are discussed.
- To give a holistic view besides the tools and techniques, different aspects of Rock Paintings, habitation features and burials practices of the early man are highlighted.
- It also tracks the development and spread of agriculture during the Neolithic, through to the rise of Harappan urbanism.
- The Early Iron Age and its cultures notably Painted Gray Ware & Northern Black Polished ware cultures associated with early historic city sites are discussed.

UNIT- I:

Definition, scope, terminology and periodisation - Quaternary Period: position of prehistory in geological chronology, climatic conditions - Prehistoric sites: type and nature of sites, landscape configuration, primary and secondary sites - Stone tool technology, typology, material and study of stone artifacts - Hominid fossils and the question of human evolution: Human evolution tree, Australopithecus, Homohabilis, Homo erectus, Neanderthal, Java man, Peking man and other major hominidae fossil evidences. India 's place in the current scheme of human evolution – Narmada skull and other discoveries .

UNIT-II:

A Historiographical perspective – from Robert Bruce Foote till the present - Palaeo-environment conditions with special reference to Potwar plateau and Kashmir , Rajasthan, Son valley, Teri sites, etc - Survey of Lower Palaeolithic cultures - Middle Palaeolithic cultures - Survey of Upper Palaeolithic cultures, - Survey of Mesolithic cultures - distribution, artefacts, technology, raw material, economy, contextual occurrence of tools, chronology, types of sites in India - Rock Art : (a) Recording system, interpretation of rock art, dating of rock art - (b) Survey of rock art in India

UNIT-III:

Protohistory: Definition, scope, terminology - Beginning of agriculture and domestication of animals and plants - distribution, artefacts, technology, raw material, economy, question of microliths, pottery, etc in association with animal domestication - Survey of Neolithic cultures - Chalcolithic cultures of North, Deccan and South.

UNIT-IV:

HarappanCivilization : Ravi , Hakra and Amri cultures Early - Harappan period, concept and evolution of terminology, characteristic features, different cultural zones during early Harappan period and distribution pattern - Late / Post Harappan period.

UNIT -V :

Iron Age Cultures : Antiquity of iron in India - Painted Grey Ware culture - Distribution pattern, relation to late Harappan culture - Survey of PGW sites in Pakistan and India - Megalithic cultures of India : Distribution pattern, different types of megaliths, survey of various regional types of megaliths including rock-cut chambers - Habitation sites.

Suggested readings:

1. Ghosh, A., - Encyclopaedia of Indian Archaeology, Vol. I and II, New Delhi.
2. Allchin, F.R., et.al., - The Rise of Civilization in India and Pakistan, Cambridge, 1996.
3. Allchin, Bidget and Raymond., - The Birth of Indian Civilization, London, 1968.
4. Agarwal, D.p., - Archaeology of India, Delhi, 1970.
5. Sankalia, H.D., - Pre-History and Proto History in India and Pakistan, Bombay, 1962.
6. Subba Rao, B., - Personality of India, Baroda, 1958.
7. Walter Fairservis, Roots of Ancient India, London, 1971.
8. Journals -Man and Environment.

9. Dhavalikar, M.K., - Indian Proto History, 1997.
10. Dhavalikar, M.K., - Historical Archaeology of India, 1999.
11. Wheeler, R.E.M., - Indus Civilization, Cambridge University Press, 1967.
12. Gregory Possehl, - Ancient Cities of the Indus, Bombay, 1979.
13. I. S. Banerjee, N.R., - The Iron Age in India, Delhi, 1965.
14. Allchin, F.R. -The Archaeology of Early Historic South Asia, Cambridge, 1995.
15. Dilip K Chakrabarthi, - India - An Archaeological History, New Delhi, 2001.
16. S. Settar, Ravi Korisettar [ed], Indian Archaeology in Retrospect Prehistory, Archaeology of South Asia, ICHR, Manohar, 2002.

Course Outcome:

- Students will develop a strong foundation and critical understanding of the pre-proto cultures of India and will be able to situate Indian materials within wider archaeological debates.

204	HISTORICAL ARCHAEOLOGY	CREDITS -4

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- The course aimed to impart knowledge on studying the history and culture in conjunction with the help of written records.
- The study focuses on inscriptions, coins, monuments, royal documents, oral history and eye witnesses with their importance in writing the history from Mauryan period up to contemporary age
- The cultural sequences reflected in the ancient historical sites also dealt in detail.

UNIT- I:

Definition and scope - Brief review of archaeology of pre-Mauryan period from 6th century B.C. to 4th century B.C. and contemporary cultural assemblage including potteries of the sub-continent Technology and elements of economy – Historical Urbanization

UNIT-II:

Archaeology of post-Maurya period (2nd century B.C. to end of 3rd century A.D.). - Archaeology of the period of the Guptas and other contemporary dynasties (4th century A.D. to 6th century A.D.).

UNIT-III:

Archaeology of 7th century A.D. to 10th century A.D. in different regions - Archaeology of 11th century A.D. to 13th century A.D. in different regions.

UNIT-IV:

Archaeology of 14th century A.D. to 16th century A.D. in different regions. -Archaeology of 17th

century A.D. to 19th century A.D. in different regions.

UNIT -V :

Cultural sequence of important sites: Taxila - Kausambi - Sanchi - Sishupalgarh - Chandraketugarh - Hampi - Sannati - Nagarjunakonda - Arikamedu - Mathura - Sravasti - Brahmagiri - Nalanda

Suggested readings:

1. Allchin, The Birth of Indian Civilizations.
2. Lal, B.B., - Indian Archaeology since Independence.
3. Marshal, J, - Taxila [3 Vols.] Cambridge, 1951.
4. Dilip K Chakrabarthy, India - An Archaeological History, New Delhi, 1999.
5. Gupta, S.P., [Ed.] Mahabharata, Myth and Reality - Differing views, Delhi, 1976.
6. Sankalia, H.D., - The Ramayana in the Historical Perspective, Delhi,1982,
7. Sinha, K.K., - Excavations at Sravasti, Varanasi, 1967.
8. Ghosh, A., - The City in early historical India.
9. Ghosh, A., - Encyclopaedia of Indian Archaeology.
10. Longhurst, A.H., & Ramachandran, T.N., - Nagarjunakonda.
11. Sankalia, H.D., &Dikshit - Excavations at Brahmapuri.
12. Indian Archaeology - A Review - Volumes.
13. Ancient India - Volumes and Excavation Reports.

Course Outcome:

- The students can understand thoroughly the nature of the historical archaeology and their importance in historical and cultural studies.
- Able to interpret and writing the history with the help of written records.

205	HUMAN VALUES AND PROFESSIONAL ETHICS –II	CREDITS -4

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- The ethos of Indian culture has been value-oriented throughout the ages.
- The rich literary heritage of India is a treasure of values and ethics to be acquired, pursued and imparted to the future generations of the present day.
- An enquiry into varying dimensions of human values may lead to furtherance of our knowledge and to ethical values suited for the modern world.

UNIT- I:

Value Education- Definition - relevance to present day - Concept of Human Values - self introspection – Self-esteem - Family values-Components, structure and responsibilities of familyNeutralization of anger - Adjustability - Threats of family life - Status of women in family and society - Caring for needy and elderly - Time allotment for sharing ideas and concerns.

UNIT-II:

Medical ethics- Views of Charaka, Sushruta and Hippocratus on moral responsibility of medical practitioners. Code of ethics for medical and healthcare professionals. Euthanasia, Ethical obligation to animals, Ethical issues in relation to health care professionals and patients. Social justice in health care, human cloning, problems of abortion. Ethical issues in genetic engineering and Ethical issues raised by new biological technology or knowledge.

UNIT-III:

Business ethics- Ethical standards of business-Immoral and illegal practices and their solutions.Characteristics of ethical problems in management, ethical theories, causes of unethical

behavior, ethical abuses and work ethics.

UNIT-IV:

Environmental ethics- Ethical theory, man and nature- Ecological crisis, Pest control, Pollution and waste, CI imate change, Energy and population, Justice and environmental health. 20 -20-

UNIT -V :

Social ethics- Organ trade. Human trafficking.Human rights violation and social disparities, Feminist ethics.Surrogacy/pregnancy. Ethics of media- Impact of Newspapers, Television, Movies and Internet.

Suggested readings:

1. John S Mackenjie: A manual of ethics.
2. The Ethics of Management" by Larue Tone Hosmer. Richard D. Irwin Inc.
3. "Management Ethics' integrity at work' by Joseph A. Petrick and John F. Quinn. Response Books: New Delhi.
4. "Ethics in Management" by S.A. Sherlekar, Himalaya Publishing House.
5. Harold H. Titus: Ethics for Today.
6. Maitra, S.K: Hindu Ethics.
7. William Lilly: Introduction to Ethics.
8. Sinha: A Manual of Ethics.
9. Manu: Manava Dharma Sastra or the Institute of Manu: Comprising the Indian System of Duties: Religious and Civil (ed.) G.C.Halighton.
10. SusrptaSamhita: Tr.KavirajKunjanlal, KunjalalBrishagratha. Chowkarnba Sanskrit series. VolLlI and Ill, Varnasi, Vol I 00,16'20,21-32 and 74-77 only.
11. CarakaSamhita :Tr.Dr. Ram Karan Sarma and VaidyaBhagavanDash,Chowkambha Sanskrit Series office. Varanasi I, 11.111 VolIPP 183-191.
12. Ethics, Theory and Contemporary Issues. Barbara Mackinnon Wadsworth/Thomson Learning, 2001.
13. Analyzing Moral.Issues, Judith A. Boss. May Field Publishing Company - 1999.
14. An Introduction to Applied Ethics (Ed.) John H.Piet and Ayodhya Prasad. CosmoPublications.

15. Text Book for Intermediate First Year Ethics and Human Values. Board of Intermediate Education- Telugu ~ Akademi, Hyderabad.
16. I.C Sharma Ethical Philosophy of India. Nagin & co Julundhar.

Course Outcome:

- Students can understand the need and importance of human values and professional ethics which are essential for positive human behavior and actions in our daily lives.
- They inspire the fundamental goodness of human beings and society at large.

III SEMESTER		
301	**EPIGRAPHY**	**CREDITS -4**
Sessional Marks 20		**End semester Examinations Marks 80**

Objectives:

- The course is designed to impart basic professional knowledge about the studies in inscriptions.
- The course introduces to the students the meaning, scope and relevance of Palaeography and Epigraphy in general, the antiquity of writing ,the decipherment of Indus script, Kharohshti script and Brāhmī script, their origin, features and development
- The course also intended to focus on types of inscriptions, inscription format, languages, writing materials, dating methods, and numerals.
- This course also introduces to the students the significance and reliability of some of the important Indian inscriptions.

UNIT- I:

Epigraphy as source for the reconstruction of Indian History - History of Epigraphical studies in India.

UNIT-II:

Origin and Antiquity of writing in India - The Indus script -General Features attempts at decipherment

UNIT-III:

The Brahmi script - its characteristics - History of its development - The Kharoshthi script - its characteristics - Origin - distribution and its end - Evolution of Telugu Kannada scripts.

UNIT-IV:

Types of Inscriptions and their general characteristics - Methods of Dating of inscriptions Eras - Writing materials.

UNIT -V : Detailed Study of the following Inscriptions

a) Erragudi edit of Asoka [CII; Vol. I, EI Vol. XXXII],

b) Hathigumpha inscription of Kharavela [EI. Vol. XX].

c) Nasik inscription of Pulumavi [EI. Vol. VIII].

d) Girnar rock inscription of Rudradamam [EI. Vol. VIII].

e) Nagarjunakonda inscription of Rudrapurushadatta, year 11 [EI Vol. XX.].

f) Guntupalli Pillar inscription ofSalankayanaNandivarma [EI Vol. XIII].

g) Allahabad pillar inscription of Samudragupta [CII, Vol. Ill]

h) Aihole inscription of Pulakesi II [EI Vol. VI],

i) Kalamalla inscription of RenaticholaDhananjaya [EI Vol.XXVII],

j) Ahadanakaram plates of Eastern ChalukyaVishnuvardhana [Telugu portion] [JESI-Vol.I]

k) Chebrolu inscription of Jayappanayaka [EI Vol. V],

l) Santanasagara inscription of PedakomatiVemaReddi [EI XI].

m) Gaya inscription of Krishnadevaraya [EI Vol. XXXIII].

Suggested readings:

1. Buhler, G., - Indian Palaeography.
2. Pandey, R.B., - Indian Palaeography, 1952.
3. Sircar, D.C., - Indian Epigraphy, Delhi, 1965.
4. Sivarama Murthy, C., - Indian Epigraphy and South Indian Scripts, Madras, 1952.
5. Mahalingam, T.V., - Early South Indian Palaeography, Madras, 1974.
6. Ramesh, K.V., - Indian Epigraphy.
7. Ojha, G.H., - BharatiyaPrachinaLipimala [Hindi], 2nd Ed., Ajmer, 1980.

8. Krishna Reddy, N., - SasanaParichayam [Teluguj, Tirupati, 1992.
9. Relevant volumes of Corpus Inscriptions Indicarum [CII].
10. Relevant volumes of EpigraphiaIndica [EI].
11. Richard Solomon : Indian Epigraphy – A Guide to the study of inscriptions in Sanskrit, Prakrit and the other Indo-Aryan Languages, New York, 1998.
12. Gai G.S.: Introduction to Indian Epigraphy, Mysore, 1986

Course Outcome:

- Students will be able to understand the profession knowledge on decipher and read scripts; assess the date of inscriptions with the help of paleographic features.
- Able to understand the different languages used in inscriptions, interpret the inscription in its Political. Socio-economic and Religious context.

302	HISTORY OF INDIAN ARCHITECTURE	CREDITS -4

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- The course surveys the origin and evolution of architecture in India and their transformation through the ages.
- The various architectural features embedded in the ancient monuments viz, rock-cut and structures of religious and secular, their technique, style, regional variations, artistic skills, influences would be thrown open to the students to understand the heritage monuments of this country in right perspectives.

UNIT- I:

Introduction and Sources (Texts on Architecture) – Terminology – Three styles of Temple Architecture – Harappan Architecture - Mauryan Architecture.

UNIT-II:

Buddhist Architecture – Concepts and components – Buddhist cave Architecture – Early Phase – Later Phase – Buddhist Structural Architecture – Stupas of North India – Bharhut – Sanchi - Saranath –Amaravati - Nagarjunakonda – Bhattiprolu - Chaityagrihas and Viharas.

UNIT-III:

Early Hindu Cave Architecture – Gupta period-Cave Architecture in Andhradesa – Vijayawada – Mogalrajapuram – Undavalli – Bhairavakonda - Early Chalukya – Rock cut Architecture - Structural temples – Aihole, Badami and Pattadakal – Pallava – Rock-cut caves – Monolithic Rathas – Structural temples - Mahabalipuram and Kanchipuram – Rashtrakuta – Ajantha - Ellora - Greater Kailas temple.

UNIT-IV:

North Indian Structural Temple Architecture – Gupta Architecture – Sanchi, Bhumara, Nachanakutara and Deogarh – Orissan Architecture, Bhuvaneswar, Puri and Konark – Central Indian style – Khajuraho.

UNIT -V :

South Indian Architecture – Chola architecture – Tanjore, GangaikondaCholapuram - Hoyasala architecture – Belur, Halebid, Somanathpur - Kakatiya - Hanumakonda, Pillalamarri, Palampeta and Warangal -Vijayanagara - Hampi.

Suggested readings:

1. Percy Brown - Indian Architecture, Vol. I, Bombay, 1956.
2. DebalaMitra - Buddhist Monuments, Calcutta, 1971.
3. Srinivasan, K.R., - Temples of South India, New Delhi, 1971.
4. Krishnadeva - Temples of North lndia, New Delhi, 1969.
5. James Harle - Art and Architecture of India.
6. Rajendra Prasad, B.,-Art ofSouth India, Andhra Pradesh, Delhi, 1980.
7. Maichael Meister - Encyclopaedia of Indian Temple Architecture.

Course Outcome:

- Students will able to understand the evolution of architecture in India and their transformation through the ages in their religious, regional and stylistic context.
- Can gain theoretical knowledge about the basic philosophy, fundamental aspects and multifaceted nature of Architecture.

303	HISTORIOGRAPHY AND HISTORICAL METHOD	CREDITS -4

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- This course aims at developing greater understanding the meaning, scope, purpose, principles and facets of history.
- It also aims at introducing the student to the main features of research methodology
- This course is intended to familiarize the students with approaches to historical studies in the twentieth century with a focus on prominent historians and on the development of historical writing in modern India.
- It makes a critical evaluation of the impact of Orientalism on Indian historiography, the Imperialist, Nationalist, Class, Elite, Subaltern and Gender approaches and their influence on the writing and interpretation of Indian history.

UNIT- I:

Meaning, Definition of History - Scope of History- Importance of its study– Philosophy of History – Historian and his facts - Influence of Society on the Historian - History as Science or Art – Causation in History.

UNIT-II:

Research Methodology : Heuristics – Hermeneutics – Synthesis – Exposition - Objectivity – Errors in History – History and its relations with other Social Sciences.

UNIT-III:

Sources of Indian History: Ancient and Medieval -Contributions of Kautilya, Banabhatta – Kalhana – Alberuni - Alexander Cunningham - John Marshall, Robert Swell to Indian Historiography.

UNIT-IV:

Development of Western and Arab Historiography – Classical period Herodotus, Thucydides - Medieval period : Church Historiography – St. Aungustine; Arab Historiography : Ibn Khaldun – Modern Period : Hegal, Spengler and Toynbee.

UNIT -V :

Eminent Indian Historians : D.D. Kosambi, K.A.N. Sastri – Modern Indian Historiography : Historiography of the Indian Freedom Movement – Nationalist School - Cambridge School - Marxist School - Subaltern School.

Suggested readings:

1. Arthur Marwick, *The Nature of History*, London, 1970.
2. E. H. Carr : What is History, Penguin Books, 1969.
3. B. Sheik Ali : History, its theory and Method, Delhi, 1978.
4. M Block : The Historians Craft, New York, 1953.
5. R. G. Collingwood : The Idea of History, New York, 1993.
6. J.W. Thomson , History of Historical Writings[2 Vols.], New York, 1942.
7. Waleh, W.H, An Introduction to the Philosophy of History, London, 1951.
8. K. A. N. Sastry&Ramanna : Historical method with special reference to Indian History, Madras, 1966.
9. R. K. Majumdar& Srivastava A.N., Historiography, Delhi [6 ed.] 1999.
10. Aron, Raymond, Introduction to the Philosophy of History, London, 1960.
11. Butterfield, Herbert, *History and Human Relations*, London, 1951.
12. Dray, William, H., *Philosophy of History*, New York, 1960.
13. P. Gardiner, *Theories of History*, New York, 1969.
14. Lowith, Karl, *Meaning in History*, London, 1970.
15. A.L. Roose, *The Use of History*, London, 1963.

Course Outcome:

- It provides a critical overview of one of the most dynamic areas of modern historical inquiry—global history.
- The students can familiarize with historical studies, the theories and methods used in the practice of history writing.
- Students also gain foundation knowledge on Historical Methods and fundamentals of research methodology.

304-A	HISTORY OF MODERN ANDHRA FROM 1724 AD TO 1956AD	CREDITS -4

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- The course aimed to impart comprehensive knowledge of the history of modern Andhra in context of regional as well with national events.
- The course introduces coming of Europeans, establishment of Asafjahi dynasty, Andhra under company and crown rule, role of Andhras in various phases of freedom movement.
- The study also intended to focus on the movement of separate Andhra state , movement for formation of Andhra Pradesh

UNIT- I:

Andhra under the Company Rule : Anglo-French rivalry and the rise of English East India Company, Acquisition of Northern Circars 1766, Nizam – British Relations – securing ceded districts – Consolidation of company rule in Andhra – Administration – Revenue - Irrigation – Agriculture development – Agrarian settlements – Thomas Munro and his reforms – Education - 1857 Mutiny and its impact.

UNIT-II:

Telangana under the Nizam'srule :Salarjung reforms – Social and Economic conditions in Telangana under the Asafjahi dynasty in 19th century.

UNIT-III:

Andhra under the Crown : Irrigation – Economy and its impact on society – Role of Missionaries - Social Reform movements – KandukuriVeereshalingam, RaghupatiVenkataratnam – Rise of

Nationalism – Press, Communications, Political Associations – Indian National Congress – Growth of Nationalist ideas – Political consciousness in Andhra.

UNIT-IV:

Nationalist Movement :Vandemataram Movement and its impact – Home Rule and Non-Brahmin Movements – Non-Cooperation Movement - Visit of Simon Commission, Civil Disobedience Movement in Andhra – Alluri Seetharamaraju – Rampa rebellion – 1922-24 - Quit India Movement

UNIT -V :

Andhra movement : Origin and Growth – Andhra Mahasabhas – Role of Nizam - Government of India Act 1935 – Congress in Power 1937-39 – Growth of left ideology – Attainment of Independence – Movement for separate Andhra - Martyrdom of PottiSriramulu – J.V.P. Report Formation of Andhra State, 1953 - Gentlemen's Agreement, Emergence of Andhra Pradesh, 1956.

Suggested readings:

1. Rao, P.R., Modern History of Andhra Pradesh, New Delhi, 1985.
2. Bipin Chandra, Modern India, New Delhi, 1986.
3. Venkatarangaiah, M., The Freedom Struggle in Andhra Pradesh Volume, Hyderabad, 1965.
4. Waheed Khan, H.W., Brief History of Andhra Pradesh, Hyderabad, 1972. Ramana Rao, A.V., Economic Development of Andhra Pradesh, [1766-1957].

13. Douglas Pierce, - Tourism Today; a Geographical Analysis.

14.Sivanagi Reddy, E., - Andhra Pradeshlo Tourism; Vanarulu – Avakasalu [Telugu], Hyderabad, 2003.

15. George Young, Tourism – Blessing or Blight.

16. Ram Acharya, - Tourism in India.

17. Mistra, K.S., - Tourism in India.

18. PranNath Seth, - Successful tourism Management.

Course Outcome:

- The students can familiarize the knowledge needed to excel in tourism activities.
- It will equip the students with the solid foundation to build upon the fundamentals, useful skills and expertise that can assist employment in Tourism Industry

404-A	**MUSEOLOGY**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- The objective of this course is to introduce students to the purpose and functioning of museums.
- The importance of museums in linking archaeology with public education is stressed.
- The prime aim of the course is to impart knowledge on the meaning and scope of museum ,its history, importance of museum and museology, types of museums, acquisition, documentation , methods and principles of exhibition, Architectural aspects, educational activities, management , conservation and preservation.

UNIT- I:

Introduction to Museology-Definitions of Museology - History of the Museum Movement in the world History and development of Museums in India. Types of Museums - their Scope and Functions.

UNIT-II:

Museum collections - Documentation and Exhibition. Collection Policies, Ethics and Procedures

Collection methods : Field exploration – Excavation – Purchase Gift and Bequests – Loans – Exchanges – Treasure trove and others.

Documentation : Registration, Accessioning, Cataloguing, Indexing,

De-Accession - Museum equipment. Methods of Display - Temporary and circulating exhibitions

UNIT-III:

Organization of Museum – Educational programmes and activities -Research based on Museum collections.

Museum Publications:[Catalogues, Guide books, Brochures, Worksheets, Pamphlets, Posters, Picture cards etc.]. Museum Management and administration. Museum security - internal and

external.

UNIT-IV:

Conservation - History of Archaeological conservation. Restoration and Preservation - Principles and guidelines of Conservation. Museum exhibits, Material classification, Organic and Inorganic – Causes of decay – Measures of Conservation

UNIT -V :

Special study of the Museums

National Museum - Delhi

Salarjung Museum - Hyderabad

Nagarjunakonda Museum - Nagarjunakonda

State Archaeology and Museums- Hyderabad.

Sri Venkateswara Museum - Tirumala Tirupati Devasthanams

Suggested readings:

1. Nigam, M.L., - Fundamentals of Museology, Hyderabad, 1966 [Rev. 1985].
2. Sivaramamurthy, C., - Directory of Museums in India.
3. Grace Morley, - Museum Today, 1967.
4. Mookerji, Ajit, - Museum Studies.
5. Markham, S.F. &Hargreves, H., - The Museums of India.
6. Smith G Bakshi, - Modern Museum.
7. UNESCO, Organisation of a Museum.
8. UNESCO, Conservation of Cultural property.
9. Plenderlith, H.J., - The Conservation of Antiquities and work of Art, London, 1957.
10. Agarwal, R.C. – Conservation.

Course Outcome:

- Students can learn the basic nature, functions of museums and their activities.
- The students were able to acquire the essential skills and knowledge needed for Museum profession.

404-B	INDIA'S EARLY CULTURAL CONTACTS WITH OTHER COUNTRIES	CREDITS -4

Sessional Marks 20 **End semester Examinations**

Marks 80

Objectives:

- This course is designed to provide a broad picture of contacts between India and South East Asia in terms of cultural, religious and economic exchanges. The Spread of Religions, influence of art and Architecture are analyzed. The Concepts of Kingship, State, Statecraft and Theories of Divine Origin will be reviewed.
- The influence of Indian culture on Central Asia, Japan, Tibet, Persia, Greece, Rome, Indo-China also discussed

UNIT- I:

Sources of study – Nature and Antiquity of Cultural contacts of Hindu Colonization in South East Asia – Hinduised States in Kambuja –Champa - Srilanka

UNIT-II:

Hindu civilization in SuvarnaBoomi – Malay peninsula – Indonesia – Java – Bornia – Sumatra and Bali – Religion – Art and Architecture

UNIT-III:

Indian Influence on the History and Culture of Burma and Siam - Influence of Indian Religion – Literature – Art and Architecture.

UNIT-IV:

Influence of Indian Culture on Central Asia – Japan and Tibet. Religion – Literature and Art.

UNIT -V :

Cultural contacts between India and China – Afghanistan – Persia – Greece and Rome – Literature and Art.

Suggested readings:

1. MajumadarR.C. : Hindu Colonies in the Far East.

2. MajumadarR.C. : Ancient Indian Colonization in South East Asia.
3. NilakantaSastray K. A.: Champa, Suvarnadvipa and Kambujadesa.
4. NilakantaSastry K. A.: South Indian influence in the Far East.
5. NilakantaSastry K. A.: The Kingdom of Srivijaya.
6. Sircar H.B.: Indian Influence on Jawa and Bali.
7. Vogel J.: Buddhist Art in India Ceylon and Jawa
8. Coedes G.: Hinduised States of South East Asia
9. RegionaldLemay : Culture of South East Asia
10. Bagchi P.C: India and China.
11. Bagchi P.C: India and Central Asia
12. Regmy : History of Nepal.
13. Ghosal U.N. : Indian Culture in Afghanistan.

Course Outcome:

- Cross regional cultural diffusion has been an important aspect of historical evolution. A strong and vibrating civilization having its impact felt upon other contemporary cultures has been a common phenomenon of history.
- Student can understood well India's early cultural contacts and its influence in South East Asia, Central Asia, Persia, Indo-China Greece and Rome

405-A	INTRODUCTION TO INDIAN ARCHAEOLOGY	CREDITS -4

Sessional Marks 20 **End semester Examinations**

Marks 80

Objectives:

This course introduces to the external elective students the basic concept of Archaeology, the definition, aims and scope of archaeology and its relevance to other sciences, pre-proto historic cultures and also importance of epigraphy and numismatic studies.

UNIT- I:

Definition - Aim - Scope and Function of Archaeology

UNIT-II:

Archaeology and its Relations with other Disciplines - Social Sciences -Natural Sciences - Physical Sciences.

UNIT-III:

Pre-Proto and Early Historic Periods.

UNIT-IV:

Indian Epigraphy - Scope, Use and Function - Origin of Writing in India - Ancient Scripts and Languages - Paleographic Formula - Writing Materials.

UNIT -V :

Indian Numismatics - Scope, Use Function - Origin of Coinage inIndia - Examination of a Coin.

Suggested readings:

1. Sankalia, H.D : Pre and Proto history of India and Pakistan
2. Sankalia, H.D : Indian Archaeology Today
3. Alchn, Bridget and Raymond : Birth of Indian Civilization
4. Childe, Gordon : What happened in History?
5. Pandey, R.B : Indian Paleography.
6. Gupta, PL : Coins
7. Glyn Daniel : 150 Years of Archaeology

8. Frank Hole and Heizer F, Robert : Introduction to Pre-historic Archaeology

Course Outcome:

- The external elective students can acquire the knowledge about the importance of archeological studies, its relevance to other sciences.
- Will become familiar to understand the importance of epigraphy and numismatics in the reconstruction of history

CENTRE FOR SOUTHEAST ASIAN & PACIFIC STUDIES

S.V.U. COLLEGE OF ATRS

SRI VENKATESWARA UNIVERSITY: TIRUPATI

RESTRUCTURED CURRICULUM FOR

M.A. SOUTHEAST ASIAN & PACIFIC STUDIES

WITH EFFECT FROM THE ACADEMIC YEAR 2023 – 24

SYLLABUS

Choice Based Credit System (CBCS)

January 2022

UGC-CENTRE FOR SOUTHEAST ASIAN AND PACIFIC STUDIES

SRI VENKATESWARA UNIVERSITY: : TIRUPATI

S.V.U. COLLEGE OF ARTS

About the Department

The Centre for Southeast Asian and Pacific Studies (CSEA&PS), sponsored by the University Grants Commission (UGC) under Area Studies Programme, was established in 1976 at Sri Venkateswara University, Tirupati. It is a multidisciplinary research Centre representing five disciplines: Anthropology; Economics; Geography; History; and Political Science. CSEA&PS has been promoting research on the political, economic, social and strategic aspects of the Area under study. The CSEAPS is offering **M.A. (Southeast Asian and Pacific Studies)** and **Ph.D. programmes** and **M.A. Tourism** programme.

Centre's Vision

Make the Centre, as a Premiere Area Studies Centre in India, which could offer adequate knowledge in Higher Education on foreign areas pertaining to their geography, polity, history and cultures.

Centre's Mission

- Enlighten the students in several aspects from unidisciplinary approach to multidisciplinary study.
- To train in the knowledge of practical value to students, scholars, and researchers about different important regions of the world.

- To hone the abilities of Area Studies students for deeper understanding of international issues and respond with empathetic to the global crisis.

Programme Specific Outcomes

- Students get acquaint with the meaning, significance and application of Area Studies as a distinctive approach in international affairs

- Comprehend multilateral approaches in global peace and conflict resolution processes as ways of dealing with national and international issues

- Apply both multidisciplinary and interdisciplinary research methods to deal with problems like traditional and non-traditional threats and challenges

- Preparing students on topics like regional cooperation, international relations, globalization and national security

Centre's Objectives

- To promote a comprehensive understanding of social, cultural, economic, political and strategic dimensions of the study area
- To offer vitally important inputs to the policy planners to formulate policies advancing India's economic, strategic and political interests
- To promote research with emphasis on comparative study of the issues and problems between the regions.

Programme Outcomes

- The Programme on Southeast Asian and Pacific Studies (SEAPS) will enrich the students largely related to geographical, historical, political, economic, social and strategic engagement of India with the states of Southeast Asian and South Pacific countries.

- Educate the students with interdisciplinary outlook and multidisciplinary engagement on Southeast Asian region.

- Encourage the students to focus on basic topics like, foreign relations, bilateral and trilateral, quadrilateral relations, economic ties, international treaties, conventions, regional and international organizations.

- Students will acquire analytical knowledge in regional, international relations and conflict resolution issues and predict possible outcomes

- Comprehensive understanding of Southeast Asian and Pacific region through multidisciplinary approach.

- Students will identify research topics, collect source materials, review research literature, and analyze issues by reaching substantiated conclusions.

- The teaching of various courses in SEAP studies will help the students to acquire Indian history, India's cultural and multilateral relations with neighbouring Southeast Asian region and India's status in global politics.

- Gain expertise to examine and comment on regional, national and international issues pertinent to Southeast Asia and South Pacific

- Apply contextual knowledge to assess economic, political, security, environment, legal and cultural issues of the study area

- Relate ethical principles and apply professional ethics and responsibilities in International Relations.

- Communicate effectively on different geopolitical issues with the learned community and write effective reports or articles pertaining to the Study area.

- Demonstrate knowledge and understanding on the specific Area Studies and apply basic principles which are relevant to the professional career as a member or as a leader in multidisciplinary engagements.

Programme Educational Objectives

Enable the students to :

- Identify the significance of Area Studies from the perspective of growing international relations.
- Development multidisciplinary approach while studying Area Studies with a focus on Southeast Asia and Pacific regions.
- Critically observe the impact of global changes on the Southeast Asia and Pacific countries.
- Learn and distinguish the various forms of Indian and Chinese cultural influence on Southeast Asia

- **Open Electives are for the Students of other Departments. Minimum One Paper should be opted. Extra credits may be earned by opting for more number of open electives depending on the interest of the student through self study**
- **Interests Students may register for MOOC with the approval of the concerned DDC.**

M.A. Southeast Asian and Pacific Studies (SEAPS)

CBCS Pattern (With effect from the batch 2021-22)

	I SEMESTER	
SE 101	**EARLY CULTURAL HISTORY OF SOUTHEAST ASIA**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) To learn the Indian cultural contacts with Southeast Asia
2) To know the establishment of different Indian kingdoms in Southeast Asia
3) To demonstrate thinking skills on the impact of Indian culture on Southeast Asian region

UNIT - I Sources of the study of the spread of Indian Culture -- India-Southeast Asia Maritime connections -- Trade Patterns – Immigration – Early Indian settlements

UNIT - II Funan and Chenla : Funan: Indian Origin and Political Expansion – Cult of Harihara Champa -- Origins – The Great Rulers and their Cultural contributions: Bhadravarman, Sambhuvarman -- Hindu Culture in Champa – Temples of Myson and Po Nagar Kambuja Empire : Jayavarman II and Devaraja Cult – Yasovarman and Angkorian Empire – Suryavarman II and Angkor Wat – Jayavarman VII and Angkor Thomand Bayon

UNIT - III Pagan Empire : Pagan Period – Aniruddha the Great and Shwezigon temple – Kyanzitta and Ananda temple – Mon Cultural influence on Pagan – Migrations ofChins and Karens into Upper Burma – Buddhism in Thailand

UNIT - IV Buddhist Sailendras and Srivijaya Empire : Sailendras and Borobudur and other

temples -- Sailendra – Chola Relations -- Hindu Javanese Kingdoms : Sanjaya and Mataram Dynasties – Hindu temples of Prambanan Valley – The greatness of Airlangga -- The Greatness of Kritanagara and Siva Buddhism

UNIT - V Kublai Khan's Military invasions of Southeast Asia -- Rise of Majapahit – KingJayanagara – Prime Minister Gajamada's Services to Majaphahit – Hindu Culture -- Spread of Islam

Suggested Readings

1. Bose, Phanindra Nath, ***The Hindu Colony o f Champa***, (Adayar, 1927)
2. Cady, J.F., ***Southeast Asia: Its Historical Development***, (New York, 1964).
3. Chatterji, B.R., ***Indian Cultural Influence in Cambodia***, (Calcutta, 1928).
4. Coedes, George, ***The Indianized States of Southeast Asia***, (Honolulu, 1968).
5. Hall, D.G.E., ***A History of Southeast Asia***, (New York, 1968).
6. Keyes, Charles, F., ***The Golden Peninsula***, (New York, 1977).
7. Le May, Reginald, ***The Culture of Southeast Asia: The Heritage of India***, (London, 1964).
8. Majumdar, R.C., ***Hindu Colonies in the Far East***, (Calcutta, 1973).
9. Provencher, Ronald***, Mainland Southeast Asia: An Anthropological Perspective***, (New York, 1973).

Course Outcomes:

1) Students understand the causes for the spread of Indian culture in Southeast Asia.
2) Know the different Indian dynasties of the past in Southeast Asia.
3) Students will be able to learn the impact of Indian cultural on Southeast Asian societies

	I SEMESTER	
SE 102	**REGIONAL GEOGRAPHY OF SOUTHEAST ASIA**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) Employ a full range of techniques and methods used to gain geographical knowledge on Southeast Asia.
2) To know the population trends and patterns
3) To demonstrate thinking skills by analyzing locational significance

UNIT – I Physical Make-up Distribution of Land and Water – Topography –River Systems – Climatic Regions – Vegetation Types – Soils.

UNIT – II Resource Potentialities and Economic Base : Arable Land – Preponderance of Agricultural Economy – Forest Wealth – Marine Products – Exportable Surplus Raw Materials and Minerals – Trading Prospects.

UNIT – III Populations : Trends in Population Growth – Pattern of Population – Population Density – Post-Independence Migrations.

UNIT – IV Infrastructural Development : Transport and Communications – Industrial Development – Energy Production & Consumption – Health and Education.

UNIT – V Geostrategic Base : Locational Significance – Regional Variations – Zone of Confluence and Conflict.

Suggested Readings

1. Bradshaw, Michael, ***A World Regional Geography***, (New York, 1997).
2. Cohen, B., ***Monsoon Asia***: ***A Map Geography***, (London, 1970).

3. Cole, John, ***Geography of the World's Major Regions***, (London, 1996).
4. Dobby, E.H.G., ***Southeast Asia***, (London, 1970).
5. Dutta, Ashok K., ***Southeast Asia: Realm of Contrasts***, (Boulder: Colorado, 1985).
6. Fisher, C. A., ***Southeast Asia: A Social, Economic and Political Geography***, (London, 1966).
7. Gordon East, W., Spate, O.H.K. and Fisher, Charles A., ***The Changing Map of Asia***, (Norfolk, 1971).
8. Hill, R.D., ***A Systematic Geography of Southeast Asia***, (Kuala Lumpur, 1979)
9. Salter, Christopher L., Hobbs, Joseph J., Wheeler Jr. Jesse H. and Trenton, Kostbade J, ***Essentials of World Regional Geography***, (Sydney, 1998).
10. Spencer, J.E, and William L. Thomas, ***Asia, East by South: A Cultural Geography***, (New York, 1971).

Course Outcomes:

1) Students understand geographical profile of different countries of Southeast Asia.
2) Know the trends in population movement within Southeast Asia.
3) Students will be able to assess location significance and various infrastructural developments.

	II SEMESTER	
SE 201	**CONTEMPORARY CULTURAL HISTORY OF SOUTHEAST ASIA**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) To understand, analyze, and evaluate the impact of European rule on the cultures of Southeast Asia
2) To assess the cultural contributions of Indians and Chinese
3) To explain important living cultures in Southeast Asia

UNIT –I Colonialism and Spread of Christianity:

1) Christian Missionary Activities and the Spread of Christianity under the European Colonial rule in Southeast Asia: (a) Philippines (b) Burma (c) South Vietnam (d) Spice Islands (Molukkas)
2) Impact of Colonialism on Southeast Asian Cultures.

UNIT –II Overseas Indians and Chinese in Southeast Asia:

Indians:

a) Factors contributing to Indian Emigration into Southeast Asia.
b) Role of Indian Emigrants in Southeast Asia in the Struggle for Indian Freedom
c) Indian National Army – R.B. Bose – Subhash Chandra Bose

Chinese: Chinese Economic Domination and Political Ambitions – Problem of Integration into Host-communities.

UNIT –III Southeast Asian Culture Today

a) Therawada Buddhist Societies.
b) Islamic Societies.
c) Christian Societies.

d) Tribal Societies and their ways of life.

UNIT –IV Survivals of Indian Culture in Southeast Asia.

1) Balinese Hinduism

2) Cham Hindu Culture.

3) Ramayana and Mahabharata in Southeast Asia.

UNIT –V Nation Building in Southeast Asia.

1) Ethnic Conflicts in Southeast Asia.

2) Efforts at National Integration

Suggested Readings

1. Bahadur Singh, I.J., *Indians in Southeast Asia*, (New Delhi, 1981).
2. Boon, James A., *The Anthropological Romance of Bali*, (Cambridge, 1977).
3. Cady, John F., *Southeast Asia: Its Historical Development*, (New York, 1964).
4. Fisher, Charles, A., *Southeast Asia: A Social, Economic and Political Geography*, (New York, 1966).
5. Hall, D.G.E., *A History of Southeast Asia*, (New York, 1968).
6. Keyes, Charles, F., *The Golden Peninsula*, (New York, 1977).
7. Landan, K.P., *Southeast Asia: Crossroad of Religions*, (London, 1969).
8. Leber, Frank, et. al., *Ethnic Goups of Mainland Southeast Asia*, (New Haven, 1964).
9. Osborne, Milton E., *Southeast Asia*, (London, 1979).
10. Provencher, Ronald, *Mainland Southeast Asia: An Anthropological Perspective*, (New York, 1973).
11. Sandhu, K.S. & A. Mani, *Indian Communities in Southeast Asia*, (Singapore, 1993).
12. Siddique, Sharon and Nirmala Purushotam, *Singapore's Little India*, (Singapore, 1990).

Course Outcomes:

1) Students list the Christian Missionary activities in Southeast Asian countries.

2) Knows the factors of Indian Emigration, and Chinese economic contribution in Southeast Asia.
3) Comprehensive grasp over different cultures and religions in Southeast Asia

	II SEMESTER	
SE 203	**REGIONAL GEOGRAPHY OF SOUTH PACIFIC AND EAST ASIA**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) In this course students will learn physical setting and different land forms of the region
2) Students know the natural resources and economic potentialities of South Pacific
3) In this course Students learn support arguments with infrastructure and demographic growth

UNIT –I Physical Setting

(a) South Pacific: (1) The Insularity and Island Types - Preponderance of Water Body and Pre-eminence of EEZs – Landforms, Climate, Soils and Vegetation Types in the Island Realm (2) Natural Regions of Australia.

(b) East Asia: Landforms, Soils, Vegetation and Climate.

UNIT –II Resource Base and Potentialities

(1). Australia's Abundant Mineral Wealth (2) New Zealand's modest Mineral and Forest Resources (3) Limited Terrestrial and Marine Resources of the Island Realm (4) Japan's Human Resources and Technological Development (5) Agricultural base

and Mineral Wealth of China.

UNIT –III Economic Character

(1) Australia's Export Economy (2) New Zealand's Pastoral Industry (3) Island Realm: Subsistence Farming – Economic Dependency (4) China: Intensive Capital Investment in State-owned Industrial Sector – Shift to Market Economy, (5) Japan: Imported Raw Materials and Energy vis-a-vis Leading Exporter of Manufactured goods – Regional Development Assistance.

UNIT –IV Population

(1) High Density Coastal Fringes of Australia and New Zealand – Increasing Urbanization in the Region (2) Over Population Tendencies in the Island Realm (3) Issues of Highly Populous China – Marginal Population Growth in Japan and Korea.

UNIT –I Infrastructural Development

(1) Well-developed Transport & Communication System, High Energy Production, Better Education and Health in Australia, New Zealand, Japan and South Korea (2) Improper Infrastructural Development in the South Pacific Island Realm, (3) Moderate Infrastructure and Modernization in China.

Suggested Readings:

1. Bergsmark, D.R., ***Economic Geography of Asia***, Vol. 2, (Jaipur 1996).
2. Cole, John, ***Geography of World's Major Regions***, (London, 1996).
3. Dobby, E.H.G., ***Monsoon Asia***, Vol. 5 (London, 1961).
4. Heintzelman, O.H. and R.M. Highsmith, Jr., ***World's RegionalGeography***, (New Delhi, 1965).
5. Kolb, A., ***Geography of a Cultural Region: East Asia***, (London, 1963).
6. Salter,Christopher L., Hobbs, Joseph J., Wheeler Jr. Jesse H.and Trenton,Kostbade J., ***Essentials of World Regional Geography***, (Sydney, 1998).

	III SEMESTER	
SE 303- (b)	**EAST ASIAN DEVELOPMENT IN THE POST COLD WAR**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) Understand and discuss how Post-Cold War events are significant in East Asia
2) Identify significant historic events during the Post-Cold War in China, Japan and Koreas.
3) Acquire broad knowledge on new Economic cooperation in the region

UNIT–I End of the Cold War – Disintegration of the Soviet Union – Emergence of New World Order.

UNIT–II China: Post Cold War threat Perceptions – Diplomacy towards Southeast Asia -- China and Central Asia – Shangai Cooperation – Growing Relations with Russia -- Conflict and Cooperation with the USA – Policy towards Taiwan – China's quest for Energy.

UNIT–III Japan: Security concerns in the Post Cold War era – Japan's strengthened relations with the USA – Diplomacy towards ASEAN – Fragile relations with China – Japan's perceptions of North Korean nuclear programme – Changed Policy towards India.

UNIT–IV The Korean Peninsula: Changing security environment – The North Korea's nuclear issue – The US-North Korea conflict – China's mediation – S. Korea and N.

Korea

conflict and cooperation – South Korea and the US relations.

UNIT–V The East Asian Economic Cooperation : Development of ASEAN+3 Mechanism – The emergence of forming of East Asian Community (EAC) – Role of China and Japan in the formation of EAC – Role of India in the EAC – East Asian Economic Summit 2005 – Road towards formation of Asian Economic Community.

Suggested Readings

	III SEMESTER	
SE 303 (c)	**INDIAN DIASPORA**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) Examine the factors contributed for the migration of Indians to Southeast Asia
2) Students learn the different roles held by Indians in the US and Australia and UAE
3) Students will learn appraise the roles played by Indian Diaspora in the socio-economic development of host countries

UNIT–I Indian Emigration in Ancient India

a) Sources for Study of Migration B)Factors contributing for Migration
c) Case Study: Southeast Asian Region

UNIT–II Indian Emigration during Colonial Period

a) Factors contributing for Migration,
Socio-economic contribution to host countries, Economic and Political Status
b) Case Studies: Myanmar (Burma) Malaysia and Singapore
Fiji, Mauritius, Sri Lanka, Africa and Caribbean Islands

UNIT–III Indian Emigration during Post-Independent period

a) Factors promoting migration
Socio-economic contribution to host countries and the country of origin

(India)

b) Case Studies: USA, Europe, Australia and Gulf Countries (West Asia)

UNIT–IV Indian Communities abroad: Moves at Unity and Cooperation

a) GOPIO: Establishment and growth
b) The role of Indian Diaspora in National Reconstruction and image building in International Fora and in host countries

UNIT–V Indian Diaspora and India's Policy

a) Trends in India's policy towards Indian Diaspora
b) Pravas Bharatiya Divas (PBD) Conventions of 2003, 2004, 2005 and 2006

***Suggested Readings*:**

	III SEMESTER	
SE 303 (d)	**RESEARCH METHODOLOGY**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives :

1) To make the student to know the importance of research in history.
2) Making use of different sources in social science research.
3) To learn about Report writing skills

Unit I – Research Design : Nature, Scope and Definition - Types of research – Descriptive – Analytical - Applied - Fundamental, Quantitative- Qualitative - Conceptual – Empirical -- Basic Research Process - Formulating the research problem - Selection of Topic -- Literature review – Collection of Material -- Primary and Secondary sources -- Reviews -- Monographs

UNIT II – Research Techniques : Observation and collection of data -- Methods of data collection -- Sampling methods -- Data processing Analytical tools - Data analysis – Observation – Interviews

Unit III – Soft Computing : Computer and its Role in Research - Web sources -- charts summarizing statistical data, network diagrams, and to retrieve data -- Use of Statistical Software SPSS

Unit IV – Methods of Data Collection and Report Writing : The Survey Method – Case

Study Method – Primary and Secondary data – Classification and Tabulation – Preparation of Tables – Preliminaries of Research Report Writing -- Significance of Report Writing, Different Steps in Report Writing, Layout of the Research Report, Types of Reports, Oral Presentation, Mechanics of Writing a Research Report, Precautions for Writing Research Reports and inclusions.

Unit V –Research Ethics And Scholarly Publishing : Ethics-Ethical Issues, Ethical Committees (Human & Animal) - Scholarly Publishing- IMRaD Concept --- Uses in Social Sciences research -- Designing of a Research Paper - Citation and Acknowledgement - Plagiarism - Reproducibility and Accountability.

Suggested Readings

1. Garg, B.L., Karadia, R., Agarwal, F. and Agarwal, U.K., 2002. *An introduction to Research Methodology*, RBSA Publishers.
2. Kothari, C.R., 1990, *Research Methodology: Methods and Techniques*. New Age International.

	III SEMESTER	
SE 304	**SKILLS AND APPROACHES IN UNDERSTANDING AREA STUDIES**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) To learn the concept and history of Area Studies
2) To gain skills in map reading and knowledge on International organisations
3) To know critically the role of history and economics in Area Studies

UNIT-I **Introduction to Area Studies**: Concept, Nature and Scope of Area Studies; A brief history of Area Studies; Multidisciplinary Approach – Area Studies and other Disciplines; Area Studies, Regional Studies and International Relations – Area Studies in the era of Globalisation – Area, Region and Study Area : Southeast Asia and Pacific

UNIT-II **Geography and Political Studies**: Trajectories and Manifesto; Globalization and New Trends in Geography; Importance of Regional Geography; Skills of Map Reading and Map Making; Types of Maps – The theory and method of comparative Area Studies; Regional Studies from an Ideological Perspective – International Organisations and Regional Groupings

UNIT-III **Significance of History in Area Studies** : Study area -- Studying History Chronologically – Acquiring knowledge through different sources -- Regional History -- Historical Trade routes; Era of Explorations; Trade competition; Colonisation – Rise of Nationalism in Southeast Asia -- Causes and Consequences of

Conflicts and Wars -- Current Geopolitical scenario.

UNIT-IV **Understanding the Cultural Domains** : Ethnographic learning – Culture, Geography and Demography; Understanding the global connections -- Race, Gender, Class, Economy and Religion; Cross-cultural understandings; Language and Cultural interaction; Culture -- International Relations and Foreign Policy; Indian Cultural Imprints; Cultural Conflicts in Southeast Asia and Pacific and its effects.

UNIT-V **Economic facets of Area Studies** : Major economic trends in 20th century -- Economic variations in the region – Regionalism and Multilateralism – Globalisation and geoeconomic priorities -- Foreign trade, Investment and Capital Movement; Regional Trade regimes – FTAs; New International Economic Order (NIEO);Digitalization and Cyber Security; Means of Cooperation and Conflict

Suggested Readings:

	IV SEMESTER	
SE 403 (a)	**POST COLD WAR WORLD ORDER**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) Students will learn Evaluate the historical significance of Cold War and relevance of NAM
2) Assess the impact of globalization and role of MNCs in the world
3) Student will learn about various dimensions of North-South relations and non-state actors in International relations

UNIT–I Contemporary World Order: End of Cold War – United States as pre-eminent power – Its effects on International Relations - Relevance of Non-Aligned Movement in the Post-Cold War era.

UNIT–II Globalization and World Trade Organization – Role of Multinational Corporations (MNCs).

UNIT–III North-South Relations – Demand for New International Economic Order (NIEO) – The Present International Economic Order.

UNIT–IV Human Rights – Terrorism – Non-State Actors in International Relations.

UNIT–V Experiments in Regional and Multilateral Cooperation – Role of Regional Associations – Structure and character of OAU, OAS, EEC, ASEAN, APEC, ASSRC and EAC – Emerging Multipolar World

Suggested Readings

1. Trivedi, Sonu, *A Hand Book of International Organizations*, (New Delhi, 2005).
2. Bennett, A. LeRoy, *International Organizations: Principles and Issues*, (New Jersey, 1995).
3. McGrew, Anthony and Brook, Christopher (ed.), *Asia-Pacific in the New World Order*, (London, 1998).
4. Micheal Yahuda, *The International Politics of the Asia-Pacific, 1945-1995*, (London, 1996).

Course Outcomes:

1) Develop an understanding of the Cold War and Non-Aligned Movement.
2) Students gain knowledge on Globalization and Multi National Companies.
3) Differentiate Regional and Multilateral Cooperation and the roles of ASEAN and SAARC.

	IV SEMESTER	
SE 403 (b)	**ETHNICITY AND SOCIAL TRANSFORMATION IN CONTEMPORARY SOUTHEAST ASIA AND AUSTRALIA**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) To study the comparative cultures and ways of Southeast Asia and Australia
2) Identify alien cultural influence on South Pacifica and study about native people
3) Compare the societies of Fiji, Australia, New Zealand and assess with today's life

UNIT–I Multi-ethnic and multi-religious background of Southeast Asian countries – Major Ethnic groups : Karen, Shan, Mon, Cham, Khmer, Vietnamese, Sundanese, Hmong -- Migration -- Mobilization – Marriage and family systems-kinship patterns- society-community.

UNIT-II Social change -- socio-cultural change-- Ethnicity -- Enculturisation -- Etiquitte Assimilation, Accommodation and Transculturation -- Religious beliefs, multiculturalism in Southeast Asian countries.

UNIT-III Economic trade and exchanges in Southeast Asian Countries -- Political systems in Southeast Asian countries -- Economic prosperity- Regional progress -- Social

organisation -- Educational institutions -- Higher education and development index-science and technology -- Software industries -- Modern medical facilities – Research -- Social transformation in Southeast Asia.

UNIT-IV Status of women in Southeast Asia- Gender inequalities-women empowerment-women problems- Feministic challenges – Human trafficking

UNIT-V Aborigines in Australia : People- History- Socio-cultural back ground -- Aborigines Arts - Aborigines in White Australia – Stolen generation -- Human Rights and their violation -- Policies of Social transformation -- Social inclusion and Social change

Suggested Readings :

1. Jacques Hersh, Johannes Dragsbaek Schmidt, Niels Fold, *Social Change in South East Asia New Perspectives*, (Routledge, 1998).
2. Riaz Hassan, *Local and Global: Social Transformation in Southeast Asia*, (Leiden, 2005).
3. Dicky Sofjan, *Religion, Public Policy and Social Transformation in Southeast Asia: Managing Religious Diversity Vol. 1* (Globethics.net Focus Series Book 33, 2016).
4. Deepak Nayyar, *Asian Transformations*, (Oxford University Press, 2019).
5. Dayley, Robert & amp; Clark D. Neher, *Southeast Asia in the New International Era*. (2013).
6. John Greenway, "Australian Aborigines and the native peoples of Torres strait to (1959).
7. Huotari, Mikko & amp; Jurgen Ruland, *Introduction: Context, Concepts, and comparison in Southeast Asian Studies* (2014).
8. Clair Smith and Graeme K. Ward, *Indigenous cultures in an interconnected world*.
9. Richard Broome, "Aboriginal Australians": Black Responses to White Dominance, 1788-2001.

Course Outcomes:

1) Students understand archeology of South Pacific and settlement patterns
2) Understand the European Colonization and Socio-Economic transformation
3) Learn basic features of Australia, New Zealand and Fiji Societies and Multiculturalism.

	IV SEMESTER	
SE 403 (c)	**DEVELOPING BLUE ECONOMY**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) Understand the core economic issues of Blue Economy and the importance of Food Security
2) Learn the prospects in the Marine industries, and inclusive growth besides international regulatory institutions
3) Gain comprehensive knowledge on Ocean Renewable Energy and exploitation of deep sea resources

UNIT–I Importance of Blue Economy-Key Economic Issues: Food Security-Demand for Protein - Rising Coastal Tourism-Surging of Seaborne Trade-Demand for Alternative Sources of Energy - Managing Coastal Urbanisation-Improving Ocean Health - Providing Marine Governance-Ocean Technologies

UNIT–II Guiding Principles of Blue Economy- Efficient Utilization of Marine Resources- Exploiting Opportunities in Emerging Marine Industries- Inclusive and Harmonious Growth with sustainability concerns- Creating Legal and Regulatory Institutions

UNIT–III Elements of Blue Economy: Fisheries and Aquaculture- Ports and Shipping- Deep-Sea Oceanic Resources-Marine Biotechnology -Marine Services

UNIT–IV Ocean Energy: Relevance of Ocean Renewable Energy- SDGs in the context of Blue Economy- Potential, Current Status and Demand Pattern of Renewable Energy-Cost of Ocean Renewable Energy-Importance of Ocean Renewable Energy in SIDS-Importance and Status of Ocean Renewable Energy for IORA-Factors Affecting Growth of Renewable Energy

UNIT–V Technology Driven Emerging Sectors: Offshore and Deep-Sea Oceanic Resources-Deep-Sea fishing- Emerging Cruse Sector -Marine Biotechnology- Marine Derived Pharmaceuticals

Suggested Readings:

1. Charles S Colgan, "*Measurement of the Ocean and Coastal Economy: Theory and Methods*" National Ocean Economics Project, USA, 2004
2. Charles S Colgan, and Judith Kildow, "*Understanding the Ocean Economy within Regional and National Contexts",* Centre for the Blue Economy, Monterey Institute of International Studies, Monterey, CA, 2013
3. Gunter Pauli, *"The Blue Economy: 10 years, 100 innovations, 100 million jobs"*, Paradigm Publications, 2010
4. Michael Conathan, and Scott Moore, "*Developing a Blue Economy in China and the United States,"* Centre for American Progress, 2015
5. P. Stenzel, "*Resource Assessment for Osmotic Power Plants in Europe and Worldwide*", in F. Lienard, and F. Neumann, (eds.), Salinity Gradient Power in Europe: State of the Art, Sustainable Energy Week, Brussels, 2011,
6. Rui Zhao, "The *Role of the Ocean Industry in the Chinese National Economy: An Input-Output Analysis*", Centre for the Blue Economy, Monterey Institute of International Studies, Monterey, CA, 2013,

7. UNCTAD, "*The Oceans Economy: Opportunities and Challenges for Small Island Developing States,* New York, and Geneva, 2014

Course Outcome:

1) Acquainted with the Blue Economy, Marine Governance and Ocean Technologies.
2) Gain knowledge on ports and shipping, oceanic resources and marine bio-technology.
3) Develop an understanding on Renewable Ocean Energy and its Importance.

	IV SEMESTER	
SE 403 (d)	**ENERGY, ENVIRONMENT AND SUSTAINABLE DEVELOPMENT**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) Identify significance of energy reserves and assess the energy scenario in India
2) Know the environmental pollutants and find different means of pollution controls
3) Understand and discuss how important is renewable energy and to maintain biodiversity for the sustainable development.

UNIT–I Introduction – Types of energy sources, Demand and supply – Estimates of energy reserves – Energy Resources and Investment – Overview of global / India's energy scenario.

UNIT–II Environmental effects of energy extraction, conversion and use – primary and secondary pollutants – consequence of pollution and population growth – pollution control methods and impacts.

UNIT–III Defining Environmental Security - Green technologies for addressing the

problems of Water, Energy, Health, Agriculture and Biodiversity

UNIT–IV Types of Renewable Energy: solar, wind and nuclear energy – Low-cost and no-cost ways to save energy – The potential for solar energy, other renewable energy, and conservation.

UNIT–V Development of Green Energy – Biodiversity and ecosystems and their implications for sustainable development – Major environmental issues: climate change and global warming, greenhouse gas emissions – Assessment of its impact, mitigation and adaptation.

10. Environment – A Policy Analysis for India, Tata McGraw Hill, 2000.Environmental Considerations in Energy Development, Asian Development Bank, Manila (1991).

Course Outcomes:

1) Develop an understanding of the Types of energy sources in the world and India
2) Learn about environment issues and emerging green technologies.
3) Know the need of Renewable Energy, Green Energy, Bio-Diversity and eco systems.

	IV SEMESTER	
SE 404	**Project : Dissertation + Viva**	**CREDITS -4**
Sessional Marks	**End semester Examinations Marks 100**	

Objectives:

- Gain broad knowledge on the topic selection and research methods.
- Students will learn the minimum standards in the preparation of the Dissertation
- Student gain knowledge on the topic of their research and recent trends.

Course Outcomes

1. Explain the results of their project.
2. Learn in detail on the broad knowledge of their topic
3. Students leave their suggestions for the development of tourism in the country.

	IV SEMESTER	
SE 405 (a)	**INDIA – AUSTRALIA RELATIONS**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) To Identify significant geographical, historical similarities, and complementarities between India and Australia.
2) Gain knowledge on the political and economic relations of India and Australia
3) Assess the security concerns and strategic cooperation between India and Australia

UNIT–I Basic Linkages of India-Australia Relations

1) Geographical Proximity as Littoral States of Indian Ocean.
2) Commonalities based on:
   (a) Geological past, (b) Mining conditions, (c) Climate, (d) Colonial legacy,
   (e) Concerns over Indian Ocean security
3) Complementarities in Economic and Trade Relationships.

UNIT–II Political Issues and Security Concerns

a) Nehru - Menzies Ideological Estrangement
b) Australia's Positive Response on the eve of Chinese aggression

c) Australia's Initiatives and India's Reluctance for Defence Cooperation

d) Australia-India Approaches to the Indian Ocean Security

UNIT–III Economic and Trade Relations

a) Economic and Technical Cooperation – Colombo Plan and after

b) Trade Imbalance

UNIT–IV Post - Cold War Initiatives

1) India's Look East Policy

2) Australia's Look West Policy

3) Joint Business Councils:

(a) Investment, (b) Scientific and Technical Cooperation, (c) Trade

UNIT–V Strategic and Security Concerns

(1) Australia's Recognition of India's Security Concerns.

(2) Australia's Reaction to India's Nuclear tests.

(3) Strategic Dialogue and Partnerships.

(4) Impact of India-U.S. Bonhomie on the India-Australia Relations.

Suggested Readings

1. Banerjee, D., *Towards an Era of Cooperation : An Indo-Australia Dialogue*, (New Delhi, 1995).
2. Department of Defence, *Australia's Strategic Policy*, (Canberra, 1997).

	IV SEMESTER	
SE 405 (b)	**INDIA AND THE ASIA –PACIFIC**	**CREDITS -4**
Seasonal Marks 20		**End semester Examinations Marks 80**

Objectives:

1) To know the changes in international order after the Cold War
2) To learn the growing relations between India and Southeast Asia
3) To enable the students to know about regional and sub-regional organizations in the region.

UNIT–I Post Cold War Asia –Pacific Economic reforms in China and India- Japan's search for new role, ASEAN and Asia –Pacific

UNIT–II India –Southeast Asia Cold War Politics –India's Look East Policy and ASEAN'S response – Emerging partnerships with ASEAN countries : Singapore, Malaysia, Indonesia, Thailand and Indochina countries and Myanmar's importance to India

UNIT–III India and South Pacific India –Australia relations- Australia's Look West policy Australia and New Zealand enhanced relations with India -- India-Fiji Relations

India –Australia and ASEAN interaction

UNIT–IV India and East Asia India rediscovers China –India-China relations after the Cold War New Strategic partnership with Japan-Enhanced relations with South Korea.
East Asia Summits

UNIT–V India's Cooperation with Regional and sub-Regional Organizations in the Asia-Pacific -- APEC, Pacific Islands Forum, IQR-ARC, ASEAN Regional Forum, BIMSTEC and Mekong Ganga Cooperation.

SRI VENKATESWARA UNIVERSITY

DEPARTMENT OF EDUCATION

TIRUPATI – 517 502

TWO YEAR DEGREE OF MASTER OF EDUCATION-REGULAR PROGRAMME

(As per the Action Plan of NEP 2020)

CBCS-SEMESTER SYSTEM

(2023 – 24)

February-2022

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

About the Department:

- The department of education was established in the year 1971. M.Ed. course was started during the academic year 1971-72 with an intake of 10 students. M.Ed. is a two years course with effect from the academic year 2015 onwards with intake of 50 students. Dissertation is an essential component of the course as per the norms of the national council for teacher education (NCTE). The department, since inception, has been working in tune with the mission of the university to promote teaching research and extension.

- Research guidance was provided for Ph.D. candidates since the inception of the department that is from 1971-72. Four research associates worked in the department and at present two research fellows are working in the department.

- The department, since inception, has been working in tune with the mission of the university to promote, teaching, research & extension. Number of major and minor research projects have been completed. Up to now 121 Ph.D. AND MORE THAN 70 M.Phil. were awarded. Number of seminars, workshops, in service training programmes were conducted. Some of the faculty members visited foreign countries. Guidance and counselling services were conducted.

Vision:

To create Teachers for elementary, secondary and higher education holistically to train the future generations of the Country.

Mission:

The department creates environment to train the teachers in leadership roles as caring teachers, professional experts. Training teachers in communication skills to communicate clearly and effectively, to solve problems, use effective education tools to meet the global standards.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

Program Specific Outcomes:

- Impact quality education to students for future teachers.
- Develop a high degree of expertise in all tools of teaching techniques.

Program Outcomes:

- **Creative Thinking:** Development of creative thinking is a prime outcome of any P.G. Programme. Creative thinking enables students to think Creatively, Economically and Socially.
- **Multiple Intelligence :** It enables students to think in Multiple dimensions of intelligence such as Logically, Rationally, Scientifically, Politically and Economically.
- **Investigation :** It enables the students to apply the knowledge on research and other methods of data collection, analysis and interperpretation on research and formulate valid conclusions and suggestions
- **Self-Learning:** It improves the ability to engage in independent learning techniques.
- **Selection of tool :** It enables the student in selection of the proper tool for the investigation of the problem
- **Social Interaction:** Elicit views of the students and help them in interaction with the society and help reach conclusions in social groups
- **Environment and Sustainability:** Understand the issues of environmental contexts and sustainable development.
- **Ethics:** Recognize different values and ethics systems and self analyze including their own, understand the moral dimensions of their decisions, and accept responsibility for them.
- **Effective Citizenship:** Demonstrate empathetic social concern and equity-cantered national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

- **Effective Communication:** Speak, Read, Write and listen clearly in person and through electronic media in English and in one Indian language and make meaning of the world by connecting people, ideas, books media and technology.
- **Self and Life long Learning:** Post Graduation course promotes Self and Life-long learning In the broadest according to the context of Socio and Economical changes.

BOARD OF STUDIES MEETING HELD ON

10th February – 2022

Members Presented

1. **Prof. G Janakiramaiah,** Chairman BOS in Education (Combined) & Head, Dept.of Education, S.V.University, Tirupati.-***Chairman***

S.V.University, Tirupati

TWO YEAR DEGREE OF MASTER OF EDUCATION-REGULAR PROGRAMME

As per the Action Plan of NEP 2020

CBCS-SEMESTER SYSTEM

(w.e.f. 2021 – 2022)

RULES AND REGULATIONS

The following are the resolutions made by the Board of Studies in Education, S.V.University, as per the action plan of NEP-2020 for the Two Year M.Ed. Regular Course (CBCS- Semester System) which will come into force with effect from the academic year 2021 – 2022.

1. **Admission**

   Candidates shall be admitted into Two year M.Ed degree course strictly in accordance with the rank secured at the entrance test, if any, or the rank determined on the basis of the marks secured as the qualifying examination or on the basis of any other criteria determined by the University from time to time, following the rules of reservation of seats for various categories of students. The applicants for entrance test shall be drawn from the following programmes:

   a. B.Ed. degree of 1year or 2 years duration

      or

   b. 4-years Integrated Teacher Education Degree Programme (B.EI.Ed/BSc.Ed/BA.Ed).

2. No candidate shall be admitted to the course of the Two year Degree of Master of Education (Regular), unless he/she has taken the B. Ed. degree in S.V.University or an equivalent degree from other University recognized by the S.V.University.

3. **Duration and Course of Study**

   The normal duration of the M.Ed course is two academic years. Each academic year is divided into two semesters. The two semesters in the first academic year are referred to as semester I and semester II and the two semesters in the second academic year are

referred to as semester III and semester IV. Each semester shall comprise of minimum 16 weeks of instruction or 90 working days.

4. No student shall be eligible for the Degree of Master of Education- Regular / unless he/she has completed the prescribed course of study in the University or in an affiliated college extending over Four semesters / two years comprising 100 days in each semester, ordinarily consecutive, and has passed the qualifying theory examination and has prepared a dissertation on an approved topic duly examined and approved by a panel of examiners.

5. Time for the Completion of the Course

The candidates have to complete the M.Ed. course in two years and a maximum period of time is 5 years of joining of the course.

6. Attendance

Candidates shall put the attendance not less than 90% of the total instructional hours in the prescribed course in each semester including field work, practicum, internship, project work, seminars, assignments, extension work & dissertation work etc. Condonation on shortage of attendance may be granted by the university authority to the candidates who have put in attendance of 80% and above on the submission of a certificate from a Medical Practitioner and also on payment of condonation fees prescribed by the University.

7. Candidates who have put in less than 80% of attendance are not eligible for grant of condonation on shortage of attendance and also they are not eligible to appear for the University examination of that semester. Such candidates shall have to repeat the regular course of study of the corresponding semester in the subsequent academic year, in order to become eligible to appear for the examination. The seats of candidates admitted for repetition of the semester are treated as extra seats, over and above the sanctioned strength.

8. Attendance shall be reckoned from the date of commencement of instruction as per the academic calendar. However, in the case of candidates admitted later (but within the stipulated time), the attendance will be reckoned from the date of admission.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

9. Participation in N.C.C. / N.S.S. Special / N.1. Camps or Inter Collegiate or Inter – University or Inter – State or National or International competitions or Debates, Youth Festivals or Educational tours approved by the University, form integral part of the curriculum. Participation in such activities are considered official and however, the total period of such a participation shall not exceed two weeks in a semester.
10. Instruction in various subjects shall be provided by the college as per the scheme of instruction and syllabi prescribed.
11. At the end of each semester, University Examinations shall be held as prescribed in the Scheme of Examination. The medium of instruction shall be only in English.
12. Each theory paper carries 100 marks of which 80 marks are earmarked for Semester – end Examination and 20 marks are earmarked for internal assessment to be awarded by the teacher concerned.On the basis of two internal tests for 10 marks, 5 marks for participation in seminars, group discussion and assignment and,5 marks for attendance. Two internal tests are conducted and the performance of the better of two will be taken. However, it is mandatory for a student to take the tests / seminar / group discussion and assignment.The minimum qualifying marks for the internal assessment in theory papers should be 10 out of 20 and 50% in other practicum.
13. There will be double valuation of theory papers of semester – end examination. The average of two will be taken. In case of difference of above 20 % of marks between the two valuations, it will be sent for third valuation. In such cases, the average of the two nearest marks of three independent valuations will be taken will be taken for the purpose of declaring the results.
14. Under Semester System there will be no supplementary examinations apart from the semester and examinations.

15. Passing Standards

A candidate should secure a minimum of 40% of marks in each semester-end theory paper of University examination and an aggregate of 50% of marks of all the papers of the semester for a pass. Further, a candidate should secure a minimum of 50% marks in seminar/project work / field work / dissertation / internship any such other assignment for a pass. If a candidate fails to secure an aggregate of 50% of marks for a pass in theory paper of a semester he/she has to secure 40% marks in semester – and

examination and 50% marks in such individual paper/papers (Semester-end examination + Internal marks put together) in the subsequent opportunity of the examination.

16. Award of Division

The results will be given in semester grade point averages (SGPA) and finally in cumulative grade point averages (CGPA) candidates who have passed all the examinations of the M.Ed Degree shall be awarded Classes / Divisions in accordance with the total aggregate marks secured by them in all the semester examinations taken together.

Letter Grade	**Grade Point**
O(Outstanding)	10
A+(Excellent)	9
A(Very Good)	8
B+(Good)	7
B(Above Average)	6
C(Average)	5
P(Pass)	4
F(Fail)	0
Ab(Absent)	0

The statutory requirement for eligibility to enter as assistant professor in colleges and universities in the disciplines of arts, sciences, commerce etc., is a minimum average mark of 50% and 55% in relevant postgraduate degree respectively for reserved and general category. Hence, it is recommended that the cut-off marks for grade B shall not be less than 50% and for grade B+, it should not be less than 55% under the absolute grading system. Similarly , cut-off marks shall be fixed for grade B and B+ based on the recommendation of the statutory bodies (AICTE, NCTE etc.,) of the relevant disciplines.

Award of Ranks

Only those candidates who appear and pass in all the examination papers of each semester at the first appearance are eligible for the award of Ranks.

Two-Year M.Ed. Programme: Major Features

The two-year M.Ed. programme is a professional programme in the field of Teacher Education that seeks to provide opportunities for students to:

- Extend as well as deepen their knowledge and understanding of education,
- Specialize in select areas of study and
- Develop research capacities,leading to specialization in either Elementary Education or Secondary Education.
- It's a professional programme that seeks to prepare:

  - Teacher Educators and

  - Other education professionals, including
- Curriculum developers,
- Educational policy analysts,
- Educational planners, administrators, supervisors, researchers,
- School head masters,with specialization either In Elementary Education (up to Class VIII) or in SecondaryEducation (Classes VI-X).

Overall Thrust: Fostering Quality in Teacher Education

Quality teacher education is broadly conceptualized asthe one which is:

- Effective for meeting the objectives,
- Relevant and responsive to the school education system,
- Mediated by adequate and appropriate inputs and teaching-learning processes,
- Equitable,
- Resource-efficient, and
- Capable of ensuring substantiative access (achieving expected learning outcomes)

Components of the two-year M.Ed. Programme

A Common Core that includes Perspective Courses, Tool Courses, Teacher Education Courses, and Self-development components.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

Specialization Branches where students choose to specialize in either

1. Elementary Education.

   or

2. Secondary Education.

Research leading to dissertation.

Field attachment/internship.

Assessment of Student Learning

- For each theory course, 20% marks to be assigned for continuous and comprehensive internal assessment and 80% marks for examination conducted by the examining body.
- The bases of internal assessment shall include individual/ group assignments, seminar presentations, field attachment internship appraisal reports, project reports, etc.

Programme Organisation

- The proposed programme will follow the following organisation and credit apportionment format:

  Year 1: Two semesters (16 to 18 weeks per semester) + inter- semester break + 3 weeks in summer.

  Year 2: Two semesters (16 to 18 weeks per semester) + 3 weeks inter-semester break.

  Total: Four semesters (72 weeks); + 6 weeks for field attachment during inter-semester break in total 78 weeks.

- Apart from the 6 weeks in the various inter-semester breaks, 3 weeks to be allocated to the field attachment and internship.
- Each year is to put in at least 200 working days exclusive of the days of admissions and inclusive of examination days.

Dissertation

Each candidate shall be required to submit a dissertation in a subject approved by the University. The dissertation shall be prepared under the direction of a teacher educator and submitted one month before the university examinations of the fourth semester.

A. Dissertation work should start during the first semester of first year.

B. It must be satisfactory in respect of literary presentation as well as in other respects and should be suitable for publication. Report should be written only in English except for the Telugu Language Topics.

C. It shall have a bearing on some aspect of education and embody either, (i) a record of original investigation, or (ii) a critical analysis of existing data or (iii) a combination of both.

D. The candidate shall indicate generally in his preface to the dissertation and in notes the source from which his/her information is taken, the extent to which he/she has availed himself of the work of others and the portion of the dissertation which he/she claims as his/her original work.

E. Every dissertation shall be accompanied by a certificate signed by the teacher educator who guided the candidate in the preparation of dissertation stating that the dissertation is genuine work of the candidate and that it is worthy of examination.

General Rules

1. Filled in Examination applications shall be submitted at the respective Departments along with the challan and other required documents on or before the prescribed dates.
2. Before applying for the examination, the student shall clearly know his eligibility for the examination. SMP / Debarred students will not be allowed to sit for the examination until clearance is received.
3. Students who have not put-in the required attendance during year / semester will not be permitted to sit for the examinations.
4. Hall tickets issued shall be carefully preserved by the students.
5. The prescribed examination fee shall be paid in the respective college office on or before the stipulated date.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

6. Original certificates will be issued after submission of No Dues certificates from the Hostel, Department and Library.

Evaluation Procedure

1. All the Theory papers and Dissertation shall be valued by two examiners, one of them being an examiner residing outside the University area. The average marks of the 2 independent valuations shall be considered for eligibility for pass in the examination. In case of disparity of 20% of marks or more, papers and dissertation shall be referred to a third examiner and the marks awarded by the third examiner will be the final marks..
2. In each paper, the internal marks 20% shall be awarded keeping in view the regularity of attendance, one assignmentand seminar and two internaltests in each paper of the semester.
3. There shall be a viva voce for the dissertation to be conducted by a panel of examiners comprising an external examiner from outside S.V.University, BOS Chairman in Education andThe Principal of the College /Head of Department will act as internal member to coordinate the viva-voce examination.
4. A Candidate shall be declared to have passed in the examination, if he obtains 40% of the marks in each paper and in dissertation 50% and also on aggregate.
5. A candidate who fails in Part II Dissertation shall be permitted to present a revised dissertation on the same subject without being required to produce any additional certificate of attendance.
6. A Candidate shall not be permitted to appear for the M.Ed. Degree Examination for more than Five years from the date of admission.
7. Practicum in the Inter Semester Breaks (ISB) and Internship has to be recorded in the form of project records and evaluated internally.
8. Evaluation of each paper will be done to the maximum of 100 marks including internal component of 20 marks (10 Marks Test + 5 Marks Seminar,Group discussion and Assignment and+ 5 Marks forAttendance).
9. At the end of each semester after evaluation of theory, practicum, internship and dissertation marks will be converted into grade letter and grade point (G.P) to every paper.From the grade points semester grade point average (SGPA) at the end of each

semester and Cumulative grade point average (CGPA) at the end of all four semesters will be calculated. The details about SGPA & CGPA areshown below.

S. No.	Range of Marks	Grade letter	Grade Point
1	91-100	O (Outstanding)	10
2	81-90	A+ (Excellent)	9
3	71-80	A (Very good)	8
4	61-70	B+ (Good)	7
5	51-60	B (Above Average)	6
6	41-50	C (Average)	5
7	40	P (Pass)	4
8	Bellow 40	F (Fail)	0
9	Ab (Absent)	Absent	0

PAPER – 3: FUNDAMENTALS OF EDUCATIONAL RESEARCH

Objectives:

On completion of this course, the student will be able to:

- Describe the nature, purpose, scope and types of research in education.
- Understand the important features of different types of research.
- Explain the characteristics of qualitative and quantitative research in education.
- Conduct a literature search and select a problem for a research study.
- Select a sampling technique appropriate for a research study.
- Explain the procedure for construction of tool for a research study.
- Select and apply suitable statistical techniques for the analysis of data.

Course Content

Unit – 1: Introduction to Educational Research

1. Meaning, Purposes, Nature and Scope of Educational Research.
2. Types of Educational Research: Basic, Applied and Action research; Research paradigms in Education: Quantitative, Qualitative and Mixed research.
3. Research Problem: Sources of research problem, characteristics of good research problem, Definition of the research problem, evaluation of the research problem.
4. Related Literature – Purposes of Review; conducting the literature search using Internet and databases.

Unit - 2: Variables, Hypothesis and Sampling of Educational Research

1. Meaning and Classification of Variables.
2. Meaning, Types/Forms of hypotheses and characteristics of good hypothesis.
3. Population, Sample and characteristics of good sample.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

4. Sampling Techniques.

Unit – 3: Tools and Techniques of Data Collection

1. Tools of Data Collection: Questionnaires, Tests, Inventories and Rating Scales - Types, Uses and merits and limitations.
2. Methods or Techniques of Data Collection: Observation and Interview, their types, use, merits and limitations.
3. Principles of Construction of tools and techniques, Administration of tools and techniques.
4. Basic attributes of a good Research tool – Reliability, Validity and Usability.

Unit - 4: Descriptive Analysis of Quantitative Data

1. Scales of Measurement – Nominal , Ordinal ,Interval and Ratio Scales; Measures of Central tendencies – Mean, Median, Mode; Graphical Representation of Data – Bar Graph, Histogram, Frequency Polygon, Cumulative frequency curve, Ogive and Pie-diagram.
2. Measures of Dispersion – Range, Q.D., A.D. and S.D.
3. Measures of Relative Position – Percentile, Percentile Rank and Standard Scores: Z-Scores, T-Scores
4. Normal Distribution – Characteristics and Uses of N.P.C; Applications of N.P.C; Deviations of Normality: Skewness and Kurtosis.

PAPER – 4: TEACHER EDUCATION

Objectives:

To develop an understanding of

1. Concept, development and agencies of Teacher Education
2. Teacher Education programmes at different levels – their objectives, structure, curriculum, role and competencies.
3. Need for Teacher Education
4. Issues, problems and innovative practices n Teacher Education
5. Research and professionalism in Teacher Education.

Course Content

Unit -1: Introduction to Teacher Education

1. Meaning and nature of teacher education.
2. Need, scope and objectives of teacher education.
3. Changing context of teacher education in the Indian scenario.
4. Changing context of teacher education in the global scenario.

Unit - 2: Development of Teacher Education

1. Teacher Education in Pre-independence India.
2. Teacher Education in post-independence India.
3. National policy on teacher education, 1986.
4. Current trends in teacher education – interdisciplinary approach, internship, community living, orientation course, correspondence course, action research, team teaching and programmed instruction etc.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

Unit – 3: Agencies and Institutions of Teacher Education.

1. Agencies of Teacher Education at the state level and their role and functions.
2. Agencies of teacher education at the national level and their role and functions.
3. Agencies of Teacher Education at the international level and their role and functions.
4. Institutions of Teacher Education, DIET,CTE,IASE,RIE.

Unit – 4: Major Issues and Problems of Teacher Education

1. Maintaining standards in Teacher Education – admission policies and procedures, recruitment of teacher educators.
2. Service conditions of teacher educators.
3. Quality management in teacher education.
4. Privatization, Globalization and Autonomy in Teacher Education.

PAPER- 6 a: MEASUREMENT AND EVALUATION

Objectives:

1. To acquaint the students with the basic concepts and practices adopted in educational measurement and evaluation.
2. To help the student understand relationship between measurement and evaluation in education.
3. To orient the student with tools and techniques of measurement and evaluation.
4. To develop the skills and competencies in construction and standardization of tests.
5. To make the students understand how various requirements of education are measured,evaluated, interpreted and their results are recorded to help learners.
6. To enable students to prepare and use different kinds of psychological tests.
7. To equip students with skills to handle data and interpret results.
8. To enable students to participate in examination reforms.
9. To help students to carry out examination and evaluation work.

Course Content

Unit 1: Introduction to Measurement and Evaluation

1. Levels of Measurement– Nominal, Ordinal, Interval and Ratio; Concept of Measurement and Evaluation; Role of Evaluation in Education – Diagnosis, Improvement of teaching, Guidance, Prognosis survey and Placement.
2. Differences between Measurement and Evaluation; Types of Evaluation; Steps in the process of Evaluation.
3. Criterion referenced and Norm referenced evaluation.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

4. Teacher made tests and standardized tests; General steps of Test Construction (or Standardization)

Unit –2: Essentials of Test Construction

1. Item Analysis: Meaning and purpose; Item analysis of power test; Item analysis of speed test; problems of item analysis.
2. Reliability: Meaning of reliability; Methods (or Types) of reliability; Factors influencing reliability of test scores.
3. Validity: Meaning of validity; Types of validity; Factors influencing validity; Relation of validity and reliability.
4. Norms for Interpretation of Test Scores – Age, Grade, Percentile and Standard score norms (Z-scores, T-Scores, C-Scores).

Unit 3: Trait Measurement Devices

1. Measurement of Attitudes: Thurston's method of equal-appearing intervals, Likert's method of Summated ratings, Guttmann's scale.
2. Measurement of Interest: Strong Campbell interest inventory, Kuder preference Records.
3. Measurement of Intelligence: individual and group tests, verbal and non-verbal tests and performance test.
4. Measurement of Assessment: Self Report technique: Rating Scales, Problem check-lists and Projective techniques: Rorschach and Thematic Apperception Test

Unit 4: New Trends in Measurement and Evaluation

1. Continuous and Comprehensive evaluation
2. Marking and reporting methods (concept and current use): Written description of performance, Letter grades, Number grades, percentage grades, Pass-fail report, Profiles, Parent-teacher conference, Progress report.
3. Choice Based Credit System and Evaluation.
4. Computers in Evaluation.

PAPER –6 b: CURRICULUM STUDIES

Objectives:

The course will enable the student teacher to

1. To understand the meaning, need, scope, foundations and issues of curriculum.
2. Know about Planning of curriculum, principals, consideration and trends in curriculum planning.
3. Develop awareness about Development of curriculum – approaches, process, role of teachers and administrators in curriculum development, implementation and evaluation.
4. Acquire theoretical bases about curriculum evaluation, different aspects and approaches of curriculum evaluation.

Course Content

Unit 1: Introduction to Curriculum

1. Meaning and definitions of Curriculum, need and scope of Curriculum, concept of Curriculum and Syllabus and their differences.
2. Bases of Curriculum; Foundations of curriculum - philosophical, sociological, psychological and educational
3. The Curriculum process and its stages
4. Curriculum Issues – Discipline based issues, Subject-wise National Curriculum Framework –NCF 2005, NCTECF 2009, APSCF 2011.

Unit 2: Curriculum Planning

1. Meaning of Curriculum Planning, Principles of Curriculum Construction
2. Basic considerations in Curriculum Planning – Developmental, Social, Economic, Environmental, Institutional and Teacher related

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

3. Curriculum Planning at Various Levels, Trends in Curriculum - Curriculum in 20th century and possible future trends
4. Principles and approaches of curriculum organization.

Unit 3: Curriculum Development and Transaction

1. Approaches to curriculum development, models of curriculum development, process of curriculum development, development try-out.
2. Role of teachers in curriculum development, instructional systems, instructional techniques and materials – learner centered and teacher centered
3. Role of Administrators in implementation and evaluation of curriculum.
4. Need and strategies for curriculum change in 21st century.

Unit 4:Curriculum Evaluation

1. Concept, need and importance of Curriculum Evaluation
2. Sources of Curriculum Evaluation, aspects of Curriculum Evaluation – pre-testing/post- testing.
3. Norm-referenced and Criterion-referenced testing, evaluation approaches related to individual and group.
4. Methods of Curriculum Evaluation - evaluation during development & implementation, retructuring curriculum.

MASTER OF EDUCATION

1st Year, Semester - II

Paper – 2: ADVANCED EUCATIONAL RESEARCH

Objectives:

On completion of this course, the student will be able to:

1. Describe the characteristics of different research methods in education.
2. Understand the difference between quantitative and qualitative research procedures.
3. Select a research method appropriate for a research study.
4. Prepare a research proposal for a research study.
5. Select and apply suitable correlation technique in a research study.
6. Select and use appropriate inferential statistical technique for a research study.
7. Prepare a research report in an appropriate format for a research study.

Course Content

Unit – 1: Methods of Educational Research

1. Phenomenology, Philosophical and Ethnological Research.
2. Historical Research and Case Studies.
3. Survey Research, Analytical Studies, Correlation Studies and Causal-Comparative Studies.
4. Experimental Research and Action Research.

Unit – 2: Research Proposal and Research Report

1. Format of Research Proposal.
2. Format of Research Report.
3. Style of writing the Report, References and Bibliography.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

4. Evaluation criteria for Research Report and Research Paper.

Unit – 3: Examining Relationship or Association

1. Correlation Techniques: Rank order, Product moment, Biserial and Point-biserial.
2. Regression and Prediction.
3. Chi-Square Test: Properties and Uses of Chi-Square Test; Chi-Square as a goodness of fit and test of independence (or association), Contingency coefficient and its uses.
4. Computer Data Analysis.

Unit – 4: Inferential Analysis of Quantitative Data

1. Fundamental Concepts of Inferential Statistics – Concept and uses of Inferential statistics, the 't' distribution, Sampling distribution, Standard error, Confidence interval and Levels of Significance, Degrees of freedom, Two-tailed and One-tailed test of significance, Errors in testing of hypothesis: Type-I and Type-II.
2. Testing the Significance of Statistical measures, viz., mean, S.D., Correlation coefficient and percentages.
3. Testing the Significance of difference between the following statistics for independent and correlated samples – Means (Including small samples), Percentages, Correlation coefficients.
4. ANOVA (One Way) and ANCOVA (One Way) – Concept, assumptions and computation.

PAPER – 3: GUIDANCE AND COUNSELING

Objectives:

1. To enable the student to understand the concept, the need and scope of guidance.
2. To enable the student to understand the principles and problems of different types of guidance.
3. To enable the student to understand the concept and process of counseling.
4. To acquaint the student with the aims and principles of guidance programme.
5. To develop in student an understanding of various procedures of organizing various guidance services.
6. To enable the student to identify the situations for individual and group guidance services.
7. To enable the student to choose and use appropriate psychological tests to render guidance.

Course Content

Unit 1: Fundamental Concepts of Guidance

1. Concept, Assumptions and Need of guidance. Purpose, and Functions of Guidance. Scope,Types of Guidance and Significance of Guidance.
2. Guidance at different levels – Primary, Secondary and Higher Secondary School stages.
3. Agencies of Guidance – National, State and local levels.
4. Role of the teacher in Guidance.

Unit 2: Educational and Vocational Guidance

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

1. Principles of Educational Guidance. Problems of Guidance. Guidance and classroom learning. Guidance for special learners. Induction Programme. Guidance and curriculum.
2. Strategies of Vocational Guidance- Career Corner , Career talk and Career Conference, Industrial Visit, Simulated Interview, Vocational Counseling.
3. Theories of Vocational Guidance - Super, Ginzberg, Havinghurst, Holland, Hoppock, and Anne Roes Theory of Guidance.
4. Nature of work, various motives associated with work. Occupational Information.

Unit 3: Personal and Group Guidance

1. Nature and Scope of Personal Guidance. Role of Counselor in Personal Guidance.
2. Concept, Scope and principles of Group Guidance. Advantages of Group Guidance. Planning of Group Guidance.
3. Procedure and techniques of group guidance.
4. Family, Health, Marital, Legal, Educational and Vocational guidance.

Unit 4: Counseling Process and Testing in Guidance Service

1. Concept, nature, principles of counseling. Characteristics of good counseling. Counseling for adjustment. Conducting counseling and Counseling for exceptional children. Difference between guidance and counseling.
2. Counseling approaches – Directive, Non-directive. Group counseling Vs. Individual counseling.
3. Use of tests in Guidance and Counseling. Tests of intelligence, aptitude, creativity, interest and personality;administering, scoring and interpretation of test scores.
4. Various types of Guidance Services - Orientation Service, Student Information Service, Counseling Service, Placement Service, Referral Service, Remedial Service, Follow up Service, Research Service and Evaluation Service. Evaluation of Guidance programme.

PAPER – 4: ISSUES AND RESEARCH IN TEACHER EDUCATION

Objectives:

1. To develop in the student understanding of the concept, objectives and principles of teacher education.
2. To acquaint the student with existing practices regarding structure, curriculum and evaluation in the education.
3. To enable the student to understand teaching and training techniques.
4. To enable the student to organize various types of student teaching programme.
5. To enable the student to know the concept and practice of evaluation in teacher education.
6. To acquaint the student with the innovative practice in teacher education.
7. To develop in the student professional ethics and to develop in the student the commitment to the profession.
8. To acquaint the student with different agencies of teacher education in India and their rules and functions.
9. To acquaint the student with the role of professional organization of teacher educators.
10. To help the student to understand major issues and problems of teacher education.

Course Content

Unit 1: Teacher Education at Pre-Primary and Primary Levels

1. Objectives of Teacher Education Programme at pre Primary and Primary Levels as Recommended by the NCTE.
2. Structure of Teacher Education Programme at Pre Primary and Primary Levels as Recommended by the NCTE.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

3. National Curriculum Framework for Teacher Education Programme at Pre Primary and Primary Levels as Recommended by the NCTE.
4. Role and Competencies Required of the Teacher at the Pre Primary and Primary Levels.

Unit 2: Teacher Education at Secondary and Higher Secondary Levels

1. Objectives of Teacher Education Programme at Secondary and Higher Secondary Levels as Recommended by the NCTE.
2. Structure of Teacher Education Programme at Secondary and Higher Secondary Levels as Recommended by the NCTE.
3. National Curriculum Framework for Teacher Education Programme at Secondary and Higher Secondary Levels as Recommended by the NCTE.
4. Role and Competencies Required of the Teacher at the Secondary and Higher Secondary Levels

Unit 3: Teacher Education as a Profession

1. Concept of Profession and Professionalism
2. Developing Professionalism, Professional Ethics and Professional Code of Ethics of Teacher Educators.
3. Meaning and Components of Teacher Effectiveness through Performance Appraisal of Teachers and Teacher Educators.
4. Relationship between Teacher Effectiveness and Professional Ethics.

Unit 4: Research in Teacher Education

1. Nature and Scope of Research in Teacher Education.
2. Areas of Research in Teacher Education (Teaching, Teacher Characteristics, Teacher Performance, Teacher Education, Accountability Teacher Educators and Teacher Education Institutions)
3. Trends in Research in Teacher Education
4. Implications of Research for Teacher Education.

PAPER – 6 a: ELEMENTARY EDUCATION

Objectives:

1. To make the students understand the nature and historical development of elementary education.
2. To enable the students to examine the development of elementary education policy in India after independence; and
3. To enable the students to understand the concept and objectives of elementary education and the rationale for universal elementary education;
4. To enable the students to know different policies and provisions of elementary education.
5. To develop an understanding in students about different strategies of improving elementary education.
6. To make the students to understand and apply the techniques useful in realising universalisation of elementary education.
7. To enable the students to describe and discuss emerging approaches to varying problems of elementary education.

Course Content

Unit 1: Elementary Education in India

1. History and status of elementary education and recommendations of different education commissions and policies [Kothari, NPE,1986& Yashpal].
2. Aims, objectives and rationale of elementary education.
3. Constitutional provisions and directive principles related to elementary education.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

4. Elementary education as a fundamental right, as an instrument of empowerment and as a national development goals.

Unit 2: Universalisation of Elementary Education

1. Concept, meaning, objectives and justification of UEE.
2. Challenges & problems in the way of achieving UEE (access, enrollment, retention and drop out).
3. Measures towards realization of UEE [non-detention policy, free supply of uniform dress to girls and other backward communities, provision of mid-day meals, attendance scholarship for girls and SC/ST children].
4. Participation of NGOs in achieving UEE goals.

Unit 3: Strategies and Programmes in Elementary Education

1. Involvement of Panchayat Raj and Village Education Committees in Educational Planning & Management and DPEP.
2. SSA, OBB, Access to school and school mapping.
3. MDMS, Retention of children and Prevention of dropout rate.
4. Early Childhood Care and Education (ECCE),Integrated Education for Disabled Children (IEDC),Mahila Samakhya (MS) and Kasturba Gandhi Balika Vidyalaya (KGBV).

Unit 4: Curriculum and Evaluation in Elementary Education

1. Objectives, principles and organization of curriculum.
2. Innovative practices in curriculum at elementary level [Multi-Grade Teaching (MGT), Peer Learning (PL) and Co-operative Learning (CL)].
3. Evaluation at elementary education [principles, strategies and tools-term evaluation, competency based evaluation and continuous comprehensive evaluation].
4. Problems and Critical appraisal of present evaluation system in elementary education.

1st Year, Semester – II

PAPER – 6 b: SECONDARY EDUCATION

Objectives:

1. To enable the students understand the nature, significance and the historical development of Secondary Education.
2. To enable the students understand the rationale and objectives of Secondary Education.
3. To enable the students to know about the different Institutions which provide Secondary Education.
4. To enable the students understand the different challenges and problems at the Secondary Education stage.
5. To enable the students know the various efforts of the State in the provision of Secondary Education.
6. To enable the students know the importance of Secondary Education and the need to make this stage of education very strong and practical .

Course Content

Unit 1: Concept, Objectives and Rationale of Secondary Education.

1. What is meant by Secondary Education? Significance and major objectives of Secondary

   Education
2. Secondary Education, the most important link between the Primary and Higher Education. What is expected of a student on the completion of Secondary Education?

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

3. An overall view of the historical development of Secondary Education in the pre and postindependent India, with special reference to Wood's Despatch, Hunter Commission, Sadler Commission, Hartog Commission, Sargent Commission.
4. The Secondary Education Committee Report of 1952-53 or The Mudaliar Commission Report and it's recommendations.

Unit 2: Indian Government, Constitution and SecondaryEducation.

1. National and State Policies on Secondary Education, with special reference to Kothari Commission Report, National Policy on Education1968, Eshwarbhai Patel Commission Report, New Education Policy 1986, Malcom Adiseshaiah Commission Report, Janardhan Reddy Commission Report 1992, Yashpal Committee Report, and the POA 1992.
2. Constitutional Provisions and their respective implications for Secondary Education.
3. Different types of Institutions providing Secondary Education; Residential schools like Navodaya Schools, A.P.Residential Schools, Gurukul Pathashalas, Non – Residential schools like Kendreeya Vidyalayas, CBSE schools etc.
4. RMVA Rashtreeya Madhyamika Vidya Abhiyan. Status of Secondary Education with reference to the principles of equity and equality- class, caste, gender, tribe and groups.

Unit 3: Secondary Education- A Preparation for educational future of the students

1. Secondary Education- Personality Development- Inculcation of various kinds of Values through different curricular and co-curricular activities.
2. Secondary Education a 'Runway' for future education and careers.
3. Secondary Education- A terminating point or a 'Y' junction for the youth.
4. SUPW, Work Experience, Vocationalization of Secondary Education, Earn while you learn and other such concepts that have attempted to make Secondary Education productive.

Unit 4: Challenges and Problems of Secondary Education

1. Problems of enrollment and continuance.
2. Education of the differently - abled children.
3. Quality and Quantity of facilities- material and human.

Head; Dept. of Education &

PAPER - 1: INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) IN EDUCATION

Objectives:

On completion of this course the students will be able to

1. Explain the concept and scope of ET.
2. Explain the different instructional designs.
3. Understand the nature and scope of ICT in Education.
4. Appreciate the applications of ICT in Education.
5. Understand the process of ICT integration in teaching and learning.
6. Appreciate the scope of ICT for improving the personal and professional competence of teachers.
7. Understand the components and basic functionality of computer.
8. Know the instructional applications of internet and Web resources.
9. Understand the process of locating research studies available in the Internet and the use of online Journals and books.
10. Develop various skills to use computer technology for sharing information and ideas through the E-mail, Blogs and Chatting groups.

Course Content

Unit 1: Introduction to Information and Communication Technology

1. Meaning, Nature, Scope and Significance of ICT.
2. ICT resources for teaching and learning.

3. Uses of ICT: Teaching-learning process, Evaluation, Research and Administration.
4. Role of ICT in personality development and professional development.

Unit 2: Computer, Internet and World Wide Web

1. Fundamentals of Computer: Meaning of Hardware and various Hardware components of a computer; Concept and types of Computer Software; Computer memory and its types; Meaning, types and functions of Operating System; Computer VIRUS and protection measures.
2. The Internet: Meaning of Internet, H/W and S/W requirements for Internet, Internet terminology, Applications of Internet in Education.
3. The World Wide Web: Concept of W.W.W; Distinction between Internet and W.W.W; Web pages and H.T.M.L; Web browsers and Web Search Engines; Web Surfing.
4. Educational Multimedia: Meaning and significance of Multimedia; Elements of Multimedia; Development of Multimedia Courseware.

Unit 3: Information Storage and Management

1. Data and Information: Types of data, File management.
2. Data storage and Data base management.
3. Meaning, Characteristics and benefits of cloud computing.
4. Management information systems in the field of education.

Unit 4: ICT in Education

1. E-Learning: Meaning, nature and characteristics of E-learning; E-learning and Class room dynamics; Advantages and limitations of E-learning.
2. Web Based Learning–Online Learning: Meaning, principles and categories of Web based learning; Merits and limitations of Web based learning; Meaning, significance, functions and advantages of Virtual Campus.
3. E–Journals and E–Books: Meaning, types, salient features and availability of E-Journals; Meaning, nature and significance of E – Books.
4. Electronic portfolio.

PAPER – 2: COMPARATIVE EDUCATION

Objectives:

1. To help the students to understand comparative education as an emerging multi-education as discipline (with its scope and major concepts) of education.
2. To acquaint the students with educational systems in terms of factors and approaches of comparative education.
3. To orient the students with skills to assess the efficacy of educational systems of various countries in terms the prevailing trends in those countries.
4. To help the students to use the results of assessment made by various countries and to know the role of UNO and its various bodies for the promotion of Indian education.
5. To create a perspective in the students about the implications of education for solving the prevailing problems in India.

Course Content

Unit 1: Comparative Education

1. Introduction to Comparative Education: Meaning, scope, objectives and need for comparative education.
2. Major concepts of comparative education.
3. Sociological, scientific, historical, ecological, structural and functional factors – Cross disciplinary approach used in comparative education.
4. Approaches to comparative education.

Unit 2: Comparative Education at National and International Levels

1. Modern trends in comparative education– National and Global.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

2. Role of U.N.O. in improving educational opportunities among the member countries – protection of human rights.
3. Official organs of the U.N.O. and their educational activities.
4. Mufti culturalism in education.

Unit 3: Comparative Study of the Education Systems of various Countries

1. School Education (Elementary & Secondary) : USA, UK, Russia, Japan, India.
2. Higher Education: USA, Russia, UK, India.
3. Teacher Education: USA, Russia, UK, India.
4. Open Learning : India, Japan, USA, Russia, U.K.

Unit 4: Issues and Challenges in Comparative Education

1. Causes and solutions for Problems prevailing in developing countries
2. Poverty, Unemployment and Terrorism
3. Population explosion, Casteism and communalism
4. Illiteracy

PAPER – 3: INCLUSIVE EDUCATION

Objectives:

On completion of this course the students will be able to

1. Understand the global and national commitments towards the education of children with diverse needs,
2. Appreciate the need for promoting inclusive practice and the roles and responsibilities of all concerned personnel,
3. Develop critical understanding of the recommendations of various commissions and committees towards teacher preparation for Inclusive Education,
4. Understand the nature of difficulties encountered by children and prepare conducive teaching learning environment in inclusive schools,
5. Analyze special education, integrated education, mainstream and Inclusive Education practices,
6. Identify and utilize existing resources for promoting inclusive practice.

Course Content

Unit 1: Introduction to Inclusive Education

1. Definition, Concept and Importance of Inclusive Education.
2. Historical perspectives on education of children with diverse needs.
3. Difference between special education, integrated education and Inclusive Education.
4. Advantages of Inclusive Education for all children.

Unit 2: Inclusive Education- Recommendations of Education Commissions and Committees

1. International Initiatives of IE: The World Declaration on Education for all and,

The UNICEF World Summit for Children, (1990).

2. National Initiatives of IE: Kothari Commission, IEDC, NPE (1986-92),

PIED, DPEP, PWD and SSA.

3. Initiatives for the gifted and talented children.
4. Current Laws and Policy Perspectives supporting Integrated Education.

Unit 3: Preparation for Inclusive Education at Elementary level

1. Concept and meaning of diverse needs.
2. Educational approaches: concept of remedial education, special education, Integrated Educationand Inclusive Education.
3. Building inclusive learning, friendly classrooms, overcoming barriers for Inclusion.
4. Role of teachers, parents and other community members for supporting Inclusion of childrenwith diverse needs.

Unit 4: Children with Diverse Needs

1. Sensory (hearing, visual, physically challenged and multiple disabilities).
2. Intellectual (gifted, talented and intellectually challenged children).
3. Developmental disabilities (autism, cerebral palsy, children specific learning disabilities), Slow learners and underachievement; Role of teachers in Inclusive Education.
4. Utilization of Resources: Human and Material resources and Community resources.

PAPER – 4 a: ECONOMICS OF EDUCATION

Objectives:

1. To enable the students to understand Human Capital, Education and Employment analysis of earning, manpower planning and financing of education.
2. To acquaint the students with the political economy of education.
3. To develop among students understanding of labour markets.
4. To enable the students to forecast man power requirements in various streams.
5. To develop among the students an understanding of the financial aspects of education.
6. To develop awareness among students about the importance of economics to the field of education
7. To develop understanding about education both as consumption and investment
8. To develop understanding about the benefits and the costs of education and its role in human and economic development
9. To develop various abilities to understand the internal efficiency of the system of education
10. To enable them understand the contemporary developments in economics of education.

Course Content

Unit 1: Basic Concepts of Economics of Education

1. Concept, scope, significance, recent trends in economics of education.
2. Education as consumption and investment.
3. The concept and measurement of Human Capital.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

4. Education and its relation to Human Resource Development.

Unit 2: Education and Economic Development

1. Education and economic growth - methods and comparisons.
2. Education, Poverty and Politics of Development, Liberalization, Privatization, Globalization and Education.
3. Contemporary Economic reforms in India and their impact on Education, Education and employment.
4. Labor, Market and Education, Education and Migration (Internal and External).

Unit 3: Cost - Benefit Analysis in Education

1. Determinants of Educational Costs.
2. Problems in the Measurement of Costs and Benefits in Education.
3. Cost-Benefit Analysis in Education.
4. Concept of Rate of Returns and Returns to Education.

Unit 4: Economic Reforms and Education

1. Relationship between Poverty, Schooling and Education.
2. Privatization of State Education - Public - Private partnership in education.
3. Globalization and Education.
4. Economic Liberalization Policies in India and their impact on Education.

PAPER – 4 b: SPECIAL EDUCATION

Objectives:

1 The student is able toacquire knowledge regarding various disabilities

2 To equip the students with ability to identify individuals with disabilities

3 To make students understand the need and types of rehabilitative measures

4 To train students to apply the techniques of educational interventions

5 To create awareness among public on the issues of disabilities and rehabilitation

6 To motivate students to act as agents in controlling the disabilities

Course Content

Unit 1: Meaning and Scope of Special Education

1. Concept of Impairment, Disability and Handicap, Classification of Exceptional Children, Brief History of Special Education.
2. Nature and Scope of Special Education, Importance and need of Segregated – Integrated - Inclusive Education.
3. Concessions and facilities for persons with Disabilities.
4. Recommendations given in NPE 1986, POA 1992 and PWD (Persons with disability Act) 1995; National Institutes of Handicapped and the Role of Rehabilitation Council of India (RCI).

Unit 2: Children with Sensory Physical Impairment

1. Visual Impairment : Blind and Low Vision, Identification, Characteristics, Causes, Preventive Measures, Educational Provisions, Aids and Appliances

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

2. Hearing Impairment: Nature, classification, Identification, Characteristics, Etiological factors, Preventive measures, Educational Provisions, Amplification Devices, and Methods of Communication with Hearing Impaired.
3. Nature, Definition and Categories. Identification and Characteristics. Causes - Prenatal, Perinatal and Postnatal
4. Preventive measures and Educational Provisions. Barrier-Free School Environment.

Unit 3: Children with Mental Retardation and Learning Disability

1. Definition, Nature, Classification, Identification and Characteristics of mental retarded.
2. Causes of mental retardation – Chromosomal anomalies, congenital defects, Bio-Chemical irregularities, Prenatal, Peri-natal and Post-natal causes. Preventive measures of mental retarded. Different types of Educational Programmes for mentally retarded.
3. Meaning, Nature, Identification, Characteristics and Classification of learning disability – Dyslexia, Dysgraphia, Dyscalculia, Aphasia.
4. Preventive measures of learning disability. Educational Provisions – Multisensory Approach and Behavioural approach.

Unit 4: Educational Intervention and Preparation of Special Teachers

1. Nature and objectives of special schools. Concept of main streaming; integrated schools and support services provided within them' viz. Resource room, resource teacher, counselor, etc.
2. Concept of remedial teaching (specially for learning disabled children). Role of other (peer) members of the school (children as well as teachers). Family of the "concerned child" and the community in educating the child who is an exceptional one.
3. Roles and responsibilities of the teachers in the Special Education schools. Preparing psychological readiness among teachers to accept the responsibilities for learners with diverse needs and problems. Competencies of teachers & teacher educators – categories of competencies, methods of developing the competencies at pre-service and in-service levels.
4. Curriculum for teacher preparation and transaction modes.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

Practicum

(1) Observation of Special Schools for children with disabilities and report writing.

(2) A Report on present concessions and facilities for persons with Disabilities

(3) Guidance to the parents of Special children and report writing

(4) Undertaking any two cases of any two disabilities for educational intervention and Report writing.

PAPER – 4 c: ENVIRONMENTAL EDUCATION

Objectives:

To Enable the students to

1. Understand the relationship between Human Beings and their Environment.
2. Develop sensitivity towards Environmental Disaster Management.
3. Acquire an understanding of the process of Environmental Education.
4. Develop skills and competencies as teachers for Management of Environmental Awareness Programmes.

Course Content

Unit 1: Introduction

1. Concept, importance, scope, Aims and Objectives of Environmental Education
2. Guiding principles and foundations.
3. Relationship between man and Environment.
4. Ecological and psychological perspective

Unit 2: Environmental Hazards

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

1. Environmental pollution: physical, air, water, noise, chemical
2. Extinction of flora and fauna, deforestation, soil erosion
3. Need for conservation, preservation and protection of rich environmental heritage.
4. Programme of environmental education for primary education institutions.

Unit 3: Features of Curriculum for Environmental Education

1. Special nature of curriculum on environmental education.
2. Concept of environment and ecosystem. Nature system earth and biosphere abiotic and biotic components. Natural resources, abiotic resources.
3. Human systems - Human beings as part of environment, human adaptations to environment, population and its effect on environmental resources.
4. Technological system- industrial growth, scientific and technological invention and their impact on the environmental system.

Unit 4: Methods and Approaches in Environmental Education

1. Strategies and approaches, treating environment education as a separate subject, topical units, integration and interdisciplinary approaches. Methods - discussion, seminar, workshop. Dialogue, Problem Solving Field Surveys, project and Exhibition. Role of Media, print Films and TV.
2. Conservation of Natural Resources: Concept, need and Importance. Ways of Conservation of Natural Resource: Refuse, Reuse, Recycle, Reduce, Replace, Restore, Regenerate, and Reshape. Need for conservation, preservation and protection of rich environmental heritage.

PAPER – 5: LIFE SKILLS EDUCATION

Objectives:

To enable the prospective teacher-educators

1. To be aware of the need and significance of Life Skills Education.
2. To develop the ability to identify different components of each skill.
3. To participate in all the activities meant for the development of life skills
4. To use various strategies and gain mastery over each of the ten core life skills.
5. To identify the necessary life skills appropriate to the context and implement them.

Course Content

Unit 1: Introduction to Life Skills Education

1. Nature of Life Skills Education at formative stage
2. Need and importance of Life Skills Education
3. Classification of Life skills
4. Classification of knowledge
5. Growth and Development of the learners' Life Skills at various stages of Education

Unit 2:Development of Cognitive Skills

1. Skill development through cognitive theory of learning
2. Creative Thinking, Critical Thinking, Decision Making and Problem Solving Skills
3. Components of each Cognitive Skill.
4. Strategies of Cognitive Skills -Brain storming and Block busting
5. Qualities of the skill developed person in each Cognitive Skill

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

Unit 3: Development of Psycho-Social Skills

1. Development of Psychosocial skills
2. Meaning and nature of Self- Awareness, Empathy, Inter-personal relationship and Effective Communication skills.
3. Components of psycho-social skills
4. Learners 'Group discussion, Role-play, Narration, and Sharing
5. Qualities of the person dealing the psycho-social issues

Unit 4: Development of Coping Skills

1. Meaning and nature of coping skills
2. Coping skills for Emotions and Stress
3. Components of coping with emotions and coping with stress.
4. Coping strategies through Yoga, Meditation, Relaxation exercises
5. Development in the process of coping with anxiety and depression

PAPER – 5 a: TEACHING STRATEGIES FOR TEACHERS

Objectives:

To Enable the students to

1. Acquire competency in different teaching skills
2. Understand the context of application of different strategies of teaching and also implement them.
3. Understand and appreciate the role of communication in effective teaching
4. Understand the impact of teacher communication on student's personality development

Unit – 1 : Essential Teaching Skills and the Teaching of Thinking

1. Essential Teaching Skills : The Foundation for Teaching Effectiveness
2. Beyond Effective Teaching : Teaching for Thinking and Understanding and Higher – Order and Critical Thinking
3. The Model Approach to Teaching
4. Information Processing

Unit – 2 : The Inductive Model : A Constructivist View of Learning

1. The Inductive Model : An Overview, Goals for the Inductive Model
2. Planning Lessons with the Inductive Model
3. Implementing Lessons Using the Inductive Model
4. Assessing Student Learning

Unit – 3 : Teaching Organized Bodies of Knowledge

1. The Integrative Mode : An Overview, Goals for the Integrative Model

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

2. Planning Lessons with the Integrative Model and Implementing Lessons Using the Integrative Model, Assessing Integrative – Model Activities,
3. The Lecture – Discussion Model – An Overview, Theoretical Perspectives
4. Planning for Lecture – Discussion Lessons, Implementing Lecture – Discussion Lessons and Assessing Student Understanding in Lecture – Discussion Lessons

Unit – 4 : The Direct-Instruction Model

1. Direct Instruction : An Overview, Direct Instruction : Theoretical Perspective
2. Planning Lessons with the Direct – Instruction Model
3. Implementing Lessons Using the Direct – Instruction Model
4. Assessing Student Understanding

Practicum

1. One Seminar
2. One Assignment

PAPER – 5 b: VALUE EDUCATION

Objectives:

1. To enable the students understand the need, nature and scope of Value Education.
2. To enable the students understand the importance of values and classification of values.
3. To enable the students understand the role of different people and media in fostering values.
4. To enable the students understand the approaches, teaching strategies and models of Value Education.
5. To enable the students understand the importance of Value Education and the different ways to execute the syllabus at various levels.

Course Content

Unit 1: Need, Nature and Concept of Value Education

1. Concept, Need and Nature of values.
2. Meaning and Classification of Values.
3. Sources of Values.
4. Values and Education – Their relationship and Significance of Value Education.

Unit 2: Models of Value Education

1. Value Clarification Model.
2. Social Action Model.
3. Consideration Model.
4. Rationale Building Model.

Unit 3: Approaches and Teaching Strategies for Inculcation of Values

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

1. Form and content of Value Education at different stages.
2. Different approaches to Value Education- Direct, Indirect and Integrated approaches.
3. Strategies and Techniques for Value Education at different stages.
4. Contribution made by some eminent leaders of the world to Value Education. (Individual Studies may be taken up by the students)

Unit 4: Role of different Social Agencies in Value Formation

1. Role of Parents and Peer Group
2. Role of School and Teachers
3. Role of Religion and Media
4. Need of Orientation in Value Education to Prospective Teachers

Practicum

(1) One Seminar

(2) One Assignment

PAPER –5 c: HUMAN RIGHTS EDUCATION

Objectives

At the end of the course, the teacher educators will be able to

1. understand the concept, meaning of human rights
2. understand the need for human rights education
3. select and use the appropriate methods of teaching with respect to human rights education
4. understand the evolution of human rights movement at the international and national level
5. understand the role and functions of international and national level institutions to enforce human rights
6. understand and analyze the issues related to human rights violations with regard to the marginalized sections
7. understand the role of various agencies in promoting human rights education

Course Content

Unit 1: Concept, Meaning and History of Human Rights

1. Concept, Meaning, Need, Objectives and Principles of human rights education,
2. Classification of Human Rights.
3. Evolution and Historical Development of Human Rights in the global context.
4. Education as an agency to sensitize students towards human rights.

Unit 2: Indian Constitution and Commissions on Human Rights

1. Human Rights in Indian constitution: Constitutional provisions of Human Rights: Fundamental Rights, Directive Principles of State Policy, Women and Child Rights.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

2. Human Rights Commissions: NHRC, SHRC, Human Rights Courts, Their composition and functions.
3. International Councils and Commissions on Human Rights: International court of Justice, International criminal Tribunals and criminal courts. Amnesty International, International Red Cross.
4. Barriers in implementing Human Rights.

Unit 3: Curriculum, Methods of Teaching and Agencies of Human Rights Education

1. Curriculum of HRE at different Levels: Primary, Secondary and Higher Education.
2. Methods and Techniques of Teaching Human Rights: Lecture – Discussion – Case Study – Role Play and Simulation – Mock Trials– Cooperative Learning – Social Activities.
3. Agencies promoting Human Rights Education: Role of Family, Peer-group, Religious and Social Organisations, Media, School/Educational Institutions.
4. Training teachers for Human Rights Education.

Unit 4: Human Right Violations and Emerging Issues

1. Ragging - Eve Teasing, Human Trafficking – War and Terrorism , Child Labour – Exploitation of Labour, Patriarchism,– Domestic Violence – Sexual Harassment – Female Infanticide.
2. Tribal rights and forest protection.
3. Environmental issues and sustainable development.
4. Traditions, culture and Human Rights.

Practicum

(1) One Seminar

(2) One Assignment

Internship

Building a human rights garden on the school grounds and giving a case study based report as a required project by each student

PAPER - 1: ADVANCED EDUCATIONAL TECHNOLOGY

Objectives:

1. To enable the student teacher to understand about the meaning, nature and scope and significance of Educational Technology and its important components in terms of Hardware and Software.
2. To help the student teachers to distinguish between communication and instruction so that they can develop and design a sound instructional system.
3. To acquaint student teachers with levels, strategies and models of teaching for future improvement.
4. To enable the student teachers to understand about the importance of programmed instructions and researches in Educational Technology.
5. To acquaint the student teachers with emerging trends in Educational Technology
6. To develop awareness about uses of computer and information technology in the field of education
7. To develop understanding about the various aspects of information systems and multimedia developments.
8. To develop various skills to use computer technology for the purpose of education.
9. To inculcate interest about the use of technology in educational research.
10. To make students to understand the contemporary developments in the emerging technologies of education.

Course Content

Unit 1: Introduction to Information Technology

1. Definition Need and Scope of Information Technology.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

2. Categories of Information: Data, Information, Knowledge, Intellect.
3. Types of Information : By Source, By Channel, By Media, By Need .
4. Information Services; Library, Institute, Internet and developments in information technology and their uses to the field of education.

Unit 2: Communication and Instructional Technology

1. Theory of communication, Concept, Nature, Process, Components, Types and Classroom Communication.
2. Models of teaching: Meaning, Nature, Functions and Types of families of Models of Teaching.
3. Programmed instruction (linear/branching model) - Origin and types - linear and branching - Development of the programmed instruction material.
4. Future priorities in Educational Technology.

Unit 3: Technology of Teaching

1. Concept, Structure and Levels of Teaching (Memory Level, Understanding Level and Reflective level).
2. Innovations in teaching (Team Teaching, Educational Games, Simulation, Personalized System of Instruction PSI, CAI, CCTV and SITE etc.).
3. Techniques of Higher Learning (Seminar, Symposium, Workshop, Conference and Panel Discussion).
4. Action Research (Reflective Process – Progressive Problem Solving).

Unit 4:Interactive Learning Environments

1. Mass Media Approach in Education.
2. Instructional Resource Centers.
3. Concept and uses of Multimedia, Multimedia Building Block: Text, Graphics, Digital Video or Animation and Digital Audio.
4. Computer and Data Analysis: Data Base Packages - MS - Excel, - Data Entry - Variables - Import and Export of files - Data Manipulation - Data Transformation.

PAPER - 2: PSYCHOLOGY – LEARNER AND LIFE

Objectives:

1. To enable the students to understand psychology as an applied subject
2. To enable the students to understand himself / herself
3. To enable the students to understand emotions
4. To design a good learning situation
5. To acquit the student with states of mental health
6. To enable the student to develop into a holistic personality.

Course Content

Unit 1: Meaning and Nature of Psychology

1. Meaning and Methods of psychology.
2. Cognitive capacities-perception, cognition, memory, thinking, reasoning, problem solving, imagination.
3. Affective capacities-feelings, attention, attitudes and interests.
4. Human development.

Unit – 2: Emotions and Emotional Disorders

1. Emotions- Meaning and types.
2. Emotional expressions, bodily expressions, vocal expressions, Gestures and communications.
3. Emotions and social behavior.
4. Emotional disorders- fear, anxiety, anger and violence.

Unit 3: Learning, Memory, Motivation and Creativity

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

1. Learning- meaning and types, learning difficulties
2. Memory-types, improvement of memory and reasons for forgetting
3. Motivation-types, motivation and achievement, self-motivation, attributions for success and failures
4. Creativity – Concept, process , development of creativity , blocks for creativity

Unit 4: Personality and Mental Health

1. Meaning and theories of personality, assessment
2. Positive attitude towards life, Successful social life and importance of fitness
3. Mental disorders, defense mechanisms
4. Personality in the new era

PAPER – 3: ENVIRONMENTAL CONCERNS IN SECONDARY EDUCATION

Objectives:

The students will be able to

1. Understand the concept, scope and objectives of environmental education.
2. Acquaint the student with environmental problems and hazards.
3. Develop competencies and problems solving skills for environmental protection.

Unit I: ENVIRONMENTAL EDUCATION – CONCEPT, MEANING AND IMPORTANCE

15. Environmental Education - Characteristics and principles
16. Nature and scope of Environmental Education
17. Aims and objectives of Environmental Education
18. Environmental Awareness, Important issues in Environmental Education.

Unit II: ENVIRONMENTAL POLLUTION AND PROGRAMMES AT DEFFERENT LEVELS

1. Man and his relationship with environment, Environmental hazards and pollution - soil, air, noise, water, chemical and thermal, extinction of flora and fauna,
2. Need for conservation, preservation and protection of rich environmental heritage
3. Programme of environmental education for primary, secondary and higher education institutions
4. Biodiversity and conservation - Global warming, ozone depletion, acid rain, population explosion, urbanization, poverty and deforestation.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education

MASTER OF EDUCATION

2nd Year, Semester – IV

As per the Action Plan NEP - 2020

PAPER – 4 a: HUMAN VALUES AND PROFESSIONAL ETHICS - II

Objectives:

This course input is indeed

1. To help the students appreciate the essential complementary in between 'values ' and 'SKILL' to ensure sustained happiness and prosperity which are the core aspirations of all human beings.
2. To facilitate the development of a holistic perspective among students towards life, it's realities, professions and happiness, based on a correct understanding of the human reality and the rest of Existence, such a holistic trustful perspective forms the basis of values based living in a natural way.
3. To highlights plausible implications of such a Holistic understanding in terms of esthetical human conduct, trustful and mutually satisfying human behaviors and mutually enriching interaction with Nature.

Thus, this course is intended to provide a much needed orientational input in values education to the young enquiring minds.

Course methodology

1. The methodology of this course is universally adaptable, involving a systematic and rational study of the human being vis-à-vis the rest of existence.
2. It is free from any dogma or value prescriptions.
3. It is a process of self-investigation and self- exploration, and not of giving sermons. Whatever is found as truth or reality is stated as proposal and student are facilitated to verify it in their own right based on their natural acceptance experiential validation,.

Head; Dept. of Education &
Chairman BOS in Education (Comb),Dept.of Education
S.V.University, Tirupati

4. This process of self exploration takes the form of a dialogue between the teacher and the student to begin with, and within the student himself/herself finally.
5. This self-exploration also enables them to evaluate their pre-conditionings and present beliefs.

Course Content

Unit - 1: Concept, Need, Nature and Process for Value Education

1. Concept, need and nature of human values in education.
2. Basic principles of value education; (i) Self exploration: its concept and process; Natural acceptance and experiential validation as the mechanism for self exploration (ii) Continuous happiness and prosperity - a look at basic human aspirations (iii) Right of understanding, relationship and physical facilities- the basic requirement for fulfillment of aspirations of every human beings with their correct prosperity (iv) Understanding happiness and prosperity correctly – a critical appraisal of the current scenario .
3. Method to fulfill the above human aspirations: understanding and living in harmony at various levels.

Unit - 2: Understanding Harmony in the Family and Society- Harmony in Human Relationship

1. (i) Understanding the characteristics and activities of 'I' and harmony in 'I'. (ii) Understanding the harmony of I with the Body: Samyam and Swasthya: correct appraisal of physical needs, meaning of prosperity in detail Programs to ensure Samyam and Swasthya. (iii) Understanding harmony in the family – the basic unit of human interaction.
2. Understanding values in human relationship; meaning of Nyaya and program for its fulfillment to ensure Ubhay-Tripli; Trust (Viswas) and respect (Samman) as the foundational values of relationship.
3. (i) Understanding the meaning of Viswas; Difference between intention and competence. (ii) Understanding the meaning of Sommon, Difference between respect and differentiation; the other salient values in relationship. (iii) Understanding the harmony in the Sah-Astitva as comprehensive Human Goals.

4. Visualizing a universal harmonious order in society: Undivided society (*Akhand – Samaj*) Universal Order (*Sarvabhum –Vyawastha*)-from family to world family!

Unit - 3: Understanding Harmony in Nature and Existence – Whole existence as Co-existence

1. Understanding harmony in nature.
2. Inter-connectedness and self regulation in nature
3. Understanding existence as co-existence (Sah-Astiva) of mutually interacting units in all pervasive space.
4. Holistic perception of harmony at all levels of existence.

Unit - 4: Implications of the above Holistic understanding of Harmony on Professional Ethics

1. (i) Natural acceptance of human values

   (ii) Definitiveness of ethical human conduct.
2. (i) Basis for humanistic education, humanistic constitution and humanistic universal order

   (ii) Strategy for transition from the present state to universal human order.
3. Competence in professional ethics.
   a. Ability to utilize the professional competence in education for augmenting universal human order,
   b. Ability to identify the scope and characteristics of people friendly and echo friendly production system in the educational process,
   c. Ability to identify and develop appropriate technologies and management patterns in the teaching and learning process,
4. (i) Case studies of typical holistic technologies, management modules and production systems.

   (ii) At the level of individual: as socially and ecologically responsible, professionals.

   (iii) At the level of society: as mutually enriching institutions and organizations.

Practicum

M.A. ENGLISH

Choice Based Credit System (CBCS)

Academic Year 2023 – 24

Amended as per NEP-2020

About the English Department

The Department of English was established in 1954 by Prof. M.V. Rama Sarma as the Head, with Under-Graduate Course. Later it was opened for Post-Graduate courses in 1959 with core emphasis on English Literature. The same year saw the bifurcation of the department retaining PG course. The Department began with 10 students and gradually the intake has increased to 60. The thrust areas of the Department are British Literature, Indian Literatures in English, American and New Literatures besides Comparative Literature, Translation Studies and English Language Teaching giving importance to all the genres of English Literature. The Department has the unique distinction of having had an exclusive paper on Miltonic studies. Presently, the Department has the honor of introducing exclusive elective on the genre, short story. Along with the teaching of literatures, research and training programmes, production of teaching materials, and extension services are in progress to help improve language teaching standards in the University region. The department was shaped by Stalwarts like Prof. M.V. Rama Sarma, Prof. C. Subba Rao, Prof Viswanadhan, Prof. C.R. Visweswara Rao, Prof. T. Krishna Rao, Sri R.A. Jayantha, Smt. M. Suryakantha, Prof.M. Radhamani Gopalakrishnan, Sri. N.J. Richard, Prof. G. Nageswara Rao, Prof. M.R. Ashok, Prof. Erram Reddy, Prof. A. Hari Prasanna, Prof. M.A.K. Sukumar and Prof. Madhuranthakam Narendra.

Mission & Vision

- The M.A English programme offered by the Department of English,Sri Venkateswara University, is a state of the art programme both in its content and delivery. Equipped with six decades long legacy, the syllabus reflects both the hoary past and the dynamic changes that the contemporary students need in a globalized world.
- Apart from a firm emphasis on British literature, the syllabus encompasses an equal quantum of Indian, American, Post Colonial and other non-white World Literatures.
- The curriculum is continuously broadened to make the learners conscious of the present needs. Papers on Human Values and Professional Ethics, Women's Writings, Green Literary Studies and Subaltern Studies are aimed at sensitizing the students on literary creativity value systems, ethics, gender awareness and a respect for the hitherto marginalized sections.
- The multiple papers on English Language and Linguistics endow the students with a scientific knowledge of the English language and its multiple avatars in the contemporary world. Besides, a series of papers on Soft Skills, Communication Skills, etiquette etc equip the students with the necessary employability skills which are much needed in the current job market.
- Translation Studies, Comparative Literature and a deep study of Classics both within India and the world, broaden the students' literary horizons.

Choice Based Credit System (CBCS):

The Choice Based Credit System (CBCS) provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses.

Students of this course would be able to:

- Play a major role in education, research and the public services;
- Understand and appreciate English Literature & Language
- Have an understanding and grasp of a broad based academic environment
- Be able to adapt and respond positively and flexibly to the changing
- circumstances;
- Develop the professional skills and personal attributes to deal with complex
- issues, both systematically and creatively;
- Have the capacity for individual work and teamwork;

- Be lifelong learners equipped with intellectual, academic and practical skills.

Programme Specific Outcomes:

- The students acquire knowledge in English Language, Linguistics, Literature, Communication and Soft Skills
- The students are honed for employment/further research
- They are equipped with life skills, values, ethics and rhetoric.
- Human values are taught through literature
- The Students are able to appreciate literary works not only in English, but also globally produced literatures.

Programme Objectives:

The prime objective of the M.A. and Ph.D programmes offered by the department is to enhanve the knowledge quotient of the learners and to make literary a lived experience, than a mere theoretical study. The syllabus is periodically updated at regular intervals, to retain its dynamism in catering to the students' success in competitive examination like UGC NET, JRF & SLET exams, to name a few. The infrastructure which includes books, e-journals and AV aids additionally enhances the quality of knowledge inputs which are delivered to the students.

To meet these ends, the department emphasizes on multiple areas of study, with a well-structured curricular design, relevant to the needs of the students of the Rayalaseema Region. The syllabus is both local and global too, since many of the texts and courses meet global standards. The dynamic team of Professors equipped with National and International exposure, spares no efforts in both delivering the subject knowledge and honing the students' skills to succeed in a challenging and competitive world.

Programme Outcomes:

- Imparts knowledge on English language studies, its history, and variety in a global context
- Familiarizes students with multiple accents: British, American, Indian, African etc.
- Instructs a scientific study of language through a study of Linguistics
- Furthers students in an advanced level of Literary Studies, Comparative Studies and Translation Studies
- Understand various genres, English and modes of linguistic and literary study.

- Develop critical thinking with the aid of Classical and Contemporary Critical theories.
- Makes the students on par with the best universities globally/nationally with highly relevant and frequently updated generic electives.
- Creates an ambience where students can relate life with literature
- Provides the necessary environment for the students to hone their literary, creative, critical, translation and research abilities
- Students gain substantial domain knowledge so as to facilitate their success in a highly competitive environment like UGC NET, SLET, Group Services and the like.
- Makes students employable in contemporary domains like content writing, BPO, advertising, news and mass media agencies.
- Converts students into language trainers and personality developers which are much needed in multinational setups, software sectors and other industries in a sprawling global economy

Programme Educational Objectives:

- To train the students in English Language, Linguistics, Literature, Communication and Soft Skills
- To make the students market ready for employment/further research
- To equip them with life skills, values, ethics and rhetoric, to transform them into more humane beings as Literary Studies are an important facet of Humanities studies in general
- To make them appreciate literary works not only in English, but also globally produced literatures.

for the award of the grade as pen elective only giving extra credits.

Semester-III

S.No.	Course Code	Components of study	Title of the Course			Credit Hours /Week	No. of Credits	IA Marks	Sem. End Exam Marks	Total Marks
1	301	Core	1	Language Acquisition and Child Language Development	Mandatory	6	4	20	80	100
2	302		2	Language Disorders and Speech Pathology		6	4	20	80	100
3	30A	Generic Elective	3a	Socio-linguistics	Opt-2	6 6	4 4	20 20	80 80	100 100
	303B		3b	Psycho-linguistics						
	303C		3c	Neuro-linguistics						
	303D		3d	Computational Linguistics						
4	304	Skill Oriented Course	4	ICT for Enriching Teaching and Learning Skills	Mandatory	6	4	20	80	100
5	305A	Open Elective	5a	Bilingualism	Opt-1	6	4	20	80	100
	305B		5b	Mass Media Communication						
	Total					36	24	120	480	600

* All Core papers are Mandatory

* Generic Elective – Choose Two papers

* Skill-Oriented Course is Mandatory

* Open Electives are for the Students of other Departments. Minimum One paper should be Opted. Extra Credits may be earned by opting for more number of Open Electives depending on the interest of the student through self study

* Interested students may register for MOOC with the approval of the concerned DDC

Semester-IV

S.No	Course Code	Components of Study	Title of the Course			Credit Hrs./ Week	No. of Credits	IA Marks	Sem. End Exam Marks	Total Marks
1	401	Core	1	Language Universals and Linguistic Typology	Mandatory	6	4	20	80	100
2	402		2	Research Methodology		6	4	20	80	100
3	403A	Generic Elective	3a	Lexicography	Opt-2	6	4	20	80	100
	403B		3b	Language Teaching		6	4	20	80	100
	403C		3c	Language Planning						
	403D		3d	Translation						
4	404	Multidisciplinary Course	4	Multidisciplinary Capacity Building	Mandatory	6	4	20	80	100
5	405A	Open Elective	5a	Branches of Linguistics	Opt-1	6	4	20	80	100
	405B		5b	Dictionary Making						
	Total					36	24	120	480	600

* All Core papersare Mandatory

* Generic Elective – Choose Two papers

* Multidisciplinary Course is Mandatory

* Open Electives are for the Students of other Departments. Minimum One paper should beOpted.Extra Credits may be earned by opting for more number of Open Electives depending on the interest of the student through self study.

*Interested students may register for MOOC with the approval of the concerned DDC

Core **LING:101 PHONETICS**

Objectives:

1. To understand the process of Communication and speech production, Classification and four procedures of speech production.
2. To analyze production of consonants and vowels.
3. To understand expressing secondary and double articulations and prosodic features.

Unit – I

The process of Communication: Speech production (Articulatory Phonetics), Speech transmission (Acoustic Phonetics), and Speech perception (Auditory Phonetics).

Unit – II.

The four processes of speech production: Air stream process: pulmonic, glottallic and velaric ;egressive and ingressive air streams, phonation process (State of the Glottis) Oral – Nasal process (position of the velum), articulatory process.(Consonant and Vowel production); Classification of speech sounds and their description; Consonants, Vowels and Diphthongs.

Unit – III.

Consonant production: Where a consonant sound is made (place of articulation), how it is made (degree of strictures and manner of articulation) and the state of the glottis (Voiced, unvoiced, etc.), stop consonants (Plosives, obstruents, implosives, clicks), types of closure and release. Affrication, aspiration etc.

Unit – IV.

Vowel production: Which part of the tongue is raised (front, back, central), how **m**uch it is raised (high or close, low or open, etc.,) and whether the lips are rounded (rounded vs. unrounded), Monopthongs vs. diphthong, various types of diphthongs.

Unit – V.

Secondary and double articulations: labialization, palatalization, velarization and pharyngealization and other secondary articulations: labio-velar, labio-palatal etc.,Prosodic or Suprasegmental or dynamic features: Length (quantity), Stress (accent), Tone and Intonation (speech melody or pitch variation), Juncture (pause), Voice quality.

Note: Practical classes on the topics: Listening tapes, recognizing the sounds, production of the sounds, and phonetic transcription.

Suggested Readings:

1. Abercrombie, D. 1967. **Elements of general phonetics**. Edinburgh. dinburgh University Press
2. Ladefoged, P. 1975. **A Course in phonetics**. New York. Harcourt Brace and Jovanovic.
3. O'Conner, J.D. 1973. **Phonetics.** Penguin Books Ltd.
4. Bloomfield, L. 1933**. Language**.NewYork.Hol& Rinehart and Winston.
5. Catford, J.C. 1989. **A practical introduction to phonetics**. Oxford. Clarendon Press.
6. Leiberanan, Philip & Blumstein, Sheila, E. 1991. **Speech perception and Acoustic phonetics.** London, Cambridge University Press.

7. O'Grady, William; et al. (2005). **Contemporary Linguistics: An Introduction** (5th ed.). Bedford/St. Martin's. ISBN 0-312-41936-

8. Stearns, Peter; Adas, Michael; Schwartz, Stuart; Gilbert, Marc Jason (2001). **World Civilizations** (3rd ed.). New York: Longman. ISBN 9780321044792.

Course Out Comes:

After completion of the course students will be able to

1. Understand the process of Communication and speech production, Classification and four procedures of speech production.
2. Analyze production of consonants and vowels.
3. Understand expressing secondary and double articulations and prosodic features.

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3	2			3					3		3
CO2	2		3		2					1		2
CO3	2		3							2		2

LING:102 Phonology

Objectives:

1.To understand concept of Phoneme, Principals of Phonemic analysis and discovery procedures.2 .To analyze phonemes, Phonological systems and procedures of phonemics.

3. To analyze basic units of Phonology and concept of redundancy.

Unit – I

Phoneme: Concept and definition. Different aspects of the phoneme, Phonetic, Phonological, psychological, etc.Principles of phonemic analysis, the concepts of opposition, Contrast, minimal pair, distribution (Complementary, Free variation), Phonetic similarity, neatness of pattern (or pattern congruity of symmetry) and economy.Discovery procedures.

Unit –II.

The distinction between phone, phoneme and allophone: relation between Phonetics and Phonology. Types of phonemes, Types of phonological systems.Problems in phonology and phonological analysis; vowel and consonant systems, Suprasegmentals system, under lying representation, phonological rules.

Unit–III.

Phonemic premises and procedures: (a) Modification of sound by environments analogous, identical and mutually exclusive. (b) Phonetic symmetry of sound systems; (c) Fluctuation of sounds and (d) Structural pressure on the interpretation of segments and/or sequences of segments. Alternative solutions in Phonemic analysis. Distinctive feature theory: binary vs. nonbinary features, articulatory vs. acoustic features; Universal set of phonetic features.

Unit–IV.

Basic units of Phonology: Syllable, vowel and consonant. Macro segment and Micro segment, syllable peak, coda, onset and interlude, problems of demarcation of syllable boundary.

Unit- V

Phonological system (as set of items, phonemes) and structure (the permissible arrangement of consonant and vowel phonemes, constraints on combinations etc.). The concept of redundancy.

Suggested Readings:

1. Hocket, C.F. 1958. **A course in Modern Linguistics**. New York. Macmillan and Co.
2.Hymn, Larry, M. 1975. **Phonology: Theory and analysis**. New York. Holt Rinehart and Winston.
3.Jakobson, R & M. Halle. 1956. **Fundamentals of Language**. Part – I. Hague. Mouton & Co.
4. Pike, K.L. 1947. **Phonemes: A technique for reducing language to writing**. University of Michigen Press.
5. Vackek,J. 1966. **The linguistic school of Prague: An introduction to its theory and practice.** In the Prague school Reader in Linguistics.

6. Fudge, Eric. C. 1973. **Phonology; selected Readings**. London. Penguin.
7. Lass, Roger. 1991. Phonology: **An introduction to Basic Concepts**. London. Cambridge University Press.

Course Out Comes:

After completion of the course students will be able to

1.Understand concept of Phoneme, Principals of Phonemic analysis and discovery procedures.2 .Analyze phonemes, Phonological systems and procedures of phonemics.

3. Analyze basic units of Phonology and concept of redundancy.

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3	3	2		3		3			1		2
CO2	1	3							3			1
CO3	1		3		2				2			2

LING:103 Morphology

Objectives:

1. To analyze Morpheme, classification and types of morphemes
2. To analyze derivation, inflection, different models of grammatical description and Morpho - Phonemics
3. To express Intermediate constituents, types of constructions and Idioms.

Unit – I.

Morpheme as a unit of linguistic structure, criteria for identifying morpheme, Allomorph, Zero morph, Empty morph, Portmanteau morph, unique morpheme.

Unit –II

Classification of morphemes. Types of morphemes: free and bound, root, stem and suffix: word and compound.

Unit–III

Derivation and inflection, Different models and grammatical description.Item and Arrangement.Item and Process and, word and paradigm.

Unit–IV

The concept of morpheme, Relationship between morpheme and phoneme, morphophonemic alternations.Internal and external sandhi.Automatic and non- Automatic alternation, regular and irregular alternation; base form. Phonologically conditioned and morphologically conditioned alternation, morphology in generative frame work.

Unit –V

Immediate constituents: Morphological and syntactic. Types of ICs and markers, construction types endocentric and exocentric, syntactic linkage, word classes, parts of speech and grammatical categories. Idiom formation, types of Idioms.

Suggested Readings:

1..Hocket, C.F. 1958. **A course in modern linguistics**. York. Macmillan and Co.

1. Mathews, P.H. 1974. **Morphology**. Cambridge. Cambridge University Press.
2. Elson, B. &Pickelt, V. 1969. **An introduction to Morphology and Syntax**. California, Summer Institute of Linguistics.
3. Nida, E.A. 1946. **Morphology**. Ann Arbor. Michigan University Press.
4. Langacker, Ronanld W. **Fundamental of Linguistics Analysis**. New York. Harcourt Brace Jovanovich, Inc.
5. Joos,M. (ed.). 1957. **Readings in Linguistics**. Chicago University Press.
6. Bauer, Laurie. (2003). **Introducing linguistic morphology** (2nd ed.). Washington, D. Georgetown University Press. ISBN 0-87840-343-4.
7. Bauer, Laurie. (2004). **A glossary of morphology**. Washington, D.C.: Georgetown UP.

8.Bubenik, Vit. (1999). **An introduction to the study of morphology**. LINCON Coursebooks in linguistics, 07. Muenchen: LINCOM Europa. ISBN 3-89586-570-2.

Course Out Comes:

After completion of the course students will be ableto

1. Analyze Morpheme, classification and types of morphemes
2. Analyze derivation, inflection, different models of grammatical description and Morpho-Phonemics
3. Express Intermediate constituents, types of constructions and Idioms

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3	1	3	1			3			2		2
CO2	2		3	2					1			3
Co3	2				3					1		3

LING:104 Syntax

Objectives:

1. To understand assumptions about language, components of grammar and sentence constituents
2. To analyze Phase structure rules, X-bar Notation and grammatical transformations
3. Understand categorical, sub-categorical information and selectional restrictions

Unit - I

Assumptions about language and grammar: Particular and Universal grammar;Adequacies of grammar-observational, descriptive and explanatory;Differencesbetween competence and performance, well formed ness and acceptability, intuition.

Unit- II

Grammar and its components-syntactic, semantic and phonological. Base structures and surface structures. Sentence and its constituents

Unit–III

Phrase structure rules and phrase markers, intermediary categories and the X – bar notation.Transformational component: Wh-movement, Np-movement.

Unit–IV

Categorical and sub categorical information: Partially and fully specified entries, selectional restrictions.

Unit - V

Grammatical transformations: Reflexivization, relativization, Extraposition, Equi- NP deletion, Coordination, Passivization, Pronominalization.

Suggested Readings:

1. Chomsky, N. 1965. **Aspects of the theory of syntax**. Cambridge. MIT Press.
2. Verma, S. K. and Krishnaswamy, N. 1998. **Modern Linguistics: An Introduction**. New Delhi. Oxford University Press.
3. Isaac, Chechamma. 1974. **An Introduction to the theory of Transformational Grammar.** Trivandrum. College Book House.
4. Raford, A. **Transformational Grammar: A first course**.
5. Radford, A. **Transformational syntax**.
6. Brown, Keith; Jim Miller (eds.) (1996**). Concise Encyclopedia of Syntactic Theories**. New York: Elsevier Science. *ISBN 0-08-042711-1*.
7. Carnie, Andrew (2006**). Syntax: A Generative Introduction** (2nd ed.). Oxford: Wiley-Blackwell. *ISBN 1-4051-3384-8*.

Course Out Comes:

After completion of the course students will be ableto

1.Understand assumptions about language, components of grammar and sentence

constituents

2. Analyze Phase structure rules, X-bar Notation and grammatical transformations
3. Understand categorical, sub-categorical information and selectional restrictions

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	2		3	3								1
CO2	2				1		3					2
CO3	3		1						3			2

Compulsory Foundation

LING:105ALanguage and Linguistics

Objectives:

1. To understand notions of language and Approaches to the study of languages
2. To analyze structure of language and grammatical analysis.
3. To understand Linguistics and other fields.

Unit-I

Notions of Language: Language as Written Text-Philosophical and Literary notions; Language boundary, Dialect and Language; Language in spoken and written modes; Writing System.

Unit-II

Approaches to the study of languages: Semiotic approaches; use of language in family, Community and country; language as a system of communication; sign language; Features of language.

Unit-III

Structure of language: Philological, Morphological, Syntactic and Semantic lends and their interrelations. Synchronic vs Diachronic; Classification of Languages; Concepts of Language & People, idiolect and language.

Unit-IV

Grammatical Analysis: Notions of contrast and complementation; Paradigmatic and Syntagmatic relations; Notions of word classes and grammatical categories; Grammatical relations and case relations; notion of rule at different levels; description vs. explanation of grammatical facts.

Unit-V

Linguistics and Other Fields: Relevance of linguistics to other fields of enquiry- Philosophy, Anthropology, Sociology, Political Science, Psychology, Education, Computer Science and Literature.

Suggested Readings:

1. Akmajian, Adrian; Demers, Richard; Farmer, Ann; Harnish, Robert (2010). **Linguistics: An Introduction to Language and Communication**. Cambridge, MA: The MIT Press. ISBN 0-262-51370-6.
2. Crystal, David (1990). **Linguistics**.Penguin Books. ISBN 9780140135312.
3. Chomsky, Noam (1957). **Syntactic Structures**. The Hague: Mouton.
4. Agha, Agha (2006**). Language and Social Relations**.Cambridge University Press.
5. Bloomfield, Leonard (1914). **An introduction to the study of language**. New York: Henry Holt and Company.
6. Hocket, C.F. 1958. **A course in modern linguistics**. York. Macmillan and Co.
7. The **Handbook of Linguistics**. Blackwell.

Course Out Comes:

After completion of the course students will be ableto

1. Understand notions of language and Approaches to the study of languages
2. Analyze structure of language and grammatical analysis.
3. Understand Linguistics and other fields

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3	1	2	2							2	2
CO2	3	1	2	2	3						1	2
CO3	2		3		2		2				1	3

LING:105B Semantics

Objectives:

1. To understand Nature and Scope of Semantics and types of meaning
2. To analyze lexical structure and Meaning and sentence structure and meaning
3. To understand Lexical context of Meaning and Theories of Meaning

Unit – I

Nature and scope of Semantics.The terms Semantics and Meaning.Linguistic and non-Linguistic contexts of meaning.Types of meaning.

Unit –II

Lexical structure and meaning: Componential analysis and its limitations, sense and reference, polysemy, Hyponymy, Homonymy, antonymy, synonymy. Lexical semantics.

Unit–III

Sentence structure and meaning: Grammar and Lexicon, word and sentence. Projection rules, ambiguity, person and deixis.

Unit–IV

Linguistic context of meaning: context as meaning, collocation, idioms, Lexical and glossal meaning. Meaning interaction.

Unit – V

Mental Lexicon, presupposition and implication, Entailment and inconsistency, Tautology and contradiction, Generative and interpretative theories of meaning.

Suggested Readings:

1. Palmer, F.R. 1976.**Semantics: A new out line**. London. Cambridge University Press.
2. Stephen Ullmann. 1962**. Semantics: An introduction to the science of meaning**. Oxford. Basil Blackwell.
3. Stephen Ullmann. **The principles of semantics**. Oxford. Basil Blackwell.
4. Thakur,D. 1999**. Linguistics simplified: Semantics**. Patna. BharatiBhawan publishers.
5. Steinberg, D.D. and Jakobovits, L.A. 1971. **Semantics**. Cambridge. Cambridge University Press.
6. Jackendoff, Ray; **Semantic Structures,** MIT Press, Cambridge, MA, 1990
7. Cruse, D.; **Lexical Semantics,** Cambridge University Press, Cambridge, MA, 1986
8. Nerbonne, J.; **The Handbook of Contemporary Semantic Theory** (ed. Lappin, S.), Blackwell Publishing, Cambridge, MA, 1996
9. Cruse, Alan; **Meaning and Language: An introduction to Semantics and Pragmatics,** Oxford Textbooks in Linguistics, 2004

Course Out Comes:

After completion of the course students will be able to

1. Understand Nature and Scope of Semantics and types of meaning
2. Analyze lexical structure and Meaning and sentence structure and meaning
3. Understand Lexical context of Meaning and Theories of Meaning

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3			2		3						2
CO2		2	3				3					1
CO3		3			3				2	3		2

LING: 105C Structure of Language(Telugu/English)

Objectives:

1.To understand characteristics of language(Telugu/English)

2. To understand Phonology and Morpho- phonemics in language(Telugu/English)

3. To understand Morphology and Syntax of language (Telugu/English)

Unit-I

General typological characteristics of Language Social and regional dialects of Language.

Unit-II

Phonology: Phonemes :Segmentals; suprasegmentals; syllable structure, Phonotactics, Phonological patterns;

Unit-III

Morpho Phonemics: morpheme structure,rules,general morphophonemic process – vowel and consonantal Sandhi.

Unit-IV

Morphology:Words and word classes Grammatical categories Inflectional, derivational and word formation.

Unit-V

Syntax: Word order, classification of sentences – simple, compound and complex, agreement.

Suggested Readings: (For Structure of Telugu)

1. Krishnamurthy, Bh. And JPL Gwynm. 1985. A grammar of Modern Telugu.Madras,Oxford University Press
2. ----------1957.Sandhi in modern colloquial Telugu.Indian Linguistics. 17.
3. ---------- 1968 Compound verb in Telugu Indian Linguistics (supplement)
4. Nagamma Reddy,K.1979.Problems of syllable division in Telugu, Dept. of Linguistics. Edinburgh University.
5. Rama Rao, C. 1999.telugu Vaakyam.Hyderabad.Andhra Pradesh SahityaAkademi.

Suggested Readings: (For Structure of English)

1. Hudson, Richard . 1998.**English Grammar**. London and New York: Routledge.
2. Given,T.1993. **English Grammar: a Function – Based Introduction**. Amsterdam/Philadelphia: John Bengamin publishing Company
3. Halliday, M.A.K. 1989. **Spoken and written Language**. Oxford: Oxford University Press.
4. Crystal, David. 1997. English Barbar, Charles. 1993. **The English Language - A historical introduction**. Cambridge. Cambridge University Press.
5. *Aarts, Bas (2011).* ***Oxford Modern English Grammar****. Oxford University Press.*ISBN 978-0-19-953319-0.

Course Out Comes:

After completion of the course students will be ableto

1. Understand characteristics of language(Telugu/English)
2. Understand Phonology and Morpho- phonemics in language(Telugu/English)
3. Understand Morphology and Syntax of language (Telugu/English)

Elective Foundation

LING:106A Human Relations

Objectives:

1.To understand the introduction of Human Relations

2. To Analyze factors effecting Human Relations and Human Relations Skills

3. To understand Human Relations theory of management and industrial relations.

Unit-I

Introduction of Human relations Concept of Human relations – Examples of Human relations – What is Human relations and why is it important, personality values, attitudes perception, heredity, self estem,self efficiency, self image.

Unit-II

Factors affecting Human relations: Nature of human relations, The main characteristics of Human relations, Factors affecting Human relations – a) Individual b) workgroup c)Leader d) work environment e) Society, Impact of Technology.

Unit-III

Human Relation Skills: Communication, empathy, conflict resolution, Multi tasking, organization, negotiation, stress management

Unit-IV

Human relations - Theory of Management: What is Human relations theory? elements of Human relations theory, who are the primary contributors to Human relations theory

Unit-V

Industrial relations – Behavioral relations: Conceptions of the Manager, Specialized Management participative management, Responsibility to the worker, laisseze faire (Protestant Ethic), paternalism Responsibility to the community (develop public relations) Training and promotion.

Suggested Reading:

1. Baker Library (n.d) the Human Relations Movement: Harvard.htts://www.library.hbs.edu/hc/hawthorne/
2. Black,JS&Bright,DS (2019),Organizational Behaviour,OpenStox
3. Bright DS., & Cortes AH(2019) Principals of Management, OPenStox
4. Gitman,L.J.McDamel c., Shak A, Reece M, Kuffel L, Talsma B & Hyatt JC (2018) Instruction to Business, Open stocks
5. RadhaKrishna,Gali&NukalaSubbarayudu – Human Relations; SRK Publications,Tirupati,2021
6. SprielmanRM,Jenkins,WJ&Lovett,MD (2020) Psycholopsy 2e. Open Stox

Course Out Comes:

After completion of the course students will be ableto

1. .To understand the introduction of Human Relations
2. 2. To Analyze factors effecting Human Relations and Human Relations Skills
3. 3. To understand Human Relations theory of management and industrial relations.

LING: 106B Instructional Technology

Objectives:

1.To understand introduction of IT and types of IT in class room

2.To Analyze IT in Teaching and Learning and improvement of IT learning process

3.To understand IT in Educational Platforms

Unit-I

Introduction of Instructional Technology (IT**)** : Meaning of IT, Nature of IT, Definition of IT, Scope of IT, Characteristics of IT, Importance of IT

Unit-II

Types of IT in class room: Black Board, Over Head Projectors, Slide Projectors, Computers, LCD Projectors, Cam Coders, Digital Cameras, Design and Create Instructional material, Integration of Technology.

Unit-III

IT in Teaching & Learning: Virtual or On-line learning, offline learning, blended learning, use of digital resources, portfolio, affect of class rooms merits and de merits of IT, Role of IT.

Unit-IV

Improvement of IT Learning Process: Role of Technology in Modern classroom, uses of IT, Collaborative learning, cooperative learning, real time feed back, Instructional design.

Unit-V

IT in Education Platforms: SAMR (Substitution, Augmentation, Modification and Redefinition) frame work, Mimio studio (interactive white board Technology) ISTE (International Society of Technology Education). Google Fundamental Training,Remote Learning Environments.

Suggested Readings:

1. Kurt,S, Educational technology, An Overview in Educational Technology, November,18,2015, Retrived from https://educational technology.net/educational-technology-an- overview
2. NIKcholas Proven Zano – The complete Guide to ever note in Education
3. Tom Whitby Steven W Underson – Connectedness empowers learning
4. Corrianderson etc., Inclusive Language Education and Digital Technology
5. James B & Kirk Patrick Four levels of Training evaluation
6. Narvy Smokey and R Damels The Curious classroom
7. Mark Bames – Teaching the eye student
8. Heioi Hayes Jacobs – Curriculum 21st essential educaton for changing world.
9. RadhaKrishna,Gali&NukalaSubbarayudu – Instructional Technology; SRK Publications, Tirupati,2021

Course Out Comes:

After completion of the course students will be able to

1.Understand introduction of IT and types of IT in class room

2. Analyze IT in Teaching and Learning and improvement of IT learning process

3.Understand IT in Educational Platforms

Audit Course

LING:107 Human Values and Professional Ethics – I

Objectives:

1.To understand Ethics and its relation and Ethical values.

2.To understand Nature of values and individual Society

3.To understand Bhagavad Gita, Buddhism, Jainism etc., and crime and theories of punishment

Unit-I

Definition and Nature of Ethics – Its relation to Religion, Politics, Business, law, Medicine and Environment.Need and Importance of Professional Ethics – Goals – Ethical Values in various Professions.

Unit-II

Nature of Values – Good and Bad, Ends and Means, Actual and potential Values, Objective and Subjective Values, Analysis of basic moral concepts –right, ought, duty, character and Conduct

Unit-III

Individual and Society:Ahimsa (Non-Violence),Satya (Truth), Brahmacharya (Celibacy), Asteya (Non possession) and Aparigraha (Non-stealing). Purusharthas (Cardinal virtues) – Dharma (Righteousness), Artha (Wealth), Kama (Fulfillment Bodily Desires), Moksha (Liberatin).

Unit-IV

Bhagavad Gita – (a) Niskama Karma. (b) Buddhism – The Four Noble Truths – Aryaastangamarga, (c) Jainism – mahavratas and anuvratas. Values Embedded in Various Religions, Religious Tolerance, Gandhian Ethics.

Unit-V

Crime and Theories of punishment- (a) reformative, Retributive and Deterrent. (b) Views on manu and Yajnavalkya.

Suggested Readings:

1. John S Mackenjie: A manual of ethics
2. “The Ethics of Management” by Larue Tone Hosmer, Richard D.lrwin Inc.
3. “Management ethics – integrity at work” by Joseph A. Petrick and John F.Quinn,Response Books: New Delhi
4. “Ethics in Managemnt” by S.ASherlekar, Himalaya Publishing House
5. Haarold H. Titus:Ethics for Today
6. Maitra, S.K: Hindu Ethics
7. William Lilly: Introduction to Ethics
8. Sinha: A Manual of Ethics
9. Manu: Manu DharnaSastra or the Institute of Manu:Comprising the Indian System of Duties: Religious and Civil(ed) G.C.Haughton
10. SusrutaSamhita:Tr.KavirajKunjanlal,KunjalalBrishagratha, Chowkamba,Chowkamba Sanskrit series, Vol I,II and III, Varnasi, Vol I OO, 16-20,21-32 and 74-77 only

11. CharakaSamhita: Tr.Dr.Ram Karan Sarma and VaidyaBhagavan Dash, ChowkambhaSaskrit Series office, Vaaranasi I,II,III Vol I PP 183-191
12. Ethics, Theory and Contemporary Issues, Barbara Mackinnon, Wadsworth/Thomson Learning 2001
13. Analyzing Moral Issues, Judith A.Boss, Mayfield publishing Company,1999
14. An Introduction to pplied Ethics (Ed.) John H. Piet and Ayodhya Prasad, Cosmo Publications.
15. Text book for Intermediate logic, Ethics and Human Values, board of Intermediate Education & Telugu Academic Hyderbad.

I6C.Sharma Ethical Philosphy of India.Nagin&coJndhar.

Course Out Comes:

After completion of the course students will be ableto

1.Understand Ethics and its relation and Ethical values.

2.Understand Nature of values and individual Society

3.Understand Bhagavad Gita, Buddhism, Jainism etc., and crime and theories of punishment

POs	1	2	3	4	5	6	7	8	9	10	11	12

7		Audit Course	Human Values and Professional Ethics -II			0	0	100	--	--

*All Core papers are Compulsory

*Compulsory Foundation – Choose one paper

*Elective Foundation – Choose one paper

*Audit Course – 100 Marks (Internal) – Zero Credits under self study

* Interested students may register for MOOC with approval of the concerned DDC but it will be Considered for the awarded of the grade as open elective only giving extra credits.

for the award of the grade as pen elective only giving extra credits.

Core: LING:201 Historical Linguistics

Objectives:

1. To understand the major breakthroughs in historical Linguistics
2. To understand sound change ,Linguistics change and Semantic change
3. To analyses Internalreconstruction ,comparative method and Glottochronology

Unit - I

The major breakthroughs in historical linguistics: the genetic hypothesis, the regularity hypothesis, the phonemic hypothesis. Models of language classification: Genealogical, Typological and Arial. Principles of sub grouping.

Unit-II

Concept of a linguistic family: major language families of the world, characteristic features of the language families of India and mutual influences.

Unit – III

Sound change: gradual Phonetic change, structuralist model in describing sound change, phonetic and phonemic changes, conditioned and unconditioned change, types of sound changes, social motivation of sound change.

Unit -IV

Analogy: regularizing tendency of analogy, relation to change, types of sound change. Assumptions of Linguistic change: least effort, substratum theory, structural pressure. Linguistic borrowing: Causes and types, and effects of borrowing.

Unit-V

Semantic change: nature and types; Internal reconstruction and Comparative method – scope and limitations. Lexicostatistics or Glottochronology: assumptions, aims and method of application.

Suggested Readings:

1. Winfred P. Lehmann, **Historical Linguistics: An Introduction** (Second Edition) (Holt, 1973) ISBN 0-03-078370-4
2. RaimoAnttila, **Historical and Comparative Linguistics** (2nd ed.) (John Benjamins, 1989) ISBN 90-272-3557-0
3. Arlotto, Anthony. **Introduction to Historical Linguistics**. Boston. Houghton Mifflin Company.
4. King, R.D. 1969. **Historical Linguistics: An Introduction**. New Jersey: Prentice Hall.
5. Hoenigswalf, H.M. 1960. **Language change and Linguistic Reconstruction**. Chicago. University of Chicago Press.
6. Turtvent, E.H. 1942. **Linguistic Change**. Chicago. University of Chicago Press.
7. Jeffers, R.J. and IlseLehiste. **Principles and Methods for Historical Linguistics**.
8. Greenberg, J.H. 1957. **Essays in Linguistics**. Chicago. University of Chicago Press.
9. TheodoraBynon, **Historical Linguistics** (Cambridge University Press, 1977) ISBN 0-521-29188-7

10. Richard D. Janda and Brian D. Joseph (Eds), **The Handbook of Historical Linguistics** (Blackwell, 2004) ISBN 1-4051-2747-3

Course Out Comes:

After completion of the course students will be able to

1. Understand the major breakthroughs in historical Linguistics
2. Understand sound change ,Linguistics change and Semantic change
3. Analyses Internal reconstruction ,comparative method and Glottochronology

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3		2			3			1			2
CO2	2		3				3					2
CO3		3			3		2		3	1		2

LING:202 Dialectology

Objectives:

1. To Understand the terms of Dialectology, history and development of dialect studies
2. To analyze types of dialects and variability
3. To understand dialect survey methodology and its approaches

Unit- I

Concept of idiolect, dialect, standard language: dialect area, dialect boundary, focal area, relic area and transitional area.

Unit- II

History and development of dialect studies: synchronic and diachronic; major linguistic atlases; German, French, American atlases. Dialect studies in India and Andhra Pradesh.

UNIT - III

Types of dialects and variability; variation along social parameters; geographical variation-intelligibility, isoglosses, pattering and gradation.

Unit –IV

Dialect survey methodology; preparation of questionnaire; data elicitation techniques: mapping of dialect variation and drawing of isoglosses: interpretation of dialect maps.

Unit –V

Notions of heterogeneity and variability-interactional and correlational approaches in survey methodology.

Suggested Readings:

1. Chambers, J.K. and Trudgil, Peter. 1990. **Dialectology**. Cambridge. Cambridge University Press.
2. Trudgil, Peter. 1983. **On Dialect: Social and Geographical perspectives**. Oxford. Blackwell.
3. Ferguson &Gumperz. : **Linguistic Diversity in South Asia**. Mouton.
4. Francil, W.N. 1987. **Dialectology: An introduction**. London. Longman.
5. Krishnamurti, Bh. 1962. **A Dialect Dictionary of Occupational Vocabulary, Vol. I: Introduction.**
6. Thomas, Alan R. (1967), **"Generative phonology in dialectology"**, Transactions of the Philological Society 66 (1): 179–203, doi:10.1111/j.1467-968X.1967.tb00343.x
7. Dollinger, Stefan (2015). **The Written Questionnaire in Social Dialectology: History, Theory, Practice.** IMPACT: Studies in Language and Society, 40. Amsterdam & Philadelphia: John Benjamins Pub. Co.

Course Out Comes:

After completion of the course students will be ableto

1. Understand the terms of Dialectology, history and development of dialect studies
2. Analyze types of dialects and variability
3. Understand dialect survey methodology and its approaches

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1			3		2		3			1		3
CO2			3						1		2	
CO3		3			3	1			3			2

LING:203 Field Linguistics

Objectives:

1. To understand scope and purpose of field linguistics and problems of investigating non-literary languages
2. To understand techniques and methods of elicitation and collection of Linguistic data
3. To analyze the collection, recording and processing of data.

Unit-I

The scope and purpose of field linguistics; Field linguistics as a branch of descriptive linguistics and its relation to other branches in linguistic sciences such as theoretical and applied linguistics.

UNIT-II

The problem of investigating non-literary languages.The role and importance of language informant in linguistic field work; Selection of informants, number of informants and the training of the informant to suit the goal of the project.Preparation of appropriate questionnaire.

Unit – III

Techniques and methods of elicitation: elicitation and its nature; scheduled versus analytical elicitation; steps in elicitation, analysis and checking for elicitation. Organization of work sessions. Eliciting relevant data at various levels of linguistics structure; sound, word, phrase, clause and sentence levels. The importance of collecting texts-training the informant to dictate the texts, translating them with his help and checking the texts with other member of the language community.

UNIT-IV

Collection of linguistic data; Factors which determine the kinds of data, obtaining relevant data and restricting its size to salient features. Investigators: self preparation for encountering the informant. The need for a pilot survey of the peoples languages and the area of investigation and the collection of sample data.

Unit – V

The recording of dialect of language material. Types and purposes of fieldtranscription. The mechanization of phonetic field work.The reliability and accuracy of phonetic field transcription.The phonetics training for field worker.Collection,analysisandprocessing of the data. The value
of phonetic and linguistic statements.

Suggested Readings:

1. Samarin W J. 1061. **Field Linguistics – Aguide to Linguistics field work**, New York
2.Nida, EA. 1978. (2nd ed.) **Morphology**.University of Michigan press.Srlion
3.Kiberik A.E. 1977 **The Methodology of Field infestations in Linguistics**Moulton 2 Co
4.Paul Newman and Mirth Ratlife (Eds.) **Linguistics, Field work,** UK Cambridge UniversityPress.

5.Crystal, David *(1990). Linguistics.Penguin Books.* ISBN 9780140135312.

6.Halliday, Michael A.K.*; Jonathan Webster (2006). On Language and Linguistics.* Continuum International Publishing Group. *p. vii.* ISBN 0-8264-8824-2.

7.Martinet, André *(1960). Elements of General Linguistics. Tr. Elisabeth Palmer* Rubbert (Studies inGeneral Linguistics, vol. i.). London: Faber. p. 15.

Course Out Comes:

After completion of the course students will be ableto

1. Understand scope and purpose of field linguistics and problems of investigating non- literary languages
2. Understand techniques and methods of elicitation and collection of Linguistic data
3. Analyze the collection, recording and processing of data.

POs	1	2	3	4	5	6	7	8	9	10	11	12

LING:204 Language Families of India and Comparative Dravidian

Objectives:

1.To understand language families of India

2.Toanalyze Dravidian Language Family and history and sources of each Dravidian Language.

3.Toanalyze vocalic, consonant and Sandhi systems, and reconstruction of Dravidian.

Unit - I

Language families of India.The concept of linguistic area and India as linguistic area.Reduplication, onomatopoeia, Echo words in Indian Languages and especially Dravidian Languages.

Unit -II

Dravidian language family: Proto-Dravidian, Sub-groups of Dravidian, literary and non-literary languages, cognates. The writing systems of the major literary languages of Dravidian.Special features of Dravidian languages.

Unit–III

A short sketch of the history and sources for each Dravidian language. Reconstructed Proto-Dravidian Culture. Language contact and vocabulary borrowing between language families: Indo-Aryan ad Austro-Asiatic words in Dravidian and Perso-Arabic and Western language (Portuguese and English) words in Dravidian.

Unit–IV

Dravidian Vocalic System, Vowels: quality, Diphthongs. Dravidian consonantal system, initial and intervocalic stops. Phonological innovations and retentions: exceptions to sound changes explained in terms of borrowing, analogy. Areal and lexical diffusion.

Unit-V

Phonological, Morphological and Syntactical reconstruction of Dravidian.Dravidian sandhi system. Dative subjects.

Suggested Readings:

1. Emeneau, M.B. 1980. **Language and Linguistic area**. Stanford, California, Stanford University Press.
2. Krishnamurthi, Bhadriraju. 2003.**The Dravidian Languages**. NewYork. Cambridge University Press.
3. "Dravidian languages". *Encyclopædia Britannica Online*. Retrieved10 December 2014.
4. Krishnamurti, Bhadriraju (2003). The Dravidian Languages. Cambridge University Press. ISBN 0521771110.
5. Subramanyam, P.S. 1997. **DravidaBhashalu**. Hyderabad. PS Telugu University.
6. Emeneau, M.B. 1970. **Dravidian Comparative Phonology: A sketch**. Annamalai Nagar, nnamalai University.
7. Kamilzvelebil. 1970. **Comparative Dravidian Phonology**. The Hague, Paris. Mouton.

Course Out Comes:

After completion of the course students will be ableto

1.Understand language families of India

2.Aanalyze Dravidian Language Family and history and sources of each Dravidian Language.

3.Analyze vocalic, consonant and Sandhi systems, and reconstruction of Dravidian.

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3					2			1			1
CO2	3					2			1			2
CO3		3			2				1			2

Compulsory Foundation

LING:205A Language Contact

Objectives:

1. To analyze speech as social interaction and Interference
2. To analyze Indian language contact situation and effects of language contact
3. To understand Linguistic borrowing

Unit – I

Speech as social interaction: Speech functions and speech events; components of speech event-purpose, setting, participants. Linguistic variety, rules of speaking, cross cultural perspective, verbal and non-verbal behavior, reflection of social process in linguistic structures; speech and social identify; semantics of power and solidarity.

Unit – II

Language Contact:Types of Interference; Language Loyalty, Language attitudes, Language Maintenance and Shift; language convergence.

Unit - III

Indian Language contact situation, Historical situation, Multilingualism.

Unit – IV

Effects of Language contact:Bilingualism,Pidginisation and Creolization, language death, Majority languages and Minority languages.

Unit – V

Linguistic Borrowing – Lexical and Structural: Motivations – Prestige and Need filling (including culture based) ; classification of Loan words – Loan Translation, Loan blend, Calque; Assimilated and unassimilated words(Tadbhava&Tatsama); Bilingualism as a source for borrowing.

Suggested Readings:

1. Suzanne Romaine. **Bilingualism.**NewYork. Basil Blackwell Ltd.
2. Wallace E. Lambert. 1972. **Language Psychology and culture.** Stanford University Press.
3. Hohn Rubin. 1968. **National Bilingualism in Paraguay**. The Hague, Paris. Mouton.
4. Sarah Thomason, **Language Contact - An Introduction** (Edinburgh University Press 2001).
5. UrielWeinreich, **Languages in Contact** (Mouton 1963).
6. Sarah Thomason and Terrence Kaufman, **Language Contact, Creolization and Genetic Linguistics** (University of California Press 1988).

Course Out Comes:

After completion of the course students will be able to

1. Analyze speech as social interaction and Interference
2. Analyze Indian language contact situation and effects of language contact
3. Understand Linguistic borrowing

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3	3								2		3
CO2	2				3					1		2
CO3	1								3	3		2

LING;205B Natural Language Processing

Objectives:

1. To understand rationalist and empiricist approaches to language.
2. To analyze Mathematical Foundations, essential information theory and Entropy.
3. To analyze Tagging, Taggers, probabilistic parsing and clustering.

Unit – I

Rationalist and Empiricist Approaches to language, Non-categorical phenomena in language, language and cognition as probabilistic phenomena, The Ambiguity of Language: Why NLP is Difficult. Lexical resources, Word counts, Zipf'slaws,Collocations, Concordances.

Unit – II

Mathematical Foundations, Elementary Probability Theory, Probability spaces,Conditional probability and independence, Bayes' theorem, Random variables, Expectation and variance, Notation.

Unit – III

Essential Information Theory, Entropy: Joint entropy and conditional entropy. Mutual information.The noisy channel model, Relative entropy or Kullback-Leibledivergence.The relation to language: Cross entropy, The entropy of English.

Unit – IV

Part-of-Speech Tagging, The Information Sources in Tagging, Markov Model Taggers,The probabilistic model, The Viterbi algorithm, Hidden Markov Model Taggers, TaggingAccuracy and Uses of Taggers.

Unit – V

Probabilistic Parsing: Some Concepts, Parsing for disambiguation, Tree banks, Parsingmodels vs. language models. Clustering: Hierarchical Clustering, Single-link and complete-link clustering, Group-average agglomerative clustering. An application:Improving a language model, Top-down clustering, Non-Hierarchical Clustering.

Suggested Readings:

1. **Foundations of Statistical Natural Language Processing**-Christopher manning and HinrichSchutze
1999 Massachusetts Institute of Technology, Second printing with corrections, 2000United States of America.
2. Briscoe, Ted, and John Carroll. 1993. Generalized probabilistic Lr parsing of natural language
(corpora) with unification-based methods. **Computational Linguistics.**
3. Biber, Douglas, Susan Conrad, and 1998. **Corpus Linguistics:**Investigating language Structure and Use. Cambridge: Cambridge University press.

4. Boguraev, Branimir K. 1993. **The contribution of computational lexicography.**
In Madeleine Bates and Ralph M. Weischedel Challenges in antural Language.

Course Out Comes:

After completion of the course students will be ableto

1. Understand rationalist and empiricist approaches to language.
2. Analyze Mathematical Foundations, essential information theory and Entropy.
3. Analyze Tagging, Taggers, probabilistic parsing and clustering.

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1		3	3						2			3
CO2		1		3			2		3			2
CO3		2				3	2		1	3	3	2

LING:205C Endangered languages

Objectives:

1.To understand scope of Endangered Language

2.Tounderstand reasons for Endangerment of languages and effects of Endangerment

3.Toanalyze criteria and Endangered Languages of India

Unit – I

Endangered language: definition and scope. Code mixing and code switching,Language maintenance, mother tongues and official languagesin India.

Unit – II

Reasons for endangerment of languages: Language dominance, Globalization, Language shift,Borrowing, Multilingualism, Multiculturalism and Multilingual Education.

Unit – II

Effects of Endangerment: Shrinking of language domains, Pidginization, Creolization, Language extinction,Language death.

Unit – IV

Criteria: Levels of language risk, Evaluation of language endangerment,EGIDS, Reasons for Indian languages extinction, Process of extinction.

Unit – V

Endangering languages: Protection and Prevention of endangered languages, Endangered languages of India.

Suggested Readings:

1. Brenzinger, Matthias (ed.) (1992) Language Death: Factual and Theoretical Explorations with Special
Reference to East Africa. Berlin/New York: Mouton de Gruyter. ISBN 978-3-11-013404-9.

CO3	3			2					1		1	2

Elective Foundation

LING: 206A Literacy, Language Curriculum and Testing

Objectives:

1.To analyze literacy as communication skill

2.To understand language acquisition and survey of language learning theories

3.To understand material for adult literacy and language testing

Unit-I

Literacy as communication skill, communicative needs of learning. Instruction through vernacular languages medium of instruction in education at different levels. Bernstein's elaborated and restricted codes. Formal and non-formal literacy programmes. Formal, early school education of normal children, non- formal: Audit education the under privileged children.

Unit-II

Language acquisition, nature and modeling.Learning disabilities among children and remedial measures.Orality and writing Role of linguistics in learning and teaching, problems evaluation. Teaching of reading and writing to adults and children.

Unit-III

A Short survey of language learning theories, stimulus response, and reinforcement theories, mediation theories, innate capacity theory, cognitive development theory (piaget).

Unit-IV

Materials for Adult literacy: Development of improved pace and context of learning (IPCL) material for Adult literacy teaching.

Unit-V

Principles and methods of language testing, definition, basic concept of testing.
Types of testing, aptitude, diagnostic prognostic. Achievement and proficiency
test requi8sites, Reliability and validity of tests.

Suggested Readings:

1. Athreya, Venkatesh and Shila Rani Chinkath.1996.Literacy and Empowerment. New Delhi. Sage Publication
2. Freire,P.andDonaldo Macedo.1987.Literacy: Reading the word and the World. London. Routledge and:Kegan Paul

3.Mackay,S.L.1996.Literacy and Literacies. In Mcka,S.L. and Hornberger,N.H.(ed).2002. Practice and LanguageTeaching Cambridge.UK

4. Mukharjee,A and Vasanta,D.(ed).2002.Practice and Research in Literacy,NewDelhi.Sage.
5. Rebecca,M.Valette.Modern Language Testing.New York Harcourt Brace and World Inc.

Course Out Comes:

After completion of the course students will be able to

1.Analyze literacy as communication skill

2.Understand language acquisition and survey of language learning theories of

3.Understand material for adult literacy and language testing

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3		3		1					2		1
CO2	3		3		1			1		3		2
CO3	3		3		1					2		1

LING: 206B Communication Technology

Objectives:

1.Toanalyze communication theory and Linguistic communication

2.To understand Artificial Intelligence, Machine Translation and Micro planner artificial languages

3. To analyze corpus based approach, Natural Language Processing and technological advances in Communication.

Unit - I

Communication theory: code, channel encoding, decoding, measurement and units of information, binit/bit. Redundancy – Noise – Channel noise, code noise.

Unit – II

Linguistic Communication: Message model of linguistic communication. Inferential approach to communication.Direct and indirect communication.Literal and non-literal communication.

Unit–III

Artificial Intelligence – Engineering approach. Cognitive – Science approach.Machine translation.Micro Planner artificial languages.

Unit–IV

Corpus based approach Computer corpora – machine readable corpora, automatic processing, automatic transmission fortification and limitations of corpora. Data capture. Natural language processing.

Unit –V

Technological advances in communication – Mass media print and electronic transmission.

Suggested Readings:

1. August E. Grant and Gennifer H. Meadows. **Communication Technology Update**. Ron
2. Kevac, Stephan Jones. **Introduction to Communications Technologies**: A Guide.
3. Susan Hunston. 2002. **Corpora in Applied Linguistics**. Cambridge. Cambridge University Press.
4. J. C. Richards and R. W. Schmidt (eds.). 1983. **Language and Communication**.
5. McEnery, T and Wilson A. 1996. **Corpus Linguistics**. Edingurgh. Edinburgh University Press.
6. Stubbs, M. 1996. **Text and Corpus Analysis**. Oxford. Blackwell
7. AksharBharati et al. 1995. **Natural Language Processing: A PaninianPerspective**.New Delhi. Prentice Hall.

Course Out Comes:

After completion of the course students will be ableto

1.Analyze communication theory and Linguistic communication

2.Understand Artificial Intelligence, Machine Translation and Micro planner artificial languages

3. Analyze corpus based approach, Natural Language Processing and technological advances in Communication.

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3		3		2				3			2
CO2			2	3					3			1
CO3	1			3	2		3		3			2

Audit Course 207:Human Values and Professional Ethics-II

Objectives:

1. To understand value education and human values
2. To understand effectiveness to capability Medical and Business Ethics
3. To understand environmental and social ethics

Unit – I

Value Education – Definition – relevance to present day – Concept of Human Values – self introspection – Self esteem. Family values-Components, structure and responsibilities of family- Neutralization of anger – Adjustability – Treats of family life – Status of women in family and society – Caring for needy and elderly –Time allotment for sharing ideas and concerns.

Unit – II

Medical ethics – Views of Charka, Sushruta and Hippocrates on moral responsibility of medical practitioners. Code of ethics for medical and healthcare professionals.Euthanasia, Ethical obligation to animals, Ethical issues in relation to health care professionals and patients.Social justice in health care, human cloning, Problems of abortion. Ethical issues in genetic engineering and Ethical issues raised by new biological technology or knowledge.

Unit – III

Business ethics-Ethical standards of business-Immoral and illegal practices and their solutions. Characteristics of ethical problems in management, ethical theories, causes of unethical behavior, ethical abuses and work ethics

Unit - IV.

Environmental ethics-Ethical theory, man and nature-Ecological crisis, Pest control, Pollution and Waste, Climate change, Energy and population, justice and environmental health.

Unit – V

Social ethics- Organ trade, Human trafficking, Human rights violation and social disparities, Feminist ethics, Surrogacy/Pregnancy. Ethics of media-Impact of Newspapers, Television, Movies and Internet.

Suggested Readings:

1. John S Mackenjie: A manual of ethics
2. "The Ethics of Management" by Larue Tone Hosmer, Richard D.lrwin Inc.
3. "Management ethics – integrity at work" by Joseph A. Petrick and John F.Quinn,Response Books: New Delhi
4. "Ethics in Managemnt" by S.ASherlekar, Himalaya Publishing House
5. .Haarold H. Titus:Ethics for Today
6. Maitra, S.K: Hindu Ethics
7. William Lilly: Introduction to Ethics
8. Sinha: A Manual of Ethics
9. Manu: Manu DharnaSastra or the Institute of Manu:Comprising the Indian System of Duties: Religious and Civil(ed) G.C.Haughton

10.Susruta Samhita:Tr.KavirajKunjanlal,KunjalalBrishagratha, Chowkamba,Chowkamba Sanskrit series,Vol I,II and III, Varnasi, Vol I OO, 16-20,21-32 and 74-77 only

11.Charaka Samhita: Tr.Dr.Ram Karan Sarma and VaidyaBhagavan Dash, ChowkambhaSaskrit Series office, Vaaranasi I,II,III Vol I PP 183-191

12.Ethics, Theory and Contemporary Issues, Barbara Mackinnon, Wadsworth/Thomson Learning 200113.Analyzing Moral Issues, Judith A.Boss, Mayfield publishing Company,1999

14.An Introduction to pplied Ethics (Ed.) John H. Piet and Ayodhya Prasad, Cosmo Publications.

15.Text book for Intermediate logic, Ethics and Human Values, board of Intermediate Education & Telugu Academic Hyderabad.

16.I.C.Sharma Ethical Philosphy of India. Nagin&coJulundhar.

Course Out Comes:

After completion of the course students will be ableto

1.Understand value education and human values

2.Understand effectiveness to capability Medical and Business Ethics

3.Understand environmental and social ethics

The Programme of study and the Scheme of Examinations

Semester-III

S.No.	Course Code	Components of study	Title of the Course			Credit Hours /Week	No. of Credits	IA Marks	Sem. End Exam Marks	Total Marks
1	301	Core	1	Language Acquisition and Child Language Development	Mandatory	6	4	20	80	100
2	302		2	Language Disorders and Speech Pathology		6	4	20	80	100
3	30A	Generic Elective	3a	Socio-linguistics	Opt-2	6 6	4 4	20 20	80 80	100 100
	303B		3b	Psycho-linguistics						
	303C		3c	Neuro-linguistics						
	303D		3d	Computational Linguistics						
4	304	Skill Oriented Course	4	ICT for Enriching Teaching and Learning Skills	Mandatory	6	4	20	80	100
5	305A	Open Elective	5a	Bilingualism	Opt-1	6	4	20	80	100
	305B		5b	Mass Media Communication						
	Total					36	24	120	480	600

* All Core papers are Mandatory

* Generic Elective – Choose Two papers

* Skill-Oriented Course is Mandatory

* Open Electives are for the Students of other Departments. Minimum One paper should be Opted. Extra Credits may be earned by opting for more number of Open Electives depending on the interest of the student through self study

* Interested students may register for MOOC with the approval of the concerned DDC

Core

LING:301 Language Acquisition and Child Language Development

Objectives:

1. To analyze language acquisition device and stages of language acquisition
2. To understand continuity and discontinuity approaches
3. To analyze the acquisition process and acquisition VS learning

Unit – I

Language acquisition device. Encoding and decoding speech and Language. Early attempts of linguistic development of a child.Competence and performance.Communicative competence.Production and comprehension of grammatical contrasts.

Unit – II

Stages of language acquisition. The period of prelinguistic development: cooing, babbling, sound play motherese (baby talk, care taker speech), environment.

Unit-III

Continuity and discontinuity approaches. One word stage (holophrastic stage) over extension associate complex. Two word stage pivot (pivot class of words) open class words telegraphic speech.

Unit – IV

The acquisition process. Acquisition of phonetic, Phonological,morphological syntactic and semantic principles: questions, negatives etc.

Unit- V

Acquisition Vs. learning.Acquisition of two languages critical period for language acquisition.First language acquisition and second language learning.Simultaneous and successive acquisition.Internal analogy and over generalization.

Suggested Readings:

1. Jill G.de Villers A.de. Villers – '**Language Acquisition'**, HarwardUniversityPress, Cambridge, Massachusetts and London, England

2. N.Chomsky**, Language and Mind**

3.CliffsNeo Jersey- **Psycho-Linguistics: Introductory Perceptions**; New York, Academic press.

4.Solsaporta and JR Bastian (Ed.) **Psycho-Linguistics, A Book of Readings**, New York. Hart, Rich hart, Winston.

5. Lightfoot, David (2010). "**Language acquisition and language change**". Wiley Interdisciplinary Reviews: Cognitive Science **1** (5): 677–684 doi:10.1002/wcs.39.ISSN 1939-5078.

6, Berk, Laura E. (2009)."9, **Language Development". Child development**. Boston: Pearson Education/Allyn&Bacon. ISBN0-205-61559- 637146042.

Course Out Comes:

After completion of the course students will be ableto

1. Analyze language acquisition device and stages of language acquisition
2. Understand continuity and discontinuity approaches
3. Analyze the acquisition process and acquisition VS learning

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3					2				1		3
CO2				3	3					3		2
CO3			3			3			3	1		2

LING:302 Language Disorders and Speech Pathology

Objectives:

1. To understand disordered communication, language and the brain
2. To understand articulation, language and hearing disorders
3. To understand speech pathology

Unit – I

Definition of Communication.Speech and hearing communication.Modes ofCommunication.Theories and models of human communication.Normal vs.Disordered communication.

Unit- II

Language and the Brain – Broca's aphasia – Wernicke's aphasia, conduction aphasia, expressive aphasia, receptive aphasia. Dominance, language area, Neurolinguistic processing. Definitions of Aphasia, Agnosia, Apraxia, Anarthria of Dysarthria, Dyslexia.

Unit –III

Disorders of articulation: Articulation disorders- dysarthria vs. dyslexia, Evaluation disorders, disorders of phonation: Pitch, intensity and quality disorders. Organic functional voice disorders etiology and diagnosis. Fluency disorders, Stuttering vs. stammering in children.

Unit –IV

Language disorders: Language handicap; the causes of language handicap. The classification of language handicap. Language disorders in children, mental retardation, childhood aphasia. Dyslexia and learning disability. Language disability in adults historical perspectives of aphasia, etiology, schizophrenia and dementia.Hearing disorders: Types of hearing loss, causes of hearing loss. Relationship between hearing loss and speech perception. Speech and language problems of the hearing handicapped.

Unit- V

Disorders of manner of production. Other (writing-Agraphia) language related disorders. Speech pathology localized lesions. Diffuse vs. Loss, problems of neurological cor-relates and their relevance to language. Time, the most significant dimension in language physiology – Innate mechanism for perception and production, Treatment of articulation, phonation and fluency disorders.Treatment procedures for language disorders.

Suggested Readings:

1. Obler, L. K. and Kris Gjerlow, **Language and the Brain**. NewYork. Cambridge University Press.
2. Catherine A. Jackson. **Linguistics and speech-language pathology, Linguistics**: **The Cambridge survey, vol. III**. New York. Cambridge University Press.
3. Mildred Freburg Berry. **Language disorders of children: The Bases ad diagnoses**. NewYork. Meredish Corporation.
4. Ruth Lesser. **Linguistic investigations of aphasia**, London, Edward Arnold pubklishers Ltd.

5. David Crystal. **Language, brain and handicap– VIII, The Cambridge encyclopedia of language**, New York. Cambridge University Press
6. "Stuttering". **Children and stuttering; Speech disfluency; Stammering**. U.S. National Library of Medicine - PubMed Health. 2012. Retrieved 8 December 2013.

Course Out Comes:

After completion of the course students will be ableto

1.Understand disordered communication, language and the brain

2.Understand articulation, language and hearing disorders

3.Understand speech pathology

Generic Elective

LING:303A Socio-linguistics

Objectives:

1. To analyze language and society, Linguistic variability and language varieties
2. To analyze Sociology of language planning and Language and Social identity
3. To understand Sociolinguistic Methodology

Unit - I

Language and society: speech community; Linguistic competence and communicative competence, Linguistic variability; identification of Linguistic and Social variables, patterns of variation.

Unit - II

Language varieties: Regional, Social, formal and informal; standard non-standard, the concept of register and the dimensions of an act of communication- field, mode and the tenor, Vernacular, restricted and elaborated codes

Unit – III

Sociology of Language Planning: Language standardization and modernization; orthographic reform and Literacy; national Language and languages of winder communication; nationalism and nationalization.

Unit–IV

Language and Social Identity; Concept of linguistic and social inequality; linguistic prejudices and stereotypes; attitude analysis; Bernsteins concept of code; restricted and elaborate; the deficit theory.

Unit –V

Sociolinguistic Methodology: Methodological preliminaries; selecting speakers and linguistic variables, collecting texts; data processing and interpretation; method of quantification of linguistic variation; types of variables.

Suggested Readings:

1. Gimpertz, J.J. 1972. Introduction (in JJ Gumpertz, and D. Hymes (ed.) **Directions in sociolinguistics)**. New York. Holt. Rinehart & Winston
2. Hudson, Richard. 1980. **Sociolinguistic**s. Cambridge. Cambridge University Press.
3. Mesthrie, Rajend, Joan Swann, Andrea Deumert and William M. Leap. 2000. **Introducting Sociolinguistics**. Edinburgh University Press.
4. Williams, Glyn. 1992. **Sociolinguistics; a sociological critique**. London. Routledge.
5. Annamalai, E. 2001. **Managing Multilingualism in India**. New Delhi. Sage publ.
6. Fasold, Ralph. 1984. **Sociolinguistics of society**; Oxford. Basil Blackwell.
7. --------- 1986. **Sociolinguistics of Language**. Oxford. Basil Blackwell.

8. Paulston, Christine Bratt and G. Richard Tucker, eds. **Sociolinguistics: The Essential Readings.** Malden, Ma.: Wiley-Blackwell, 2003.
9. Deckert, Sharon K. and Caroline H. Vikers. (2011). **An Introduction to Sociolinguistics: Society and Identity**

Course Out Comes:

After completion of the course students will be able to

1.Analyze language and society, Linguistic variability and language varieties

2. Analyze Sociology of language planning and Language and Social identity

3. Understand Sociolinguistic Methodology

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3		3		1	3				3		2
CO2			2		1		3					2
CO3			3		1				3			2

LING:303B Psycho-linguistics

Objectives:

1. To understand an overview of Psycho-linguistics
2. To analyze speech production, perception, and comprehension.
3. To understand lexical processing , concept of meaning, bilingualism and language acquisition in children

Unit – I

Over view of Psycholinguistics and acquisition of language in spoken, written and signed media. Language and thought, Behavioristic, mentalistic and Cognitive approaches to the study of language.

Unit – II

speech perception and comprehension: linguistic cues in perception of vowels and consonants, segmental and suprasegmental cues in context, models of speech perception, analytic and synthetic. Process of comprehension, phonological and features, stress and intonation cues to structures, lexical access and mental lexicon, Semantic relation and segment comprehension processing, transformational model and strategy model.

Unit – III

speech production: planning and execution, discourse planning, sentence planning. Speech errors and sentence production errors and linguistic units, errors and sentence stress, word classes in speech errors, derivation and inflection in errors.

Unit – IV

Lexical processing and mental lexicon, meta linguistic ability, input to language learning, lexical access and word recognition, introduction to the concept of meaning.

Unit – V

Bilingualism, language acquisition in children, Environmental factors in language acquisition, Motherese language acquisition models, acquisition of phonology, cooing and babbling. Bilingualism and Cognitive development, language problems and bilingual children.

Suggested Readings:

1. Donald J. Foss and David T. Hakes, **Psycholinguistics: An introduction to the psychology of language.** Englewood. Prentice Hall. Inc.
2. Cliffs Neeo Jersey, **Psycholinguistics: Introductory perceptions**. Newyork.

Academic Press.3. Sol Saporta and J.R. Bastian. (ed.) **Psycholinguistics: A book of Readings.**Newyork. Holt. Rinehart and Winston.

3. Frederic J. Newmayar. (ed.). **Language: Psychological and Biological aspects (Volume-III, Linguistics).**Newyork. Cambridge University Press.
4. Cairnsm, H.S. and C.E. Cairns. **Psycholinguistics: A cognitive view of language.**Newyork.Holt. Rinehart and Winston.Levelt, W. J. M. (2013).
5. **A History of Psycholinguistics**: the pre-Chomskyan era. Part 1. Oxford: Oxford University Press. ISBN 978-0-19-965366-9.

6. Chomsky, Noam. (2000) **New Horizons in the Study of Language and Mind**
. CambridgeCambridge University Press

Course Out Comes:

After completion of the course students will be ableto

1. Understand an overview of Psycho-linguistics
2. Analyze speech production, perception, and comprehension.
3. Understand lexical processing , concept of meaning, bilingualism and language acquisition in children

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3		3			1						3
CO2	2			3	3	1						2
CO3	2					1			3			2

LING: 303C Neuro Linguistics

Objectives:

1. To understand of anatomy of brain and language and speech
2. To understand History of Neuro-linguistics
3. To analyze speech and language disorders and testing techniques

Unit-I:

Introduction to the anatomy of brain cerebral cortex cerebral hemisphere – cerebellum – medulla – md brain – corpus callaosum – major lobes – frontal lobe parietal lobe occipital lobe – temporal lobe – fissure - nervous and their functions.

Unit-II:

Language and speech – Basic linguistic units – Phonology morphology – syntax – semantics – linguistics and psychology, linguistics and neurology – Introduction to Neurolinguistics

Unit-III:

History of Neurolinguistics - P.Broca – c Wernike – Huglings Jackson, and others present day Neurolinguistics.

Unit-IV:

Speech and language disorders: Aphasia – classification of aphasia – other disabilities – Broca – Wernike, Semantic – jargon – motor – sensory dysphasia,paraphasia, dyslexia, Anomia, alexia, Dysarthria, paragrammatism, agrammatism, etc. etiology of the aphasias.

Unit-V:

Testing techniques: Western aphasia test battery – Oston Diagnostic aphasia Examination – evaluation of the above two test batteries a simple study of a language disorder.

Suggested Readings:

1. Sheila E. Blumstin.Linguistics: The Cambridge survey – III, Neurolinguistics: an over view of language – Brain relatioons is aphasia. New York Cambridge University Press.
2. Obler, L.K. and Kris Gjerlow. Language and Brain New York, Cambridge University Press
3. David Crystal. The Cambridge encyclopedia of language: Language, brain and handicap. New York. Cambridge University Press
4. Adrian AK Majian,Demers,R.A., Farmer,A.K. and Harnish,R.M. 1996.Linguistics: An introduction to language and communication. New Delhi, Prentice Hall
5. Mary – Louise Kean, Linguistics: The Cambridge Survey – Volume-III: Brain Structures and Linguistic capacity New York, Cambridge University Press.

Course Out Comes:

After completion of the course students will be able to

1.Understand of anatomy of brain and language and speech

2.Understand History of Neuro-linguistics

3.Analyze speech and language disorders and testing techniques

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3		2			2				2		3
CO2	3		2			2				1		3
CO3	3		2			2			1	2		2

LING: 303D. Computational Linguistics

Objectives:

1.To understand Computational Phonetics , Phonemics, Morphology and Syntax

2. To understand computational semantics and Lexicography

3.To analyze application of computational linguistics

Unit-I

Computational Phonetics and Phonemics: Speech Production and Acoustic – Phonetics. Articulatory Phonetics: Acoustic Phonetics: Prosodic features, speech signal processing parameters and features of speech. Phonological rules and Transducers: Advanced issues in Synthesis – text-to-speech system: speech recognition-speech-to-text system.

Unit-II

Computational Morphology and Syntax: Morphology and Syntax: Morphology – morpheme; free, bound, segmentation and orthography – Inflectional, Derivational and Compositional morphology – word structure, Morphological analysis – different approaches. Representation of morphological information: MRD (Machine Readable Dictionary) for stems, for suffixes, morphological levels of organization of suffixes – morphophonemic's, The Lexicon and Morphotactics, Morphologicalparsing and Finite-State Transducers. Parsing-Parsing in traditional grammar; in formal linguistics, Classification of parsing; Top-down vs. Bottom-up;

Unit-III

Semantics and Knowledge representation: Representing Meaning: Computational Desiderata for Representations: Verifiability: Unambiguous Representations: Canonical Forum: Inference and Variables: Expressiveness: Meaning Structure of Language: Predicate-Argument Structure: First Order Predicate Calculus: Elements of FOPC; the Semantics of FOPC; Variables and Quantifiers; Inference.

Unit-IV:

Computational Lexicography: Lexicography – Dictionary – Stages of dictionary preparation 1) data collection, 2) entry selection, 3) entry construction and 4) entry arrangement, role of computers in each stage, computer based dictionary – making MRD (Machine Readable Dictionary), Lexical resources, Role of language corpus in Lexicography; Electronic Dictionary (ED); Advantages of ED over conventional dictionary – features of ED.

Unit-V:

Application of Computational Linguistics: Machine Translation (MT) – different approaches; direct interlingual, transfer problems in lexical transfer – Computer Aided Learning/Teaching titles – role of computational linguistics in language teaching; Building Search Engines; Information retrieval.

Suggested Readings:

1. Allen, J. 1995. Natural Language Understanding. The Benjamin Company.
2. Ganesan, M et al. 1994 Morphological Analysis for Indian Languages in Information Technology Applications in Language, Script and Speech (ed) S.S. AGARWAL. New Delhi:
3. Ganesan, M. 1999. Lexical transfer in Machine Translation: Some Problems and Remedies in Translation (ed) M. Valarmathi, Chennai: IITS

4. Hutchins , WJ. 1982. The evaluation of Machine Translation System in Practical Experience of machine
translation System (ed) V. Lawoon (ed), Noth-Holland publishing company.
5. Kening. KJ. Et al, 1983, An introduction to Computer Assisted language Teaching, UK: OUP
6. Lewis, D. 1992, Computers and translation, in Computers and Written Texts (ed) Christopher S. Butler, Oxford:Black well.

CO3	3				1							2

Skill Oriented Course

LING:304 ICT for Enriching Teaching and Learning Skills

Objectives:

1.To understand the concepts, importance and scope of ICT

2. To analyze computer networking and ICT enriched teaching&learning experiences.

3. To understand online teaching and learning experiences.

Unit-I

Concepts of Information and Communication Technology (ICT): Concept of Information Technology, Concept of Communication Technology, Concept of Instructional Technology, Concept of Computer Technology and Concept of Internet.

Unit-II

Importance and Scope of ICT: Need of ICT, Importance of ICT, Scope of ICT – Teaching Learning Process, Evaluation process, Research, Administration, Education and Publication.

Unit-III

Computer Networking: Software and Hardwares, Computer networking – Components and Types of Network Typology, Features of wireless Network, Benefits of Network.

Unit-IV

ICT enriched Teaching and Learning experiences: Approaches to integration ICT in Teaching Learning process, Application of ICT for enriching classroom experiences, What ICT brings to the classroom?, Multimedia educational Software for classroom situations, Project based learning, Differences between project and project based learning, Collaborative learning.

Unit-V

Online Teaching and Learning Experiences: e-learning, Virtual classroom, Web2.0 Technologies, Open Educational Resources (OER), Legal and ethical issues, Computer ethics and Legal issues.

Suggested Readings:

1. Subbarayudu,N. and Mohamad Ali – **Pedagogy Across ICT Integration** - Jayam Publications,Hyderabad,2015, ISBN 978-98-85108 – 65 – 5
2. Padma Tulasi, G, B. Srilatha and N. Subbarayudu – **ICT for Enriching Teaching andLearning,**Jayam Publications,2017, ISBN: 978-93-85108-18-1.

Open Elective

LING: 305ABilingualism

Objectives:

1. to understand speech as social interaction
2. To analyze theory, types and Measurement of Bilingualism
3. To understand Bilingual Education and Bilingualism and ethnocentrism

Unit - I.

Speech as social interaction: Speech functions and speech events; verbal and non-verbal behaviour, speech and social identity, pragmatics of politeness expressions,communicative competence. Code mixing and code switching.

Unit – II

Theoryof Bilingualism, bilingual proficiency, effects of bilingualism, education and bilingualism, language of wider communication (LWC), out-group languages, language identity. Bilingualism as an aspect of Borrowing.

Unit – III

Types of Bilingualism: National, societal, and individual, co-ordinate and compound, stable and unstable, transitional and incipient, ambivalent and partial;

Unit -IV.

Measurement of Bilingualism: Quantitative and Quantitative aspects of languages; direct and indirect measurement of bilingual proficiency.

Unit–V

Social – Psychological Aspects of Bilingual Education, Language attitudes, motivation – instrumental and integrative. Bilingualism and Ethnocentrism.

Suggested Readings:

1. Suzanne Romaine. **Bilingualism.**NewYork. Basil Blackwell Ltd.
2. Kenneth Hyltenstam and Loraine K. Obler (ed.). **Bilingualism across the life span: Aspects of acquisition, maturity and loss.**
3. Kelley, L.G. **Description and measurement of Bilingualism**. University of Toronto Press.
4. Wallace E. Lambert. 1972. **Language psychology and culture.** Stanford. California. Stanford University Press.
5. Hohn Rubin. 1968. **National Bilingualism in Paraguay**. The Hague, Paris. Mouton.
6. Bloomfield, L. (1993). **Language**. New York: Holt.
7. Hamers, J.F., Blanc, M. (1989).**Bilinguality and Bilingualism**. Cambridge University Press

Course Out Comes:

After completion of the course students will be able to

1.Understand speech as social interaction

2.Analyze theory, types and Measurement of Bilingualism

3.Understand Bilingual Education and Bilingualism and ethnocentrism

POs	1	2	3	4	5	6	7	8	9	10	11	12
CO1	3			1	3				1			2
CO2	2				3	1			1			2
CO3	2		1		3				1			1

LING:305B. Mass Media Communication

Objectives:

1.To understand nature, Scope and Types of communication

2.To analyze communication process and models of communication

3.To understand theory of communication and Multimedia Technology

Unit - I

Communication – Nature and Scope of communication function of communication Types of communication, socio-psychological aspects of communication.

Unit-II

Communication Process – One step, two step and multi step flow of communication, verbal and non-verbal communication, different kinds of media, potentialities and limitations of media approach to communication, Media as instrument of social change education and environment.

Unit–III

Communication models, Laswell, Shannon and Weaver Osgood and Schnamm. Danca's helical model, Newcomb's ABX model, Gerbner model, innovation – Different models, uses and gratification of models.

Unit–IV

Communication Theories, normative theory, Selective exposure, Selective perception and selective retention, frame of reference, empathy, psychic mobility, bullet theory, theories of cognition and balance.

Unit -V

Multi media: Impact of convergence of Media, Telecommunications and Computer, Multi media opportunities for the broadcasting, multimedia and consumers expectations, multimedia technology critical to economic development. Role of Computer in the multimedia technology.

Suggested Readings:

1 .Dahama, O.P. & Bhatnagar,. 1989. O.P. **Education and communications for Development.** Oxford & IBH publishing co. New Delhi.

2. Kuppuswamy. **Communications and social development**. Delhi. Sterling publishers, 1976.

3..Yadava pradeepMathus, J.S. **Issues in Mass Communication. The Basic concepts**. New Delhi. Indian Institute of Mass Communication.

4.Richard A. Blum. **Television writing (from concept to contract).** London. Focal Press.

5.George A. Hough. **New writing**. The University of Georgia. Kanishka Publiers.New Delhi.

6.Mehta, D.H. 1979**. Mass communication and Journalism in India**. New Delhi. Allied Publishers, pvt. Ltd.

Course Out Comes:

After completion of the course students will be able to

1.Understand nature, Scope and Types of communication

2.Analyze communication process and models of communication

3.Understand theory of communication and Multimedia Technology

POs	1	2	3	4	5	6	7	8	9	10	11	12

*Interested students may register for MOOC with the approval of the concerned DDC

LING:401L

Language Universals and Linguistic Typology

Objectives:

1. To analyze language universals and its role of universals in linguistic theory.
2. To understand linguistic typology as a principle of classification.
3. To analyze language families of South Asia, South Asia as a Linguistic area and selected areal features of South Indian languages.

Unit- I.

Language Universals – formal, substantive, implicational. Parameters and markednessprinciples.The role of universals in linguistic theory: Universal grammar and particular grammars, description and explanation.

Unit –II.

Linguistic typology as a principle of classification- analytic (isolating) vs. synthetic, agglutinating vs. fissional (inflectional) vs. polysynthetic, the concept of incorporation. Greenberg's typological indices and the re-interpretation of the classical taxonomy of language types. Typology at non-morphological levels of representation including basic word order typology.

Unit– III.

Language families of South Asia: Distribution, characteristics, enumeration, Areal, features and convergence processes.

Unit– IV.

South Asia as a linguistic area: empirical basis. The concept of Linguistic area. Linguistic change, borrowing, convergence, definitional problems. Diffusion area vs. linguistic area.

Unit – V.

Selected areal features of South Asian languages (dative subject construction, relativity, conjunctive, participle construction, compound verb construction, etc.

Suggested Readings:

1. Bernard Comrie. **Language Universals and Linguistic Typology**. Oxford. Basil Blackwell.
2. Hoseph H. Greenberg. **Universals of language**. London, The M.I.T. Press .
3. Swarajya Lakshmi, V. and AditiMukharjee. **Word orders in Indian Languages**. Hyderaba. Book Links Corporation.
4. AnvitaAbbi. 1992. **Reduplication in South Asian Languages: An Areal, Typological and Historical study**. New Delhi. Allied Publishing Ltd.
5. Emmon Bach and Robert T. Harms. **Universals in linguistic theory**. New York. Holt, Rinehard and Winston. Inc.
6. Croft, W. (2002**). Typology and Universals**. Cambridge: Cambridge UP. 2nd ed.

ISBN 0-521-00499-3

7. Greenberg, Joseph H. (ed.) (1963) **Universals of Language**. Cambridge, Mass.: MIT Press.
8. Song, Jae Jung (2001) **Linguistic Typology: Morphology and Syntax**. Harlow, UK:

Pearson Education (Longman).

9. Song, Jae Jung (ed.) (2011) **Oxford Handbook of Linguistic Typology**. Oxford: Oxford University Press.

Course Out Comes:

After completion of the course students will be ableto

1.Aanalyze language universals and its role of universals in linguistic theory.

2. Understand linguistic typology as a principle of classification.

3.Analyze language families of South Asia, South Asia as a Linguistic area and selected areal features of South Indian languages.

POs	1	2	3	4	5	6	7	8	9	10	11	12

CoreLING:402 Research Methodology

Objectives:

1. To understand purpose, scope, methods and tools of research
2. To understand problem identification, methods of study and scientific methods in field work of research

3.To analyze research work convert to PDF

Unit -I

Research: its meaning, purpose and scope - Methods and tools in research – Scientific objectivity- Inductive and Deductive procedures. Research methods in Social Sciences, Humanities, Language and Literature.

Unit –II

Identification of the problem and selection of the topic for research-The reasons for selecting the problem- Its relevance and importance from the point of view of theory or application orcontribution to knowledge in general.

Unit–III

Methods in the study and collection of the material-The sources of material- collection of source material. Methods of collecting source material.

Unit–IV

Scientific methods in fieldwork: preparation of questionnaire, Scheme ofelicitation, interviews, etc. Monolingual (direct) and bilingual methods of collection of material –Participant observation, selection of informants: Bio-data-speech recording- Phonetic phonemic transcription.The need for a pilot survey and the collection of sample data. The recording of Language material. Types and purposesof filed translation: Analyzing the data. Preparation of the research report. References and bibliography.

Unit-V

Research work convert to PDF: MS word to PDF, EXCEL to PDF, Power point to PDF, Paint to PDF.

Suggested Readings:

1. Gopal, M. H. **Introduction to Research procedure in social sciences**.
2. MargerettStracy. **Methods of Research**.
3. Cambel, W. B. **Form and style in thesis writing**.
4. Tharmalingom, N. **Research Methodology**. Mumbai. Himalaya publishing House.
5. Kothari, C. R. **Research Methodology (Methods and Techniques)**. New Delhi. New Age International Publishers.
6. Petyt, K. M. **The study of dialect and introduction to Dialectology**. London. Andre Deutsch Limited.
7. Longcker, Ronald W. 1972. **Fundamentals of Linguistic Analysis**. New York. Barcourt Brace Jovanovich, Inc.
8. Francis, W. N. and Longman. **Dialectology – An introduction**. London.

9. Radha Krishna Gali and NukalaSubbarayudu, 2021 – **Research Work convert to PDF,**SRK Publications,Tirupati.

Course Out Comes:

After completion of the course students will be able to

1.Understand purpose, scope, methods and tools of research

2.Understand problem identification, methods of study and scientific methods in field work of research

3.Analyze research work convert to PDF

Generic Elective

LING:403A. Lexicography

Objectives:

1. To understand lexicology and lexicography, notation and format, planning and organization.
2. To analyze types, number and size of dictionaries.
3. To understand dictionary making

Unit – I

Lexicology and Lexicography; Lexical and grammatical meaning ; Components of lexical meaning; Polysemy, Homonymy, Hyponymy, Antonymy, Synonymy; Paradigm, Canonical form; Derivation, Composition; Variation in Language

Unit - II

Notation and Format: Preface, Introduction, Guide to users, Guide to pronunciation.Abbreviations, Punctuations and Symbols, Appendices; Planning and organization.

Unit– III

Types of Dictionaries: Criteria of classification – Encyclopedic vs. linguistics, Synchronic vs. diachronic, general vs. restricted. General Dictionaries, standard descriptive, overall descriptive, Historical dictionaries, Restricted of special dictionaries, Pronouncing and spelling dictionaries. Indices and concordances. Dictionaries of synonymy, etc. Number of languages: Monolingual,bilingual, multilingual. Size of the dictionaries: small, medium, big. Academic dictionaries.

Unit –IV

Dictionary Making: Collection of material sources excerption, total and partial excerption- cleaning- Lexicographic context- Lexicographic achieves or scriptoria, Lexicographers knowledge of the language, use of informants; Selection of entries, Form of lexical units, Density of entries.

Unit – V

Construction of entries: lemma, pronunciation, grammatical indication. The main part of the entry, Lexicographic definition, use of synonyms, etc. Examples, glosses, labels;visual aids, sub-entries reduced entries, presentation of polysemy; Arrangement of entries: types of arrangement: Alphabetical, semantic or ideological.

Suggested Readings:

1. Droszewski. 1973. **Elements of Lexicology and semiotics**. The Hague. Mouton.
2. ing, R.A. 1982. **An introduction to lexicography**. Mysore. CIIL.
3. Zgusta, L. 1971. **Manual of Lexocography**, The Hague, Mouton.
4. Autonia, H. F. 1968. **Lexicography: Current trends in linguistics. Vol.** 4. ITA school. The Hague, Mouton.
5. House holder, F. W. and Sol Saparts (ed.) 1967. **Problems in Lexicography.** Bloomington. Indian University Press.
6. Bejoint, Henri (2000) **Modern Lexicography: An Introduction**, Oxford U.P. ISBN 978-0-19-829951-6

Course Out Comes:

After completion of the course students will be able to

1. Understand lexicology and lexicography, notation and format, planning and organization.
2. Analyze types, number and size of dictionaries.
3. Understand dictionary making

LING:403B.Language Teaching

Objectives:

1. To analyze role of Linguistics in language teaching and Methods of language teaching.
2. To analyze language acquisition and second language learning and cognitive models of language learning/teaching.

3.To understand teaching aids, remedial teaching material and computer aidelanguage teaching

Unit - I.

Role of linguistics in Language Teaching: Principles of Language Teaching professional qualifications of Language Teaching. Role of Teacher in language analysis. Discourse analysis, language diversity and educational linguistics.

Unit -II.

Traditional methods of language teaching - grammar translation method,direct method,audio-visual method,Reading method and new methods. Relationship between linguistic theories of language and corresponding teaching methods contrastive analysis and error analysis.

Unit–III.

Language acquisition vs. second language learning, foreign language Teaching learning. Behavioristic and Mentalistic theories. Errors as learning strategies, internal processing- filter, organizer and monitor.

Unit-V.

Cognitive models of language learning/teaching. Attitude, aptitude and acculturation, Teaching material for the different models and target groups, selection, gradation, evaluation, feed back and reinforcement.

Unit -V.

Teaching Aids: Audio-visual, Audio-lingual, language laboratory, etc. Language testing; prognostic, diagnostic, proficiency. Achievement and close tests. Reliability and validity. Remedial teaching material and computer aided language teaching.

Suggested Readings:

1. Stern, H.H. **Fundamental concepts of Language Teaching**. Delhi. Oxford University Press.
2. Robert Lado**. Language Teaching**. Bombay-New Delhi. Tata McGraw-Hill
3. Valerie Kincella. **Language Teaching and Linguistics**. Survey. London. Cambridge University Press.
4. Edward M. Stack. 1960. **The language laboratory and Modern language teaching**. NewYork. Oxford University Press.

5. David Crystal. **The Cambridge Encyclopedia of Language**. NewYork. Cambridge University Press.

Course Out Comes:

After completion of the course students will be ableto

1. Analyze role of Linguistics in language teaching and Methods of language teaching.
2. Analyze language acquisition and second language learning and cognitive models of language learning/teaching.
3. Understand teaching aids, remedial teaching material and computer aide language teaching

LING: 403C Language Planning

Objectives:

1. To understand Nature and Scope of language planning and communication technology
2. To analyze process and problems of language planning
3. To understand types and treatment of language planning

Unit-I:

Nature and Scope: Sociology of language and the notion of planning. The necessity of language planning. Basic premises of language planning. Linguistics and language Planning .Language Problems of developing nations. Language problems in political and administrative process; language problems in society: seeking solutions and making decisions. Variables and planning: Planning sensitive variables: Types of variables: Organizational attitudinal. Demographic and implementation.

Unit-II:

Communication Technology: Language use in Electronics and Mass Media. Basics of Communication. Language movements in India and abroad.

Unit-III :

Process of Language Planning: Major types of language planning. Corpus andstatus planning. Selection/Policy decision, stability/codification,expansion/elaboration, ferentiation/cultivation, code selection.National/Official language. Standardization and writing reform, elaboration, modernization of languages, promotion of language styles and registers, language policy in education, Comparative study of language planning, impact of nationalism on language planning, Agencies of language planning and their role. Implementation process and evaluation procedures. Providing information and feed back for language planning.

Unit-IV:

Problems of Language planning: Non-communication. Orthography, Evaluation of the variations within the standardized form. Limitations of language planning.

Unit-V:

Types and Treatment: A Short survey of basic types of langue conflict and language planning with special reference to he developing nations. Evaluation of language planning in India.

Suggested Readings:

1. Joshua A.Fishman. 1974. Advances in language planning. The Hague,Mouton
2. Fishman, J.A.Ferguson, C.A. and Gupta, J.D.Language problems of developing nations. New York.JohnWiley and sons, Inc.

LING:403D. Translation

Objectives:

1.To understand the concept of translation

2.To understand principles and analysis of translation

3.To solve the exercises of translation

Unit –I

The concept of Translation, types of translation, word and sense, equivalence,word level and above word level, grammatical equivalence, formal and dynamic equivalence, loss and gain, ntranslatability, Machine translation. Is translation an art or Science? Translations interpretation, free vs. literal Translation.

Unit – II

Principles of translation, Catford, Nida, etc. Translation procedures: literal, paraphrasing, transcription, Transliteration, borrowing, Transference, neutralization; equivalent: cultural, functional, descriptive; reduction or expansion; thumb rules.

Unit – III

Analysis: word and text. Criteria for analysis, text types. Semantic and communicative translation. Varieties of general meaning, lexical vs. grammatical meaning ,componential analysis. Business language and advertisement,abbreviations and acronyms, coinage and acceptability; speed and adhoc solutions.

Unit – IV

Language development, term planning-challenges, principles in term planning.Metaphor translation. Translation of proper names, types of proper names, role of script in proper names translation. Evaluation and Testing. Role of translation in second language learning/teaching.

Unit – V

Translation exercises: Business letters, official letters, G.Os, Reports, Poetry and Fiction, etc. from English to Telugu, and from Telugu to English.

Suggested Readings:

1. Baker, M. 1992. **In Other words: A Course book on Translation**. London and New York: Routledge
2. Baker, M. (ed) 1998 Rout ledge, **Encyclopedia of Translation Studies,** London and New York. Rout ledge.

405B. Dictionary Making

Objectives:

1. To understand types of dictionaries
2. To analyze Monolingual Dictionary Making
3. To analyze Bilingual Dictionary Making.

Unit – I

Definition of Dictionary or Lexicon; **Types of Dictionaries:**Encyclopaedic vs. linnguistic, Synchronic vs. Diachronic, General vs. restricted. General Dictionaries, Standard descriptive, overall descriptive.

Unit-II

Historical dictionaries**;** Special Dictionaries, Pronouncing vs spelling dictionaries. Indices and concordances. Dictionaries of synonymy, etc. Number of languages: monolingual, bilingual, multilingual. Size of the dictionaries: Academic dictionaries.

Unit –III

Monolingual Dictionary Making: Collection of material - excerption, - cleaning- Lexicographic context- scriptoria, use of informants; Selection of entries, Form of lexical units, Density of entries.

Unit – IV

Construction of entries: lemma, pronunciation, grammatical indication. The main part of the entry, Lexicographic definition, use of synonyms, etc. Examples, glosses, labels; visual aids, sub-entries reduced entries, presentation of polysemy; Arrangement of entries: types of arrangement: Alphabetical, semantic or ideological.

Unit-V:

Bilingual Dictionary Making: Collection of Material; Selection of entries Equivalent, translational and descriptive of explanatory equivalent, categorical equivalence. Form of entries: Lemma, spelling, pronunciation, grammatical information. Glosses and labels, examples.

Suggested Readings:

1. Sing, R.A. 1982. **An introduction to lexicography**. Mysore. CIIL.
2. Zgusta, L. 1971. **Manual of Lexocography**, The Hague, Mouton.
3. Autonia, H. F. 1968. **Lexicography: Current trends in linguistics. Vol.** 4. ITA school. The Hague, Mouton.

SRI VENKATESWARA UNIVERSITY: TIRUPATI

S.V.U. COLLEGE OF ARTS

DEPARTMENT OF AREA STUDIES PROGRAMME

(SOUTHEAST ASIAN & PACIFIC STUDIES)

Course

M.A. TOURISM

Choice Based Credit System (CBCS)

Academic Year 2023 – 24

Amended as per NEP-2020

Centre for Southeast Asian & Pacific Studies

S.V. University College of Arts

Sri Venkateswara University :: Tirupati

M.A. TOURISM

About the Department

M.A. Tourism course in SVU College of Arts, S.V. University, is designed in such a way to prepare the students for managerial positions in Consultancies, Policy making, Tour operations, Travel Agencies, Small and Medium Enterprises and the students should be able to work in travel and tourism related organizations.

Vision

Make the Tourism programme an excellent professional course in nurturing and building careers for students in the emerging area.

Mission

- Train the students in capacity building skills through teaching, research and extension activities with employability.
- Empowering the students to gain knowledge of Indian culture and various types of tourist destinations particular in India and general in the world.
- To train the students in managerial and marketing the tourism products

Programme Special Outcomes

- Explain, apply and also demonstrate travel and tourism knowledge in a professional way for a successful career in the Tourism industry;
- Communicate effectively using written, oral and nonverbal techniques, including the use of technology in the gathering and presentation of information;
- Demonstrate their knowledge in launching Travel agency and usage of travel reservations and software skills.

Department Objectives

1. To foster knowledge across the recent trends in global tourism and to become efficient professionals
2. Facilitate the students to understand the interrelation of culture and tourism sites
3. Develop sensitivity towards the nature and train the students in conservation activities.

Programme Outcomes

- To equip students with a broad knowledge on the growth of tourism.
- To encourage understanding and applicability of changing trends in tourism.
- To describe the interrelationship between travel, tourism and hospitality industries.
- To develop management skills and to provide necessary Administrative, Communicative, IT, product and Resource skills to effectively handle Tourism activities.
- To acquire better and viable marketing and product innovation strategies.
- To communicate key ideas in written texts and oral presentations
- To adopt tourism practices locally and globally
- To respect Indian heritage and apply ethical principles and follow environmental responsibilities for tourism conservation.
- To develop socially, responsible business leaders in Tourism development.
- To Acquiring knowledge and develop the ability to work hard.
- To promote entrepreneurial skills among students, for promoting a better ecosystem of business.
- To recognize the need and use ability to engage in independent and life-long learning in the context of changing trends in tourism.

Programme Educational Objectives

Enable the students to:

- Acquire knowledge in changing Tourism patterns in different destinations in the world.
- Choose multiple Tourism products for career development according to their taste and skills.
- Learn the importance of Tourism sector in building national economies and offering different employment opportunities.
- Develop managerial and entrepreneurial skills to start business independently.

4	**Multidisciplinary Course/Project Work**	T-404	**Viva + Dissertation #**	6	4	20	80	100
5	Open Elective	T-405a	**Globalization and Tourism**	6	4	20	80	100
		T-405b	**Tourism Economics**	6	4	20	80	100
	Total			**36**	**24**	**120**	**480**	**600**

*** All CORE Papers are Mandatory**

- **Generic Elective – Choose Two**

- **Multidisciplinary Course / Project Work is Mandatory**
- **Open Electives are for the Students of other Departments. Minimum One Paper should be opted. Extra credits may be earned by opting for more number of open electives depending on the interest of the student through self study**
- **Interests Students may register for MOOC with the approval of the concerned DDC.**

Evaluation: The Dissertation is for 80 Marks and the Viva- Voce Exam will be for 20 Marks.

Two Internal Tests will be held for each paper in each Semester.

The Average of the Two Tests will be taken.

	I SEMESTER	
T-101	**THEORETICAL CONCEPTS OF TOURISM**	**CREDITS -4**
Sessional Marks 20		**End semester Examinations Marks 80**

Objectives:

- Students will learn the fundamentals of Tourism and its allied activities like Travel, Accommodation and Transport
- Student will also learn about the noted international travel agencies
- Develop the ability to know the functions and obligations of different Tourism organizations

UNIT- I **Tourism**: Definition, Meaning, Nature and Scope of Tourism – Tourism as an academic discipline – Interdisciplinary approaches to tourism -- Tourism Systems, Visitor, Traveller, and Excursionist – Relative differences

UNIT- II **Tourism Theories:** Leiper's Geo-Spatial Model - Mill-Morrison's Tourism Policy Model - Butler's Tourism Area Life Cycle (TALC) Model – Doxey's Index Model – Crompton's Push and Pull Theory

UNIT- III **Elements of Tourism**: Primary elements -- Transport – Different types – Types of Accommodation – Catering – Tour destinations : Natural and historical – Entertainment -- Ancillaries of Tourism

UNIT- IV **Economic impact of Tourism:** Income generator -- Employment provider, different type of jobs -- Multiplier of tourism – Infrastructure -- Foreign exchange -- Trade and commerce of handicrafts, metal, wood and textiles.

UNIT- V **Growth of Tourism** : Tourism Promotion: Central and State Governments –

Opportunities – Growth in Travellers' visits – Receipts – Subsidiary avenues

	II SEMESTER	
T-204	**ECOTOURISM**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

1. To make the students understand the importance of Ecology and sustainability
2. Various laws pertaining to ecology will be taught
3. To make them realize how community based tourism is conducted

UNIT-I Ecotourism: Concepts and Definitions -- Evolution and Characteristics of Ecotourism -- Components of Ecosystem -- Environment -- Biomes - Major biomes of the world and biomes of India -- Biodiversity and ecological balance -- Watching most pristine form of Mother Nature

UNIT- II Ecotourism in India : Travellers to spend much time in nature -- Ecosystem more sustainable and supportive to native culture -- Preservation of wildlife and animal's natural habitat -- Activities in Ecotourism : Trekking and cycling, Nature study and Bird watching, Village homestay – Famous Ecotourism destinations in India : Munnar, Thenmala, Thodupuzha, Eravikulam National Park, Periyar National Park, Coorg, Nagarhole National Park, Bandipur National Park, Galgibaga Beach, Tyda, Maredumilli and Chilika

UNIT-III Environmental Conservation : Impact of Tourism on environment--Environmental degradation -- Environmental movements -- Environment management-- Principles and Practices -- Ecotourism as a tool for Conservation -- Ecotourism and natural resource management

UNIT-IV Tourism Legislations and Ecotourism Guidelines : Legislations and guidelines of Ecotourism at National and State level -- Major environmental acts and regulations -- Tourism bill of rights and code for environment and responsible tourism -- World Ecotourism Summit – Global Concerns - Environmental Planning - UN Initiatives on Ecology and Environment -- UNWTO – UNDP – WWF

UNIT -V Threats and obstacles to Ecotourism: Urbanisation - Transportation -- Expansion of permanent structures -- Land taken out of primary production - Trampling of vegetation and soils - Disturbance and destruction of species

Suggested Readings

1. Ratandeep Singh, *Indian Ecotourism*, 1990.
2. Jaime A, Seba, *Ecotourism and Sustainable Tourism,* 2012.
3. Anil Sharma, *Wildlife Tourism in India,* 2015.
4. Aradhana Salpekar, *Indian Tourism, Wildlife Tourism and Ecotourism,* 2009.
5. Bhatt, *Ecotourism development in India, communities, capital and conservation,* 2008.

Course outcomes

1 Students will be in a position to assess the importance of Ecology in tourism sector.

2 Sustainable development its significance will be realized.

3 Students will learn about Game parks and various ecotourism places in India

	II SEMESTER	
CF T-205 (a)	**HEALTH AND MEDICAL TOURISM**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- To gain broad knowledge on the significance of Medical Tourism and Medical Tourism Destinations in India.
- Students comprehend on the various Medical Treatments available in India and strategy to attract Global medical Tourists.
- To identify and describe the Medical Tourism impact on national economy and the role of Government, Private and Voluntary organizations in tourism promotion.

UNIT – I Introduction to Health Tourism: Significance, Origin and development over ages : Ancient centres of healing - Health as a motivator to travel -- Health: Concept, Definitions and Importance of health to People, Business and Government.

UNIT -- II Medical Tourism: Genesis and growth of Medical Tourism - benefits of medical tourism, Factors responsible for growth of health and medical tourism -- Medical Tourism Business- Global medical tourism scenario, Stakeholders, countries promoting medical tourism – Health and Medical Tourism markets at global level.

UNIT – III Medical Tourism as Industry: Medical Tourism Destinations – Types and flow of Medical Tourists- Factors Influencing Choice of Medical Tourism Destinations.

UNIT – IV Medical Tourism in India: Strategy formulation to attract and retain National and Global Medical Tourists –Indian Medical Services –Traditional and Nontraditional – Pricing of Medical Services -- Centres/Destinations, Current and futuristic trends, Potentials, Issues and Challenges -- Role of Government – Private Sector – Voluntary Agencies in Promotion of Medical Tourism.

UNIT – V **Medical Tour Operations** : Tour operations and post-tour management, Health Insurance, Claiming Health Insurance -- Certification and Accreditation in medical tourism -- legal, economic and environmental issues -- National Accreditation Board for Hospitals & Healthcare (NABH) and Joint Commission International (JCI).

Suggested Readings:

1. Gupta, Ambuj & Sharma, Vinay, *Medical Tourism: On the Growth Track in India*
2. Michael D. et.al., *Medical Tourism – Health Care in The Global Economy (Trends),* American College of Physician Executive, 2007.
3. Milica Z.,et. Al., *Medical Tourism in Developing Countries*, Palgrave Macmillan, 2007.
4. *Opportunities in Medical Tourism in India*, RNCOS E-Services Pvt. Ltd, 2007
5. Raj Pruthi., *Medical Tourism in India* , Arise Publishers & Distributors, 2006.
6. Todd, Maria, *Handbook of Medical Tourism Programme Development ASSOCHM, Health Tourism : The Great Indian Advantage,*2001
7. Todd, Maria, *Medical Tourism Facilitator's Handbook,* 2007.
8. Watson, Stephanie & Stolley, Kathy S., *Medical Tourism : A Reference Hand book,* 2002.
9. Raj Pruthi (2006), Medical Tourism in India, New Delhi: Arise Pub.

Course Outcomes

1. Develop understanding of medical tourism, its development over ages as an industry
2. Learn the role of government and private sectors in promotion of Medical Tourism
3. Identify various issues related to Medical Tourism and Emerging Trends.

	II SEMESTER	
CF T-205 (b)	**VIRTUAL AND E-TOURISM**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- To study the impact of Information Technology on tourism.
- To familiarize with digital tourism business concept.
- Students will understand emerging business models in E- tourism.

UNIT-I **Introduction to E-tourism:** Historical Development – Digitalisation of Tourism and infrastructure -- New technologies -- Role of Information Technology in tourism – ICT in Travel related services -- Strategic, Tactical and operational use of IT in Tourism.

UNIT-II **Online Consumer Behaviour:** Consumer selection on Tour packages – User-Generated Content (UGC) - Online reviews and reputation management - Value of online customers — Sentiment analysis for decision-making.

UNIT-III **Social Media and E-tourism:** Social Media Campaign for Tourism – Face book, Twitter, YouTube, Whatsapp - Travel Blogs – Rising importance of Virtual Tourism : Live visits – New experiences – Visit of important sites, cultural and natural through virtual

UNIT-IV **Payment Systems in E-tourism** - Payment Gateway - Billing and Settlement Plan (BSP) - Security Issues and Certification -Future of E-tourism -- E-marketing and promotion of Tourism Products - Challenges for Conventional business models and Competitive strategies.

UNIT-V **Digital Marketing Analytics:** Tools, Technology and Data Integration -- Process for Products & Services – Online Segmentation -- Targeting-Positioning

– Inbound Vs Outbound Marketing – Uses of Search Engines in Tourism advertising

Suggested Readings:

1. Buhalis D. (2004), *Etourism: Information Technology For Strategic Tourism Management*, Prentice Hall India.
2. Poon A. (1998), *Tourism, Technology And Competitive Strategies,* Cabi.
3. Bones, C., & Hammersley, J. (2015). *Leading Digital Strategy: Driving Business Growth through Effective E-commerce*. Kogan Page Limited.
4. Chaffey, D. (2014). *Digital Business and E-Commerce Management*, (Pearson Education Limited, New Delhi).
5. HBR. (2014). *Leading Digital: Turning Technology into Business Transformation*, Harvard Business Review Press, London).
6. Rayport J.F. & Jaworski B.J. (2002), *Introduction To Ecommerce*, *McGraw- Hill*.
7. Morabito, V. (2016). *Trends and Challenges in Digital Business Innovation*, Springer Publications, London.
8. Rogers, D.L. (2016). *The Digital Transformation Playbook – Rethink Your Business for the Digital Age*, Columbia Business School Publishing, Columbia.

COURSE OUTCOMES

- Students will get familiarized with the concepts of E-Tourism.
- They will acquire proficiency in E-Commerce.
- Students would have cognizance of E-business and its strategies.

	II SEMESTER	
CF T-205 (c)	**AIRLINE TICKETING AND INFORMATION MANAGEMENT**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- Examine the Air travel polices, Airfare Calculations and IATA
- Comprehend on the necessary Travel services in Air travel
- Student will also learn the use of gadgets and information technology in Tourism

UNIT - I Introduction- Increasing role of Air transport in Tourism- Information Technology to enhance air travel experience - New airline business models gaining strength - Fast expansion of air transport infrastructure - Airports: A destination for travelers -- Electronic distribution – Disintermediation – Reintermediation

UNIT - II Airport Operations: Tourism and importance of Airlines -- Significance of an airport- Structure of an airport – Airside –Terminal - Land Side (Ground side) - Functions and operations in an Airport - Ground handling - Passenger handling - Departure area - Arrival procedures - Safety and Security Issues.

UNIT – III Air Travel Policies: Passenger Care -- Passenger Capacity and Seating – Food Beverages Service – Air policies – Reservation Policies Towards Children – Disabled Passengers – Standard of Travel, Cancellation and Delays – Baggage Allowance – Weight Concept – Pet Transport Policy – Special Meals – Class of Service

UNIT -IV Tour operation and Ticket Reservations -- Guidelines for International Tariff Rules – Basic Elements of Airfare – Fare Basis – Minimum stay – Validity Dates – Horizontal and Vertical Fare Structures – Special Air Fares – Mileage System –

Round Trip Calculation – Back Haul One Day Tours – Mixed Class Travel Fare – Class Differential – Re-issuance – Refunds – Agency Commission – Machine and manual Ticketing -- Fill of Flight Coupons – Air Cargo Rules – Alterations —Stop over Indicators – Minimum Connecting Times

UNIT - V Introduction: IATA – Aims and objectives – International Aviation Organization - IATA Traffic Conference – Areas – Their Codes –International Time Calculation International Dateline – Standard Time – Local Time -- International Civil Aviation Organization (ICAO)

Suggested Readings

1. Bhatia, A. K., *Tourism Development: Principles and Practices*, Sterling Publishers Pvt. Ltd., New Delhi, 1982
2. Seth,PranNath, *Successful Tourism Management*, Sterling Publishers Pvt. Ltd., New Delhi, 1998
3. Sing, L.K., *Foreign Exchange Management and Airline Ticketing*, ISHA Books, Delhi, 2008
4. Diederiks, H. *An Introduction to Air Law,* Kluwer Law International, Netherlands, 2006
5. Pablo Mendes De Leon (Edt), *Air Transport Law and Policy in the 1990s*, MartinusNijhoff Publishers, London, 1991
6. Epstein, A Gerald, *Capital Flight and Capital Controls in Developing Countries: An Introduction*, Edward Elgar Publishing Ltd, UK, 2005
7. Bhatia, A.K., *International Tourism Management*, Sterling Publishers Private Ltd, New Delhi, 2001

Course Outcomes

1) Students know about IATA and its functions
2) Gain knowledge and use of information technology in tourism industry
3) To know about tour office management skills and tour desks.

	II SEMESTER	
EF T-206 (a)	**TRAVEL AGENCY AND TOUR OPERATIONS MANAGEMENT**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- Students will learn the role of travel agencies in Tourism and its linkages with other agencies.
- Gain the skill of Itinerary preparation and Tour formulation process.
- Comprehend the functions of a travel agency and Rules and Regulations of the agency approval besides domestic travel operators

UNIT – I Travel Agency: History and Growth – Emergence of Thomas Cook and American Express –Types of Travel Agency and Tour Operation Wholesale and Retail Travel Agency - Setting up of a Travel Agency – Linkages with different Transport Systems

UNIT- II Functions of a Travel Agency: Tour Operations Planning – Domestic and international – Types of Tours: Independent Tour, Escorted Tour, Hosted Tour, Incentivized Tour -- Tour Wholesalers and Retailers -- Diversified Role of Tour Operators -Tour Formulation and Design Process – Group Tour Planning

UNIT- III Tour Packages: Meaning - Types and forms of Tour Packages – Tariffs – Vouchers – Hotel and Airline Exchange Order –Merits and Demerits of Package Tours – Special Tour Packages

UNIT- IV Setting up of a Travel Agency: Essential Requirements for Starting Travel Agency & Tour Operation Business - Cost Management - Procedures for Obtaining Recognition - Travel Agency Organization Structure - Sources of Revenue - Threats in Travel Agency Business.

UNIT-V **Programme Preparations**: Sample Tours – General and Personalized Itinerary -- Domestic and International – Preparation of common interest - Tour Itinerary and costing – Tour Regulations – Preparation models of Thomas Cook, Cox & Kings and SITA Travels

Suggested Readings

1. Bhatia A.K., The Business of Travel Agency and Tour Operations Management, Sterling Publishers, New Delhi, 2012.
2. Chand, M., *Management of Travel Agency and Tour Operation*, Anmol Publications, New Delhi, 2002.
3. Holloway, J. C., *The Business of Tourism,* Macdonald & Evans, London, 1982

	II SEMESTER	
EF T-206 (b)	**TOUR PACKAGES AND ITINERARY PLANNING**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

□□□□

Objectives:

- To know about the formulations of tour packages
- To gain knowledge in Itinerary Planning
- To become known with the techniques in finance management and execution of Itinerary planning

UNIT – I Tour Packages : Meaning – Types -- Components and significance of tour packages -- Destinations and tour companies -- Public and Private Tourism organizations -- Promotion of tour packages.

UNIT – II Tour Formulation – Influencing factors -- Stages in tour formulation – Primary research (destination and market) -- Brochure designing, Printing and distribution -- Product Oriented Package tour : Health tourism, Yoga, Meditation and Nature Cure –Beach holidays -- Pilgrim Tours -- Different Packages : Desert Safaris, Mountaineering, Skiing, White Water Rafting, and Scuba Diving, Golf Tours, Theme tours and Cruise

UNIT – III Defining the tour cost -- Components of tour cost – Fixed and variable costs – Direct and indirect tour costs -- Factors affecting tour costs -- Tour cost sheet – meaning and significance -- Costing procedure for independent foreign tours (FITs) group inclusive tours and conference and convention packages -- Calculation of tour pricing, pricing strategies -- Accommodation Cost-Transportation Cost – Dining

Plans

UNIT – IV **Itinerary Preparation**: Concept – Typology -- Duration, Custom made itinerary and Readymade itinerary -- Basic factors in Itinerary preparation

UNIT – V **Different Itinerary Plans** – Seasonal itinerary- Product based itinerary-All inclusive Itinerary – Do's and don'ts of itinerary preparation --Limitations and Constraints

Suggested Readings:

1. J.M.S, Negi, *Tourism and Travel -Concepts and Principles*, Gitanjali Publishing House, New Delhi, 1990.
2. P.N. Seth, *Successful Tourism Planning and Management*, Cross Section Publications, 2001
3. D.L. Foster, *The Business of Travel Agency Operations & Administration*, Mc Graw Hill, Singapore, 1990.
4. J.M.S, Negi, *Travel Agency and Tour Operation,*(Kanishka Publishing House, New Delhi, 2020)
5. Mohinder Chand, *Travel Agency Management,* (Anmol Publications, Delhi,2007).

Course Outcomes:

1. Students know the concept of tour packages and formulations
2. They gain knowledge in Itinerary Planning
3. Become familiar with the techniques and approaches for successful destinations visits.

	III SEMESTER	
T-301	**TOURISM MANAGEMENT**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- Students will learn the importance of management skills in Tourism.
- To comprehend on the financial management based on the market environment.
- Students will learn the abilities of Human Resource management in Tourism industry.

UNIT-I Concept of Management – Concept, Nature, Process and Significance of Management – Nature and Levels of Management in Tourism Industry – Functions of Management –Skills and Responsibilities of a Manager – Components of Tourism – Accommodation – Accessibility – Attractions (3A's) – Management of Environment.

UNIT–II Management Skills : Interpersonal – Informational – Decision Making Roles – Planning skill – organizing skill- Leading and Controlling skills -- Managerial Skills at various Levels: Technical skill, Human skill, Conceptual skill.

UNIT-III Management of Human Capital : Recruitment: Office Management, Marketing and Operational staff – Selection - Training – Guide Services – Event Management

UNIT -IV Financial Management : Accounting - Book Keeping - Requirement of Finance for Development - Promotion and Administration - Sources of Finance - Public and Private Investments - Sectoral Investment and Foreign Investment.

UNIT – V Tourism Planning – Role of Government and Non Government organizations – Approaches and levels of Tourism Planning – Tourism Policies and Issues – Tourism and Regional Development – Indian and International Tourism Organizations.

Suggested Readings:

1. Cooper, Fletcher and others, *Tourism principles and practices,* (Pearson, 2017)
2. Robert Christie Mill, Alastair M. Morrison, *The Tourism system: An Introductory Text,* (Prentice- Hall International), 1985.
3. Philip Kotler: *Marketing Management*, 2017
4. Pran Nath Seth: *Successful Tourism Management*. Vol.,-I & II, 2006
5. Ram Acharya: *Civil Aviation and Tourist Administration in India*, 1978
6. Harold Koontz & Heinsz Weirich, *Essential of Management* , 1982
7. V.S.P. Rao, *Management Concepts*, Konark Publishers
8. R. D. Agarwal: *Organization & Management*, Tata McGraw Hill. 1982
9. L.M. Prasad: *Principles & Practice of Management* , S. Chand, New Delhi, 2019

Course outcomes

1) Demonstrate managerial skills and to manage the Tourism environment
2) Apply the marketing skills and understanding demand and supply.
3) Acquire skills of using Human Resources in Tourism Development

	III SEMESTER	
T-302	**EMERGING TRENDS IN TOURISM**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- This course enables Students to learn the emerging concepts like Adventure Tourism, Eco- tourism and Theme Parks etc.
- Student will also learn the Socio, Economic and Environmental impacts of tourism.
- Students will know different kinds of Acts passed towards Tourism in the country

UNIT – I Changing Trends : Globalization – Economic viability – Infrastructure – Accessibility -- Leisure travel -- Motivations of Tourism Demand – International Tourism – Emerging Trends – Causes of variation in Tourism Trends

UNIT –II Various Types of Tourism : Adventure and Sports Tourism – Land based Adventure – Trekking, Mountaineering, Rock Climbing – Water based Adventure – Water Surfing, White Water Rafting, Para-sailing and Air based Adventure – Parachute Jumping, Gliding, Para-gliding

UNIT - III Sustainable Tourism: Concept of Eco-Tourism and Sustainable Tourism - Management – Impacts of eco-Tourism – Best Practised Eco-Tourism sites in the World – Theme Parks – MICE

UNIT- IV Tourism Impacts: Socio-Cultural Impacts of Tourism – Economic Impact and Environmental Impact and Assessment – Control Measures – Measuring Economic Costs and Benefits

UNIT –V Emerging Trends: Solo Travel – Safety and Hygiene – Digitalized Guest Experiences – Personalization – Sustainability – Shift from International to Local – Growth of contactless payments – Virtual reality tourism trends: Eco travel – Robo mania – Artificial Intelligence – Recognition Technology – Augmented reality – Healthy and organic food – Recent Changes : Covid-19 and its effects on Tourism.

Suggested Readings

1. Steve Taylor (ed) *Adventure Tourism: Meaning, Experience and Learning*, Rutledge, New York, 2013
2. RobinetJacob&P. Mahadevan, *Tourism Products of India*, Abijieet Publishers, New Delhi, 2012

	III SEMESTER	
T-303 (b)	**TOURISM RESEARCH METHODS**	**CREDITS -4**

Sessional Marks 20 **End semester Examinations Marks 80**

Objectives:

- Students will learn the Research methods in Tourism and Specific problems in Tourism
- Evaluate the difference between qualitative and quantitative methods
- Students will able to learn the skills of report writing and questionnaire design.

UNIT–I Introduction to Research: Nature, Scope and Purpose of Tourism Research – Foundations of Research – Meaning, Objectives, Motivation, Utility, Concept of Theory – Theoretical Perspectives – Tourism Management Information Systems – Conceptual and Operational Definitions – Specific Problems in Tourism Research

UNIT-II Purpose of Tourism Statistics; Role and Scope of Tourism Statistics; Measurement of Tourist Consumption, Demand and Supply and Measuring Tourism Resources. Basics Tools of Statistics: Mean, Median, Mode, Standard Deviation.

UNIT- III Quantitative Techniques: Meaning and Definition of Quantitative Methods, Types of Quantitative Research – Survey, Correlation Research, Comparative Research and Experimental Research.

UNIT-IV Qualitative Techniques: Meaning and Definition of Qualitative Research; Types of Qualitative Research – Ethnographic, Narrative, Case Study, Phenomenological and Grounded Theory Research.

UNIT-V Writing Research Proposal – Introduction, Literature Review, Objectives and

Hypotheses, Research Methods, Sampling Methods and Size, Data Analysis and Tabulation, Results and Discussions, Conclusion, References.

SRI VENKATESWARA UNIVERSITY: TIRUPATI

S.V.U. COLLEGE OF ARTS

DEPARTMENT OF HISTORY

Course

M.A. HISTORY

Choice Based Credit System (CBCS)

Academic Year 2023 – 24

Amended as per NEP-2020

DEPARTMENT OF HISTORY

S V UNIVERSITY, COLLEGE OF ARTS

About the Department:

The Department of History was established in 1959 with one Professor, one Reader and one Lecturer. Dr. M. Rama Rao was the founder Professor of the department. The aim of the department is to propagate the importance of studying history among the Indian youth in general and the students of Andhra Pradesh in particular

In research, the Department of History focuses on Medieval India, Freedom Movement, Tourism, Contemporary / Current History of India,68 Ph.D. and 105M.Phil. Degrees have been awarded as far. The Department has been providing guidance to the students who appear for Competitive Examinations like UPSC, SSC Bank Examinations, APPSC, UGC-NET, AP SET etc,

Vision

- Focus to make students to gain information and knowledge of ancient history through teaching and research

Mission

- Creating interest in students and promote studies in ancient history and culture of India. Making students to understand the globalization changes of present and past

Programme Specific Objectives:

- The courses of the department of History are designed with an aim to impart knowledge and skills in Ancient, Medieval and Modern Indian History, Andhra history, world history, contemporary history with emphasis on political, social, economic, religious, cultural developments, policies and changes.
- There are basic courses in core section on history which are thematic and cut across chronological divisions and regional polities.

- The ancient history courses encouraged the study on sources for the study, evolution of social structures, economy, civilizations, religious traditions, cultural developments, political processes as well as historical geography and chronology.
- Emphasis is also given to the study of Medieval history and culture with a focus on transition in Indian history from ancient to medieval and medieval to colonial period, through a reconstruction of structural continuities, regional polities, social and economic developments, as well as changes in the spheres of economic development, religion, culture and languages.
- The courses of historiography and historical methods intended to familiarize the students with approaches to historical studies with a focus on prominent historians and on the development of historical writing in modern India.
- The courses of contemporary history of India and world help the students to understand global relations and perspectives.
- The Tourism, skill development and science and technology courses can equip the students with the solid foundation to build upon the fundamentals, useful skills and expertise that can assist employment in Tourism Industry.
- The curriculum makes it possible for students to have comprehensive knowledge in History so as to enable them to clear competitive exams like UPSC, UGC NET, SET and take up teaching and research careers with confidence.

Programme Objectives:

- The courses of the department of History are designed with an aim to impart knowledge and skills in Ancient, Medieval and Modern Indian History, Andhra history, world history, contemporary history with emphasis on political, social, economic, religious, cultural developments, policies and changes.

Programme Outcomes:

- The students of the history acquire knowledge on Indian history of all periods, contemporary history world history and comparative analysis on global history.

Programme Educational Objectives:

- The curriculum makes it possible for students to have comprehensive knowledge in History so as to enable them to clear competitive exams like UPSC, UGC NET, SET and take up teaching and research careers with confidence.

- **Values, beliefs and attitudes** – promoting a human rights culture through the development of these processes
- **Action** – encouraging people to defend human rights and prevent human rights abuses
- To train the young men and women for facing the challenges of the pluralistic society and the rising conflicts and tensions in the name of particularistic loyalties to caste, religion, region and culture
- To study the effects of draconian laws and unlawful use of State’s machinery and force by the enforcement agencies
- To necessitate human rights education to evolve strategies and schemes for tackling such attitudes like employing bonded labour, practicing untouchability, perpetrating sati and help members internalize more humane and egalitarian approach in their social relations.
- To create an environment as well as an understanding that human rights can easily become vulnerable to abuse of various structures and processes of power
- To ensure comprehensiveness and incorporation of national, regional and international

perspectives related to human rights

- To work in close cooperation with National Human Rights Commission and other statutory Commissions on Women, Minorities, SC and ST and Linguistic Minorities, NGOs and Media Organizations for promoting Human Rights Education;
- To collect data related to the existing educational and training facilities in the areas of human rights in different parts of the country in general and Andhra Pradesh in particular for designing a need based Master's and Doctoral Programmes in Human Rights.
- To provide formal training for students in human rights and social development at the Post Graduate and Doctoral levels
- To promote human rights literacy / awareness among general students community, teachers and law enforcers
- To undertake research into specific and sensitive human rights issues; and
- To encourage concern or empathy for those who experience violation of their rights, by providing legal and other forms of counseling.

Program Specific Outcome:

- The Post Graduate Programme in Human Rights is designed to provide advanced Human Rights knowledge, perspectives and skills to wide cross sections of the learners.
- Choice Based Credit System curriculum of this course is very inclusive and has offered choice to the students to select electives/optional from other disciplines.
- The nature of this course is choice based as well as theoretically and practically relevant which offered job opportunities in the teaching, research and NGOs sectors to the learners.

Programme Objectives:

The Department of Human Rights and Social Development was established in December 1997, under the UGC Innovative Programme by upgrading the erstwhile Centre for Studies in Human Rights and Social Development. It has started M.A. P.G. Degree course in Human Rights and Duties in the academic year 2000-2001.Twenty P.G. students are admitted every year through the Directorate of Admissions. The M. Phil and Ph.D. Research Programmes were introduced in the academic year 2006-2007. The Department had organized several National Seminars, and workshops on the various themes of Human Rights. The Department has also organized Refresher Courses and Guest lecture programmes by inviting several eminent resource persons on the themes of Human Rights.

The Post Graduate Programme in Human Rights is designed to provide advanced Human Rights knowledge, perspectives and skills to wide cross sections of the learners. Choice Based Credit System curriculum of this course is very inclusive and has offered choice to the students to select electives/optional from other disciplines. The nature of this course is choice based as well as theoretically and practically relevant which offered job opportunities in the teaching, research and NGOs sectors to the learners. In terms of content of the course, it focuses on classical and advanced concepts and theories, research methods and perspectives, social issues of development, issues of casteism, environment, minorities, women, backward classes in India, etc are covered. The aim of this programme is not only theoretically oriented to the students alone, but also make able to analyze the social reality by using scientific, logical methods and theoretical perspectives over the contemporary issues.

Knowledge – providing information about human rights and the mechanisms that exist to protect those rights;

i) **Values, beliefs and attitudes** – promoting a human rights culture through the development of these processes; and

iii) To train the young men and women for facing the challenges of the pluralistic society and the rising conflicts and tensions in the name of particularistic loyalties to caste, religion, region and culture;
iv) To study the effects of draconian laws and unlawful use of State's machinery and force by the enforcement agencies;

v) To necessitate human rights education to evolve strategies and schemes for tackling such attitudes like employing bonded labour, practicing untouchability, perpetrating sati and help members internalize more humane and egalitarian approach in their social relations.

vi) To create an environment as well as an understanding that human rights can easily become vulnerable to abuse of various structures and processes of power;

vii) To ensure comprehensiveness and incorporation of national, regional and international perspectives related to human rights;

viii) To work in close cooperation with National Human Rights Commission and other statutory Commissions on Women, Minorities, SC and ST and Linguistic Minorities, NGOs and Media Organizations for promoting Human Rights Education;

ix) To collect data related to the existing educational and training facilities in the areas of human rights in different parts of the country in general and Andhra Pradesh in particular for designing a need based Master's and Doctoral Programmes in Human Rights.

x) To provide formal training for students in human rights and social development at the Post Graduate and Doctoral levels;

xi) To promote human rights literacy / awareness among general students community, teachers and law enforcers;

xii) To undertake research into specific and sensitive human rights issues; and

xiii) To encourage concern or empathy for those who experience violation of their rights, by providing legal and other forms of counseling.

The M.A postgraduate Programme in Human Rights and Duties involve skills expected to be gained by a student through studies that support in sharpening competence for augmenting contemporary knowledge base, acquiring new learning and skills, identifying with future studies, engaging well in a preferred career and performing a positive role as enlightened citizen in the society. The characteristic, profundity and magnitude of the learning experiences made available to the students support them to unfold the quality attributes in the following manner:

1. Disciplinary Knowledge:

Aptitude to manifest wide and extensive knowledge in the field of study and comprehension of one or more disciplines constitute part of postgraduate attributes including how other disciplines relate to the field of knowledge. An international perspective in the area of study also gives a wider learning of the subject. In the specialised course on Human Rights, the constant review and renewal of subject and courses assure coverage of recent developments. Quality education and training build a condition in which learning is exchanged, critically evaluated and used in contemporary situations

with the aptitude to review, examine and integrate and utilize actual learning in the appropriate field.

2. Communication Skill:

Classroom discussion and formal presentations render a suitable opportunity to sharpen oral communication and written assessment skills. They create ability to manifest ideas and thoughts in writing and orally to communicate confidently their viewpoints. By expressing adeptness to listen meticulously, they can read and write logically as well as give obscure information in explicit and succinct manner. With practice as a part of interdisciplinary team, students become able to choose and employ the proper form and methods of communication.

3. Critical Thinking:

The ability to apply critical reasoning to issues through independent thought and informed judgment are important postgraduate attributes integrating information from a wide range of sources. The postgraduates are able to apply analytical thought to body of knowledge and critically evaluate ideas, arguments, claims, beliefs on the basis of empirical evidence from open-ended and reasoned perspectives. They become able to identify relevant assumptions or implications and formulate coherent arguments.

4. Research Related Skills:

Research papers and other research tasks are expected to develop a degree of creativity, originality and discovery that benefits a postgraduate programme of the highest quality and to which students are encouraged. An ability is developed to undertake supervised research, including the design and conduct of investigations in a systematic, critical manner. Identification of appropriate problem and research questions, a critical analysis of the literatures, data analysis by using software and ICT, drawing logical conclusion are integral part of research skills. Postgraduate programme in Human Rights are designed to enhance skills in legal research and analysis, which are tested in all forms of assessment. All postgraduates demonstrate, through subject assessment, their ability to develop substantial research-based scholarship. Research related skill involves a sense of inquiry and capability for asking relevant questions, defining problems, articulation, ability to recognise cause and effect relationship, formulate hypothesis, and to report the result of experiment or investigation.

5. Self-Directed Learning:

The demanding nature of postgraduate attributes requires effective time-management and an ability to work independently. The prior of programmes ensure that all postgraduates have developed the ability to work with relative autonomy which provides a foundation for future leadership roles. Ability to work and learn independently and effectively leads to generating innovative ideas in the changing environment to investigate problems and to have creative solution. Self-learning and application of competence in exploring also help in solving nonfamiliar problems. This leads to

application of one's learning to real life situation and critical sensibility to lived experiences. Well-developed problem-solving abilities also contribute to flexibility of approach.

6. Ethical and Social Understanding:

Profound respect for truth and intellectual integrity including the ethics of scholarship add to the ability to embrace values in conducting one's life and in formulating position about ethical problems from multiple perspectives appreciating environmental and sustainability issues. This postgraduate attribute fosters understanding of social and ethical responsibility and ability to apply ethical standards in order to attain unbiased and truthful actions in all aspects of life. It also involves appreciation of the philosophical and social contexts of a discipline with knowledge of other cultures and appreciation of cultural diversity.

7. Quality of Team Work:

Team work, as postgraduate attributes, creates capacity to value and work effectively and respectfully with diverse team and to facilitate coordinated effort for a common cause. It involves training in mapping out tasks of a team, setting directions and formulating an inspiring vision.

After completion of this course, student would get job opportunities in the fields of teachings, research, NGOs and Governmental sectors. This course also helps students to qualify the NET/JRF and Competitive Exams MPSC/UPSC/Social Welfare Departments etc.

8. Investigation:

Equip Knowledge to investigate on contemporary burning issues and problems of the community in a scientific way.

9. Design:

Develop skills and scientific attitude in identification of problems, develop research design, carryout research, conduct case and interventional studies and prepare report by applying appropriate software.

10. Professionalism:

Understand and discover the knowledge on organizational services and its aims acquire practical knowledge and experience by working with people and examine policy ideas and priority of the community through research and theoretical ideas by safeguarding ethics and values of social work profession. Demonstrate to work in a thoughtful and systematic way, justify methods of working with a meaningful intervention, and apply skills by combine thinking using the senses.

11. Impacts of course on society and environment:

Demonstrate immense impact on communities through awareness and empowerment programmes by applying relevant social work methods. Help people in solving personal, familial and societal problems through adjustment and adaptation by way of social justice. Able to organize various environments related programs sensitize the people on environmental issues in order to maintain public eco-friendly relations.

12. **Life Long Learning:**

Associate in self-discipline and self-directed continues learning by involving in national and international professional organizations and thereby aims to improve the personal and professional development in social work methods.

Prgramme Learning Outcomes:

Programme Learning Outcomes in Human Rights and Duties course include subject-specific skills and generic skills, including transferable global skills and competencies, the achievement of which students are able to demonstrate for the award of MA Degree in Human Rights and Duties qualification. It is to develop expertise to:

- explore the conditions and dimensions of empowering and transformative learning processes;
- provide an advanced qualification for students wanting to better understand the nature of international human rights in the face of global political, economic, social, legal, ethical and environmental challenges
- describe and critique the differing approaches, perspectives, and models of human rights and how they impact the ways in which human rights education is carried out in diverse settings
- design, conduct, analyze and present findings using diverse research tools and methods in order to create knowledge and awareness about human rights issues
- drawing on critical pedagogies, produce advocacy tools and curricular resources to be used in formal or non-formal educational contexts to address human rights violations
- analyze the gap between universal rights and grassroots realities in local, regional and global contexts with attention to issues of power, privilege, and marginalization
- identify diverse methodological tools and skills needed to conduct ethical research
- synthesize contextual understanding, reflective analysis, theoretical frameworks, and methodological training to inform the production of a thesis and field-based research projects
- provide grounding in research methods relevant to the advanced study of global issues and develop learner's ability to apply these skills appropriately in an individual dissertation

- provide opportunities for the development of practical skills necessary to work in organizations confronted by these challenges
- ensure comparability of learning levels and academic standard across universities
- focus on knowledge and skill for further study, empowerment and citizenship.

Prgramme Educational Objectives:

- The programme provides the student with the capacity to identify issues and problems relating to the realisation of human rights, and strengthens the ability to contribute to the resolution of human rights issues and problems. It also develops investigative and analytical skills.
- It refers to actually existing international law and associated legal and political mechanisms as well as processes of far-reaching social and cultural change.
- This programme offers courses in human rights in both theory and practice from legal, historical, philosophical, political and social science-based perspectives.

HR-204: RESEARCH METHODOLOGY, STATISTICS AND COMPUTER APPLICATIONS

Objectives:

The objective of the course is to introduce the students to the fundamentals of research methodologies, methods and techniques. As the focus is on social science research, the course includes approaches and methods in this field. It will provide a conceptual understanding of the methods and techniques. It will also help the students in developing a research orientation and learn the basic framework of research

process.***UNIT – I: Foundations of Social Science Research***

- The Research Process: Major steps in Human RightsResearch
- Types of Research Designs: Exploratory, Descriptive, Diagnostic andExperimental
- Hypothesis: Meaning - Types - Sources of hypotheses - Attributes of a sound hypothesis
- Inter-relation between theory andresearch.
- Importance of research in Human Rights: Potential areas forresearch

UNIT – II: Sampling and Methods of Data Collection

- Sampling: Types Methods andTechniques
- Observation: Participant andNon-Participant
- Questionnaire: Preparation, advantages andlimitations
- Interview Schedule : Conducting an interview, Advantages andLimitations
- CaseStudy
- Reportwriting

UNIT – III: Participatory Rural Appraisal (PRA)

- Foundations of PRA; Principles ofPRA
- Mapping: Transect Walk, Social Mapping, Resource Mapping, Venn Diagram (Chapati/ RelationshipDiagram).
- Ranking : Wealth/Well-being Ranking, Pair-wiseRanking

UNIT – IV: Statistical Techniques

- Statistics: Definition, uses, importance and limitations of Statistics in SocialSciences
- Diagrammatic Representation – Uses and Limitations ofdiagrams
- Measures of Central Tendency and Dispersion – The Mean, Median and Mode; StandardDeviation
- Correlation
- Tests of Significance : Chi-Square test, F-Ratio, 'T'test

UNIT-V: Computer Applications

- Componentsofacomputer:ALU,CPU,MemoryandI/Odevices
- Hardware andsoftware
- Networking andinternet
- SPSS
- UsesofcomputersinSocialSciences

.

SRI VENKATESWARA UNIVERSITY: TIRUPATI

S.V.U. COLLEGE OF ARTS

DEPARTMENT OF LAW

Course

B.A. LAW
(5 YEARS BA LLB INTEGRATED COURSE)

Choice Based Credit System (CBCS)

Academic Year 2023 – 24

Amended as per NEP-2020

About the department

- The Post Graduate Department of Law, Sri Venkateswara University, Tirupati was started in 1976 with Master of Law Course (LL.M – Latin Legum Magister) with specialization in Constitutional and Legal Order, along with Ph.D. Programme continued. Subsequently started BA.LL.B.5 Year integrated Course in the year of 2013.

Vision

- "To impart holistic knowledge of law and mould students to be competent legal professionals, committed to the cause of community development through sustained academic activities and thereby promoting empowerment through legal education for building ethical society."

Mission

- To provide healthy environment and opportunities to all student to contribute positively in the process of administration justice.
- To enrich standards and quality of teaching so as to achieve academic excellence.
- To enhance existing skills and to develop soft skills of students.
- To enable students coming from rural areas to cope with ever growing challenges of life.
- To inculcate professionally acceptable values in our students.

Choice Based Credit System (cbcs):

The Choice Based Credit System (CBCS) provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it has been found necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions to begin with. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on students' performance in examinations, the UGC has formulated the guidelines to be followed.

Students of this course would be expected to :

- Knowledge of legal matters, policy, theories and case studies
- Understanding of contemporary politics, sociology and ethics/morality
- Professional expertise in law, including command of technical Legal language

General English – II

Objectives:

1. To understand major and minor forms of foreign words and phrases ,Latin and English affixes.
2. To enable comprehensive skills like brief writing and drafting of reports.
3. To Acquaint knowledge on basic sentence structure based on its knowledge and usage

Unit 1: Vocabulary 1. Foreign words and phrases (important Latin and English affixes) 2. Certain set of expression and phrases 3. One word substitution 4. Words of ten confused

Unit 2: Comprehension skills 1. Concern logical fallacies 2. Comprehension of legal texts 3. Use of cohesive devices (Legal drafting) 4. Precise-writing, summarizing and briefing 5. Brief-writing and drafting of reports 6. Essay writing on topics of legal interests 7. Varieties of sentence structures and verb pattern

Unit 3: Speech writing 1. Reading aloud (knowledge of proper pauses) 2. Key sounds, their discrimination and account 3. Consulting a pronouncing Dictionary 4. Rapid reading and debating exercise.

Unit 4 : M.K. Gandhi-The Law and Lawyer : Lord Denning-due process of Law parts I to III : M.C. Setaved-My Life : M.C. Chagla: Roses in December

Prescribed books-

1 : Selected materials drawn from renowned judgments

2 : Materials drawn from legal notices, petition, appeals, court orders, statutes, bills, rules etc

3 : Lifco-legal drafting

Refrence books-

1 : David Green- contemporary English Grammar, Structure composition (MacMillan) Chapters XLI and XLII

2.B.M.Gandhi

3.Yash Pal Sharma

Outcome of the course:

1. Enable to appreciate the literary work such as L.S.R.W [Listening, speaking, reading and writing]
2. Brings awareness on soft skills set to work cohesively with the team as a team player and make to learn drafting skills used in practice as an Advocate.
3. Aims to use legal terms to fulfil the skill in writing legal language.

CONTRACTS-II (Special Contracts)

Objectives:

1. Imparts different types of special contracts.
2. Knowledge on rights and duties of the persons who are entering into different type of contracts.
3. Knowledge about different national and international case laws and existing legislation.
4. Application of knowledge to enter into a contracts and remedies when there is a breach of contract.

Unit-1. Indemnity and guarantee: 1.1. Indemnity and guarantee (Sec. 134, 127) Indian Contract Act 1872 1.2. Contract of indemnity A.Definition B.Rights of indemnity holder C.Liability of indemnifier. 1.3. Contract of guarantee A.Definition B.Essential characteristics of contract of guarantee C.Distinction between contract of indemnity and contract of guarantee D.Kinds of guarantee E.Rights and liabilities of surety F. Discharge of surety G. Contract of Bailment and (Sec. 148-181 of Indian Contract Act 1872).

Unit-2. Bailment 2.1. Definition 2.2. Essential requisites of bailment 2.3. Kinds of bailment 2.4. Rights and duties of bailor and bailee 2.5. Termination of bailment 2.6. Pledge A.Definition B.Rights and duties of pawnor and pawnee C.Pledge by Non Owners.

Unit-3. Contract of Agency (Sec. 182-238 of the Indian Contract Act 1872) 3.1. Definition of agent 3.2. Creation of agency 3.3. Rights and Duties of agent 3.4. Delegation of authority 3.5. Personal liability of agent 3.6. Relations of principal with third parties 3.7. Termination of agency.

Unit-4. Contract of sale of goods (The Indian Sale of Goods Act 1930). 4.1. Formation of Contract 4.2. Subject matter of Contract of Sale 4.3. Conditions and Warrantees 4.4.

Express and Implied conditions and Warranties 4.5. Caveat Emptor 4.6. Property, Possession and Risk 4.7. Passing of Property 15 4.8. Sale of non-owners 4.9. Delivery of goods 4.10. Rights and duties of seller and buyer before and after sale. 4.11. Rights of unpaid seller.

Unit-5. Contracts of partnership (The Indian Partnership Act,1932). 5.1. Definition and nature of Partnership 5.2. Formation of Partnership 5.3. Test of Partnership 5.4. Partnership and other Associations 5.5. Registration of Firms 5.6. Effect of non-registration 5.7. Relation of Partners 5.8. Rights and Duties of Partners 5.9. Properties of the Firm 5.10. Relation of Partners to third parties 5.11. Implied authority of a partner 5.12. Kinds of Partners 5.13. Minor as Partners 5.14. Reconstitution of a Firm 5.15. Dissolution of firm.

Unit-6. Negotiable Instruments Act, 1881

Prescribed books-

1 : Indian Contract Act, 1872 (Sec. 124-238)

2 : The Sale of Goods Act, 1930.

3 : The Partnership Act, 1932.

4 : Negotiable Instrument Act, 1881.

5 : Cheshire and Fifoot-The Law of Contract.

6. : Chitty- on contracts (Specific Contracts) Vol-II

7 : Pollock and Mulla-Indian contracts and Specific Relief Act.

8: Pollock and Mulla- Sale of Goods and Partnership Acts.

9: Avtar Singh-Law of Contracts.

10 : Khargumwallah-The Negotiable Instruments Act

Outcome of the course:

1.The course taught about special contracts like indemnity, guarantee bailment pledge agency which we come across in contemporary society.

2.Provides an insight into the justification for special statutory provisions for certain kinds of contracts.

3. Application of knowledge to enter into a contracts and remedies when there is a breach of contract.

ECONOMICS – II

Objectives of the Course:

1. It aims to reduce the population of people living below the poverty line and provide them access to employment and social services.
2. Increasing the standard of living by increasing the per capita income and equal distribution of income is one of the main aims of India's economic planning.
3. To analyses the international financial investments towards the developing countries.

Unit 1 STRUCTURE OF INIDAN ECONOMY:

1. Structure of Indian economy
2. Estimates of national income in India
3. post – independence economic polices in India

Unit 2 POVERTY AND INCOME DISTRIBUTION

1. Trends and inter-regional variations in the incidence of rural poverty
2. Unemployment generation schemes
3. Labour, productivity and wages

AGRICULTURAL ECONOMICS:

1. Basic Characteristics of the economy and its transformation
2. Evolution of agrarian relations, integrated rural
3. Development Commercialization of agriculture
4. Economics of farm management
5. Agricultural credits

Unit 3 THE LOGIC OF INDIA'S DEVELOPMENT STRATEGY

a Planning process

b Priorities between agriculture and industry

c Choice if technology

d Role of public private and joint sectors

e Large, medium and small scale industries

Unit 4 PROBLEM OF CONTROL IN ECONOMIC CONCENTRATION:

a Regulation of the private corporate sector (controls, licence quota)

b Anti-monopolies and restrictive practices, regulations

c Prioning

d Labour relations

Unit 5 FOREIGN INVESTMENT:

a International investments

b International aid

c International corporations

d Trends in New Economic Order

Unit 6 EXPORT AND IMPORT polices, import substitution and export promotion

Unit 7 CREDITS AND BANKING SYSTEM IN INDIA

Including regulations of banking

Books prescribed:

1. Rudder Datt and sundaram – Indian economy, DelhiS Chand & Co. 1982

2.A .N .Agrawals – Indian Economics, New Delhi, Vikas 1979

3. K K Dogett – Indian Economics

4. Gunner Myrdal of world poverty

5. C T Kurien : Planning, poverty and social transformation (Allied publications)

6. C H Hannamantha Rao & P C Joshi, Reflections of Economic Development and social change essays in honour of VKRV Rao (Allied 1979)

Outcome of the Course:

1. The students to know about theories of population, National income, poverty, Employment, regulation.
2. To understand the basic concepts of Agricultural economics, credits and commercialization of Agriculture
3. To analysis the private company, small, and large scale industries, Labour productivity, foreign trade, import export etc.

LAW OF TORTS AND CONSUMER PROTECTION ACT

Objectives

1. To provide Compensation
2. To ensure Relief to the effected party

Unit-1. Evolution of law of torts

1.1. Its development by courts in England.

1.2. Forms of Action

1.3. Emergence of specific remedies from case to case.

1.4. Reception of Law of Torts in India.

1.5. Principles of Equity Justice and good conscience

1.6. Definition, nature, scope and objects

1.7. A Wrongful act violation of a duty (in rem) imposed by law, duty which is owned to people generally, Legal damages-damnum sine injuria and injuria sine damno

1.8. Tort distinguished from crime, breach of contract – The concept of Unliquidated damages- changing scope of Law of Torts: Expanding characterduites owned to people generally due to complexities of modern society, scientific and technological progress, industrialization, organization, specialization, occupational hazards-objects-prescribing standards of human conduct, redressal wrongs by payment of compensation, prescribing unlawful conduct by injunctions.

Unit-2. Principles of liability in torts

2.1. Fault

2.2. Wrongful intent

2.3. Negligence

2.4. Liability without fault

2.5. Violation of Ethical codes

2.6. Statutory liability

2.7. Fatal Accidents Act-Railway Act-Workmen's compensation Act-Motor vehicles Act-Carrier Acts-Insurance Laws.

2.8. Place of motive in torts.

2.9. Extinguishments of liability in certain situations:

2.10. Death, Actio personalis mortium cumpersona-Exceptions-Law reform (Miscellaneous Provisions) Act, 1934.

2.11. Waiver and Acquie

Unit-3. Justification in tort:

3.1. Volenti non fit injuria-What is free consent? Informed consent, mere knowledge and knowledge coupled with assumption of risk.

3.2. Necessity, Private and Public.

3.3. Plaintiff's default

3.4. Act of good and Inevitable Accident 18

3.5. Private defense

3.6. Statutory Authorisation

3.7. Judicial and Quasi-Judicial Acts

3.8. Parental and Quasi Parental Authority

Unit-4. Doctrine of sovereign immunity and its relevance in India

4.1. Liability of state-sovereign and non-sovereign functions, Croen proceedings Act of U.K Federal Tort Claims Act of U.S.A.

4.2. Constitution of India (Arts 294 and 300)

4.3. Act of state

Unit-5. Vicarious liability:

5.1. Basis, Scope and Justification

5.2. Express Authorization

5.3. Ratification

5.4. Abetment

5.5. Special Relationships

5.6. Master and servant-arising out of and in the course of employment who is master? Control test who is servant, borrowed servant independent contractor?.

5.7. Principal and Agent

5.8. Corporation and Principal Officer

Unit-6. Torts against persons and personal relations:

6.1. Assault, Battery, Mayhem

6.2. False Imprisonment

6.3. Defamation-Libel, slander including law relating to privileges

6.4. Marital Relations, Domestic Relations, Parental Relations, Master and Servant Relations. 6.5. Malicious prosecution

6.6. Shortened Expectation of life.

6.7. Nervous shock.

6.8. Defenses.

6.9. Trespass to land, Trespass ab initio, dispossession

6.10. Movable property-Trespass to goods, Detinue, Conversion

6.11. Torts against Business interests-Injurious Falsehood, Misstatements passing off.

Unit-7. Absolute/strict liability:

7.1. Basic concepts

7.2. Theories of Negligence

7.3. Standards of care, Duty to take care, carelessness inadvertence

7.4. Doctrine of contributive Negligence.

7.5. Res ipsa liquitor and its due to Negligence with special reference to consumer protection law.

7.6. Professional liability due to Negligence with special reference to consumer protection law. 7.7. The rule in Ryland v. Fletcher. Principle for application of these rules.

7.8. Storing of dangerous things.

7.9. Escape of dangerous things-application of principles in concrete cases of damage arising out of industrial activity. (The Bhopal Disaster, Oelum, Gas Escape, Machua Dam Burst, M.C. Mehta sace, Nuclear Installations and their hazards).

7.10. Liability under Motor Vehicle Act, Railway Act etc.

Unit-8. Nuisance 19

8.1. Definition, Essentials, Types

8.2. Acts which constitute nuisance-obstructions of highways, pollution of air, water, noise, interference with light and air.

Unit-9. Legal Remedies:

9.1. Legal remedies

9.2. Award of damages-simple, special, punitive

9.3. Remoteness of damages-foreseability and directness tests

9.4. Injunction

9.5. Specific restitution of property

INTERPRETATION OF STATUTES

Objectives:

1.To understand the statutes by using various construction methods when there is an ambiguity in words

2.The true intention of law makers will be taught by the interpretation of Statutes.

3.The role of courts and guided principles for interpretation of modern problems in the society

Interpretation of statutes:

Unit-1. INTRODUCTION 1.1. Difference between construction and interpretation 1.2. Concept and power of interpretation 1.2.1. Literal construction 1.2.2. Other principles of interpretation 1.3. General principles of interpretation 1.3.1. The Primary rule: literal construction 1.3.2. The other main principles of interpretation 1.3.3. Reading words in their context: the external aspect 1.3.4. Reading words in context: the statutory aspect

Unit-2.BENEFICIAL CONSTRUCTION 2.1. Restrictive construction 2.1.1. Consequence to be considered 2.1.2. Presumption against changes in the common law 2.1.3. Mens rea in statutory offences 2.2. Construction to prevent evasion of abuse 2.2.1. Consequence to prevent evasion 2.2.2. Construction to prevent abuse of powers

Unit-3. 3.1. Theoretical or ideological approaches to interpretation 3.2. Judicial restraint 3.3. Judicial activism 3.4. Juristic restraint

Unit-4.PRESUMPTIONS REGARDING JURISDICTION 4.1. Presumptions against ousting established jurisdictions 4.2. Presumptions against creating new, and enlarging established jurisdictions 4.3. How far statutes affect the crown 4.4. Further presumptions regarding

jurisdiction 4.4.1. Territorial extent of British legislation 4.4.2. How far statutes conferring rights affect foreigners 4.4.3. Presumptions against a violation of international law

Unit-5.CONSTRUCTIVE TO AVOID COLLISION WITH OTHER PROVISIONS 5.1. Construction most agreeable to justice and reason 5.1.1. Presumption against intending what is inconvenient or unreasonable 5.1.2. Presumption against intending injustice or absurdity 5.1.3. Presumption against impairing obligation, or permitting advantage from one's own wrong 5.1.4. Retrospective operation of statutes 5.2. EXCEPTIONAL CONSTRUCTION 5.2.1. Modification of the language to meet the intention 5.2.2. Equitable construction 5.2.3. Strict construction of penal laws 5.2.4. Statutes encroaching on rights or imposing burdens

Unit-6.SUBORDINATE PRINCIPLES 6.1. Usage and contemporanea exposition 6.2. Construction imposed by statute 48 6.3. Construction of words in bonam partem 6.4. Change of language 6.5. Understanding associated words in a common sense, and the expressio unius rule 6.6. Generic words following more specific 6.7. Meaning of some particular expression

Unit-7.Intentions attributed to the legislature when it expresses none 7.1. Imperative and directory enactments 7.2. Absolute and qualified duties 7.3. Impossibility of compliance 7.4. Waiver 7.5. Public and private remedies

Unit-8.STARE DECISIS 8.1. The doctrine as inherited by us 8.2. Techniques of innovation (subversion) of stare decisions 8.3. Supreme Court's authority to overrule its own decisions (e.g. The Antalya's Case) 8.4. Advisory jurisdiction and its import on precedent 8.5. Prospective overruling in India 8.6. Objections to judicial review as anti majoritarian

Unit-9.STATUTORY INTERPRETATION AS ASPECTS OF JUDICIAL PROCESS 9.1. Rules of statutory interpretation their judge made character 9.2. Legalism and rule of literal interpretation 9.3. Creativity: mischief and golden rule 9.4. Self discipline: rules of construction in Fiscal and Criminal Statutes 9.5. Technicality rules as to necessary and implied repeal: Rules for interpretation of codifying, consolidating and amending statute 9.6. Values and interpretation

Unit-10. CONSTITUTIONAL INTERPRETATION 10.1.Differentiation from statutory interpretation; Rex Vs. Burah as example 10.2.Literal interpretation 10.3.Harmonious

construction 10.4.Reference to Constituent Assembly debates 10.5.Pith and Substance 10.6.Occupied field 10.7.Residuary power 10.8.Repugnancy 10.9.Amending power 10.10. Directive Principles as sources of Constitutional Interpretation

Prescribed books-

1.Ajit Prakashan, Interpretation of Statutes
2.Dr.M.P.Tondan, Interpretation of Statutes
3. Interpretation of Statutes, Dr.Ashok.K.jain
4. Interpretation of Statutes, P.Krishna swamy
5.Prof.T.Battacharya, Interpretation of Statutes
6.D.S.Chopra, Interpretation of Statutes

outcome of the course:

1.The course will help to solve the real life problems and to face the tough situation rationally

2.Brings awareness on the judicial interpretation which involves construction of words, phrases, and expressions

3.Acquires knowledge on the old and existing statutes contextually relevant and it is used to develop certain rules doctrines and principles by the courts.

S.V.U COLLEGE OF ARTS
SRI VENKATESWARA UNIVERSITY: TIRUPATI

DEPARTMENT OF LAW

Course
PG DEPARTMENT OF LAW

Choice Based Credit System (CBCS)
Academic Year 2023 – 24
Amended as per NEP-2020

About the Department

The Post Graduate Department of Law, Sri Venkateswara University, Tirupati was started in 1976 with Master of Law Course (LL.M – Latin Legum Magister) with specialization in Constitutional and Legal Order, along with Ph.D. Programme continued. Subsequently started BA.LL.B.5 Year integrated Course in the year of 2013.

Vision

- "To impart holistic knowledge of law and mould students to be competent legal professionals, committed to the cause of community development through sustained academic activities and thereby promoting empowerment through legal education for building ethical society."

Mission

- To provide healthy environment and opportunities to all student to contribute positively in the process of administration justice.
- To enrich standards and quality of teaching so as to achieve academic excellence.
- To enhance existing skills and to develop soft skills of students.
- To enable students coming from rural areas to cope with ever growing challenges of life.
- To inculcate professionally acceptable values in our students.

Department Objectives :

The Department is having the following objectives:

- To train students for national, transnational and international practice and for globalization.
- To engage the students in critical intellectual enquiry into discipline of law and use of ICT in law teaching.
- To establish a robust mechanism for students' feedback, for quality assurance and for placement.
- To train students and young advocates to stand up for the rule of law, to inculcate an aspiration for improvement of the law and for the operation of legal system and for the achievement of social justice.
- To educate and train students for community leadership and for civic responsibility. To play "outreach" role in terms of providing services to the community, through clinical programmes, extensive networking and building partnerships.

Programme Specific Outcomes

- This programme focuses on integrating knowledge regarding law and other subjects to the candidates. Students are also introduced to law case studies, which will help them practice for their career in the law field.
- To train learners for better performance in various competitive examination Judicial and UPSC, APPSC etc.,
- To enable the learners to acquire and develop self- study habits and case studies.
- To facilitate Higher education & research in Law.

Programme Outcomes :

- The student should acquire the knowledge with various case laws related to various aspects of law.
- When you graduate with a BA LLB Integrated Course you will have learned how to work at Courts, Law Firms, ADR's and NGO's.
- The student understanding the basic legal concepts, Constitutional principles and Legal theories related to various Legal Phenomena and their relevancies in the day-to-day life and the apply Law Principles in Supreme Court, High Courts District Courts and Lower Courts, Quasi-Judicial Bodies Alternative Dispute Resolution Tribunals, CAT, Labour Courts, etc., dealing with Civil and Criminal Cases.
- The student could apply the skills to deal with Civil, Criminal and Constitutional Matters.
- The students analyzed and realized how developments in Law that will helps in the developments of the social sciences such as Political Science, Economics, Sociology. This approach will helps in providing better solution and new ideas for Legal Developments.
- Attains knowledge in Constitution, Intellectual Property Rights, Civil and Criminal Laws, International Law, Commercial Laws, Practical Training and Moot Court.
- Perform, Assess and implement practical techniques and procedure in their practical training in Moot Courts and analyses the facts of the case.

Program Educational Objectives:

- Exposure of students to provide them traditional and modern techniques to acquire knowledge and skill in the field of Law.
  - To update the syllabus essential for appearing to judicial exams and other competitive exams of APP, UPSC and APPSC.
  - To make aware the students to know the Law of the Land, to implement the same in their profession.
  - To develop trained and knowledgeable to practice as an advocates in courts and companies;
  - To develop self employable ability and to apply knowledge in their profession.

2. Students of other discipline other than law course can choose one paper out of two in Open elective in the III Semester and IV Semester. In the IV Semester Paper 4.2b – International human Rights is MOOC / Online course only.
3. Duration of examination for each paper in all the semesters is 3 Hours except for Practical Training in III Semester and Dissertation and Viva-Voce in IV Semester.

P.G. DEPARTMENT OF LAW
SEMESTER – I

I-SEMESTER

BRANCH – CONSTITUTION AND LEGAL ORDER

COURSE – 1.1 :MASS MEDIA LAW.

Objectives of the course:

Mass media such as press, radio and television, films, play a vital role in socialisation, culturalization and modernisation of a society. The visual media are bound to have a much greater impact on human mind. But while these media have such a potential value as many educators, they are also susceptible to destructive and harmful uses for promoting criminal anti-social and selfish escapist tendencies. While their positive potential as mass educators has to be harnessed for developmental purposes, their negative, harmful potential has to be curbed in public interest. Law plays a dual role vis-a-vis such media. On the one hand, it protects the creative freedom involved in them, on the other, it has to regulate them so as to avoid their possible abuse.

This paper will deal with such interaction between law and mass media.

Syllabus:

Unit - 1. Mass media - Types of - Press Films, Radio Television

Ownership patterns - Press - Private – Public, Ownership patterns - Films – Private, Ownership patterns - Radio & Television, Public, Difference between visual and non-Visual Media- impact on People's minds.

Unit - 2. Press - Freedom of Speech and Expression - Article 19 (1) (a)

Includes Freedom of the Press, Laws of defamation, obscenity, blasphemy and sedition, The law relating to employees' wages and service conditions, Price and Page Schedule Regulation. Newsprint Control Order, Advertisement - is it included within freedom of speech and expression? Press and the Monopolies and Restrictive Trade Practices Act.

Unit - 3. Films - How far included in freedom of speech and expression?

Censorship of films – constitutionality, abbas Case, Difference between films and Press - why pre-censorship valid for films but not for the press? Censorship under the Cinematograph Act.

Unit - 4. Radio and Television - Government monopoly.

Why Government departments ? Should there be an autonomous corporation? Effect of television on people, Report of the Chanda Committee, Government policy, Commercial advertisement, Internal Scrutiny of serials, etc. Judicial Review of Doordarshan decisions: Freedom to telecast.

Unit - 5. Constitutional Restrictions

Radio and television subject to law of defamation and obscenity, Power to legislate - Article 246 read with the Seventh Schedule, Power to impose tax - licensing and licence fee.

- Rajeev Dhavan "On the Law of the Press in India" 26 J.I.L.I. 288 (1984).

Expected Course Outcomes:

At the end it is expected that the student will be able to :

Mass media such as press, radio and television, films, play a vital role in socialisation, culturalization and modernisation of a society. The visual media are bound to have a much greater impact on human mind. But while these media have such a potential value as many educators, they are also susceptible to destructive and harmful uses for promoting criminal anti-social and selfish escapist tendencies. While their positive potential as mass educators has to be harnessed for developmental purposes, their negative, harmful potential has to be curbed in public interest. Law plays a dual role vis-a-vis such media. On the one hand, it protects the creative freedom involved in them, on the other, it has to regulate them so as to avoid their possible abuse.

COURSE–1.2 : PUBLIC UTILITIES LAW

Objectives of the course:

Public utilities are government monopolies, which are services rather than commercial enterprises. The law of public utilities is contained in the statutes of incorporation and judicial decisions given by courts while resolving disputes between the utilities and their consumers or employees or traders or others entering into business relations with them.

In this paper a student will study :

- government policy in regard to such utilities in general and to each utilitin particular,
- the growth and evolution of the public utilities;
- patters of the laws of incorporation and
- powers, functions and liabilities of the public utilities vis-a-vis their employees, consumers and others.

Syllabus

Unit - 1. Growth and evolution of public utilities and their legislation

Railways, Electricity, Gas, Road Transport, telephone, post and telegraph service,

Police, Fire Brigade, Banking service, etc. Government and Parliamentary Control Constitutional division of power to legislate, Public Utilities law - Why government monopoly?

Unit - 2.Administrative Authorities and Fair hearing

Structure of the Administrative Authorities, Subordinate legislation, QuasiJudicial

Decision – Administrative

Discretion.**Unit - 3. Public Utilities**

And their Employees :

Consumer Protection

Application of Articles l6 and 311, Application of Industrial law- right to strike, Rights of consumers protected by the Consumer Protection Act, Rights Arising from law of Contract and law of Torts

Unit - 4. Public Utilities and Fundamental Rights

The right to equality: the airhostess case, Are Public utilities "State" for the purpose of article 12 of the Constitution? Extension of the concept of State

Unit - 5. Liabilities and special privileges of public utilities

In contract, In tort, In criminal law

- Sunil Deshta and KiranDeshta, Law and Menace of Child Labour (2000) Armol Publications, Delhi

Expected Course Outcomes:

At the end it is expected that the student will be able to :

- Critically analyse the Law as an instrument of social change and product of tradition and culture
- Explore the nature and function of Law as an institution and process interlinked with the social and economical philosophy of education.
- Examine development of law from historical processes and how for the a touch of modernization and value can be added to legal system
- To analyse the different approaches of Law and Justice

COURSE-1.4 :INDIAN CONSTITUTIONAL LAW: THE NEW CHALLENGES.

Objectives of the Course:

The Constitution, a living document, is said to be always in the making. The judicial process of constitutional interpretation involves a technique of adapting the law to meet changing social mores. Constitution being the fundamental law, an insight into its new trends is essential for a meaningful understanding of the legal system and processes. The post graduate students in law who had the basic knowledge of Indian Constitutional Law at LL.B level, should be exposed to the new challenges and perspectives of constitutional development while they are allowed to choose an area of law for specialisation. Obviously, rubrics under this paper require modification and updating from time to time.

Syllabus:

UNIT-1. Federalism

Creation of new states, The inter-state disputes on resources, Centre's responsibility and internal disturbance within States, Federal Comity : Relationship of trust and faith between Centre and State, Special status of certain States, Tribal Areas, Scheduled Areas.

UNIT-2. "State" right to equality

Definition of state, Need for widening the definition in the wake of liberalization. Privatisation and its impact on affirmative Action, Relating to equality.

UNIT-3. Emerging regime of new rights and remedies

Reading Directive Principles and Fundamental Duties into Fundamental Rights Compensation jurisprudence Right to education, Commercialization of education and its impact, Brain drain by foreign education market, Right of minorities to establish and administer educational institutions and state control.

UNIT – 4. Separation of powers stresses and strain

Judicial activism and judicial restraint, PIL: implementation, Judicial independence, Appointment, transfer and removal of judges, Accountability:
executive and judiciary, Tribunals.

UNIT- 5. Democratic process

Nexus of politics with criminals and the business, Election, Election commission: status,

Electoral Reforms, Coalition government, 'stability, durability, corrupt practice' Grass root

democracy.

Select bibliography

No specific bibliography is suggested for this course since the course materials obviously depends upon the latest developments. These developments in the areas specified in the course can be gathered from the recent materials such as case law, changes and amendments of laws, critical comments, studies and reports, articles and research papers and lastly contemporary emerging ethos impacting on constitutional values.

Expected Course Outcomes:

At the end it is expected that the student will be able to :

- Understand and interpret Constitution to address the emerging complex issues;
- Explore the various functional theories, doctrine and Constitutional principles working in the backdrop and its interplay with the emerging issues; and
- Examine the boundaries, limitations, of Constitution from different perspectives and explore the possible approaches of interpretation and understanding from the perspective of Law and Justice.

II-SEMESTER

Course-2.1 :UNION-STATE FINANCIAL RELATIONS

Objectives of the course:

The Indian Constitution adopts federal government for various reasons. Power is divided between the Union and the States in such a way that matters of national importance are entrusted to the Centre and matters of local importance are left to the States. The Constitution departs from the model of classical federalism in many ways. This departure was made to suit the peculiar Indian circumstances. However, the constitutional provisions were in practice further distorted so as to make the states totally subservient to the Centre. Distribution of fiscal power is the nerve centre ofthe federal system. In this paper a student will be made conscious of various aspects of federal principle, and their working in the Indian context with a view to ultimately assessing the Indian experience critically. He must clearly understand various emerging forces such as regionalism, subnational loyalties and nationalism. He should be able to see the working of the constitutional process as a vital element of the political economy.

Syllabus:

UNIT – 1. Federalism – Essentials

Models of Federal government - U.S.A, Australia, Canada, Difference between Federation and Confederation Evaluation of federal government of India

UNIT – 2. Distribution of Legislative Power / Administrative Power / Physical power

Indian Constitution, Centre-State relations, Factors responsible for subordination of State Administrative relations, Scheme of Allocation of taxing power, Extent of union power of taxation, Residuary power – inclusion of physical power, Fundamental rights Inter-Government tax immunities Difference between tax and fee.

UNIT – 3. Distribution of tax Revenues and Borrowing Power of the state

Tax-sharing under the constitution finance commission – specific purpose grants (article 282), Borrowing by the government of India, Borrowing by the states.

UNIT – 4. Inter – State Trade and Commerce under the Indian constitution Freedom of Inter-State trade and commerce, restrictions on legislative power of the Union and States with regard to trade and commerce

UNIT – 5. planning and cooperative federalism

Planning commission, National Development Council, Plan grants, Full faith and credit, Inter-State Council, Zonal Councils.

Expected Course Outcomes:
At the end it is expected that the student will be able to :

- To understand India as development of complex federal structure (Quasi) federal and its strength and weaknesses;
- Explore the various functional theories, doctrine and Constitutional principles of federalism and its interplay under Indian Constitution; and
- To examine the area of conflicting interest between Union and State and primacy of Union over the State.

COURSE – 2.2 :CONSTITUTIONALISM, PLURALISM AND FEDERALISM

Objectives of the course:

Constitutionalism essentially means a limited government. Where government functions according to certain principles, it is said to be abiding by constitutionalism. Must it be a democracy or can it be an autocracy also. In ancient India, the king was supposed to act according to dharma. He was not absolute in the sense in which John Austin defined sovereignty. Constitutionalism may therefore be determined by a written constitution or by religion or tradition or by mere practice or convention as in England.

In a plural society, where different religious as well as linguistic groups have to live together, various rules of accommodation and mutual recognition are incorporated in the Constitution. Usually these are contained in the bills of rights which contain guarantees of individual liberty and equality against majoritarian rule. Constitutionalism does not merely imply majoritarian rule, it has to be a consensual rule. However, where there is not only such vertical pluralism but also horizontal pluralism reflected by subnations/regional loyalties, power is not only required to be restrained but it has to be shared. This calls for a federal government. The purpose of this paper is to

provide exposure to the students to various models of pluralism and forms of constitutional governments and federal structures.

Syllabus:

UNIT – 1. Constitutionalism

Authoritarianism – Dictatorship, Democracy – Communism, Limited Government conceptLimitations on government power, What is a Constitution? Development of a democratic government in England – Historical evolution of constitutional government. Conventions of constitutionalism – law and conventions Written constitutions: U.S.A, Canada, Australia and India, Separation of powers: Montesquieu, Rule of law: Concept and new horizons

UNIT – 2. Federalism

What is a federal government? Difference between confederation and federation, conditions requisite for federalism patterns of federal government – U.S.A, Australia, Canada, India Judicial review – for federal umpiring New trends in federalism: Co-operative federalism Dynamic of federalism.

UNIT – 3. Pluralism

What is a pluralistic society, Ethnic, linguistic, cultural, political pluralism individual rights – right to dissent, Freedom of speech and expression, Freedom of religion, Freedom of association, Rights of the religious and linguistic minorities.

UNIT – 4. Equality in plural society

Right to equality and reasonable classification, prohibition of discrimination on ground of religion, case, sex, language, compensatory discrimination for backward classes, Women-rights to equality and right to special protection, Abolition of untouchability, Secularism – constitutional principles, Scheduled Tribes, District Identity – protection against exploitation, Tribal Groupe and Equality.

UNIT – 5. Pluralism and International concern

International declaration of Human rights, Conventions against genocide. Protection of religious, ethnic and linguistic minorities, State intervention for protection of human rights, Right of self-determination. The role of judiciary in plural society.

Expected Course Outcomes:

At the end it is expected that the student will be able to :To explore the basic principles of Constitutionalism, different model of federalism and its interplay in the Indian legal system;

- To examine the adoption of, utility and justification of Constitutional model in India; and ¬
- To analyse India as pluralist society and suitability of various model, approaches in India in functional aspects of comparison with other legal system.

COURSE- 2.3: JUDICIAL PROCESS

Objectives of the course:

A lawyer, whether academic or professional, is expected to be competent to analyse and evaluate the legal process from a broader juristic perspective. Hence a compulsory paper on Judicial Process is essential in the LL.M curriculum. The objective of this paper is to study the nature of judicial process as an instrument of social ordering. It is intended to highlight the role of court as policy maker, participant in the power process and as an instrument of social change. This paper further intends to expose the intricacies of judicial creativity and the judicial tools and techniques employed in the process. Since the ultimate aim of any legal process or system is pursuit of justice, a systematic study of the concept of justice and its various theoretical foundations is required. This paper, therefore, intends to familiarise the students with various theories, different aspects and alternative ways, of attaining justice.

Syllabus:

Unit - 1. Nature of judicial process

Judicial process as an instrument of social ordering, Judicial process and creativity in law - common law model - Legal Reasoning and growth of law - change and stability. The tools and techniques of judicial creativity and precedent.

Unit - 2. Special Dimensions of Judicial Process in Constitutional Adjudications.

Notions of judicial review, ' Role' in constitutional adjudication - various theories of judicial role, Tools and techniques in policy-making and creativity in constitutional adjudication. Varieties of judicial and juristic activism Problems of accountability and judicial law-making.

Unit - 3. Judicial Process in India

Indian debate on the role of judges and on the notion of judicial review.The "independence" of judiciary and the "political" nature of judicial processJudicial activism and creativity of the Supreme Court - the tools and techniques ofcreativity.Judicial process in pursuit of constitutional goals and values - new dimensions ofjudicial activism andstructural challengesInstitutional liability of courts and judicial activism - scope and limits.

Unit - 4. The Concepts of Justice

The concept of justice or Dharma in Indian thought, Dharma as the foundation of legal ordering in Indian thought.The concept and various theories of justice in the western thought, Various theoretical bases of justice: the liberal contractual tradition, the liberalutilitarian tradition and the liberal moral tradition.

Unit - 5. Relation between Law and Justice

Equivalence Theories - Justice as nothing more than the positive law of the stronger class. Dependency theories - For its realisation justice depends on law, justice is not the same as law.

The independence of justice theories - means to end relationship of law and justice- The relationship in the context of the Indian constitutional ordering. Analysis of selected cases of the Supreme Court where the judicial process can be seen as influenced by theories of justice. Access to Justice – Locus standi : PIL, Legal Services authority

Expected Course Outcomes:

At the end it is expected that the student will be able to :

- Intended to highlight the role of court as policy maker, participant in the power process and as an instrument of social change.
- expose the intricacies of judicial creativity and the judicial tools and techniques employed in the process.
- Since the ultimate aim of any legal process or system is pursuit of justice, a systematic study of the concept of justice and its various theoretical foundations is required.
- Intends to familiarise the students with various theories, different aspects and alternative ways, of attaining justice.

COURSE – 2.4: LEGAL EDUCATION AND RESEARCH METHODOLOGY

Objectives of the course:

Post-graduate student of law should get an insight into the objectives of legal education. He should have an exposure to programmes like organisation of seminars, publication of law journals and holding of legal aid clinics.

Law is taught in different ways in different countries. The LL.M course, being intended also to produce lawyers with better competence and expertise, it is imperative that the student should familiarise himself with the different systems of legal education. The lecture method both at LL.B level and LL.M level has many demerits. The existing lacunae can be eliminated by following other methods of learning such as case methods, problem method, discussion method, seminar method and a combination of all these methods. The student has to be exposed to these methods so as to develop his skills.

Syllabus:

Unit - 1. Objectives of Legal Education and methods of teaching

Lecture Method, Problem Method, Discussion method and Seminar Method, Merits and Demerits, student participation in law school programmes- Organisation of Seminars, publication of journal and assessment of teachers, Clinical legal education - legal aid, legal literacy, legal survey and law reforms.

Unit - 2. Research Methods

Socio Legal Research, Doctrinal and non-doctrinal, Relevance of empirical research, Induction and deduction

Unit - 3. Identification of Problem of research

What is a research problem? Survey of available literature and bibliographical research, Legislative materials including subordinate legislation, notification and policy statement, Decisional materials including foreign decisions; methods of discovering the "rule of the case" tracing the history of important cases and ensuring that these have not been over-ruled; discovering, judicial conflict in the area pertaining to the, research problem and the reasons thereof, Juristic writings - a survey of juristic literature relevant to select problems in India and foreign periodicals Compilation of list of reports or special studies, conducted relevant to the problem.

Unit - 4. Preparation of the Research Design

Formulation of the Research problem, Devising tools and techniques for collection of data, Methodology, Methods for the collection of statutory and case materials and juristic literature, Use of historical and comparative research materials, Use of observation studies, Use of questionnaires/interview/Schedule, Use of case studies Sampling procedures - design of sample, types of sampling to be adopted, Use of scaling techniques, Jurimetrics, Computerized Research - A study of legal research, programmes such as Lexisand West law coding and manupatra

Unit – 5. Analysis and report writing

Classification and tabulation of data, Explanation of tabulated data, Analysis of data and Report Writing.

- ILI Publication, Legal Research and Methodology.

Expected Course Outcomes:

At the end it is expected that the student will be able to :

- Critically analyse the various research skill, especially in the field of law;
- To develop the skill of application of teaching methods in legal education
- To understand and analyse the various strength and weakness of teaching learning and research process for the field of law; and
- To develop the skill of utilising computer technology for Legal education and Legal research.

III-SEMESTER

COURSE-3.1 :HUMAN RIGHTS

Objectives of the course:

Human rights were conceived rather narrowly as mere freedom from arbitrary government in the past. It was realised later and much more so during last fifty years since the end of the Second World War that the threats to liberty, equality and justice did not emanate from the state alone. Many nations of Asia and Africa came to nationhood during this period. These nations had to bring about their development and they needed capital. Foreign aid and foreign investments were invited but these could very well lead to their second subjugation. Poverty, ignorance, exploitation had to be fought at the global level. Development had to come without the sacrifice of human values. A greater awareness of human rights, not only as negative restrictions on the state but as positive obligations for creating an environment in which man could live with dignity was necessary.

The focus of a course on human rights must be on the national problems with an international or global perspective. The world community's concerns about human rights have been expressed through various conventions. On the national levels, they are contained in constitutionalprovisions such as directive principles of state policy, fundamental rights, fundamental duties and judicial, legislative as well as administrative strategies of reconstruction. Human rights acquire much more comprehensive and wider meaning. It requires us to take up cudgels against poverty discriminations based on caste, colour or sex, make provisions for drinking water, population control, conservation and preservation of natural resources, ecological balance, protection of consumers against ruthless and profit seeking, traders or manufacturers, provisions against hazardous industries and so on and so forth. Human rights is an important parameter for a just society and future lawyers must be able to assess any programme of social transformation with reference to them.

Syllabus:

Unit - 1. Panoramic View of Human Rights

Human Rights in Non-western Thought, Awareness of Human rights during the nationalist movement, Universal Declaration of Human Rights, Constituent Assembly and Part III, drafting process, Subsequent developments in International Law and the Position in India (e.g. Convention of Social discrimination, torture, gender discrimination, environment and the two human rights covenants.)Fundamental Rights Jurisprudence as Incorporating Directive Principles. The Interaction between F.R and D.P.

Unit - 2. Freedom and judiciary

Free Press - Its role in protecting human rights, Right of association, Right to due process of law. Role of Judiciary in protecting Human Rights.

Unit - 3. Rights to development of Individuals and Nations

The UN Declaration on Right to Development, 1987.The need for constitutional and legal changes in India from human rights stand point.

Unit – 4: Right not be Subject to Torture, Inhuman or Cruel Treatment

Conceptions of torture, third degree methods, "Justifications" for it, Outlawry of torture at international and constitutional law level, Incidence of torture in India, Judicial attitudes, Law Reform - proposed and pending

Unit - 5. People's Participation in Protection and Promotion of Human Rights

Role of International and National NGOs, Amnesty International, International Bar Association, Law Asia. PUCL, PUDR, Citizens for Democracy, Contribution of these groups to protection and promotion of human rights in India. European Commission/Court of Human Rights, Minorities Rights Commission, Remedies Against Violation of Human Rights, Role of Legal Profession

- UpendraBaxi, "Human Rights, Accountability and Development" Indian Journal of internationallaw 279 (1978)

Expected Course Outcomes:

At the end it is expected that the student will be able to :

- Acknowledge the social and economic rights of workers, forced labour, child labour, bonded labour, slavery, trade union, social security, right to health, standard of living, protection of families etc.
- To gain and acquire the knowledge about cultural rights of indigenous population.
- Understand the third-generation solidarity right of various populations.
- Acknowledge the ideas and knowledge about Human right Protection system of United
- Nations in the light of Covenant of Civil and Political rights.

COURSE -3.2

NATIONAL SECURITY, PUBLIC ORDER AND RULE OF LAW

Objectives of the course:

In every written constitution, provision is required to be made to equip the state to face grave threats to its existence arising from extra-ordinary circumstances created by war or external aggression or armed rebellion. Although "amidst the clash of arms, the laws are not silent" they do not speak the same language in war as in peace. Extra-ordinary circumstances warrant the invocation of extra-ordinary laws and such laws are known as emergency laws. They put greater fetters on individual liberty and also eclipse certain aspects of the due process. But in such circumstances, the democratic forces must assert that for survival of the State, the least possible liberty should be available. The students should be familiarized with different aspects of such emergency powers and scrutinizing intellectual attitude towards such powers.

Unit - 1. National Security, Public Orders and the Rule of Law

Emergency Detention in England - Civil Liberties, Subjective satisfaction or objective assessment? Pre-Independence law, Martial Law Provisions in English law and in the Indian Constitution.

Unit - 2. Preventive Detention and Indian Constitution

Article 22 of the Constitution, Preventive Detention and b feguards,Declaration of Emergencies, 1962, 1965 and 1970 Emergencies, 1975 Emergency

Unit - 3. Exceptional Legislation

COFEPOSA and other legislation to curb economic offenders, TADA& POTA : "the draconian law"-comments of NHRC, Special courts and tribunals, Due process and special legislation

Unit - 4. Civil Liberties and Emergency

Article 19, Meaning of "Security of State", Meaning of "Public Order", Suspension of Article 19 rights on declaration of emergency, President's Right to suspend right to move any court, Article 21 - special importance - its nonsuspendability, Suspendability -44th amendment

Unit - 5. Access to Courts and Emergency

Article 359: ups and downs of judicial review, Constitution (Forty-fourth), Amendment Act, 1978, Constitution (Fifty-ninth) Amendment Act,. 1988.

- International Commission of Jurists, Status of Emergency and Human Rights (1984)
- N.C. Chatterji and ParameshwarRao, Emergency and the Law (1966).

Expected Course Outcomes:

At the end it is expected that the student will be able to :

- Understand and interpret various provision and safeguards to protection national security;
- To explore the various approach of public order, importance of rule of law and different legislations;
- Balancing the civil liberties and power of state; and
- Explore the various functional institution like election commission, parliament and check and balance on the national importance.

COURSE -3.3 :PRACTICAL TRAINING

The practical training shall be held in the Third semester on Research Methodology, Law Teaching and Clinical work. There shall be 25 marks each for doctrinal research and for non-doctrinal research and 25 marks each for law teaching and clinical work. How the components of practical shall be evaluated is left to individual faculties of law. They can formulate their own models of assessment. However, for making the practical training objective and meaningful, the following guidelines shall be adhered to.

1. Research Methodology

(i) Doctrinal research (25 marks)

Each student is assigned in advance a separate topic and asked to collect materials. A period of 5-7 days can be set apart for carrying out this assignment in the library. The materials indicated or collected during the assignment shall be evaluated by a group of faculty members.

(ii) Non-doctrinal research (25 marks) Here the students are asked to go out of the classroom and library and make an empirical study of a problem, which has social, economic, moral or political dimension. Field data can be collected through any model of data collection. The results are to be assessed by a team of faculty members.

2. Clinical work (25 marks)

The law school can evolve the modalities. One method is that the legal aid clinic of the law school can involve itself with other legal aid programmes in the area. Students are encouraged not only to work with the clinic but also to acquaint themselves with court proceedings, working of a business organization, tackling of labour disputes, drafting of business or other deeds and with public interest litigation. The faculty shall assess the initiative and potential of the student and the actual work turned out by him.

3. Law Teaching (25 marks)

A topic is assigned to the student in advance. He is required to handle a class for 25 to 30 minutes. Where LL.B. programme co-exists with LL.M programme, the students may be asked to teach the LL.B students. They can select any of the methods of teaching. In legal education practical, the LL.M students are evaluated internally.

PAPER – 3.4(a) :ENVIRONMENT PROTECTION AND THE LAW

Objective of the Course:-

The Concept of the Environmental Law is for the maintenance and improvement of environment.

Syllabus:-

Unit- 1. General Laws on Environmental Concern Code of Criminal Procedure: Public nuisance, Provisions in the India Penal code, Local bodies Law: an overview.

Unit-2. Environment (Protection) Act, 1986

'Necessary and proper clause': concentration of power on the Central Government, Delegated legislation: power to make rules, regulation and to issue Directions, Delegation of powers.

Unit-3. Coastal Zone Management

Sea erosion, CRZ Notification, Prohibitions and exemptions, Permissible activities, Classification of zones, Regulations of sea resorts, Eco-tourism, Coastal zone management plans, Aquaculture.

Unit-4. Biological Diversity Act, 2002

Unit -5. Emerging Legal Controls

Environmental audit, Environmental Impact Assessment, Public participation in environment decision making, Environment information, environmental education Incentives for pollution control.

- David Hughes, Environmental law (1999), Butterworths, London
- Armin Rozencranz, et,al.(eds.), Environmental policy and law in India (2000), Oxford.
- Biological Diversity Act, 2002.

Expected Course Outcomes:
At the end it is expected that the student will be able to :

- Study the relationship between environment and climate change as well as the role of law, judiciary, resolution mechanisms but the alternate energy solutions and how people are dealing with climate changes, environmental laws and implementation of available solutions.

Paper – 3.4(b) INTELLECTUAL PROPERTY RIGHTS LAW

Objective of the Course:-

The main objective of the paper is to introduce to the students the basic concepts of IPR and their relationship with other subjects especially, economic law, and other technological aspects . Apart from the above, the paper covers the approaches of International Institutions and introduces the various aspects that are form part of the province of IPR

Unit -1. INTRODUCTION:

- Origin and Genesis of IPR
- The Ways and Means of Creation of IPR
- Sources of IPR-Custom, Treaties, Judicial Decision, Juristic Writings, General Principles of Law, Resolutions of International Organizations

Unit -2. Concept and Theoretical Perspectives

- Meaning and Definition or IPR
- Theories – Marxist – Western – Indian
- International Trade and IPR – GATT and UNCTAD – IMF – World Bank – WTO

Unit – 3. Economic and Technological Approaches

- International Economic Law and IPR
- Information and Technological perspectives
- Computers and Cyber Crimes – WIPO and Perspectives
- Bio-technology and IPR

Unit – 4. Approaches of International Institutions and IPR

- UN and IPR
- b) ECOSOC – UNESCO – WHO – FAO – ILO – WIPO – Human Rights Council

Unit – 5. SUBJECT PROVINCE OF IPR

- Patents – Basic aspects
- Trade Marks – Basic principles
- Copy Right – Basic Issues
- Industrial Designs and Geographical Indications

Suggested Readings:

- Intellectual Property Rights CSIR Journal
- International Legal Materials.; Journal of the Indian Law Institute
- Journal of the Indian Society of International Law ; American Journal of International Law ; Apart from the above, the students may be informed about the other materials by the concerned teacher.

Expected Course Outcomes:
At the end it is expected that the student will be able to :

- To give philosophical underpinnings of traditional notion of property and IP
- To examine the link between Industrial development & IP protection
- To examine the conceptual development of IP concepts through judicial approach
- To examine the impact of IP on economy, health and daily activities
- To understand the basic principles enunciated in international agreements relating to IP

IV-SEMESTER

COURSE – 4.1 :DISSERTATION AND VIVA- VOCE

{Topic from optional group}

The Student has to submit a Dissertation on a topic choosing from optional group containing 150 to 200 pages by following research methodology.

For written part – 150 Marks
For Viva - 50 Marks

Credits: 12

This Course is designed to offer the students with following objectives:

- To have the practical exposure to the legal research writing;
- To apply the various stages of legal research, formulation of problem, literature review, data collection, tabulations, statistical analysis and report writing;
- To have the ability to defend the research undertaken; and
- To have the insight development of research writing, spotting out the problem and its exploration.

Expected Course Outcomes:

At the end it is expected that the student will be able to :

- Identify key research questions within the field of Demography on which you will carry out independent research.
- Manage your time effectively whilst working on your independent research.
- Demonstrate appropriate referencing and develop skills in other aspects of academic writing.
- Demonstrate knowledge and understanding of report writing.
- Apply the demographic/statistical research training acquired in the taught element of the programme by designing an appropriate research strategy and research methodology to carry out your research

Paper – 4.2a
LAW OF CONSUMER PROTECTION.

Unit – 1. Historical and Sociological Background of Consumer Law
Concept of
Consumer:

- Consumer in India.
- Consumer of goods and services.
- Professional services - Medical, legal, educational and welfare services.

Unit –2 Definitions: complainant, consumer dispute, defect, deficiency in service, service, unfairtrade practices, restrictive trade practices.Rights of Consumer under the Act, nature and characteristics.

Unit –3 Consumer Protection Councils, role, objects, and composition. Structure, composition,power and functions of District Forum, State Commission and National Commission.

Unit –4 Law of compensation, approach of Consumer Forum while awarding compensation.

Unit –5 Procedure to be followed by consumer redressal agencies, provisions regarding executionof the decision and Appeals. Landmark Judgments of Supreme Court and NCDRC.

- R.M. Vats, Law Relating to Telephone, 1996, Universal Law Publishing Co. Pvt. Ltd.

Expected Course Outcomes:
At the end it is expected that the student will be able to :

- Define provision under the Consumer Protection and Right to Information Act and apply them to situations accordingly
- Draft a consumer complaint with ease
- Confidently approach a Consumer Forum and get aware of the redressal mechanism
- To expose the students about Consumer Protection Laws;
- To develop the conceptual understanding of Consumer Protection regime.

Paper – 4.2b INTERNATIONAL HUMAN RIGHTS (MOOC / ONLINE COURSE)

This subject is MOOC / Online course only.
For more details and syllabus log on to www.mooc-list.com.

Expected Course Outcomes:
At the end it is expected that the student will be able to :

- Analyze and comment on key controversies surrounding the development of international human rights law
- Use conceptual tools to follow the developments of human rights law
- Be most effective in contributing to the enforcement of international human rights law

S.V. UNIVERSITY, TIRUPATI:: SVU COLLEGE OF ARTS

CBCS Pattern (With effect from 2016-17)

(For Regular students studying in Dept. of Law, S.V. University & Affiliated Colleges, S.V. University) LL.M

(Common to all branches for all Affiliated colleges with maximum of 80 Marks)

MODEL QUESTION PAPER

LL.M DEGREE EXAMINATION

FIRST SEMESTER

PAPER: 1.1- MASS MEDIA LAW

(Short Questions)

Answer any five questions. Each question carries 5 marks

PART-A(5X4=20)

1. Ownership pattern of mass media
2. Non -visual Media
3. Freedom of Press
4. Newsprint Control Order
5. Freedom to telecast
6. Distinction between film and press
7. Constitutional restriction on radio
8. Commercial advertisement
9. Pre-censorship
10. Internal scrutiny of serials

PART-B (ESSAY QUESTIONS)

Answer any five questions. Each question carries 12 marks

(Marks: 5x12=60)

11 a) Define Mass Media. Explain different types of Mass Media functioning in India.

OR

b) Write a note on visual and non-visual media and impact of visual media on the minds of people.

12 a) Examine the scope of Freedom of Speech and Expression under Article19(1) (a) of Constitution with relevant case laws.

OR

b) Explain the grounds of restrictions that can be imposed on Freedom of Press. Comment on their Justiciability.

13 a) Write a note on the role of government department to regulate control on radio and television.

OR

b) What are the Discuss the principles laid down by the Supreme Court in Abbas Case.

14a) What are the grounds on which broadcasting of a programme on Television can be restricted? Explain with the help of decided case laws.

OR

b) What is the role of Right of access to information in the exercise of Freedom of Expression?

MODEL QUESTION PAPER
LL.M DEGREE EXAMINATION
SEMESTER -I
PAPER: 1.2- PUBLIC UTILITIES LAW
(Short Questions)
Answer any five questions. Each question carries 5 marks
PART-A(5X4=20)

1) Bank Nationalisation
2) Present status of railways
3) Quasi judicial authority
4) Deficiency of service
5) Government control of public utilities
6) Audi Alteram Partem
7) Consumer
8) Use of electricity
9) Rights of consumer
10) Minority rights

PART-B (ESSAY QUESTIONS)
Answer any five questions. Each question carries 12 marks
(Marks: 5x12=60)

11. (a) Elucidate the role of Road transport as means of public utilities

OR

(b)Discuss the growth and evolution of public utilities in India.

12 (a). Why the Government's control is predominant on public utilities ?

OR

13 a) Examine the liabilities and special privileges of public utilities relating to tort.

OR

b) Analyse the liabilities of public utilities under criminal law

14. a)Elucidate the rights guaranteed under Art. 16 of the constitution.

OR

b) Discuss the doctrine of equality under Part-III of the constitution.

15. a) Explain the circumstance and conditions under when which employee of public utilities are criminally liable. OR

b). Discuss the power conferred on parliament make laws excursing control over public utilities.

MODEL QUESTION PAPER
LL.M DEGREE
EXAMINATION FIRST
SEMESTER
PAPER: 1.3- LAW AND SOCIAL TRANSFORMATION IN INDIA (Short Questions)
Answer any five questions. Each question carries 5 marks
PART-
A(5X4=20)

1. Social upward mobility
2. Religious minorities
3. Sarvodaya movement
4. Panchayat raj system
5. Role of Macaulay in Indian Legal System
6. Begar
7. Law as an instrument of social chang
8. Interaction between law and social change
9. Law as a process of social transformation
10. Right to free and compulsory education

11. a .How has law contributed to social transformation in India?

OR

b. "Law is a product of tradition and culture". Discuss with the help of suitable examples.

12. a . What are the statutory provisions for reservation? Aslo discuss the concept of CreamyLayer in light of Mandal Case.

OR

13. a. It is generally presumed that the law is the mirror of the society, but in India, law is being used on a large scale as an instrument to change the society. Is it feasible- Discuss and illustrate by suitable examples.OR
b. What are the main issues involved is the controversy regarding relationship between law and morals- How far can the law be used to enforce morality- Comment.

14 a. "Acceptance of Caste is a factor to undo past injustices." Discuss this statement in the light of case law and recommendation made by various commissions.

OR

b. How the socialistic approach is influencing law and justice in India? Do you agree that the Directive Principles of the State Policy in Indian Constitution is influenced by thesocialistic approach? Critically analyze the legislative approach in this regard.

15. a. Discuss the role of personal laws in the social transformation. What are the latest emerging judicial trends in this context?

OR

b. "Law is a tool to enforce morality." Discuss this statement in the light of relationship between law and morality.

MODEL QUESTION PAPER
LL.M DEGREE EXAMINATION
FIRST SEMESTER
PAPER: 1.4- INDIAN CONSTITUTIONAL LAW, THE NEW CHALLENGES
(Short Questions)
Answer any five questions. Each question carries 5 marks
PART-A(5X4=20)

1. Right to education
2. Privatization
3. Judicial Review
4. Right to work
5. Affirmative action

SRI VENKATESWARA UNIVERSITY: TIRUPATI

S.V.U. COLLEGE OF ARTS

DEPARTMENT OF LIBRARY & INFORMATION SCIENCE

Course

M.L.I.Sc.,

Choice Based Credit System (CBCS)

Academic Year 2023 – 24

About the department

The Department of Library and Information Science was established in the year 1974 with oneyear B.L.I.Sc. programme. Subsequently oneyear M.L.I.Sc. programme was started in 1985- and two-year integrated M.L.I.Sc. programme was started in 1996. The founders of the department, who got superannuated, were Sri. N. Sripathi Naidu,Prof. N. Guruswamy Naidu, and Prof. T. Rajagopal. Other four eminent professors, Dr.V. Pulla Reddy and Dr. D.Chandran, Dr.I.Chandraiah and Dr.K.Padmini superannuated from the department in 2012, 2013, 2018 and 2020 respectively. At present, one regular faculty member, Five Academic Consultants and One Guest Faculty are working in the department to teach the specializations of the course and the modern trends in information technology. All are well qualified and actively engaged in teaching and research. Around 60 papers were published in national and international conference proceedings and journals by the faculty members in the last five years. The department is providing practical knowledge on library housekeeping activities and conducting extension activities for students. Under this program the students visited SHAR, central library, Sriharikota, Oriental Research Institute, SVU, SVETA Library, SV agricultural university, Tirupati, Sanskrit Vidyapeetam Library and local public and engineering libraries.The department is also providing guidance to the students of the department who are appearing for UGC NET and SET examinations. So far 55 students are qualified in the UGC-NET SLET and SET exam. The department is also providing Psychological, Academic and Career counseling to the students. Many of the alumni are serving in the departments of Library and Information Science of various Universities as Teachers, Librarians, Information Officers/Documentation Officers/ Scientists in various educational, scientific and research institutions in the State and Central Government Organisations in public academic and special libraries, institutions and organizations. They have been providing support to the department in the form of guest lectures, presenting books, podium and scholarships to students.

Vision

- To impart quality education and research by revamping curriculum to suit the societal and industrial needs.
- To conduct Extension programmes in the academic libraries.

Mission

- To educate the students in the philosophy of librarianship, basic principles, fundamental laws and professional ethics.
- To train the students in the skills of information organization, processing and retrieval.
- To train the students in the management of Library and Information Centres.
- To provide the students thorough understanding of applications information and communication technology in library and information centres.

Programme Specific Outcomes

PS 01	Get the skills and knowledge on Competitive exams, National and State level eligibility tests and other equivalent competitive examinations in the field of Library and Information Science.
PS 02	Ability of getting employment as Librarian, Information Officer, Knowledge Manager, Digital Archivist, Trainer on ICT, Information Managers, and many more positions in Government, Inter Government, Private and Corporate Administration.
PS 03	Attain the complete professional skills and abilities for organizing information systems and services.

Programme Objectives

- To Provide intensive theoretical and practical instruction in respect of - Organization of universe of knowledge in libraries and proper methods of dissemination and communication of knowledge
- Advanced management and administration of different kinds of libraries
- To impart the Students with necessary skills to provide professional leadership in the context of scientific and technological changes
- To acquaint the students with problems of research in various branches of Library and Information Science and methods of research

Programme Outcomes (POS):

It represents the knowledge, skills and attitudes the students should have at the end of a course completion of their respective Library and Information Science program.

PO 1	Preparing the learners to acquire professional Skills, Information and Communication Technology Skills to get Job opportunities as teaching faculty in Library and Information Science departments and as Librarians in different types of libraries.
PO 2	Making the learners to identify, formulate, review research literature and analyse different problems to reach conclusions using principles of library management.
PO 3	Enabling the learners to design solutions for complex library problems in order to satisfy the various approaches of the users.
PO 4	Motivating the learners to conduct investigations of multifaceted problems by applying research-based knowledge and different types of research methods including conducting of user studies and case studies in libraries, analysis and interpretation of data and synthesis of the information to get right solutions to the problems
PO 5	Inspiring the learners to learn ICT skills, Retrieval of various Electronic Resources, Library Software
PO 6	Making the learners to understand role of libraries and librarians in the society by conducting extension programs
PO 7	Enabling the learners to understand the impact of libraries on society by conducting webinars on reading habit and its advantages for School children
PO 8	Motivating the learners by applying ethical principles to maintain ethics in library profession
PO 9	Making the learners as team members and leaders in discussion groups to discuss on various topics in the curriculum
P0 11	Motivating the learners to conduct user studies and case studies in libraries and users for their dissertations and projects in multidisciplinary environments
P0 12	Inspiring the learners to cultivate reading habit and enable them to increase their skills, Re-Skills and Upskills to become lifelong learners

Programme Educational Objectives

- To educate the students in the philosophy of librarianship, basic principles, fundamental laws and professional ethics.
- To train the students in the skills of information organization, processing and retrieval.
- To train the students in the management of Library and Information Centres.
- To provide the students thorough understanding of applications information and communication technology in library and information centres.

LIBRARY AND INFORMATION SCIENCE

SEMESTER - I

LIS 101: FOUNDATIONS OF LIBRARY AND INFORMATION SCIENCE

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
1.	Foundations of Library and Information Science	101	20
	Objectives 1. To introduce social functions of the library, Role of library in modern society 2. To acquaint with Five laws of library science and legislation in India 3. To explain LIS education in India and various library associations in India Outcomes: 1.Know the various types of libraries and their role in the society 2. Learn the Professional ethics and library Legislation in India 3. Understand LIS education in India and various library associations in India		80 4

UNIT -I: Library as a social institution.

- Social functions of the library.
- Role of library in formal and informal education
- Library in modern society
- Different types of libraries - their distinguishing features and functions.
- Public libraries.
- Academic libraries – School, College and University libraries.
- Special libraries.

- National libraries: India

UNIT- II: Laws of Library Science

- Five laws of library science
- Implications of Five laws in Library and Information activities.

UNIT III: Library Development and Acts relating to Libraries.

- Development of libraries with special reference to India
- Library legislation – need and essential features.
- Library legislation in India: Detailed study of Andhra Pradesh Public Libraries Act.
- Press and registration Act and Delivery of Books(Public Library)
- Copyright Act.

UNIT IV: Library and Information Profession, Public relations and extension activities.

- Librarianship as a profession.
- Professional ethics.
- Library and Information Science education in India.
- Public relations and extension activities.

UNIT V: Library and Information Science professional Associations and organizations.

- National, Associations / organizations - Objectives, Structure and activities ILA, IASLIC, IATLIS, RRRLF.
- International associations, organizations - Objectives, structure and activities, UNESCO, IFLA, CLIP, ALA, SLA.

LIS102: KNOWLEDGEORGANISATION: CLASSIFICATION THEORY

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
2	Knowledge Organisation: Classification Theory	102	20 80 4
	Objectives: 1.To impart knowledge on the basic concepts in classification 2. To get an idea on features of classification Schemes 3. to introduce the trends and developments in classification Outcomes: 1.. Understand the definition, need and purpose of classification 2. Learn the Fundamental Categories, Facet Analysis, types of Isolates in all schemes of classification 3. Understand the Notation, trends and developments in Classification		

UNIT I: Knowledge Classification and Library Classification.

Classification: Nature, purpose and definition

UNIT II: Notational system.

- Call Number: Class Number, Book number and Collection Number.
- Notation: Need, types and qualities.
- Hospitality in array and chain.

UNIT III: General theory of library classification.

- Canons
- Canon of Prepotence
- Postulates.
- Principles
- Principle of Osmosis
- Fundamental categories.
- Facet analysis.
- Phase analysis.
- Zone analysis.

- Systems and specials.

UNIT IV: Devices and Mnemonics.

- Devices.
- Mnemonics.

UNIT V: Isolates and planes of work and Species of Classification Schemes.

- Isolates: Common and Special.
- Planes of work: Idea plane, verbal plane and notational plane.
- Species of Classification Schemes: Enumerative, Almost Enumerative, Faceted Schemes, Analytico Synthetic Scheme of Classification
- Recent trends in classification, UDC, Webdewey
- Comparative study of CC & DDC.

LIS: 104 KNOWLEDGE MANAGEMENT

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
4	Knowledge Management Objectives: 1.To provide the basic concepts of knowledge management 2. To impart ideas on knowledge creation models, knowledge transfer in E-world 3. To give an idea on neural network and datamining Outcomes 1.Get an idea on the concepts of knowledge management, types of knowledge 2.Understand the knowledge creation models, knowledge transfer in E-World 3.know the tools for knowledge management and neural network and datamining	104	20 80 4

UNIT I: Knowledge Management: Concept and Definition

- Need for Knowledge Management in the emerging and changing Business environment
- Understanding knowledge; Types of knowledge -explicit and tacit knowledge
- Knowledge works changing role of Library and Information professionals.

UNIT II: Knowledge creation and capturing Knowledge

- Process of Knowledge Creation -Creation, Storage, sharing, Application, Evaluation.
- Creation model
- Capturing tacit Knowledge, Externalization and Internalization
- Create a knowledge-sharing Culture
- Impact of New Knowledge Innovation, Integration of External& Internal knowledge, Acquisition of information and Networks

UNIT III: Knowledge Codification and organization: Knowledge base

- Knowledge Mapping
- Decision Trees
- Decision Tables Frames etc.

UNIT IV: Knowledge Transfer and Sharing Steps in Knowledge Transfer.

- Knowledge Transfer in E -World
- Role of Internet, E -Business, E- Commerce.

UNIT V: Knowledge Management-Principles, Tools, Components and Architecture.

- Neural network Data mining
- Legal and Ethical Issues in Knowledge Management

LIS 105 (A): INTRODUCTION TO INFORMATION TECHNOLOGY

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
5(A).	Introduction to Information Technology Objectives: 1.To introduce the concepts of computer and network technologies 2.To provide information on Operating systems, programming languages and softwares 3.To enable to learn the Database Management Systems Outcomes: 1.Gain knowledge on the concepts of computer basics and Network technologies 2.Understand the concepts of Operating Systems, Programming Languages and types of softwares 3.Learn the Database Management systems, steps in development of databases and get an idea on different library software packages	105	20 80 4

UNIT- I: Overview of Information Technology

- Definition, Need, Scope and Objectives.
- Computer Technology: Character Presentation-ASCII, ISCII, Unicode.

UNIT- II: Computer Basics

- Generation of computers.
- Classification of computers.
- Computer Hardware, Storage Devices.

UNIT- III: Software

- Operating systems: MS Windows, LINEX.
- Types of Software: Application software, System software
- Programming languages: Object Oriented, Procedural, High level, Scripting, Web languages.

UNIT- IV: Network technologies

- Types of Network: LAN, MAN, WAN
- Network Topologies
- Telecommunication: Transmission Channels, Mode and Media, ISDN, PSDN, Multiplexing, Modulation.

UNIT- V: Database and Wireless Communication

- Data Base management systems.
- Types of Databases
- Media, Wi-fi, Li-fi, Satellite Communication, Mobile Communication.

LIS: 105(C) PRESERVATION AND CONSERVATION OF INFORMATION RESOURCES

UNIT-I: Preservation and Conversation

- Introduction to concepts of archiving, Preservation and Conservation.
- Need and significance of Archiving,
- Preservation and Conservation of Information Resources.

UNIT-II: Evolution of Writing Materials

- Evolution of writing materials: Clay, Papyrus, Metallic plates, Skin, Parchment, Vellum, Palm leaves, etc.
- Their history, nature, use as writing materials and their preservation.
- History of paper making, Different types of paper and their nature.

UNIT-III: Preservation and Maintenance

- Different types of Library materials, their preservation and maintenance: Paper Based
- materials book and Non-Book materials, Library Binding, Binding Standards.
- Other Materials: AN records, Magnetic Plates, Tapes & Diskettes, Microforms, Optical
- media, Magneto Optical Discs, etc.

UNIT-IV: Hazards to Library materials and their preservation

- Hazards to Library materials and their preservation: Environmental hazards, Biological hazards and Human being as an enemy of Library materials.
- Disaster prevention and recovery.
- To study various National Archival Initiatives of different countries: NARA of US,
- Australian National initiatives, Public archives of Canada etc.

UNIT-V: Records Management

- Concepts and issues involved.
- Information Resource Management. (include Electronic Resource Management), Code of Ethics for Archivists. Digital Preservation

SEMESTER - II

LIS 201: INFORMATION SOURCES AND SERVICES

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
8	Information Sources and Services Objectives 1.To provide information on documentary and non-documentary sources. 2.To make them able to understand Indian and British National Bibliographies. 3. To impart knowledge on virtual reference service and translation services. Outcomes 1.Learn documentary and non-documentary sources and 1. different types of information sources. 2.Know about the Indian and British National Bibliographies, and Electronic Books. 3.Understand the virtual reference service and translation Services.	201	20 80 4

UNIT I: Reference and Information Sources

Documentary sources: Print, non – print.

Non-documentary: Human, Institutional.

Categories: Primary, Secondary and tertiary.

Nature, Characteristics, utility and evaluation of different types of information Sources: Encyclopedias, dictionaries, directories, almanacs, year books, Handbooks Manuals, geographical, biographical sources, indexes, and abstracts.

UNIT II: Reference Sources

Bibliography: Definition, need, and functions.

Types: systematic, historical, enumerative, critical, textual etc.

Indian National Bibliography.

British National Bibliography.

Compilation of Bibliography

UNIT III: Electronic Information Resources

E- Books, E-Journals.

Database-Bibliographic, Numeric, Full text, Multimedia, Open access Database.

Subject gateways, Web Portals, Bulletin Boards, Discussion Forums, Groups.

Web Resources.

UNIT IV: Reference Service

Concepts, definition, trend

Types, user orientation, short range and long range.

UNIT V: Information Service.

Concepts, definition, need and trends and reference service VS Information service.

Alert services: Need, Techniques and evaluation: CAS, SDI. Bibliographic, Referral, Document delivery and translation services.

LIS 205: LIBRARY MANAGEMENT

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
12	Library Management Objectives 1.To explain organizational structures of library 2. To identify the factors behind selection, procurement and accessioning documents 3. To provide knowledge on various sections of a library Outcomes 1.Gain knowledge on meaning and purpose of management, Organizational Structures 2.Able to identify the factors behind selection, procurement and accessioning of documents 3.Gain knowledge on a circulation system suitable for a library, different budgetary methods and its standards, norms and principles	205(A)	20 80 4

UNIT I: Introduction to Management.

Concept definition and scope.

Management schools of thought

Functions and principles of scientific Management.

Organization Structures

UNIT II: Books selection, Acquisition and Technical Treatment.

Different Sections of the library.

Books selection: Need and purpose, Principles and theories, Policy and Programs, Book selection tools.

Acquisition

Technical treatment: Processing - Classification and cataloguing.

UNIT III: Serials Control, circulation control and maintenance.

Serials control, Selection, Maintenance and record of receipts.

Circulation control: Registration of members, charging and discharging methods.

Maintenance: Shelving methods, shelf rectification, stock verification, Binding and preservation; Archives

UNIT IV: Library authority, personnel and finance:

Library authority: Library committee, need, functions and types

Library personnel: Categories - staff formula.

Library Finance: Sources of finance, Budget and Budgeting.

UNIT V: Library building, rules and reporting.

Library building: Planning, furniture and equipment

Library rules and regulations

Annual report.

Library statistics.

LIS 301: INFORMATION PROCESSING AND RETRIEVAL THEORY

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
15	Information Processing and Retrieval Theory Objectives 1.To provide knowledge on the basic concepts of IPR and various schemes of classification 2.To impart skills on learning systems and techniques and their evaluation criteria and studies 3.To explain Web based information retrieval systems Outcomes 1.Understand the basic concepts on Information procession and Retrieval and various schemes on classification 2.Learn the Indexing Systems and Techniques and their Evaluation Criteria and Studies 3.Gain knowledge on Web based Information Retrieval Systems.	301	20 80 4

UNIT I: Information Processing and retrieval.

Information processing and retrieval: Basic concepts and role in information transfer.

UNIT II: Indexing Languages.

Schemes of classification: DDC, CC and UDC.

BSO

Vocabulary control : Thesaurus

Design of indexing languages.

UNIT III : Indexing systems and techniques

Pre coordinate indexing: PRECIS, POPSI, Uniterm etc.

Post coordinate indexing: KWIC, KWOC etc.

Citation indexing.

UNIT IV : Evaluation of Indexing System.

Criteria for Evaluation.

Aslib, crane field studies.

Search strategy. Subject Guides, case studies.

UNIT V: Web based Information retrieval system

Web indexing system,

Web cataloguing, Metadata and MARC 21

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
16	Library Automation and Digital Library Objectives 1.To acquire knowledge on basics of library automation and digital libraries 2. To explain network and communication devices, digitization and metadata Outcomes 1.Learn the basics of Library Automation, various modules of library automation software packages and their features 2.Gain knowledge on basic concepts and characteristics of digital libraries 3.Know about network and communication devices, digitization and metadata	302	20 80 4

UNIT I: Library Automation

Meaning – Definition – Infrastructure Facilities – In house operations

Introduction to Digital libraries-Characteristics, Types.

Digital Library Architecture, Standards, Formats, DOI.

UNIT II: Digitization

Digitization -Planning, Selection of Material

Software, Process, Issues.

Digital Preservation- Need and Purpose, Methods and Techniques, Projects- National and International.

UNIT III: World Wide Web and Internet protocols

Web browser, E-mail, Search engines, Meta and entity Search engines.

Internet Protocols and Standards- HTTP, SHTTP, FTP, SMTP, TCP/IP, URL, URI.

UNIT IV: Creating Web documents

Mark Up Languages- SGML, HTML and XML

Creating documents in HTML.

Hypermedia, Multimedia, Video conferencing.

Virtual Reality, Augmented Technologies.

UNIT V: Open Access Movement

Institutional Repositories- Need, Purpose, Types and Tools.

Institutional Repositories in India-ROAR, DOAR, SHARP, ROMIO.

Vidyanidhi.

LIS 303(D): SEARCH AND SEARCH STRATEGIES (GENERIC ELECTIVE)

UNIT- I: Introduction to search and retrieval- Concept of file, database

Types of databases
Structure of records in databases and on the web
Structure of indexes and files
Vocabularies-free and controlled- Search models-Boolean (exact match), and ranking (best match) , web search engines.

Meta search Engines.

UNIT-II: Tools of Internet Search;

Local search-vertical search- Search engine optimization-Search oriented architecture – selection –based search.
Social search-document retrieval – Text mining- web crawler
Multi search-Federated search-search aggregator.

UNIT-III: Index/Web Indexing

Focused crawler-spider trap-robots exclusion standard
Distributed web crawling-web archiving- website mirroring software
Web search query-voice search-Natural language search engines
Web query classification- Image search-video search engine- Semantic search.

UNIT-IV: Protocols and Standards: Z39.50

Search /retrieval web service-search /retrieval via URL.
Open search-representational state transfer-website parse template.
Wide Area Information servers. OAI/PMH.

UNIT-V: Practical Component

Searching of databases, catalogues.
Searching in general search engines and meta search engines
Studying the searching features- of the search engines-searching Pro-quest-Pubmed- Emerald-EBSCO-JCCC.

LIS30: COMMUNICATION, SOFT SKILLS AND ETIQUETTE

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
17	Communication, soft skills and Etiquette Objectives 1.To infer the types of soft skills 2.. To enable to learn Interpersonal softskills 3.To identify the employability skills Outcomes 1.Know the basic soft skills 2.Learn interpersonal softskills 3.Make the students to learn the employability skills	304	20 80 4

Unit – 1: Types of Soft Skills& Intrapersonal Skills

Definition of soft skills – Types of Soft skills: Intrapersonal Skills -: Self-Confidence, Self-awareness, Adaptability & Flexibility, Attitude, Assertiveness, SWOC, Resilience

Unit- II: Interpersonal Soft Skills

Active Listening Skills - Goal setting – Negotiation & Persuasion skills - Time Management - Stress Management - Problem Solving and Decision-Making Skills - Leadership Skills – Conflict Resolution

Unit – III: Oral Communication Skills

Presentation skills –JAM - Role Plays, Public Speaking skills

GD Participation and co -ordination.

Unit – IV: Written Communication Skills

Essay Writing

E mails

Report Writing

Memos.

Unit- V: Employability Skills

Body Language - E-mail etiquette- Telephone etiquette - Dining etiquette

Grooming

Resume writing

Interview Skills.

LIS: 305 A: INFORMATION LITERACY (Open Elective)

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
20	Information Literacy Objectives 1.To introduce the concepts of Information Literacy and sources of print and electronic information 2.To provide skills on information access through INFLIBNET Network 3.To examine the Internet and its search techniques and Intellectual Property Right Outcomes 1.Learn the concepts of Information Literacy and sources of Print and Electronic Information 2.Get the skills on information access through INFLIBNET Network 3.Able to understand the Internet and its search techniques and Intellectual Property Right	305(B)	20 80 4

UNIT I: Information and Information Literacy:

Information – Concept, Characteristics and use.

Information explosion.

Organization of information.

Flow of information.

Information Literacy:

Definition & need.

Methods to end user training.

Standards for evaluation of Information literacy.

UNIT II: Sources of Information:

Documentary: Print, Non-print(including electronic)

Non-Documentary: Human, Institutional.

Categories: Primary, Secondary, Tertiary.

Sources: Encyclopedias, Dictionaries, Directories, Year books, Geographical, biographical, Bibliographies, Indexes, Abstracts etc.

Evaluation.

UNIT III: Information and Communication Technology:

Introduction to Information Technology

Network types & Topologies: LAN, WAN, MAN, Bus, Star, Ring etc.

Information Access through networks: INFLIBNET, DELNET etc.

UNIT IV: Internet:

History and Characteristics

Uses of Internet

Search techniques

Web resources

Evaluating internet information.

UNIT V: Issues of the information age:

Evolution: Agriculture- Industrial- Information age.

Preservation of the record of human knowledge.

Intellectual property: Concept, Act etc.

Information policy & Privacy.

Right to information.

LIS 305(B): USER STUDIES
(OPEN ELECTIVE)

UNIT- I Information seeking and use

Need for a conceptual framework

Need for a theory of information seeking

Integrating theories of. information seeking with broader theories and framework

UNIT: - II Information need

Definitional and conceptual problems. Distinction between needs,

wants, demands and requirements; Levels of information need
Taylor's model, Lancaster's four levels,
Cronin's three levels;

Koikela's two levels of information need;

UNIT: III. User: - Understanding the psychology of information user

categorization of user

Identifying users and potential users; users by professional Groups - industrial, commercial etc.,

UNIT: IV. Information use & user studies:

Origin, development and evolution of user studies; the renaissance of user studies, the two generations of user studies: The first generation studies- their characteristics, contributions and limitations; The second generation user studies: Their characteristics and contributions, Landmark and bench mark studies.

UNIT: V. Methodology of user studies:

Study of various methods and tools: Quantitative and Qualitative and survey methods and experimental approach; Questionnaire, interview and other traditional tools /methods: Participant observation, Diasy method, time-line series method of Dervin and others; use of psychometric methods; the promise of quantitative methods and psychometric methods.

LIS 401: RESEARCH METHODOLOGY

Sl.No.	Name of the Course Objectives and Outcomes	Course Code	Internal Marks External Marks Credits
21	Research Methodology Objectives 1.To infer the need and purpose of various research methods 2.To memorize the knowledge on Research design, techniques and tools 3.To enumerate the skills on data analysis and interpretation of Data in SPSS Outcomes 1.Understand the definition, need and purpose of various research methods 2.Get the knowledge on Research design, techniques and tools 3.Gain the skills on Data analysis and Interpretation of Data in SPSS	401	20 80 4

. **UNIT I**: Research.

Definition need, functions and purpose of research.

Types of research: Fundamental and applied, Interdisciplinary,

Multidisciplinary.

Research and development of scholarship.

Library and Information Science research at national and International level

UNIT II: Research Design.

Conceptualization and Operationalization

Types of research design.

Identification and formulation of research problem.

Hypothesis: Definition, formulation and types: Descriptive, relational and explanatory, Null hypothesis, Verification.

Designing Research proposal.

UNIT III: Research Methods.

Scientific method, Historical method, Descriptive method.

Survey method and case study method

Experimental method and Delphi method.

Metric Studies in LIS- Scientometric, Bibliometrics, Webometrics, Altimetric.

UNIT IV: Research techniques and tools.

Methods of data collection: Primary and secondary.
Primary data – Questionnaire, interview and observation.
Secondary data – Historical / recorded.
Scales and checklists.
Sampling Techniques – random and non – random sampling

UNIT V: Data analysis and Interpretation.

Descriptive statistics – Measures of central tendency
Graphical presentation of data - Bar, Pie diagrams, graphs, histograms etc.
Inferential statistics- Z– T test. Correlation- Regression: Linear and Nonlinear – Chi square test.
Statistical packages – SPSS, Spread sheet, Bibexel, 'R' Statistics.
Plagiarism- Concept and types, software's.Urkund and Turnitin.
Research Report Writing and citation tools- structure, style and contents – Guide lines for Research reporting – Style Manuals: Chicago, MLA, APA, etc. Online citation Tools, Reference Style Management Tools and Method of research evaluation.
Impact Factors- Journal, Institutional and Authors, h-Index, g-Index, i10- Index

SRI VENKATESWARA UNIVERSITY

TIRUPATI

DEPARTMENT OF PERFORMING ARTS

REVISED SYLLABUS - 2023 – 24

About the Department:

The Department of Performing Arts was established in the year 1989.

Objectives:

- To guide music students and scholars on various aspects of music learning, teaching, research and performance
- To inculcate the nuances of classical music to the students
- To give individual attention to mould the students and make them professional performers
- to undertake serious research in Music and extend the same to interdisciplinary and collaborative levels

Courses:

M.A. in Performing Arts (Music)

This course enables a student to get advanced training in Carnatic Classical music. Any student possessing an undergraduate degree in Music or any UG degree with an additional qualification of music like title/certificate/diploma is eligible to join the course. Importance is given to both *kalpita* (pre-composed) and *manodharma* (Improvisation) aspects of music training and the course aims at preparing a student to shine both as a performer and a researcher.Consists of Theory and Practical papers in a ratio of 1:4

Ph.D. in Performing Arts (Music)

A student with a PG degree in music can register for the research degree programmes. Some of the areas of Research are Study of Musicological texts, Music Manuscripts, Compositional Analysis, Ritual Music and Stylistic studies. Interdisciplinary research has also been a key area with studies relating to Music and Veterinary Science (milk yield), Music and Education, Music and Information technology, and so on. In this NAAC Assessment period i.e after (2017-18) , 9 (NINE) Research Scholars submitted Theses out of which 7 (SEVEN) are awarded Ph.D. degree till now. 4 (Four) Research Scholars are pursuing Ph.D. in the department currently.

Vision:

- To introduce Online courses in Music
- To collaborate with AIR/FM/ Doordarshan/ TV Channels for music teaching and performances
- To take Music to grass root level of the society through 'Outreach activities'
- To give online consultation on Music learning and Research
- To create a hub for music research to coordinate with other Institutions, globally
- To organize National & International Seminars and Conferences on music
- To train scholars in research methods and promote quality research at par with International standards

Mission:

- To serve as a traditional and authentic institution of music and supporting other institutions in this region with vide music knowledge and system as a beacon of light.
- Supporting the community and guide them to enjoy good music for betterment
- Supporting Teaching evaluating and research activities with excellence
- Take music to the grass root level and create musical awareness in the young minds of the region
- Encourage and support interdisciplinary research in music arena.
- To stand as a torch bearing traditional institution with full of innovative ideas and promoting interdisciplinary research

Choice Based Credit System (CBCS):

The Choice Based Credit System (CBCS) provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it has been found necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions to begin with. The uniform grading system will also enable

potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on students' performance in examinations, the UGC has formulated the guidelines to be followed.

Program Specific Outcomes:

- Help Students to obtain All India Radio grades in Classical, Devotional and Light music categories and T.V. Programs

- Able to perform various roles like music performance anchoring announcing in various Medias and Provide Knowledge and skill to establish audio recording theatres.

- Helpful to get job opportunity as Music Teachers in Government and government aided Schools Lecturers in Government/ Aided Colleges and also Teachers in Central Government Schools.
- Help students to achieve higher ranking in music performing arena.

Program Objectives:

- To guide music students and scholars on various aspects of music learning, teaching, research and performance
- To inculcate the nuances of classical music to the students
- To give individual attention to mould the students and make them professional performers
- to undertake serious research in Music and extend the same to interdisciplinary and collaborative levels

Program Outcomes (POs):

PO 1	This Program will guide students and scholars on various aspects of learning, teaching, research and performance in music field.
PO 2	This program will guide them to create self employment opportunity
PO 3	Guide them to establish him and perform as a Musician and supporting Artist
PO 4	Guide the students to establish him and perform as a Musician and supporting Artist
PO 5	Help the students to achieve good marks in competitive exams like SET and NET
PO 6	Motivate them to undertake research in Music
PO 7	Help them to extend Music research to interdisciplinary and collaborative programs
PO 8	This Program will make student's as professional performers
PO 9	To give support for the students to become successful music teachers
PO 10	Help the students to become Entrepreneurs in the field of Music.
PO 11	Obtain capability to direct and compose Music for Drama, Dance,etc..
PO 12	Empower them to establish coaching centers for music as a self employment program

Program Educational Objectives:

- To train and Educate the students about the recent trends and developments occurring in the music field.
- Educate and train the students to attend successfully all the competitive exams related with music job opportunities.
- Train and Educate students to overcome stage fear and perform musical concerts successfully.
- To Educate and Train the students to become good Teacher, Performer and Researcher in the field of Music.

Compulsory foundation PA-M 205a.Abhyasagana -4

Objective:

1. Ability to develop grip over different degrees of speeds in ‘Suladi tala’ aspect
2. Ability to learn different commencements of thecompositions

Compulsory foundation PA-M 205a.Abhyasagana -4

1.Ability to render/play SaptatalaAlankara in Three speeds in following raga-s
Karaharapriya, Mohana, Madhyamavati, Sankarabharana ,Shanmukhapriya
2. Graha exercise in Swaravali -s

Out comes:

1. Helps student in better understanding of Suladi tala system
2. .Helps the student to render different variety of compositions/Pallavi-s with different graha-s

Compulsory Foundation PA-M 205 (b). Abhyasagana-5

Objectives:

1. To provide advance level of training to make the student to perform music at concertlevel
2. Advance level foundation course will help the student to achieve perfectness in Tala / rhythmic rendering

Compulsory Foundation PA-M 205 (b). Abhyasagana-5

Ability to render two Tana Varna-s in Kandajathi Ata Talam in 3 speeds with Akarasadakam

Outcomes:

1. Capable of rendering lengthy composition in 3 speeds
2. It helps to student to command over difficult tala.

CO-PO Mapping:

SRI VENKATESWARA UNIVERSITY: TIRUPATI
S.V.U. COLLEGE OF ARTS
DEPARTMENT OF PHILOSOPHY

Course
M.A. PHILOSOPHY

Choice Based Credit System (CBCS)
Academic Year 2023 – 24
Amended as per NEP-2020

About the Department:

The Department of Philosophy, Sri Venkateswara University is one of the oldest Department Established in 1954 along with the inception of the University . The Department has been maintain quality both is teaching and Research . It has been serving the cause of Philosophy offering course both in Indian and Western thought teaching to post – Graduate and Research Degrees like M.A. , M.Phil., Ph.D. The Admissions in to the course are being made through an entrance test conducted by the University. Tirupati. Departmental Library All up-dated text books related syllabus, department of Library 1800 books related Indian and Western Philosophy well equipped with faculty computers.

Faculty members published 16 Articles 02 books

Vision:

To be a lead Department of Philosophy imparting Quality and Value embedded higher Education and Research in Producing Post Graduates and Doctorates. Top Priority is Freedom of learning and practice in Philosophy.

Mission:

Transforming to students into full-fledged Professionals in Philosophy and to become leaders in Modern dynamic Environment for survival and success in Life. Promoting in depth in Philosophy Research and create centre of Excellence in thrust Philosophy areas.

Choice Based Credit System (CBCS):

The Choice Based Credit System (CBCS) provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it has been found necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions to begin with. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on students' performance in examinations

Program Specific Outcomes (PSOs)

- The Student achieved the Problem solving skills of Life.
- The Student developed high level of knowledge relating to Human Life.
- The Student has won Junior Research Fellowship Examination.
- The Student has got Debate and Discussion ability to become Lecturer
- The Student has become a person of Excellence in Philosophy
- The Student has become Eminent Scholar in Philosophy

Department Objectives:

The Department is having the following objectives:

- To expose students to updated curricula and to recent advances in the subject and enable the students to face NET, SET and other competitive examinations successfully.
- To create awareness among students about the Indian Philosopher and western Philosophers and including advanced subjects.
- To Know Student the contents of Indian and western Logic and Epistemology

*** All CORE papers are Mandatory**

*** Generic elective – choose two papers**

*** Multidisciplinary Course is mandatory**

*** Open Electives are for the Students of other Departments. Minimum one paper should be opted. Extra Credits may be earned by**

opted for more number of open electives depending on the interest of the student through Self-Study

*** Interested Students may register for MOOC with the approval of the concerned DDC**

SRI VENKATESWARA UNIVERSITY

M.A. DEGREE COURSE SYLLABUS IN PHILOSOPHY

NEP AND CBCS PATTERN SYLLABUS

(With effect from the academic year 2021-2022)

CORE-1: CODE-101: CLASSICAL INDIAN PHILOSOPHY

Objectives

1. **To apply Student the knowledge of the classical Indian Philosophy**
2. **To analyze the student the principles of classical Indian Philosophy**

UNIT – I INTRODUCTION

(a) Vedas - Concepts of Sat, Pursusa and Yajna

(b) Upanisads - Atman and Brahman

(c) Sriyas and Preyas

(d) Theories of Causation

UNIT – II HETERODOX SYSTEMS

(a) Caravaka - Epistemology and Materialism

(b) Buddhism - Nairatmya, Ksanika and Pratitysamatpada

(c) Jainism - Jiva, Ajiva, Anekantavada, Syadvada and Nayavada

(d) Buddhism - Suffering

UNIT – III NYAYA -VAISESIKA

(a) Nyaya Concepts of Prama and Aprama

(b) Pramanas

(c) Nyaya Concept of God and Arguments for the Existence of God

(d) Vaisesika Concept of Padarthas and Theory of Causation

UNIT – IV SAMKHYA-YOGA

(a) Purusa and Prakrti

(b) Satkaryavada

(c) Citta and Citta -vrttis

(d) Eight-fold Path

UNIT – V MIMAMSA & VEDANTA

(a) Pura-Mimamsa Concepts –Veda, Self, Dharma, Adharma and Apurva

(b) Advaita - Nirguna Brahman

(c) Visistadvaita-God

(d) Dvaita- Concept of Difference

Reference books

1. Datta & Chatterjee : Introduction to Indian Philosophy
2. C. D. Sharma Critical Survey of Indian Philosophy
3. S. Radhakrishnan : Indian Philosophy
4. S. N. Das Gupta : History of Indian Philosophy
5. M. Hiriyanna : Outlines of Indian Philosophy
6. M. Hiriyanna : Essentials of Indian Philosoph

Course outcomes:

1. The Student has applied the knowledge of classical Indian Philosophy.
2. The Student has analyzed the principles of classical Indian Philosophy

CORE-2: CODE -102: EPISTEMOLOGY – INDIAN

Objectives

1. **To Know Student the contents of Epistemology Indian**
2. **To understand the student the Pramanas of Indian Philosophy**

UNIT – I INTRODUCTION

(a) Definition of Epistemology
(b) Definition and Nature of Cognition
(c) Division of Cognition - Valid (Prama) and Invalid (Aprama)
(d) Memory (Smrti)

UNIT – II ELEMENTS OF KNOWLEDGE

(a) Instruments of Cognition
(b) Kinds of Aprama: Doubt (Samsaya), Error (Viparyaya)
(c) Hypothetical Argument (Tarka)
(d) Validity of Knowledge – Svatah and Paratah Pramanya Vada

UNIT – III STUDY OF PRAMANAS

(a) Perception (Pratyaksa)
(b) Inference (Anumana)
(c) Comparison (Upamana)
(d) Verbal Testimony (Sabda)

UNIT – IV STUDY OF PRAMANAS

(a) Word-Meaning and its Relation – Indian Point of View
(b) Non-existence (Abhava)
(c) Presumption (Arthapatti)
(d) Non-cognition (Anupalabdhi)

UNIT – V THEORIES OF INVALID PERCEPTUAL COGNITION (KHYATIVADAS)

(a) Akhyati, Viparitakhyati
(b) Anyatakhyati
(c) Satkhyati, Asatkhyati and Atmakhyati
(d) Anirvacaniyakhyati

Reference books

1. Debarata Sen : The Concept of Knowledge
2. Swami Satprakasananda : Methods of Knowledge
3. D. M. Datta : The Six Ways of Knowing
4. Govardhan P. Bhatt : Epistemology of the Bhatta School of Purva
5. S.C. Chatterjee : Nyaya Theory of Knowledge

Course outcomes:

1. The Student has known the Indian Epistemology
2. The Student has understood the Pramanas in Indian Philosophy

CORE-3: CODE -103: LOGIC - INDIAN AND WESTERN

Objectives

1. To Know Student the aspects of Logic Indian Philosophy
2. To understand the student the contents of Western Logic

UNIT – I INTRODUCTION TO INDIAN LOGIC

(a) Nature of Logic

(b) The Relationship of logic to Epistemology and Metaphysics

(c) Prama and Brahma

(d) Prameya, Pramiti and Pramana

UNIT – II ANUMANA AND INDUCTIVE ELEMENTS

(a) Definition, Constituents and Vyapti of Anumana

(b) Types of Anumana

(c) Concepts of Vyaptigrahopaya

(d) Hetvabhasas

UNIT – III INTRODUCTION TO WESTERN LOGIC

(a) Nature, Scope and Uses of Logic

(b) Proposition and Sentence

(c) Classification of Propositions: Traditional and Modern

(d) Distribution of Terms and Euler Circles

UNIT – IV SYLLOGISM

(a) Immediate and Mediate Inference

(b) Kinds of Syllogism

(c) Rules, Figures and Moods of Syllogism

(d) Relation between Deduction and Induction

UNIT – V INTRODUCTION TO SYMBOLIC LOGIC

(a) The difference between Symbolic Logic and Classical Logic

(b) The Use of Symbols and Logical Forms

(c) Basic Tools of Propositional Calculus: Variables, Constants and Grouping Symbols

(d) Construction of Truth-Tables

Reference books

1.	Annambhatta	:	Tarkasangraha
2.	Datta, D.M.	:	The Six Ways of Knowing
3.	Satischandra Chatterjee	:	The Nyaya Theory of Knowledge
4.	Barlingay, S.S.	:	A Modern Introduction to Indian Logic

5.	Guha, D.C.	:	Navya Nyaya System of Logic
6.	Nandita Bandopadyay	:	The Concept of Logical Fallacies
7.	F.Ter. Stcherbatsky	:	Buddhist Logic Vol. I & II
8.	D. M. Datta and S. C. Chatterjee	:	Introduction to Indian Philosophy
9.	L.S. Stebbing	:A Modern Introduction to Logic	
10.	Ernest Nagel, Mr.Cohen	:	An introduction to logic and Scientific Method
11.	Harold R. Smart	:	An Introduction to Logic
12.	Irving M. Copi	:	Symbolic logic
13.	A.H. Bassan and D.J.O. Conner	:	Introduction to Symbolic Logic
14.	P. Balasubramaniam	:An Invitation to Symbolic Logic	

Course outcomes:

3. The Student has known the aspects of Indian Logic.
4. The Student has understood the Contents of western Logic.

CORE- 4: CODE- 104: WESTERN PHILOSOPHY : GREEK AND MEDIEVAL

Objectives

1. **To know the Student the aspects of Western philosophy**
2. **To Understand the student Principles of Greeck and Medieval Philosophy**

UNIT – I PRE-SOCRATIC PHILOSOPHY, SOCRATES

(a) Problem of Substance and Change in Pre-Socratic Philosophy – Heraclitus and Parmenides
(b) Age of Sophists
(c) Socrates- Problem and Method
(d) Ethics of Socrates

UNIT – II PLATO

(a) Theory of Ideas
(b) Theory of Knowledge
(c) Soul
(d) Proofs for Immortality of Soul

UNIT – III ARISTOTLE

(a) Categories
(b) Criticism of Plato's Theory of Ideas
(c) Theory of Causation
(d) God

UNIT – IV St. AUGUSTINE

(a) Theory of Knowledge
(b) Theology
(c) The Problem of Evil
(d) Freedom of the Will

UNIT – V St. ANSELM OF CANTERBURY, St. THOMAS AQUINAS

(a) Ontological Argument (St. Anselm of Canterbury)
(b) Philosophy of Theology (St. Thomas Aquinas)

(c) Theory of Knowledge-(St. Thomas Aquinas)

(d) Metaphysics and Ethics (St. Thomas Aquinas)

Reference books

1. E. Zeller : Outlines of the History of Greek Philosophy
2. John Burnet : History of Greek Philosophy
3. R.B. Appleton : The Elements of Greek Philosophy from Thales to Aristotle
4. Plato : The Republic
5. A.E. Tylor : Plato: The Man and his Work
6. F. Coplestar : A History of Philosophy Vols. 1 & 2
7. W.T. Stace : History of Greek Philosophy

Course outcomes:

1. The Student has known the important issues of Western Philosophy
2. The Student has understood the Principles of greeck and medieval Philosophy.

COMPULSORY FOUNDATION

CODE- 105-A : PROBLEMS IN METAPHYSICS

Objectives

1. **To know the Student the Problems of Metaphysics**
2. **To Understand the student the principles of Metaphysics**

UNIT – I

Sat as eternal reality-Vedanta and Samkhya, Sat as both eternal and non-eternal : Jainism,Sat as non-eternal, momentary : Buddhism,

Vaisesika View on the nature and classification of Padarthas.

The status of universals in general and that of existence in particular in the above perspectives would also be discussed.

UNIT – II

Atman, Mind and Person Perspectives of the following systems.

Nyaya Vaisesika- Samkhya, Yoga - Advaita – Vedanta ,Buddhism- Carvaka

The relevance of the above conceptions in the respective systems to the problem of bondage, rebirth and emancipation should be discussed.

UNIT – III

Advaita Vedanta view of Physical World as Vyavaharika Sat :.

Samkhya – view of World as the manifestation/evolution of Prakrti

Ramanuja's view of World as an aspect of God :

The Nyaya-Vaisesika view of World as a product of atoms and as produced by God

UNIT – IV

The Vaisesika definition and classification of cause

Satkaryavada of Samkhya.

Asatkaryavada and Arambhavada of Vaisesikas.

UNIT – V

Pratityasamutpada : The Buddhist doctrine.

The Advaita Vedanta doctrines of Vivartavada, Abhasavada, Pratibimbavada, Avacchedavada.

Course outcomes:

1. The Student has known the Problems of Metaphysics
2. The Student has understood the Principles of Metaphysics

COMPULSORY FOUNDATION

CODE-105 – B: EPISTEMOLOGY-WESTERN

Unit - I THE NATURE AND SCOPE OF EPISTEMOLOGY

(a) The Definition of Epistemology

(b) The Possibility of Knowledge

(c) Knowledge and Skepticism

(d) The Relation of Epistemology with Metaphysics and logic

Unit - II DIFFERENT SCHOOLS OF REALISM ND IDEALISM

(a) Neo-Realism

(b) Critical Realism

(c) Subjective idealism

(d) Objective Idealism

Unit – III KANTIAN EPISTEMOLOGY

(a) Apriority Knowledge

(b) Analytic and Synthetic

(c) Necessary and Contigent

(d) Synthetic Apriority

Unit – IV CONTEMPORARY THEORIES REGARDING JUSTIFICATION

(a) Foundationalism

(b) Coherentism

(c) Casual Theory

(d) Reliabilism

Unit - V: THEORIES OF TRUTH AND ERROR

(a) Correspondence Theory

(b) Coherence Theory

(c) Pragmatism

(d) Semantic Theory

Reference books

3.T.M.P. Mahadevan & Saroja : Contemporary Indian Philosophy

4.V.S. Naravane Modern Indian Thought

5.R.S. Srivastava :Contemporary Indian Philosophy

6. Osho : Meditation and Love

CORE-2 : CODE - 202: ETHICS – INDIAN

Objectives

1. **To know the Student the Ethics in Indian Philosophy**
2. **To Understand the student the various ethical Values in Indian Ethics.**

UNIT – I INTRODUCTION

(a) Meaning, Nature and Scope of Ethics
(b) Nature of Indian Ethics
(c) Concept of rta
(d) Concept of rna

UNIT – II DHARMA

(a) Nature of Dharma
(b) Sadharana Dharma
(c) Varnasrama Dharma
(d) Purpose of Dharma

UNIT – III SCRIPTURES, JAINISM, BUDDHISM AND YOGA

(a) Purusharthas (Scriptures)
(b) Triratnas (Jainism)
(c) Four Noble Truths (Buddhism)
(d) Eight-fold Means (Yoga)

UNIT – IV BHAGAVADGEETA

(a) Law of Karma
(b) Nishkama Karma
(c) Sthithaprajna
(d) Lokasamgraha

UNIT – V VIDURA, KAUTILYA, GANDHI AND NEHRU

(a) Viduraniti
(b) Rajaniti (Kautilya)
(c) Means and Ends (Gandhi)
(d) Panchasila (Nehru)

Reference books

1.	R.N. Vyas	:	Ethical Philosophy of Nuclear Age
2.	S.K. Maitra	:	The Ethics of the Hindus

Course outcomes:

1. The Student has known the Ethics in Western Philosophy
2. The Student has understood the Ethical theories of Western Philosophy

CORE-4 CODE-204: MODERN WESTERN PHILOSOPHY

Objectives

1. **To know the Student the problems of Modern Western Thought.**
2. **To Understand the student the thoughts of Modern Western Philosophers.**

UNIT – I DESCARTES

(a) Growth & Development of Modern Philosophy
(b) Renaissance & Modern Philosophy
(c) Method
(d) Body-Mind Problem -Interactionism

UNIT – II SPINOZA

(a) Substance
(b) Attributes and Modes
(c) Body-Mind Problem – Psycho-physical Parallelism
(d) Pantheism

UNIT – III LEIBNITZ

(a) Monads
(b) Doctrine of Pre-established Harmony
(c) Doctrine of Immaterialism
(d) Refutation of Abstract Ideas

UNIT – IV LOCKE, BERKELEY & HUME

(a) Representative Theory of Perception, Concept of Matter (Locke)
(b) Refutation of Innate Ideas, Basic Tenets of Empiricism (Locke)
(c) To Be is to Be Perceived (Berkeley)
(d) Theory of Knowledge, Causality (Hume)

UNIT – V KANT & HEGEL

(a) Transcendental Method, A priori and A posteriori (Kant)
(b) Synthetic and Analytical Judgments (Kant)
(c) Dialectical Method (Hegel)

(d) Absolute Idealism(Hegel)

Reference books

5.	Frank Thilly	:	History of Western Philosophy
6.	Yakub Masih	:	History of Modern Philosophy

Course outcomes:

1. The Student has known the Problems of Modern Western Philosophy
2. The Student has understood the thoughts of Modern Western Philosophers.

COMPULSORY FOUNDATION

CODE-205-A : PHILOSOPHY OF EDUCATION

Objectives

1. **To know the Student the Contents of Philosophy of Education.**
2. **To Understand the student the Educational aspects of Philosophy of Education.**

UNIT – I INTRODUCTION

(a) Meaning and Function of Education
(b) Education and Philosophy
(c) Meaning and Nature of Philosophy of Education
(d) Functions of Philosophy of Education

UNIT – II AIMS, CURRICULUM & METHOD OF TEACHING

(a) In Vedic Education
(b) In Epic Education
(c) In Buddhist Education
(d) In Muslim Education

UNIT – III PLACE OF TEACHER

(a) In Ancient India
(b) In Modern India
(c) In Tagorean Education
(d) In Gandhian Education

UNIT – IV SCHOOLS OF EDUCATION

(a) Naturalism
(b) Idealism
(c) Realism
(d) Pragmatism

UNIT – V VALUES AND EDUCATION

(a) Value Crisis and Peace Education

(b) Liberation and Education

(c) Education for Citizenship

(d) Education for Democracy

Reference books

1. Christopher J. Lucas :What is Philosophy of Education
2. Dr. Veda Mitra :Education in Ancient India
3. Radha Kumnd Kukeji :Ancient India Education

4.	Archie J. Bahm	:	Metaphysics – An Introduction

Course outcomes

a. The Student has analyzed the aspects of Comparative Religion..

b. The Student has applied the Philosophical Principles of different Religions.

GENERIC ELECTIVE

CODE- 403 – A : PHILOSOPHY OF JIDDU KRISHNAMURTI

Objectives

1. **To know the Student the Philosophy of Jiddu krishnamurti.**
2. **To Understand the Student the Philosophical insights of Jiddu Krishnamurti**

UNIT – I JIDDU KRISHNAMURTI AND LIFE

(a) Real Life and The Art of Living

(b) The Art of Dying and The Art of Seeing

(c) The Art of Loving and The Art of Listening

(d) The Conditioned Life and the Unconditioned Life

UNIT – II JIDDU KRISH NAMURTI AND HUMAN PREDICAMENT

(a) Social Predicament

(b) Psychological Predicament

(c) Religious Predicament

(d) Educational Predicament

(e) Environmental Predicament

UNIT – III JIDDU KRISHNAMURTI AND HUMAN MIND

(a) Thought and Fear

(b) Desire and Time

(c) Ambition and Authority

(d) Attachment and Religious Mind

(e) Comparison and Conflict

UNIT – IV JIDDU KRISHNAMURTI AND LIBERATION

(a) Intelligence and Freedom

(b) Insight and Love

(c) Meditation and Maturity

(d) Choiceless Awareness

(e) Wisdom and Right action

UNIT – V JIDDU KRISHNAMURTI AND WORLD

(a) Relationship and Understanding

(b) Self knowledge and Order

(c) Attention and Perception

(d) Right Thinking and Right Education

(e) Radical Psychological Revolution and World Peace

Reference books

1. Jiddu Krishnamurti : The Urgency of Change
2. Jiddu Krishnamurti : The Network of Thought
3. Jiddu Krishnamurti : The World of Peace
4. Jiddu Krishnamurti : The Awakening of Intelligence
5. Jiddu Krishnamurti : Meditations

Course outcomes

1.The Student has known the Philosophy of Jiddu Krishnamurti…

2. The Student has understood the Philosophical insights and of jiddu Krishnamurti

CODE- 403-B : ANALYTICAL PHILOSOPHY

Objectives

1. **To know the Student the aspects of Anlytical Philosophy.**
2. **To Understand the Student the Philosophers of Analytical Philosophy.**

UNIT – I INTRODUCTION

(a) The Linguistic Turn and the Conception of Philosophy
(b) Descriptions and Incomplete Symbols (Bertrand Russell)
(c) Defence of Commonsense and Proof of External World (G.E. Moore)

UNIT – II WITTGENSTEIN

(a) Conception of Function of Language
(b) Picture Theory of Meaning
(c) Use Theory of Meaning and Language Games

UNIT – III A.J. AYER

(a) The Elimination of Metaphysics
(b) Principle of Verification
(c) The Nature of Philosophical Analysis

UNIT – IV GILBERT RYLE

(a) Descartes Myth
(b) Category Mistake
(c) Systematically Misleading Expressions

UNIT – V QUINE, STRAWSON & AUSTIN

(a) Two Dogmas of Empiricism (W.V.O. Quine)
(b) On Referring (P.F. Strawson)
(c) Performative Utterances (J.L. Austin)

Reference books

1. Ammerman Robert R (Ed) : Classics of Analytic Philosophy
2. Bertrand Russell : Logic and Knowledge
3. A.J. Ayer : Language, Truth and Logic

4.	J.L. Austin	:	Philosophical Papers
5.	R.C. Pradhan		Recent Developments in Analytic Philosophy

Course outcomes:

1. The Student has known the contents of Anaytical Philosophy.
2. The Student has understood the Philosophy of Philosophers of Analytical Philosophy..

CODE – 403-C : SRI VAISHNAVISM

Objectives

1. **To Analyze the Student the issues of Sri Vaishnavism**

To apply the Student the Philosophical aspects of Sri vaishnavism.

UNIT – I HISTORY OF SRI VAISHNAVISM

(a) Roots of Sri Vaishnavism
(b) Sri Vaishnavism in the Vedic period
(c) Sri Vaishnavism in Itihasas
(d) Sri Vaishnavism in Puranas

UNIT – II PHILOSOPHY OF ALVARS

(a) Life and works of Alvars
(b) Mysticism of Alvars
(c) Spiritual quest in Nammalvar's Tiruveonmobi
(d) Philosophy of Kulasekhara Alvar

UNIT – III LIFE AND WORKS OF ACHARYAS FROM NATHAMUNIGAL TO RAMANUJA

(a) Nathamunigal Yamunacharya
(b) Ramanuja
(c) Periya Tirumala Nambi

UNIT – IV DEVELOPMENT OF SRI VAISHNAVISM THROUGH ACHARYAS

(a) Tirumalai Ananthalvan
(b) Periyavachen Pillai
(c) Pillai Lokacharya
(d) Vedanta Desika

UNIT – V OTHER ACHARYAS' CONTRIBUTION TO SRI VAISHNAVISM

(a) Annamacharya
(b) Purandara Dasa
(c) Saint Thyagaraja
(d) Saint Ramadasa

Reference books

1.Profile of Sri Vaishnava Acharyas : M. Varadarajan, S.V. University

2.History of Indian Philosophy,III Vol.I : S. Dasgupta

3.Philosophy of Visistadvaita : P.N. Srinivasachari

4.Holy Lives of the Alvars : A. Gonvindacharya

5.Life of Ramanuja : A. Gonvindacharya

6.Contribution of Yamuna to Visistadvaita : Narasimhacharya

7.The Voice of Alvars and Acharyas : M. Varadarajan

8.Vaishavism : S.M.S. Chari

9.Nammalvar : Premananda Kumar

10.Kulasekhara Alvar : V. Varadachari

11.Two Great Acharyas : V. Varadachari

12.The Philosophy of Sadhana in : N.S. Anantarangachar Visistadvaiata

COURSE OUTCOMES

1.The Student has analyzed the aspects of SriVaishnavism..

2. The Student has applied the Philosophical Principles of .SriVaishvaism

CODE – 403-D: RESEARCH METHODOLOGY AND COMPUTER APPLICATIONS

SECTION – I

Objectives

1. **To Analyze the Student the issues of Research Methodology**
2. **To apply the Student the technical aspects of Computer Applications**

UNIT – I

(a) The Term Research and the Methodology of Research
(b) Steps in Choosing a Topic
(c) Sources of Material
(d) Need for a Working Bibliography

UNIT – II

(a) Utility of Preliminary Synopsis
(b) Kinds of Synopsis Required in Research
(c) Contents, Abbreviations, Introduction, Chapters, Bibliography, References & Notes, Quotations & Transliterations
(d) Place of Critical Edition in Philosophical Research

Reference books

1. Ramachandran, T.P. : The Methodology of Research in Philosophy

SECTION – II

COMPUTER APPLICATIONS

1. The Origin and Development of Computers
2. Philosophy Through Computers
3. Basics of M.S. Word, Windows and Internet
4. The Use of Compute

Reference books

1. Computer Application, Wipro solutions, 2017
2. Computer Education, Microsoft, 2019
3. Computer Basics, Apple solutions/2020

Course outcomes

1.The Student has analyzed the principles of Research Methodology..

2. The Student has applied the computer operating and applying principles

MULTIDISCIPLINARY COURSE

CODE- 404 : PHILOSOPHY OF PEACE

UNIT – I INTRODUCTION

(a) Nature, Scope and Definition of Peace Problems

(b) Peace and Compassion

(c) Peace and Justice

(d) Peace and Development

UNIT – II GANDHIJI'S CONTRIBUTION TO PEACE

(a) Peace at the Individual level

(b) Peace at the National Level

(c) Peace at the Global Level

(d) Gandhiji's Methods of Peace

UNIT – III RELATION BETWEEN PEACE STUDIES AND THE PROBLEM OF CONFLICT

(a) Nature and Scope of Conflicts

(b) Relation between Peace Problems and the Conflict Problems

(c) Methods of Resolving the Conflicts

(d) Creative Alternatives to Conflicts

UNIT – IV PROBLEMS OF PEACE EDUCATION

(a) Recent Peace Movements in India

(b) Recent Peace movements in the World

(c) Development of Peace Research

(d) Role of UNO for Establishment of Peace

UNIT – V SOCIOLOGICAL AND PSYCHOLOGICAL DIMENSIONS OF VIOLENCE AND PEACE

(a) Causes and Forms of Violence

(b) Sociological Approach to Prevent Violence

(c) Psychological Approach to Prevent Violence

(d) Political Approach to Prevent Violence

Reference books

1. Steve Marks : Peace, Development and Human rights Education
2. Calbung Johan: Violence and Peace Research
3. Magnus Haavelsred: Peace Education
4. K.S. Murthy : The Quest for Peace
5. Kenneth Boulding : Stable Peace

6. Thomas Weber : Conflict Resolution and Gandhian Ethics
7. Paul Wehr : Conflict Regulation
8. Ashley Montagu : Learning Non-Aggression
9. John Bondurant : Conquest of Violence
10. Bhoodward : Peace research and Peace Action
11. Theodore Lenz : Towards a Science of Peace
12. Vinoba Bhave : Shanti Sena
13. Thomas Merton : The Non-Violent Alternative
14. Gene Sharp : Politics of Non-Violent Action

OPEN ELECTIVE

CODE - 405-A : PHILOSOPHY OF YOGA

Objectives

1. **To Analyze the Student the contents of Philosophy of Yoga**
2. **To apply the Student the Philosophical aspects of Yoga.**

UNIT – I CITTAVRTTIS – MENTAL MODIFICATIONS

(a) Yoga as cittavrttinirodha

(b) Vrttis

(c) Pramana Viparyaya Vikalpa Nidra Smrti

(d) Their control through abhyasa and vairagya

UNIT – II TWO TYPES OF SAMADHI (SAMPRAJNATA AND ASAMPRAJNATA) AND THEIR CHARACTERISTIES

(a) Attainment of Samadhi through meditating on Isvara (God)

(b) Nature of Isvara

(c) Cittaviksepas and the manner of Overeoming them

(d) Sabija and Nirbija Samadhi

UNIT – III FIVE KLESAS AND THEIR NATURE

(a) Conjunction of drasta and drsya as the root cause of Ignorance

(b) Kaivalya Results from removal of avidya

(c) The Eight-Fold Path Lesding to Kaivalya

(d) Yama Niyama Asana Pranayama Pratyahara Dhyana Dharana Samadhi

(e) The Varieties and /or Characteristics of Each One of the above Eight Elements.

UNIT – IV CONCENTRATION OF CITTA ON VARIOUS RNTITIES AND THE RESULTING CONSEQUENCES

(a) Eight Siddhis Resulting from Contro Over Citta and Their Description

(b) Kaivalya as Resulting Only When the Siddhis are Transcended

UNIT – V THE NATURE OF NIRMANACITTA

(a) Kinds of Karmas and Vasanas Produced by it

(b) Ending of Beginningless Vasanas

(c) Dharmameghasamadhi

(d) Nature of Kaivalya

Suggested readings

1. M.N. Dvivedi (Tr) : Patanjali`s Yogasutra, Adyar. 1947

2. Ganganatha Jha (Tr): Patanjali`s Yogasutra with Vyasa`s Bhasya. Vijnanabhiksu`s Yougavarttika

and Notes from Vacaspati Misra`s Tattvavaisaradi Bombay. 1907

3. J. H. Woods (Tr) : Patanjali`s Yogasutra with Vyasa`s Bhasya and Vacaspati Misra`s Tattvavaisaradi Delhi -1966

4. Surendranath Dasgupta The Study of Patanjali Caleutta. 1920.

5. Mirces Eliade : Yoga: Immortality and Freedom (Tr. From French by Willard R. Trask) Princetion. 1970

6. Sri Aurobindo : The Synthesis of Yoga

7.T.S.Rukmani : Yogavarttika of Vijnanabhiksu. Vols. ! to IV. Delhi. 1985.

Course outcomes

1. The Student has analyzed the contents of Philosophy of Yoga..
2. The Student has applied the Practical aspects of Philosophy of Yoga

CODE – 405-B: JAPANESH PHILOSOPHY

Unit - I

Philosophical Thought in Japan

Japanese Spirit

Japanesh philosophy

Japanesh Culture

Unit - II

Aesthetic Morals and Religion ;

Ascetic - Aesthetic Philosophy

Radical Empiricism - Bushido:

"Essence of Japanese Ethical Tradition"

Unit - III

Shinto: Beliefs, Insights and

Schools of Shinto Philosophy

Shinto: The Concepts of Kami,

Kannugara, Jinno and Mono no aware

Unit - IV

Shotoku: Dialectic,

and the Conception of the Absolute

Moral Philosophy

Japanesh values

Unit - V

Zen Buddhism: Dogen;

Buddha - Nature

. Meditational Technique and

Enlightenment

Reference books

1. Satchidananda Murty, Far Eastern Philosophies
2. Yuho Yokoi, Master Dozen: An Introduction to the Selected Writings
3. Nakamura, Hajime, A Story of the Development of Japanese Thought

Books for Study

1. C.A. Moore, The Japanese Mind
2. Nakamura, Hajime, A Story of the Development of Japanese Thought
3. Wim Barrett, Zen Buddhism: Selected Writings of D.T. Suzuki

4. H. Dumoulin, A History of Zen Buddhism
5. Yuho Yokoi, Master Dozen: An Introduction to the Selected Writings
6. K. Satchidananda Murty, Far Eastern Philosophies
7. George T. Moore, History of Religions, Vol.

S.V.U. COLLEGE OF ARTS : TIRUPATI
DEPARTMENT OF PHYSICAL EDUCATION

CURRICULUM SCHEME AND SYLLABUS OF

BACHELOR OF PHYSICAL EDUCATION (BPED)

(Credit Based Semester Pattern)

Program Code: BPED

Introduced from the Session 2023 – 24

About the Department

The Department of Physical Education was started in the year 1955, The very next year after the Sri Venkateswara University was founded. Dr. L.K. Govindarajulu was the Founder Director of the Department of Physical Education. The department was started with the following objectives to encourages the participation of students belonging to Rayalaseema Districts.

- Conduct annual Sports Board meetings deciding the university SPORTS CALENDAR and approving the Annual Budget.
- Conduct Annual Inter Collegiate GAMES & ATHLETIC MEETS for all the affiliated colleges for men & women students.
- Conduct selections for university teams in 32 DISCIPLINES for men & women players.
- Conduct COACHING CAMPS for all the university teams at the university.
- Organize Inter-university tournaments under the aegis of the ASSOCIATION OF INDIAN UNIVERSITIES (AIU) New Delhi.
- Organize INTERNATIONAL NATIONAL SEMINARS, workshops and Clinics on the themes of latest trends in Physical Education & Sports.
- organize REFRESHER COURSE in Physical Education under the aegis of SVU HRDC centre

Vision

- To provide opportunity to the students of Regular participation in sports and physical activity, Improve physical fitness help with weight management, promote good health and improve self -discipline & self-confidence that leads to achievement of total wellness and results in a longer and healthier life.

Mission

- To develop quality in performance of sports and games activities participation.
- To prepare players and good athletes to be selected for university sports.
- To prepare the students to achieve State, National, All India Inter University and International medals winners.
- To learn how to make healthy choices as they relate to the total health of one's own body.

- Physical education should expose students to a variety of physical activities participation and also improves academic achievements.
- To conduct Intramurals, Inter-Collegiate and Inter University tournaments and other tournaments to develop their sports performance.
- To participate in sports competitions to develop their sportsman spirit and social life.

The CBCS System:

All Programmes shall run on Choice Based Credit System (CBCS). It is an instructional package developed to suit the needs of students, to keep pace with the developments in higher education and the quality assurance expected of it in the light of liberalization and globalization in higher education.

Programme Specific Outcome:-

May be the Department of Physical Education is the only one which brings out all the qualities hidden in the student to excel his own self for a better person.

This program provides to make student teacher to teach and train a total personality of Physically fit, mentally alert, Mentally strong, emotionally balanced, spiritually devine and socially sound. So the specific out course is the people of total personality of prolonged healthy and fit living. This provides an opportunity to faster and pedagogy based an all round development of personality with critical though and action to lether oves own self.

Program Objectives:-

The programme in the department has a unique objective of providing opportunity to the students who are enthusiastic towards research and invention to quench this thirst as well as to encourage research on par with the advancing countries.

Programme Outcomes :-

The Department of Physical Education provides an opportunity to the teacher, students to learn how to teach skills of all games along with fitness while making them Physically fit, mentally alert, socially sound, emotionally balanced and spiritually divine.

Thus unlike regular academics Physical Education provides a ideal society to the nation which can produce sound & worthy human-resource.

1. P.E.T (Physical Education Trainees) with diploma.
2. P.D (Physical Directors) with Bachelor of Physical Education.
3. Lecturer in Physical Education (Asst. Prof.) with Master Degree
4. Associate Professor with M.Phil and Ph.D.,
5. 'Sports Manager' with Diploma in Sports
6. Health & Fitness Trainers with certificate course.
7. Sports Coach with certificate course.
8. Yoga Trainers with certificate course.
9. Gym Trainer with certificate course.
10. Sports officiating with Referees umpire and scorer tests.
11. Search sports opportunity for Teaching trainees through Sports Quota in Andhra Pradesh.
12. Preparing trainees for Indian Army, Indian Air-force, Indian Navy, BSF and Police as well as Income commercial tax, Indian Railways and Postal Department.
13. The programmes also enables student-teachers to get through competitive and qualifying exams like National Eligibility Test, State level eligibility test D.S.C and other tests.

The programmes beyond Masters Degree i.e., M.Phil and Ph.D. Provides an opportunity for plenty of Research.

Programme – Ph.D in Physical Education and Sports Sciences

In general the Department of Physical Education provides an opportunity to improve the quality of life which sustains longer with vigour and vitality, where as the programme of Ph.D. provide an unique opportunity for research in innumerable ways. Since there are different games as well as different variables which influence performance the scope for research and intensions is wide-open.the teacher, students to learn how to teach skills of all games along with fitness while making them Physically fit, mentally alert, socially sound, emotionally balanced and spiritually divine.

Programme Outcomes :-

The programme of “Doctor of Philosophy” basis has created a rare opportunity for Research to improve standards of human excellence. This programme has a very high selection for opportunity to find highly talented individuals for research to scientific the society through their inventions.

Now days the inventions found in sports have been extended to medicine as well as health sciences so this course has a great opportunity to shape the future of the mankind.

Semester – I

Theory Courses

CC-101 HISTORY, PRINCIPLES AND FOUNDATIONS OF PHYSICAL EDUCATION

Unit-1 Introduction

Meaning, Definition and Scope of Physical Education, Aims and Objectives of Physical Education, Importance of Physical Education in present era, Concepts and misconceptions about Physical Education, Relationship of Physical Education with General Education, Physical Education as Arts and Science.

Unit-2 Historical Development of Physica1 Education

Indus Valley Civilization Period. (3250 BC - 2500 BC), Vedic Period (2500 BC - 600 BC), Early Hindu Period (600 BC - 320 AD) and Later Hindu Period (320 AD - 1000 AD) , Medieval Period (1000 AD - 1757 AD), British Period (Before 1947), Physical Education in India (After 1947), Physical Education in Greece, Germany, Sweden Contribution of Akhadas and Vyayamsalas, H.V.P.Mandals, Institutions / Bodies in Physical Educations and Sports: YMCA, LNIPE, NSNIS, IOA, AIU, SAI,SAF, SGF, PYKKA, RGKA, SAAP, Physical Education & Sports Universities.

Unit-3 Foundations of Physical Education

Philosophical foundation: Idealism, Pragmatism, Naturalism, Realism, Humanism, Existentialism and Indian Philosophy and Culture. Fitness and wellness movement in the contemporary perspectives, Sports for all and its role in the maintenance and promotion of fitness.

Unit-4 Principles of Physical Education

Biological : Growth and development, Gender Difference: Physical, Physiological & Anthropometric (Sheldon and Kretchmer). **Psychological:** Types of Learning, learning curve, Laws and principles of learning, Attitude, interest, cognition, emotions and sentiments. **Sociological :** Society and culture, Social acceptance and recognition, Leadership, Social integration and cohesiveness.

7) A.S. Barnes & Co. William, J F. (1964). ***The principles of Physical Education***. Philadelphia: W.B. Saunders Co.

Course Outcome :-

- To provide an opportunity to know the history and evolution of Sports and Physical Education as per history-time-line
- To study sports through historical periodical perceptive in India
- To know the different schools of thoughts
- To analyse Indian Philosophy
- To be confident of the knowledge of Sports events happened in the past to understand present and estimate future

CC-102 ANATOMY AND PHYSIOLOGY

Unit-1 Meaning and Definition of Anatomy, Physiology and their importance in Physical Education. Structure, function and division of cell. **Tissues:** Functions and types. **Skeletal System :** Axial and Appendicular Skeletal system, Types of Bones and Joints.

Unit-2 ***Blood and circulatory system:*** Constituents of blood and their functions, Blood groups, structure of the heart, circulation of blood: Pulmonary, Systemic and General circulation. Blood pressure. ***Respiratory system:*** Structure of respiratory system – Mechanism of Respiration (Internal and External). **Digestive system:** structure and functions of the digestive system, Process of Digestion. **Nervous system:** Organs of Nervous System, Structure and functions of Brain and Spinal cord.

Unit-3 Structure, properties and functions of skeletal muscles. Role of Oxygen in Physical Training, Oxygen Debt, Second wind, Lung capacity, Vital capacity, Tidal Volume, Residual volume. **Endocrine system:** Functions of glands, Pituitary, Thyroid, Parathyroid, Adrenal and Pancreas.

Unit-4 Effects of training on cardiovascular system, Effects of training on respiratory system, Effects of training on muscular system, Fatigue and performance in sports.

10) Sharma, R.D. (1979). ***Health and Physical Education,*** Gupta Prakashan.
11) Singh, S. (1979). ***Anatomy of physiology and Health Education***. Ropar: Jeet Publications.

Course Outcome :-

- To add the knowledge of Anatomical structure of the human body
- To add the knowledge of function of the body during and after the exercise
- To understand the out come of moderate intensive and high intensive work outs effect on human Anatomy and function.
- To know the structural alignment of human body
- This branch of subject presents to avoid harm to the during activities through good understanding of structure and function

CC-103 EDUCATIONAL TECHNOLOGY AND METHODS OF TEACHING IN PHYSICAL EDUCATION

Unit-1 Introduction

Meaning and Definition of Education, Technology and Educational Technology, Objectives of Educational Technology and importance of Educational technology. Types of Education:- Formal, Informal and Non-Formal education, Educative Process, Devices and their importance in Teaching.

Unit-2 Teaching Techniques and teaching aids

Teaching Technique, Lecture method, Command method, Demonstration method, Imitation method, part method, whole method and whole part - whole method. Presentation Technique: Personal and technical preparation. Command: Meaning of command, types of command : Rhythmic and response command, uses of command in different situations. **Teaching Aids :** Meaning and Importance of teaching aids. Types of Teaching aids:- Audio, Visual, Audio - visual aids, Chalk board, Digital boards, Pin boards, Charts, Model, Slide projector, Motion picture. Team Teaching: Meaning, Principles and advantage of team teaching.

Unit-3 Tournaments:

Meaning of tournament and types of tournaments – Knock-out (Elimination), League (Round Robin), Knock-out cum league, League cum knock-out, Double league, Double knockout, Challenge. Method of drawing Fixtures: Seeding, Special Seeding. Rotation Method, Stair case method. Intramural and Extramural and their importance, Sports Day/ Play Day

Unit-4 Lesson Planning and Teaching Innovations

Lesson Planning: Meaning, Type, principles and lesson plan. General, particular / specific and coaching lesson plan. Micro Teaching: Meaning, Types and steps of micro teaching. Simulation Teaching: Meaning, Types and steps of simulation teaching.

References:

1) Bhardwaj, A. (2003). ***New media of Educational Planning.*** *New* Delhi: Sarup of Sons. Bhatia,& Bhatia (1959).
2) ***The principles and methods of teaching***. New Delhi: Doaba House. Kochar, S.K. (1982).
3) ***Methods and techniques of teaching***. New Delhi: Sterling Publishers Pvt. Ltd.

6) N.R.Swaroop Saxena, Dr.S.C. Oberoie, ***Technology of teaching***, R.L. Book Depo, Meerut

Course Outcome :-

- This subject helps to utilize the modern technology to use for the benefit of students
- This helps to find out innovative methods to be useful in learning and understanding
- Provides a platform to adopt technology to the old methods by teaching
- Every day a new method of technology is coming up in sports around the world which could be adopted for the classroom teaching and training of sports.

EC-112 OLYMPIC MOVEMENT (ELECTIVE)

Unit-1 Origin of Olympic Movement

Aims of Olympic movement, The early history of the Olympic movement, The significant stages in the development of the modern Olympic movement, Educational and cultural values of Olympic movement.

Unit-2 Modern Olympic Games

Significance of Olympic Ideals, Olympic Rings, Olympic Flag, Olympic Protocol for member countries, Olympic Code of Ethics, Olympism in action, Sports for all.

Unit-3 Different Olympic Games

Para Olympic Games, Summer Olympics, Winter Olympics, Youth Olympic Games.

Unit-4 Committees of Olympic Games

International Olympic Committee - Structure and Functions, National Olympic committees and their role in Olympic movement, Olympic commission and their functions, Olympic medal winners of India.

References:

1) Osborne, M.P. (2004). ***Magictree house fact tracker: ancient greece and the olympics: a non-fiction companion to magic tree house: hour of the Olympics***. *New York:* Random House Books for Young Readers.

3) ***The Olympic Movement,*** IOC, Lauranne, Switzerland

   Sports Administration Manual – 2001 IOC – Editor in Chief Roger Jackson 2001 IOC – University Calgary

Course Outcome :-

- To understand the evolution of tournaments from present Olympics to modern Olympics.
- To be familiar with the spirit of sport motto and principles of solidarity, brotherhood and universal spirit of sport

Semester – II

Theory Courses

CC-201 KINESIOLOGY AND BIOMECHANICS

Unit-1 Introduction to Kinesiology and Sports Biomechanics

Meaning and Definition of Kinesiology and Sports Biomechanics, Importance of Kinesiology and Sports Biomechanics in Physical Education and Sports, , Terminology of Fundamental Movements, Planes and Axes , Gravity, Base, Centre of Gravity, Equilibrium, Line of Gravity.

Unit-2 Fundamentals Concept of Anatomy and Physiology

Definition of Joints, Structure and functional classification of joints and muscles. Types of Muscle Contractions, Posture: Meaning, Types and Importance of good posture. Fundamental concepts: Angle of Pull, All or None Law, Reciprocal Innervations.

Unit-3 Mechanical Concepts

Force: Meaning, definition, types and its application in sports. Lever: Meaning, definition, types and its application in sports. Newton's Laws of Motion and their application in sports. Projectile: Factors influencing projectile trajectory.

Unit-4 Kinematics and Kinetics of Human Movement

Linear Kinematics: Distance and Displacement, speed and velocity, Acceleration. **Angular kinematics:** Angular Distance and Displacement, Angular Speed and velocity, Angular Acceleration. **Linear Kinetics**: Inertia, Mass, Momentum, Friction. **Angular Kinetics**: Moment of Inertia, Couple, Stability.

5) Hall, Inc.Simonian, C. (1911). ***Fundamentals of sport biomechanics***. Englewood Cliffs, N.J.: PrenticeHall Inc.
6) Geofray ***Mechanics in Sports***.

Course Outcome :-

- To enable students to analys movement to understand what happens in the action
- To apply physics on the movement analysis to understand underneath happenings
- To understand forces and its yields of results as per physical laws of universe
- To understand actions and the forces applied for

CC-202 HEALTH EDUCATION AND ENVIRONMENTAL STUDIES

Unit-1 Health Education

Definition of Health, Health Education. Aims, objectives and Principles of Health Education. Concepts of health: Biomedical , ecological and holistic concepts. Dimensions of Health: physical, mental and social dimensions. Factors effecting Health, School Health Programme : Health Instructions, Health Supervision, Health Service. Balanced diet, constituents of balanced diet.

Unit-2 Health Problems in India

Communicable diseases: Chickenpox, Measles, Mumps, Influenza, Whooping cough, Typhoid, Malaria, Aids. **Non-Communicable Diseases**: Obesity, Hypertension, Stroke, Diabetes. Malnutrition. **Other problems:** Explosive Population, Personal and Environmental Hygiene for schools, Nutritional service, Health appraisal, Health record, Healthful school environment, first-aid and emergency care.

Unit-3 Environmental Science

Definition, Scope, Need and Importance of environmental studies, Concept of environmental education, Historical background of environmental education, Celebration of various days in relation with environment, Pollution of Plastic bags / covers, Role of school in environmental conservation and sustainable development.

Unit-4 Natural Resources and related environmental issues:

Water resources, food resources and Land resources, Definition, effects and control measures of Air Pollution, Water Pollution, Soil Pollution, Noise Pollution, Thermal Pollution, Role of pollution control board.

References:

Course Outcome :-

- To Helps to understand Health
- It throws light over healthy way of living
- It adds and trains student – Teachers to first-aid before the arrival of professional Doctors
- The prevention of injuries are taught
- The importance of rehabilitation.

CC-203 MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION

Unit-1 Introduction to Test, Measurement Evaluation

Meaning of Test, Measurement & Evaluation in Physical Education, Need & Importance of Test, Measurement & Evaluation in Physical Education, Principles of Evaluation, Criteria of good Test.

Unit-2 Classification and Administration of test

Classification of Tests, Administration of test: Pre, During and post test, Methods of Scoring test.

Unit-3 Physical Fitness Tests

AAHPER youth fitness test, JCR test, Cooper's 12 minute run/ walk test, Harward Step test, Indiana Motor Fitness Test, Barrow motor ability test.

Unit-4 Sports Skill Tests

Lockhart and McPherson badminton test, Johnson basketball test, McDonald soccer test, Russell - Lange Volleyball test, Schmithals French Field Hockey test

9) Harison.H Clarke : ***Application of Measurements to health & Physical Education***
10) Donald Mathews : ***Measurements Programme*** *in Physical Education*

Course Outcome :-

- To enable student teachers to measure different variables and parameters of Physiological
- To measure different training methods impact on the results
- To know the difference in performance due to different training methods through evaluation.

EC-212 RECREATION AND LEISURE MANAGEMENT (ELECTIVE)

Unit-1 Basics of Recreation

Meaning, Definition of Recreation and Leisure Management, Importance, Values of

Recreation, Principles of Recreation. Fundamental modes of Recreation, qualities and qualifications of Recreation Leader.

Unit-2 Recreation and Play

Theories of Recreation, Theories of Play, Therapeutic Recreation, Therapeutic use of activity, Recreation for the life, Role of recreation and leisure on the human development.

Unit-3 Programme and Methods

Factors that determine the programme, Types of recreational activities: Indoor, Outdoor games, Music, Dance, Picnic and Excursions.

Unit-4 Recreational Agencies

Organisation and Administration of Recreational agencies, Individual and Home agencies, Government Agencies, Voluntary Agencies, Private Agencies, Commercial Agencies, Modern trends in recreation and Leisure Management, Issues related to Recreation and Leisure Management.

References:

8) Jacks .L.P. ***Education through Recreation***
9) Nash, J.B. ***Philosophy of Recreation***

*10)*Pitzgerald –***Community Organisation for Recreation***

Course Outcome :-

- To make the leisure time worthy and healthy by proper use
- To enable student, teachers to teach without stress of long hours of learning
- To avoid monotony of work load in order to avoid fatigue

Semester –III

Theory Courses

CC-301 SPORTS TRAINING

Unit-1 Introduction to Sports Training

Meaning and Definition of Sports Training, Aims and Objective of Sports Training, Principles of Sports Training. **Methods of Sports Training:** Continuous training, Interval training, Repetition training, Fartlek training, Resistance training, Circuit training, Plyometric training. Warm-up and warm-down, **Athletic diet:** Pre competition, during competition and post competition.

Unit-2 Training Components

Strength: Meaning and Definition, Methods of Strength Development. **Speed:** Meaning and Definition, Methods of Speed Development. **Endurance:** Meaning and Definition, Methods of Endurance Development. **Coordination:** Meaning and Definition, Methods of coordination Development. **Flexibility:** Meaning and Definition, Methods of Flexibility Development.

Unit-3 Training Process

Load: Definition and Types of Load. Principles of Intensity and Volume of stimulus. Technical Training: Meaning and Methods of Technical Training. Tactical Training: Meaning and Methods of Tactical Training

Unit-4 Training program and planning

Periodization: Meaning and types of Periodization. Aims and Content of Periods: Preparatory, Competition, Transitional. **Planning:** Training session, Talent Identification and Development

References:

1) Dick, W. F. (198o). ***Sports training principles***. London: Lepus Books.
2) Harre, D.(1982). ***Principles of sports training***. Berlin: Sporulated.
3) Jensen, R.C..& Fisher, A.G. (1979). ***Scientific basis of athletic conditioning***. Philadelphia: Lea and Fibiger, 2ndEdn.

5) Matvyew, L.P. (1981). ***Fundamental of sports training***. Moscow: Progress Publishers.
6) Singh, H. (1984). ***Sports Training, General Theory****", and methods. Patiala:* NSNIS.

7) Uppal, A.K. (1999*). **Sports Training**. New* Delhi, Friends Publication.

Course Outcome :-

- It provide the knowledge of training and how the betntiufic training helps
- To know the different finesses required for different activities
- It provides an opportunity to utilize modern gadgets in training methods
- Orientation of different methods training methods for different events.

CC-302 CONCEPTS OF WELLNESS MANAGEMENT

Unit-1 WELLNESS

Definition and scope of wellness- Wellness continuum and health - Dimensions of wellness - Physical Wellness - Emotional Wellness - Social Wellness - Spiritual wellness - Intellectual wellness and Environmental wellness.

Unit-2 EXERCISE AND WELLNESS

Physical wellness, exercise and functional physical health of different systems of human body, lifestyle diseases in relation to inactivity, Nutrition and exercise to physical wellness.

Unit-3 STRESS MANAGEMENT

Stress : Definition of Stress, Stress and Emotional health, Stress and physical health- Mechanism of stress and related degenerative diseases- Inter dependence of Spiritual wellness, Social wellness and Emotional wellness- Stress management techniques.

Unit-4 FITNESS AND BODY COMPOSITION

Health fitness components, body composition, muscular endurance, strength, Cardio vascular fitness and flexibility, importance of cardio respiratory endurance .Obesity and health risk factors, childhood obesity and problems. Body composition indicators and measurements

References:

1) ***Wellness Workbook:*** How to achieve enduring health and vitality, John W Travis and Regina S Ryan, Crown publishing, New York.
2) ***The Soul of Wellness:*** 12 holistic principles for achieving a healthy body, mind, heart and spirit, Rajiv Parti, Select book incorporation, New York.
3) ***Wellness coaching for lasting Lifestyle change***, Michael Arloski, Whole person associates, Duluth, USA.
4) ***Staying Healthy with Nutrition***: The complete guide to Diet and Nutritional medicine, Elson M Has,.
5) Charles B.Corbin etal: ***concept of fitness and wellness*** megraw hills.inc St lauis Bangkok 3rd 2000 U.S.A

Course Outcome :-

- The subject has an out come of deep understanding of fitness and its importance
- This subject provides the holistic health through fitness which ultimately results in wellness.
- To provide the importance of different programme designed for different professionals and different age groups.
- This subject provides a nation of fit people which lightens the burden of budget on health care to the country in general

CC-303 SPORTS PSYCHOLOGY AND SOCIOLOGY

Unit-1 Introduction

Meaning, Definition, Importance and scope of Sports Psychology. Characteristics of Various Stages of growth and development. Individual differences. Heredity and environment. Dynamics of Human behaviour, Play and theories of Play.

Unit-2 Learning , Personality, Motivation,

Learning: Theories of learning, Transfer of Learning. **Personality:** Meaning and definition of personality, characteristics of personality, Dimension of personality, Personality and Sports performance. **Motivation:** Meaning, Definition and importance of Motivation. Types of Motivation : Intrinsic & Extrinsic, Motivation techniques and their impact on sports performance. Aggression, Anxiety and their effects on Sports performance. Mental Preparation Strategies: Attention, focus, Self- talk, Relaxation, Imaginary.

Unit-3 Relation between Social Sciences & Physical Education

Meaning, Definition and Importance of Sociology, Orthodoxy, customs, Tradition and Physical Education. Festivals and Physical Education, Socialization through Physical Education, Social group, Primary group and Remote group.

Unit-4 Culture

Meaning and Importance of culture, features of culture, effects of culture on people life style. Different methods of studying : Observation / Inspection method, Questionnaire method and Interview method.

References:

9) William, F.O. & Meyer, F.N. (1979). ***A handbook of sociology***. New Delhi: Eurasia Publishing House Pvt Ltd.

10) R.Jain : ***Sports Sociology*** – Khel Sahitya Kendra, Delhi.

Course Outcome :-

- To understand the importance and use of implementation of Psychological concepts for all positive results.
- To understand the Psychological instructions and self limitations of students and to break the Psychological barriers for excellence in performance.
- To develop in understanding of the intelligence creativity for the benefit of students to fare well.

EC-311 SPORTS MEDICINE, PHYSIOTHERAPY AND REHABILITATION

(ELECTIVE)

Unit-1 Sports Medicine

Meaning, Definition, and Importance of Sports Medicine. Role of Physical Education Teachers and Coaches in Athletes Care and Rehabilitation. Common sports injuries and their prevention. **First Aid**: Definition of First Aid, **DRABC** formula (Danger, Response, Airways, Breathing and Circulation), **Artificial respiration technique**: Mouth to mouth, Mouth to nose respiration, CPR (Cardio Pulmonary Resuscitation). **Treatments:** Laceration, Blisters, Contusion, Strain, Sprain, Fracture, Dislocation and Cramps. **Bandages :** Types of Bandages, Taping and supports.

Unit-2 Physiotherapy

Definition: Guiding principles of physiotherapy, Importance of physiotherapy.

Treatment Modalities: Electrotherapy, infrared rays, Ultraviolet rays, short wave diathermy, ultra sound.

Unit-3 Hydrotherapy and Massage

Hydrotherapy: Meaning and Methods, Cryotherapy, Thermo therapy, Contrast Bath, Whirlpool Bath, Steam Bath, Sauna Bath, Hot Water Fomentation.

Massage: Meaning and importance of massage, Indications and contraindications of massage. Types of Manipulation, Physiological effects of Massage.

Unit-4 Therapeutic Exercise

Definition, Principles and Importance of Therapeutic Exercises. **Classification of Therapeutic exercise:** Passive Movements (Relaxed, Forced and passive stretching). active movements (concentric, Eccentric and static). Free Mobility Exercise for Shoulder, Wrist, Fingers, Hip, Ankle, Foot joints and Neck exercises.

13) William E. Garret Jr Donald T.Kirkendall Debarah 10 Squire "***Principles of Practice of Primary care Sports Medicine***" – Williams of Wilking Publishers.

Course Outcome :-

- To understand the nature of injuries and rehabilitation
- To avoid injuries the subject of physiology and sports medicine are the basis for the student-teachers.
- To understand the importance of rehabilitation.

Semester –

IV Theory

Courses

EC-401 SPORTS MANAGEMENT

Unit-1 Concept of Management

Meaning, Definition, Scope, concept and importance of Sports Management. **Functions of management**: Planning, organising, staffing, directing and controlling.

Unit-2 Leadership

Meaning , Definition & Elements of Good leadership. Leadership styles, methods. **Forms of Leadership:** Autocratic, Laissez-faire, Democratic, Benevolent and Dictator. Qualities of administrative leader, Preparation of administrative leader & Effects of Good Leadership on Organizational performance.

Unit-3 Financial Management

Financial management in Physical Education & sports in schools, Colleges and Universities. Criteria of good budget, Steps of Budget making. Model budget for a school. Procedures for purchases and constructions. Records and Registers.

Unit-4 Sports Management

Sports Management in Schools, colleges and Universities. Planning, Directing and Controlling school, college and university sports programmes. Factors effecting the planning. Developing performance standards, Establishing a reporting system, Evaluation, reward and punishment system. **Event management:** Organisation of major sports event.

References:

1) Ashton, D. ***Administration of Physical Education for women***. *New* York: The Ronald Press CI. (1968).
2) Bucher, C.A. ***Administration of physical education and athletic programme***. 7th Edition, St. Louis: The C.V. Mosby Co.

3) Daughtrey, G. & Woods, J.B. ***Physical education and intramural programmes, organisation and administration***. Philadelphia U.S.A. : W.B. Sounders Cp. (1976).
4) Earl, F.Z, & Gary, W.B.. ***Management Competency Development in Sports and Physical Education***. Philadelphia: W. Lea and Febiger. (1963)

Course Outcome :-

- To know how to manage events of sports as well as any event
- To know management skills of trains & competition
- The importance of planning and execution.
- It provides opportunity to know the good leadership and successful planning
- It explain how to plan budget for all the activities

CC-402 CONCEPTS OF YOGA

Unit-1 Introduction

Meaning , Definition & Scope of Yoga, Aims, Objectives and functions of Yoga, Yoga practices in Upanishads and yoga sutra, Modern Trends in Yoga, Place and importance of Yoga in Physical Education and Sports.

Unit-2 Early Yoga Practices

Astanga Yoga: Yama, Niyama, Asana, Pranayama, Pratyahara, Dharana, Dhyana and Samadhi. Streams of Yoga Practices: Hatha Yoga, Karma Yoga, Bhakti Yoga, Raja Yoga, Jnana Yoga.

Unit-3 Basic Yogic Methods

Asana: Classification of Asanas, Sitting, Standing, Lying, Inverted asanas. Benefits of Asanas : Effects of Asanas on general health. Pranayama: Importance & impact on Muscular, Cardio Respiratory and Nervous System. Relaxation and meditation: Importance & impact on body at work and body at rest.. Bandhas: Jalandhara, Mula, Udyana. Mudras: Chin,Yoga,Aswini, Anjali, Brahma Mudra. Kriyas: Neti ,Nauli, Kapalabhati, Trataka, Dhauthi, Bhastrika.

Unit-4 Yoga Education

Yoga Education for Youth Empowerment and human resource development. Difference between yogic practices and physical exercises, Yoga education centers in India and abroad, Competitions in Yoga asanas.

References:

1) Brown, F.Y.(2000). ***How to use yoga***. Delhi: Sports Publication.
2) Gharote, M. L. & Ganguly, H. (1988). ***Teaching methods for yogic*** **practices**. Lonawala: Kaixydahmoe.

6) Satya Murty.K, ***Elements of Yoga***, Vedadri Brahma Gnana Kendra, Pedakakani, Guntur, India,(2015)

Course Outcome :-

- To throw sores light over the basics of ‘Yoga’
- To create awreness of hour our east while Rishies tought principles of life through all time great “Upanishads”
- To be familiar with the hidden knowledge of Yoga-sutras, Astanga-Yoga, Hatayoga
- To realize the importance of practice of Yoga life Asanas, Pranayama etc., which are the need of the hour to the today’s world.

CC-403 OFFICIATING AND COACHING

Unit-1 Introduction of Officiating and coaching

Definition of officiating and coaching, Importance and principles of officiating, Relationship of official and coach with management, players and spectators, Measures of improving the standards of officiating and coaching.

Unit-2 Coach as a Mentor

Duties of coach in general, pre, during and post game. Philosophy of coaching, responsibilities of a coach on and off the field, Psychology of coach in competition and coaching.

Unit-3 Duties of Official

Duties of official in general, pre, during and post game in (Hockey, Football, Handball, Volleyball, Basketball, Table Tennis, Kabaddi, Kho-Kho, Throwball, Tennis, Badminton, Ball Badminton, Cricket, Softball and Tennikoit). Philosophy of officiating, Mechanism of officiating, position, Signals and movement, Ethics of officiating.

Unit-4 Qualities and Qualifications of Coach and Official

Qualities and qualifications of good coach and good official, Layout of courts / fields and Rules of games, Layout of standard Track & Field and Rules, Eligibility rules of intercollegiate and inter-university tournaments.

References:

1) Bunn, J.W. (1968). ***The art of officiating sports.*** Englewood cliffs N.J. Prentice Hall.
2) Bunn, J.W. (1972). ***Scientific principles of coaching***. Englewood cliffs N.J. Prentice Hall.
3) Dyson, G.H. (1963). ***The mechanics of athletics***. London: University of London Press Ltd.
   Dyson, G.H. (1963). *The mechanics of Athletics.* London: University of London Press Ltd.
4) Lawther, J.D. (1965). ***Psychology of coaching***. New York: Pre. Hall.
5) Singer. R.N. (1972). ***Coaching, athletic & psychology***. *New* York: M.C. GrawHill.

Course Outcome :-

- It provides an opportunity to analyse rules and train sports persons accordingly
- It provides knowledge of rules as well as coaching
- To coach a team as per the opponents standards needs the knowledge of rules to export them for the benefit of performance.

EC-412 RESEARCH AND STATISTICS IN PHYSICAL EDUCATION (ELECTIVE)

Unit-1 Introduction to Research

Definition of Research, Need and importance of Research in Physical Education and Sports. Classification of Research, Meaning of Research Problem, Location and criteria of Selection of Problem, Formulation of a Research Problem, Limitations and Delimitations.

Unit-2 Methods of Research

Various methods of Research, Need for surveying related literature, Literature Sources, Research Proposal.

Unit-3 Basics in Statistics

Statistics: Meaning, Definition, Nature, Importance and its Types. Raw Score: Grouped Data, Un Grouped Data. Grouped Data: Discrete and Continuous Series. Construction of frequency Table: Class Intervals, Class Distribution. Normal Probability curve, Skewnes and kurtosis. Graphical Presentation: Histogram, Bar Diagram, Frequency Polygon, O'give curve, Pie Diagram.

Unit-4 Statistical Methods in Physical Education and Sports

Measures of Central Tendency: Mean, Median and Mode-Meaning, Definition, Importance, Advantages, Disadvantages and Calculation from Group and Ungrouped data. **Measures of Variability**: Meaning, importance. Computing Range, Mean Deviation, Quartile Deviation, Deciles, Percentile and Standard Deviation. **Co-relation**: Computing Karl Pearson Product Moment Co-relation and Karl Spearman Rank Order co-relation.

12) Verma, J.P. (2000). ***A text book on sports statistics***. Gwalior: Venus Publications.

Course Outcome :-

- To analyze the facts and figures of results through research
- To analyze the aspects of all the factors andinvolved in sports we need scientific approach Research is the base for finding facts.
- The tools of Statistics are the basic tools for finding facts in that.

Objectivities of the course

1. To enable the society to provide with best possible teachers.
2. The course fulfills the need of good Physical Education teachers in this part of the country.

Semester - I

CC – 101:- To Throw light on the History nd Philosophies of the world and ethical values.

CC – 102:- To know the in and out of the human body's formation and its Physiological systems.

CC – 103:- How to make us of the modern gadgets and latest technology in Pedagogy.

EC – 112:- The total picture of Olympic movement after gaps of 2000 years and the spirit behind it.

Semester - II

CC – 201:- To know the formation any reciprocating joints and muscles involving human motion and objects. Bio-mechanics is explained throw the forces applied and its results involved in human motion thoroughly .

CC – 202:- The objectives of the subject health education provides waste are about communicable diseases, habits hygiene and all aspects. The Environmental education covers large extent Technological sustainability and the discus approaches for preservation .

CC – 203:- The objective of this unit to explain how to use the measurements to evaluate & research the events.

EC – 212:- The objective of the subject to make use of worthy leisure time.

Semester - III

CC – 301:- The objective of the sports training is to teach how to train the budding talent to competitive various levels .

CC – 302:- The objectives of the subject is to create awareness about the concepts of wellness and how to manage wellness .

CC – 303:- The subject has an object to verify the Psychological obstructions in performing to the maximum ability to realize the potential hidden also create sociological awareness.

EC – 311:- The objective of sports medicine is to enable student teachers about injury management and rehabilitation as well as Physiotherapy .

Semester - IV

CC – 401:- The objective of the sports management is to train the pupils to know the management skills .

CC – 402:- Objectives of 'Yoga' is to teach basics of Yoga which are to be taught at different levels.

CC – 403:- Objectives of this subject is to enable student, teach to learn hour to officiate and coaching.

EC – 412:- Objectives of this subject is to know different Research methods and making use of statistics for research.

Semester - I

劑ŕƀt-A : Theoretical Course						
Course Code	Title of the Papers	Total Hours	Credit	Internal Marks	External Marks	Total Marks
Core Course						
CC-101	History, Principles and foundations of Physical Education	4	4	20	80	100
CC-102	Anatomy and Physiology	4	4	20	80	100
CC-103	Educational Technology and Methods of Teaching in Physical Education	4	4	20	80	100
Elective Course (Anyone)

POLITICAL SCIENCE & PUBLIC ADMINISTRATION

Choice Based Credit System (CBCS)

Academic Year 2023 – 24

Amended as per NEP-2020

SRI VENKATESWARA UNIVERSITY: TIRUPATI
SVU COLLEGE OF ARTS
DEPARTMENT OFPOLITICAL SCIENCE AND PUBLICADMINISTRATION

About the Department

The Dept. of Political Science and Public Administration became a reality with the introduction of a Post-Graduate Course – M.A., in Political Science in the year 1970 in the University under the administrative control of the Dept. of Economics. The Department of Political Science was given an independent status in February 1971 by the Vice-Chancellor Dr. D. J. Reddy. Highlighting the importance of the discipline of Political Science, Dr. D.J. Reddy made a classic statement – A University without a Department of Political Science is a primitive University and Sri Venkateswara University will no longer carry that tag". The Department started its innings with Prof. K. Kamalanathan, as the founder Professor and Head of the Department with two more Lecturers – Dr. M.V. Subbha Rao and Dr. N.H. Starama Sarma and a Tutor Mr. C. Venganna joining the Department in 1971. During the selections of 1976 Dr. V.Chandhra Mouliswara Rao, and Dr. A. Balaramaiah, Joined as Lecturers.

During the birth centernary celebrations of Dr. Tanguturi Prakasam Panthulu, a P.G. Diploma in Local Self Government was started in the Dept in 1972. Dr. M.R Acharya (1972) and Mr. C.Krishna Reddy (1977) were appointed to handle the said Diploma during the V Plan academic expansion an M.A., Degree course in Public Administration with specialization in Local Self-Government was started with effect from 1986-87 onwards. Dr. S.Srikrishna and Dr.C. Venkata Subba Reddy Joined as Lectures in March 1985. Consequent to retirement of Prof. K.Kamlnathan in December 1983, Prof. K.V. Narayana Rao Joined as Professor in March 1985. During the 1989 selections Dr. M.A. Hussain (SVU PG Centre Kadapa 1979), joined the Dept. as a Reader against the Local self-Government-specialization where as Dr. B.V.Muralidhar Joined as Lecture in November 1989.Subsequently due to retirements etc. in the Dept. Prof. A. Reddeppa Reddy, Dr. Y.Gurappa Naidu, Prof.B.Venkatachalapathy, were transferred to the Dept. from the SVU PG Centre Kadapa, at different intervals between 2001 – 2008. Dr. C.Sheela Reddy, was selected and appointed as Asst. Professor in July 2007. Dr. B. Rajini Joined the Dept. as a UGC Research Scientists in the year 1991.

Vision

- The Motto of the Department is to train students into Leadership roles for becoming change agents of the Society.
- The Department aims at integration of skills and knowledge with human face.
- Make good citizens and not just professions is the slogan of our department.

Mission

- To provide instructions to M.A. Post Graduate Students in Political Science and Public Administration at Masters Standards.
- To prepare students acquire well developed personality and emerge as the Model Citizens/Civil Servants/Political Leaders.
- To achieve and sustain excellence as a Centre of Training, Research and Extension Activities.

Programme Specific Objectives

- To inculcate theory and practical knowledge together.
- To include Scientific Zeal and enable them for Sociological enquiry.
- Conjecture of Science and Social Science Research Aptitude.
- To mould them with Trans –disciplinary understanding for Lifelong Learning.

Program Objectives

- PO1 - Knowledge
- PO2 - Analysis
- PO3 – Design
- PO4 – Development
- PO5 - Modern tools
- PO6 – Society
- PO7 - Environment
- PO8 - Ethic
- PO9 - Team work
- PO10 – Commutation
- PO11 - Programme Management
- PO12 - Lifelong Learning

Programme Outcomes

- Understanding of government institutions, electoral processes, and policies in a variety of countries around the world and the ability to compare the effectiveness or impact of various Political, Administrative arrangements across countries.
- Knowledge of some of the philosophical underpinnings of modern politics and government and the legal principles by which Political, Administrative disputes are often settled.
- Understand the changes in patterns of Political and Administrative behaviour, ideas and structures.
- Assess how global, national and regional developments, public services and governance affect polity and society.
- Develop the ability to make logical inferences about social and political, Administrative issues on the basis of comparative and historical knowledge.
- Knowledge of key theories and concepts, historical developments, organizations, and modern issues in international relations.

(Revised Scheme of Instruction and Examination, Syllabus etc.,
under CBCS Regulations -2016 is Amended as per NEP-2020)

(With effect from the batch admitted in the academic year 2021-22)

Core course:

There may be a Core course in every semester. This is the course which is to be compulsorily studied.

Elective course:

Elective Course is a course which can be chosen from a pool of papers. It may be

- Supportive to the discipline of study
- Provide an expanded scope
- Enable an exposure to some other discipline / domain
- Nature of student's proficiency / skill

An elective may be "**Generic Elective**" focusing on those courses which add generic proficiency to the students. These electives shall be "Discipline Centric". Three or Four Papers may be offered, of which **TWO** may be chosen.

Skill Oriented Course and Multidisciplinary Course / Project are introduced as per Action Plan of National Education Policy – NEP- 2020.

An elective may be **"Open Elective**" and shall be offered for other Disciplines only. At least **ONE** Paper must be chosen for study as **MANDATORY**. More than one paper may be studied through self-study.

Foundation course:

The Foundation Courses may be of two kinds: Compulsory Foundation and Elective Foundation.

Compulsory Foundation courses are the courses based upon the content that leads to knowledge enhancement. They are mandatory for all discipline.

Elective Foundation courses are value-based and are aimed at Man-Making education.

Scheme of instruction

The Board of Studies (BOS) of each specialization shall formulate the scheme of instruction and detailed syllabi. For every course learning objectives and learning outcomes should be defined. While formulating the scheme of instruction, the BOS shall facilitate to offer the minimum number of credits for the entire Programme. The syllabi of theory courses shall be organized into **FIVE** units of equal weight.

PART- A

Part A contains 20 marks with two short questions from Each Unit out of which the student has to answer **FIVE** questions with each question carrying 4 marks with a total of **20**marks.

PART-B

Examination in theory shall consist of **FIVE UNITS** in each paper, Two questions from each unit of syllabus out of which a student shall answer one question carrying 12 marks for each question with a total of 60 marks. Total of Part A and Part B will be of 80 marks.

PROJECT WORK

The work shall be carried out in the concerned department of the student or in any recognized Educational Institutions of Higher learning/ Universities /Industry/Organization as approved by the DDC. The student shall submit the outcome of the project work in the form of a report.

The Project Work shall be evaluated at the end of the IV Semester with **80** marks for the report and **20** marks for the Viva Voce with a maximum of **100** marks.

SEMESTER - I

Vision

- The department of Population Studies came into existence 1973 with generous funding of Family Planning Association of India. The department now occupies premier positions in the field of Population and it is the 1st Department which started M.A. Population Studies in India. The Department conducts Teaching, Research, Out-reach programmes. The Department of Population Studies intends to be a resource centre for knowledge generation and training point for demographic & family welfare aspects. The department is an asset to **anti-spate** skill fall social work professionals for social welfare and community development

Mission

- The Department of Population Studies is dynamic body for empowering, encouraging the young as employable manpower of overall constructive and sustainable development of themselves and the society through its Teaching, Research, Out-reach (extension) and Training-campers community activities consistently.
- The department of Population Studies came into existence in the year 1973 with generous funding of Family planning Association of India. The department now occupies premier position in the field of Population in India. The department conducts Teaching, Research, Outreach programmes and Training.

II. Programme Specific Outcomes (PSOs)

At the end of the programme, the student will be able to:

PSO1: Familiarize the concepts of basic demography, theories, policies and programmes and its effect on size, growth, components and structure of population.

PSO2: Demonstrate an understanding of multidisciplinary aspects of population studies focusing on sociology, psychology, statistics, economics, community health, geography and gerontology.

PSO3: Acquire skills in conducting independent surveys and techniques to collect, compile, analyze and report on population related aspects.

PSO4: Critically analyze the population issues in relation to development and giving scientific solution to the problems

PSO5: Involve and get trained in organising extension programmes by conducting various awareness programmes on small family norm, gender issues, environment, health, population education and human trafficking

PSO6 Acquire knowledge on field work, team work and NGO management.

Programme Objectives:

- To study and analyze the concepts in Population studies inclusive growth of marginalized and deprived groups of the population.
- Increasing the use of ICT in the investigation of population issues.
- To help students develop knowledge, skills, attitudes and values appropriate to the practices of Population Studies;
- To promote incorporation of theory and practice in the fields of Population Studies and
- To assist academic and policy-oriented research on population and reproductive health, Population and environment, Gender Issues, family planning and population ageing etc.

Programme Outcomes (POs)

After successful completion of two year degree programme in Population Studies, student should be able to:

PO1: **(KB) Knowledge based**

Examine the levels and trends in population situation at regional and global levels and assess its impact on demographic, socio-economic and health aspects

PO2: **(PA) Problem analysis**

Able to analyze the population situation for sustainable growth in the present scenario of India.

PO3: **(Inv) Investigation**

Ability to critically analyze the qualitative and quantitative data on contemporary population issues by conducting surveys and research, and thus providing scientific solutions.

PO4: **(Des) Design and Development**

Acquire skills in designing and conducting surveys at Micro to Macro level

PO5: **(Tools) Use of Tools**

Demonstrate to apply different statistical tools and techniques for conducting independent research and surveys.

PO6: **(Team) Individual Team Work**

Acquire knowledge as a team member by participating in extension and outreach programmes in the community as the department oganises large number of extension programmes.

PO7: **(Comm) Communication skills**

Able to acquire communication skills and interview techniques and present affectively on the issues of health, population education and Family Planning among the people.

PO8: **(Prof) Professionalism**

Demonstrate professionalism in conducting independent research and surveys and gain experience by working with NGO's

PO9: **(Impact) Impacts of course on society and environment**

Able to understand the consequences of population growth on environment and demonstrate on sensitive/complex issues prevailing in the society. (Gender equality,

Health, Small Family Size, Maternal and Child Health, Immunization, Nutrition etc with special reference to Pandemic COVID-19).

PO10: **(Ethics) Ethics and Equities**

Up hold ethical standards, responsibility in maintaining norms and confidentialitys.

PO11: **(LLL) Life Long Learning**

Apply learning skills and techniques acquired through theory and practical field experience to resolve contemporary issues.

PO12: **Physicist & Society**

To assess and solve the problems related to societal, health and safety issues using the professional skill learned

M.A. Population Studies Programme Educational objectives

- Provide high level of understanding of population sciences including an in-depth knowledge of the linkages between population and various socio-economic, health and environmental factors.
- Provide necessary skill to evaluate the impact and consequence of population growth on society.
- To provide the knowledge of causes of population growth and government's efforts to check it and develop awareness on the population dynamics.
- To known the causes of urbanization and its related problems and causes of deforestation and ecological imbalance.

To provide foundation to Post-Graduate students in population studies/demographic issues and provides a comprehensive idea to conduct future research in various aspects related to population.

SRI VENKATESWARA UNIVERSITY: TIRUPATI

SVU COLLEGE OF ARTS
DEPARTMENT OF POPULATION STUDIES

(Revised Scheme of Instruction and Examination, Syllabus etc., under CBCS Regulations -2016 is Amended as per NEP-2020)

(With effect from the batch admitted in the academic year 2021-22)

POPULATION STUDIES
SEMESTER - I

S. No	Code	Title of the Course		Credit Hrs / Week	No. of Credits	Core / Elective	IA	SEE	Total Marks
1	PSC 101	Population Characteristics and Theories		6	4	Core-Theory	20	80	100
2	PSC 102	Fertility		6	4		20	80	100
3	PSC 103	Mortality		6	4		20	80	100
4	PSC 104	Sources, Evaluation and Adjustment of Data		6	4		20	80	100
5	PSC 105	A	Population Education and Extension	6	4	CF	20	100	80
		B	Public Health, Nutrition and Health Education						
		C	Health Planning and Policy						
6	PSC 106	A	Population and Development Planning	6	4	EF	20	100	80
		B	Population and						

			Environment						
Total				**36**	**24**		**120**	**480**	**600**
7	PSC 107		Human Values and Professional Ethics - 1	**0**	**0**	Audit Course	**100**	**0**	**0**

- **All Core papers are Mandatory**
- **Compulsory Foundation – choose one paper**
- **Elective Foundation - Choose one paper**
- **Audit course- 100 Marks (Internal) –Zero Credits under Self Study**
- **Interested Students may register for MOOC with the approval of the concerned DDC but it will be considered for the award of the grade as open elective only giving extra Credits**

SEMESTER – II

S. No	Code	Title of the Course		Credit Hrs / Week	No. of Credits	Core / Elective	IA	SEE	Total Marks
1	PSC 201	Migration and Multi Regional Demography		6	4	Core-Theory	20	80	100

		B	Health Economics						
		C	Demography of Andhra Pradesh	**6**	**4**		**20**	**80**	
		D	Demographic Techniques						
4.	PSC 404	Dissertation/ Project Work		**6**	**4**	*MDC	**20**	**80**	**100**
5.	PSC 405	A	Rural, Urban, Tribal Development	**6**	**4**	Open Elective	**20**	**80**	**100**
		B	Social policies and planning						
Total				**36**	**24**		**120**	**480**	**600**

- **All Core papers are Mandatory**
- **Generic elective – choose two papers**
- **Multidisciplinary Course is mandatory (MDC)**
- **Open Electives are for the Students of other Departments. Minimum one paper should be opted. Extra Credits may be earned by opted for more number of open electives depending on the interest of the student through Self-Study**
- **Interested Students may register for MOOC with the approval of the concerned DDC**

SEMESTER – 1

CORE: PSC - 101: POPULATION CHARACTERISTICS AND THEORIES

Course Objectives

1. To understand the concepts of population change, age and sex, structure aging and trends in population in India and world.
2. Assess the basic population theirs: Malthusian theory from demographic theory and its applicability.
3. Asses the population composition marital status educational, economic and religious composition, trends in aging and problems if elderly.
4. Relayed theories of population economic theirs in relevance to current population situation.

UNIT - I

Definition, Nature and scope of population studies, Components of Population change. Population structure: Need for the study of Age and Sex structure, their determinants, population pyramids. Trends in size and growth of population of world, developed and developing Nations; Population Size, growth and age sex structure in India.

UNIT - II

Population composition in India: Marital Status, Educational, Economic and Religious composition

UNIT - III

Ageing: Concept, Trends in aged population in developed and developing countries with special reference to India; Problems of the elderly and their adjustment; Support systems for elderly

UNIT - IV

a) Malthusian Theory: Its relevance and criticism,

b) Demographic transition theory, stages and causal mechanism, applicability to developing countries.

UNIT - V

Becker's and Leibenstein's theories of fertility - Spencer’s Biological Theory, Cultural Theories, Economic Theories

Reference

1. Bhende, Asha A, and Kanitkar, Tara. 1993. Principles of Population Studies, Bombay:Himalaya, Publishing House.
2. United Nations, 1982. Population of India, Country Monograph, Series No.10, Bangkok.. Economic and Social Commission for Asia and the Pacific.
3. Bhatia, H.S. 1983. Aging and Society, Udaipur: The Arya's Book Centre Publishers
4. Krishnan, P and Mahadevan, K. 199 1. Elderly Population Today: Policies, Problems and Perspectives, Delhi: B.R.Publishing House.
5. Mishra, B.D., 1980. An Introduction to the study of Population. Madras: South Asian Publishers

Course Outcome

1. Identify basic demographic concepts and definitions in Population studies
2. Impart knowledge on Population trends in size and growth of population at regional, national and global level.
3. Discover the implications of different theories on past and present population components with special reference to Malthusian theory

CO 3	3		2			2			1		2	

CORE: PSC - 102: FERTILITY

Course Objectives

1. Know the concepts of fertility, fecundity, live births, still births sterility, menarche and menopause.
2. Relate measures of fertility: Child women ratio, Child birth ratio Gross fertility rate, Net reproduction rate and its measurements.
3. Assess and relate theirs of fertility, determents.

UNIT - I

Definition of basic concepts fertility period and cohort, fecundity, sub fecundity, conception, pregnancy roaster, pregnancy rate, parity, order, parity progression ratio, birth interval open and closed birth intervals, live birth, still birth, menarche, sterility, menopause. Intrinsic birth and death rates, Stable population

b) Measures of Fertility. Child Woman Ratio, CBR, GFR, ASFR & TFR, Measures of Reproduction: Gross Reproduction Rate and Net Reproduction Rate; Replacement levels of fertility

UNIT - II

a) Levels, trends and differentials in fertility in developed and developing countries with special reference to India.

b) Factors associated with high fertility in developing countries, factors responsible for the decline of fertility in developed and developing countries.

UNIT - III

Nuptiality: Mean Age at marriage and widowhood by cohort method; Factors affecting female age at marriage in India.

UNIT - IV

Determinants of fertility: Age at marriage; Contraception, breast feeding and abortion, socio economic, demographic and cultural factors.

UNIT - V

Theoretical issues and conceptual models relating to fertility Davis and Blake "Intermediate variables framework", Bongaart's "Proximate Determinants of fertility"

Reference

16. Shryock, Henry, S. et al., 1971: The methods and materials of demography, Vol.2, U.S. Bureau of Census, Chapt. 16 -17 and 18.

Course Outcome

1. Examine the basic concepts and measurements of fertility
2. Assess, compare and contrast trends in fertility and its determinants
3. Familiarize the concepts of nuptiality and factors affecting nuptiality
4. Examine theories related to fertility and its applications in different situations

CO-PO Mapping

Course Outcome	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO 10	PO 11	PO 12

CORE: PSC - 103: MORTALITY

Course Objectives

1. Know the basic concepts of motility, its measurements and determents.
2. Relate the facts affecting fetal perinatal, infant and child hood mortality, relationship between infant mortality and fertility.
3. Understand the concept of life table, types, methods of constructing life tables, and use of models life tables, in demographic analysis.

UNIT - I

Definition and basic concepts of Mortality: Measures of Mortality: Crude death rate, Age and sex specific death rates, infant mortality rate: child mortality rate, cause specific mortality rate; maternal mortality rate; Need and methods of standardization of death rate.

UNIT - II

a) Levels and trends of mortality in developed and developing countries with special reference to India. Factors responsible for declining mortality in developed and developing countries, special reference to India

UNIT - III

Differentials in Mortality by age, sex, region, cause and marital status, residence and socio-economic Characteristics in developed and developing countries, with special reference India;

UNIT - IV

Factors affecting foetal, perinatal, infant and childhood mortality; Inter-relationship between infant mortality and fertility: Integrated Child Development Scheme (ICDS).

UNIT - V

Life Tables concepts and definitions; Types and forms of life tables; Methods of constructing life tables from age specific death rates, Uses of Model Life tables in demographic analysis for countries having limited data.

10. Mahadevan, K.(ed) 1991: Health Education for Quality of Life, Delhi, BR. Publications. Registrar General, 1989: Causes of Death (Rural).

Course Outcome

1. Identify the various concepts and measures of mortality
2. Examine the global levels and trends in mortality and its determinants
3. Acquire knowledge on techniques of life tables, constructions of multiple-decrement life table and computational aspects for demographical analysis

CO-PO Mapping

CORE: PSC - 104: SOURCES, EVALUATION AND ADJUSTMENT OF DATA

Course Objectives

1. Understand censes, survey and vital registration: its trends in India.
2. Relate and measure different methods of population projects.
3. Examine the evaluation and measurement of errors in age reporting: whippel's index, Myer's index and UN secretariat methods.

UNIT - I

Sources of population data, Census, Surveys and Vital Registration New trends and development in Indian censuses National and international sources of data

UNIT - II

Evaluation of data on Demographic statistics, Errors of coverage and errors of content, general methods for detecting errors: comparison of individual data, re enumeration surveys.

UNIT - III

a) Factors affecting completeness of census: Balancing equation: definition and limitations use of the balancing equation.

b) Factors affecting the completeness of birth and death registration

Appraisal of birth and death statistics by means of a balancing equation, Direct Checks on completeness of vital statistics registration, Chandra-Deming formula

UNIT - IV

a) Evaluation and measurement of errors in age reportingWhipple's index; Myer's index and United Nations Secretariat Method; Uses and

limitations

UNIT - V

Methods of Population Projections, Mathematical Methods, Component Method, Methods of Sub national Population Projections.

12. United Nations Population Fund, 1993, Readings in Population Research Methodology, Vol. 1, Basic Tools, Illinois, USA: Social Development Centre.

Course Outcome

1. Examine and compare merits and demerits of various sources of population data
2. Understand the evaluation of data, factors affecting completeness of data
3. Reproduce knowledge on population projections, calculations and applications

CO-PO Mapping

Course Out come	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO 10	PO 11	PO 12

CF: PSC – 105 (A): POPULATION EDUCATION AND EXTENSION

Course Objectives

1.Understand the concepts method objects and components of population education, training, and programmers and methods of training population education.

2. Examine and relate extension programmers in population education and to organize the population education programs at schools, colleges and non-formal education levels.

3. Relate population education programs at present in India, Thailand and USA and also beyond family planning measure.

UNIT - I

a) Population Education concept, need, objectives and components of Population Education.

b) Training Programmes in Population Education General Procedure for developing a training programme and alternative models of training in Population Education.

UNIT - II

a) Extension Programmes in Population Education Concept, Processes and methods of extension education.

b) Population Education Programmes at School, College and Non formal education levels.

UNIT - III

Role of Non-governmental organizations and Universities in the promotion of population education programmes.

UNIT – IV

Population Education programmes in India, Thailand and USA - Merits and Limitations for population education programmes - Elementary and Secondary level teachers.

UNIT - V

Beyond Family planning measures Concept and Importance, Some case studies a) China's planned Birth programme and it's transferability b) Indian Mass Vasectomy Camp c) Incentives and disincentives in Family Planning Programme in India.

14. Population Studies Centre, 1974: National Seminar on Population Education, Tirupati, S.V. University.

Course Outcome

1. Examine the components of population education and create awareness on population education among the students and youth
2. Acquire skills to organize Extension Programmes in population education at school, college and Non formal educational levels
3. demonstrate training on population education methods and techniques in order to create awareness on population education

CO-PO Mapping

Course Out come	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO 10	PO 11	PO 12

CF: PSC – 105 (B): PUBLIC HEALTH, NUTRITION AND HEALTH EDUCATION

Course Objectives

1. Know the concept of public health, personal hygiene and its importance with curative, primitive and preventive aspects of health.
2. Relative Environment and health sanitation water supply and health hazards.
3. Understand the concept of Nutrition, balanced diet, nutrition policies and programs: health education methods, developments and agencies involved in the health education.

UNIT – 1

Public Health - Concepts, Definition, Importance of Public Health; personal hygiene; various health aspects: curative, Primitive and Preventive; Indicators of Health.

UNIT –II

Environment and Health - Sanitation, Water Supply and Public Hygiene: Household, Community, Industrial; Occupational

Health Hazards - physical, Chemical, Biological, Mechanical and Psycho-social.

UNIT –III

Nutrition - Food and its classification; concept of nutrition, process, Concepts, Nutrients, Functions and Sources; Balanced Diet; Nutritional requirements of special groups, pregnant and lactating women and Infant and children

UNIT –IV

Nutritional Policies and Programmes - Factors, Nutritional Deficiency Diseases; Recommended Nutrition Standards; Supplementary Nutritional Programs: Applied Nutrition Programmes; Nutritional feeding Programmes etc.

UNIT – V

Health Education - Concepts, definitions, objectives, scope, principles and contents; Health

Education Methods; Role of Health Educator; Development of Health Education Programmes;

Evaluation of Health Education Programmes; Agencies involved in the Health Education.

9. P.S Venkatachalam and L.M Revello, Nutrition for Mother and Child, Special Report Series No.40 Nutrition Research Laboratories, 1962)

Course Outcome

1. Import knowledge on the importance of public health various health aspects, like curative, preventive and preventive aspects of public health.
2. Discover the indicators of health, food and its classification, Nutrition and balanced diet.
3. Imports knowledge n Nutritional policies and programmes, health education programmes and agencies involved in the health education.

CF: PSC – 105 (C): HEALTH PLANNING AND POLICY

Course Objectives

1. Know the availability of health services in India and understand the indicate of health morbidity and mortality: health care services for mother ads and aged population.
2. Understand the health planning process, health organization, its design and structure, training, placement and evolution.
3. Relate the different National health programs and its implementation: National and International agencies involved health programs.

UNIT – I

Health Services in India, Indicators of Health Morbidity & Mortality, and Health in the context of development and Five Year Plan. Health Care Service - Preventive, promotive and curative services Health care services for Mother, adults and aged population & Children, industrial workers.

UNIT – II

Health planning process: Decision making, qualitative and quantitative decisions, Policies Strategies, budget: Health planning in India, National Health Policy, goals, objectives and target setting, assessment of Health situation, Resource analysis, priorities, design of programme.

UNIT – III

Health Organization - Design, Structure, Principles, formal/informal types, Coordination within and outside. Span of control, centralization and decentralization, Staffing, job description, outlining role and responsibilities, Training, Placement and Evaluation.

UNIT – IV

National Health Programmes Malaria, Filaria, Prevention of Blindness, STD, National Rural Health Mission.

UNIT – V

International health agencies – UNICEF, WHO, USAID, Rock Feller & Ford Foundation

Non-Governmental organization - Indian Red Cross, DANIDA Tuberculosis Association in India

EF: PSC – 106 (A): POPULATION AND DEVELOPMENT PLANNING

Course Objectives

1. Understand the concept and indicates of economic development: the innovative concepts like social aspects, quality of life PQLI, human development index and modernization.
2. Relate population growth to per-capita income distribution, capital formation, industrialization and labor in concept of socio-economic changes
3. Know the situation of food security, food requirement and production, poverty and mall-nutrition agricultural development in relation to population growth.

UNIT – I

Concept and indicators of economic development, Approaches to development; changing Concept-emphasis of distributive aspect, social aspects, quality of life, PQLI, Human Development Index and modernization

UNIT – II

Consequences of population growth on total and per capita income, Income distribution, Capital formation, Rate of investment, allocation of resources, size of the labour force, Industrialization, Demographic Behaviour in the context of socio-economic changes

UNIT – III

Concept of planning, approaches, choice of a suitable strategy, population planning as an Integral part of overall development planning, demographic considerations in planning for different sectors.

UNIT – IV

Population and Food security; Food requirements and production, poverty and malnutrition; Agricultural development; Health services: Primary health care, preventive, promotive and curative services, delivery system, access to health care, Reproductive and Child Health components

UNIT – V

Planning for education, employment and manpower, Housing needs, rural development, Urbanization, environmental aspects

EF: PSC – 106 (B): POPULATION AND ENVIRONMENT

Course Objectives

1. Understand the ecology and education system in relation to population studies: Residence and social environment elements of social environment.
2. Know the concepts of global warming, green effect, El-Nino effect, soil erosion, deforestation and desertification in relation to life style.
3. Examine and relative environmental crisis and land use in relation to environment.

UNIT – I

Ecology and Ecosystem; Human Geography and its relevance to Population Studies; Residential and Social Environment: Elements of Social Environment; Patterns of Social contact, Examination of the relationship among these factors. Human Ecology and its relevance to population studies

UNIT – II

Special distribution of population: Importance of the study, measures of density, factors affecting special distribution. Population distribution in India and in the World

UNIT – III

Land use: Changing patterns, conservation and management of resources. Policies and Programmes for better management

UNIT – IV

Environmental crisis; Air-pollution, water pollution and Noise pollution depletion of biotic resources, ecological imbalances etc

UNIT – V

Global warming, Green house effect, El-nino effect, Soil erosion, Deforestation Desertification, Salinity and water logging, Man's Perception and adjustment to ecological imbalances

AUDIT COURSE: PSC: HUMAN VALUES AND PROFESSIONAL ETHICS – I

Course Objectives

1. Understand the nature of ethics and its relation to religion policies, legal, medical and environment: Need and importance of professional ethics and values.
2. Relate and understand crime and theories of punishment in relation to socio economic and technological changes.
3. Know the concepts of Ahimsa-Sathya, Bramhacharya, Darma, Artha, Moksha etc., and the importance of Bagavdgeetha in the present scenario.

UNIT - I

Definition and Nature of Ethics- Its relation to Religion, Politics, Business, Legal, Medical and Environment, Need and Importance of Professional Ethics - Goals - Ethical Values in various Professions

UNIT – II

Nature of Values- Good and Bad, Ends and Means, Actual and potential Values, Objective and Subjective Values, Analysis of basic moral concepts- right, ought, duty, obligation, justice, responsibility and freedom, Good behavior and respect for elders.

UNIT – III

Ahimsa (Non-Violence), Satya (Truth), Brahmacharya (Celibacy), Asteya (Non possession) and Aparigraha (Non- stealing) Purusharthas (Cardinal virtues)-Dharma (Righteousness), Artha (Wealth), Kama (Fulfillment Bodily Desires), Moksha (Liberation).

UNIT – IV

Bhagavad Gita- (a) Niskama karma (b) Buddhism- The Four Noble Truths - Arya astanga marga, (c) Jainism- mahavratas and anuvratas. Values Embedded in Various Religions, Religious Tolerance, and Gandhian Ethics.

UNIT – V

Crime and Theories of punishment- (a) Reformative, Retributive and Deterrent (b) Views on manu and Yajnavalkya

SEMESTER II

CORE: PSC - 201: MIGRATION AND MULTI-REGIONAL DEMOGRAPHY

Course Objectives

1. Understanding the basic concepts in migration at the National and regional level.

2. Impart knowledge on measures of internal migration through District and indirect method.

3. Acquire knowledge on migration policies in developed and developing countries

UNIT I

Concept of Mobility and Migration Sources and quality of data; Types of migration; Types of migration in India, Multi- regional demography: Meaning and development, uses and limitations – conventional Vs multidimensional demography.

UNIT II

a) Internal Migration: Patterns and characteristics of migration/migrants in developing countries with special emphasis on India.

b) Determinants of Internal migration: demographic, economic, social, and political. Consequences of migration at household and individual level

UNIT III

Migration Theories and models: Ravenstein's Laws of migration, Everett Lee's Theory of migration and Todaro's Model of Rural Urban Migration.

UNIT IV

a) Measures of Internal Migration: Methods of estimation.

Direct Methods: Estimation of Lifetime and intercensal migration from place of birth data. Estimation of migration from data on duration of residence, place of last residence and residence at a fixed prior date, Advantages and limitations

b) Measures of Internal Migration, Indirect Methods: Estimation of net internal migration by national growth rate method, vital statistics method, and survival ratio methods (census & Life Table). Methods of estimating international migration

UNIT V

Migration policies in Developed and Developing Countries - migrants' rights, institutional capacity, regional and international cooperation, socioeconomic well-being of migrants, mobility dimensions of crises, and safe and orderly migration.

7. United Nations, 1970, Methods of Measuring International Migration, Manual VI, New York.

Course Outcome

1. Explore the different types and trends in migration
2. Apply skills in measurement, causes and consequences of different migrations in different regions
3. Explore the theories and recommend suitable policies of migration

CORE: PSC - 202: N.G.O MANAGEMENT

Course Objectives

1. Know the concept and structure of NGO's and its related Act's and Laws.

2. Understand the organizational management of NGO and Source of funding for the management of NGO's.

3. Acquire knowledge on Human resource management training and development.

UNIT – I

NGO: Concept and Structure; Registration of NGO, Process, Constitution, by-laws / Memorandum of Association and registration.Related Acts and Laws: Societies registration Act of 1860, A.P. Societies registration Act of 2001.

UNIT – II

Organizational Management of NGO: Guidelines for project formulations, programme planning, Monitoring, Evaluation, and financial management. Sources of funding for the management of NGO: National and International, Government and non-governmental agencies.

UNIT – III

Sources of funding for the management of NGO: National and International, Government and non-governmental agencies.

UNIT – IV

Role of NGO in Social and Economic development - Protection, Prevention, Promotion, Transformation

UNIT – V

Human resource management: Planning, Recruitment, Selection, Performance, Appraisal, Training and Development, Motivation, Grievances

11. Neil Brach (ED) 1990-Health Promotion at Community Level, Sage Publications, New Delhi, London.

Course Outcome

1. Understand the role, importance and establishing of NGO's
2. Explore the sources of funding of NGO's at national and international level
3. Explore demographic data by working with individuals, groups and communities

CORE: PSC - 203: STATISTICAL METHODS

Course Objectives

1. Understand the basic methods of statistics and its application.

2. Acquire knowledge on the concept of statistical hypothesis and the level of significances.

3. Impart knowledge on ANOVA correlation and regressions

UNIT - I

Introduction: Use of statistical methods, description of data, Statistical inference Types of measurement: Nominal, Ordinal, Interval and Ratio scales. Frequency distributions: Raw data, frequency distributions, histograms and cumulative frequency distributions.

UNIT - II

a) Descriptive Statistics: Measures of Central tendency: Arithmetic means, weighted mean, median, mode; Measures from grouped data, empirical relation between mean, median and mode;

b) Measures of dispersion; mean deviation, quartile deviation, standard deviation, variance, computation of these measures from ungrouped and grouped, data .

UNIT - III

Tests of Hypotheses: Concept of statistical hypothesis, critical region, level of significance, Type 1 and Type 11 errors, Large and small sample tests for means and proportions, parametric tests t - test, Chi- square test

UNIT - IV

ANOVA one-way and two-way, Factor AnalysisCorrelation: Correlation Association between attributes, linear correlation, rank correlation,

UNIT - V

Regressions - Linear Regression, Logistic Regression, Polynomial Regression Multiple regressions – ordinary least squares (OLS) and generalized least squares (GLS)

10. Gupta, S.Q 1987. Fundamental of Statistics, Bombay. Himalaya Publishing House.

Course Outcome

1. Familiarize the basic statistical methods and its applications to demographic data
2. Demonstrate knowledge on methods and techniques of sampling
3. Acquire skills in processing of data with computer
4. Demonstrate the testing of hypotheses, t-tests, Chi-square tests, correlation and regression

CORE: PSC - 204: POPULATION SOCIOLOGY

Course Objectives

1. Understand the basic elements of sociology and its relation to population studies.

2. Acquire knowledge on different social institutions and its relation to social change.

3. Identify the sociological theirs in relation to socio-economic and technological development in the society.

UNIT - I

a) Sociology: Definition, Nature and scope, relationship with population studies.

b) Social institutions: Family, marriage and their Influence on Population.

UNIT - II

a) Social stratification, Social mobility and Population change.

b) Culture and Society, Cultural pattern and its Influence on Mortality and contraceptive behaviour.

UNIT - III

Modernization: Definition, concept, characteristics, Dimensions, theories of Modernization, Impact of social change and its influence on contraception and fertility.

UNIT - IV

Sociological theories of fertility, Social Capillarity theory,Theory of change and response,Theory of diffusion and cultural lag.

UNIT - V

a) Social change, Factors of Social change – Technology and Social change.

b) Status of Women: Concept, Factors affecting the status of women.

CF: PSC - 205 (A): Population and Sustainable Development

Course Objectives

1. Understand the occupational and theoretical aspect of sustainable development.

2. Identify the linkage between population and environment.

3. Expose the relationship between population and quality of life.

UNIT-I

Sustainable development: Conceptual and Theoretical issues Importance of Studying Sustainable development; Meaning, Concepts and Definitions

UNIT-II

Innovations for Sustainable Development Conventional perspectives on development; Critics of Conventional Development perspectives

UNIT-III

Population-environment linkages - Ecological and environmental dimensions of sustainable development

UNIT-IV

Population and Quality of Life

Quality of life: definition and measurement; Resource creation, management and distribution of water, air, housing, etc;

UNIT-V

Environmental Degradation and PovertySustainable livelihoods; Population and common property resources; Population,poverty and vulnerability; gender dimensions; Population and resources; Humanversus land ‘carrying capacity’; ‘Population stabilization’ to ‘Population balance’;Critiques of sustainable development perspectives

CF: PSC – 205 (B): POPULATION ECONOMICS

Course Objectives

1. Know the basic elements of economic and its relation to population.

2. Explore the relation between population employments with special reference to India.

3. Understand the demography aspects of man power and population growth.

UNIT – I

Economics: Meaning, definitions, scope and subject matter; its relation to Population Studies; Concepts: Economic goods, wants; wealth, welfare and utility; Consumption; Law of Diminishing marginal utility; consumer's surplus; Law of Substitution; Engel's Law of Consumption; factors of production; laws of returns

UNIT – II

Meaning; GDP, GNP, NNP, Human Development Index; Types of Income: Personal, Disposable, Money Income and Purchasing power parity; Methods of national income measurement in India; Income distribution in India; causes and consequences of inequalities in Income; Incidence of poverty, its causes and consequences.

UNIT – III

Population and land: Availability and utilization, Pressure of population and resources depletion in India; Agricultural transformation and rural development; Green Revolution and Agricultural Development

UNIT – IV

Demographic Aspects of manpower; Concepts, definition and measures;

Sex, age pattern of labour force: Demographic and economic factors in labour force, Occupational and Industrial composition of labour force; changing occupational structure in the process of economic development.

UNIT – V

Population and employment: concepts, definition and measures of employment and under employment; Levels and trends; causes and incidence of under employment and

unemployment in India; programmes and policies for employment opportunities; population growth and growing unemployment situation in India.

CF: PSC – 205 (C): CF: DISASTER MANAGEMENT

Course Objectives

1. Acquire knowledge on elements of deserter and its management.

2. Explore the deserter management cycle and growth issues of deserter and management.

3. Identify the administrative setup and role of central and state Governments in deserter management

UNIT - I

Disaster: Meaning - Concept of Hazard, Risk, Vulnerability and Disaster, Impact of disasters: Physical, economic, political, psychosocial, ecological, and others;

UNIT II

Disaster Management Cycle: Mitigation and prevention, Preparedness, Prediction and Early warning, Rescue and Relief, Impact assessment, Response, Recovery, Reconstruction; Disaster Risk Reduction; Community Based Disaster Management (CBDRM);

UNIT III

Global issues and initiatives- World Conference on Disaster Reduction (2005), Hyogo Framework for Action (2005-15), Sphere Standards – 2012, Disaster Management Act 2005; National Disaster Management Policy 2009;

UNIT IV

Role of the Central and the State Governments, Local bodies, Community, Media, International and National Non-Governmental Organizations, Charitable trusts, Educational Institutions, Voluntary Organizations, Community Based Organizations, Youth groups, Others Administrative and institutional structure f or disaster management; Techno-legal framework

UNIT V:

Impact on the individual, family and society, mental health consequences of Disaster: grief reactions, post-traumatic stress disorders Impact of disasters: Physical, economic, political, psychosocial, ecological, and others; Role of social worker

EF: PSC – 206 (A): COMMUNITY HEALTH

Course Objectives

1. Understand the basic concepts of community health and factors influencing health.

2. Acquire knowledge on principles of epidemiology and its measures.

3. Impart knowledge on health and nutrition and its national policies and programmers

UNIT - I

Basic concepts in Community health, Health Definition, Factors influencing health, Indicators of Health, Concept of Disease Agent, Host and Environment, concepts of disease prevention primary, secondary and tertiary.

UNIT - II

Definition of Epidemiology, Nature and Scope, Aims, Uses, Principles of Epidemiology and Measures of Epidemiology

UNIT - III

a) Communicable diseases and their control: 1) Water borne diseases, 2) Air borne diseases, 3) Insect borne diseases

b) Environment and Health Sanitation

UNIT - IV

Health and Nutrition, Balanced diet, Nutritional Deficiency Diseases, Nutritional requirements of special groups, pregnant and lactating women and Infant and children Nutritional Policies and Programmes, Supplementary Nutritional Programs, Applied Nutrition Programmes, Nutritional feeding Programmes etc

UNIT – V

National Health Programmes – National leprosy eradication programme, National Tuberculosis Control Programme, National Malaria Eradication Programme,Universal Immunization Programme, National Programme for control and prevention of blindness, National programme for prevention of AIDS, National Filariasis Control Programme, STD control Programmes. National programme for control of Iodine Deficiency Diseases, National Family Welfare Programme.

EF: PSC – 206 (B): DEMOGRAPHIC DATA MANAGEMENT

Course Objectives1.

1. Acquire knowledge on source of demographic data and its management.
2. Impart knowledge on large scale demographic surveys and its trends.
3. Familiarize the adjustment of data, interpolation and its methods evaluation of censes data.

UNIT – I

Census: Concept; Definition and Utility; Scope and Features of Census; History of Census - taking-World and India: Evolution of Indian Censuses; Census Organization; Census Questions: Meaning, definition, and their changes over Census periods; Method of data collection; post-enumeration check and Census Tabulation; Census Publications.

UNIT – II

Concepts, objectives and utility of vital Statistics; UN Recommendations; History of Civil Registration System – World and India ; Organizational set up and details covered; Limitations; Sample Registration Scheme in India: objectives, advantages and limitations; Model Registration Scheme in India: objectives, coverage, uses and limitations; Population Registers.

UNIT – III

Large Scale demographic Surveys: National Sample surveys and other Sample Surveys, Advantages and Limitations; Mysore Population Study, National Family Health Survey, Service Statistics; International Surveys, World Fertility Surveys; Demographic Year Book, Annual Reports, Statistical Year Books, Monthly Bulletins of statistics, Journals, etc.

UNIT – IV

Evaluation of census Data: errors in Census; Coverage and content Errors; Measurement techniques; Types of errors in age data; Measurement of errors: Inspection of data, Comparison with Expected Configuration, Analysis of ratios computed from data, and Measurement of age accuracy by means of an Index: Whipplls Index, Myer's Index and U.N Secretariat Method; Errors in Registration System and Vital statistics: Coverage errors; Content errors in time, place, accuracy of definition adopted and characteristics recorded in the certificates; Measurement of errors: Internal consistency of Vital Statistics,

Balancing Equation, Direct check on Completeness of Vital Statistics and Chandrasekhar and Deming Method.

UNIT – V

Adjustment of Data; Interpolation: Meaning and Uses and Method: Newton`s Forward and Backward Formula, Use of Model life table in adjustment, Sex-Age Adjusted Birth Rate (SAABR); Graduation; of Data; Meaning: Need for graduation; Methods: Newton`s formula, Karup-Kings, Formula, Greville`s formula, U.N. Secretariat formula.

AUDIT COURSE: PSC: HUMAN VALUES AND PROFESSIONAL ETHICS – II

Course Objectives

1. Understand the basic components of human values and its present day reagents
2. Impart knowledge on medical ethics and business ethics.
3. Acquire knowledge on environmental ethic, ethical theories and social ethoics.

UNIT-I

Value Education- Definition - relevance to present day - Concept of Human Values - self introspection - Self esteem. Family values-Components, structure and responsibilities of family- Neutralization of anger - Adjustability - Threats of family life - Status of women in family and society - Caring for needy and elderly - Time allotment for sharing ideas and concerns.

UNIT-II

Medical ethics- Views of Charaka, Sushruta and Hippocratus on moral responsibility of medical practitioners. Code of ethics for medical and healthcare professionals, Euthanasia, Ethical obligation to animals, Ethical issues in relation to health care professionals and patients, Social justice in health care, human cloning, problems of abortion, Ethical issues in genetic engineering and Ethical issues raised by new biological technology or knowledge.

UNIT-III

Business ethics- Ethical standards of business-Immoral and illegal practices and their solutions, Characteristics of ethical problems in management, ethical theories, causes of unethical behavior, ethical abuses and work ethics

UNIT-IV

Environmental ethics- Ethical theory, man and nature- Ecological crisis, Pest control, Pollution and waste, Climate change, Energy and population, Justice and environmental health.

UNIT-V

Social ethics- Organ trade, Human trafficking, Human rights violation and social disparities, Feminist ethics, Surrogacy/pregnancy. Ethics of media- Impact of Newspapers, Television, Movies and Internet.

SEMESTER III

CORE: PSC - 301: POPULATION GEOGRAPHY

Course Objectives

1. Understand the basic elements of population geography and socioeconomic aspects of population distribution.
2. Acquire knowledge on basic concepts of urbanization and measure of urbanization.
3. Impart knowledge on research urban policies in developing countries with special reference to India.

UNIT I

a) Nature and scope of population Geography. Factors affecting the distribution of population Physical and socio economic aspects

b) Measures of Population Distribution: 1) Mapping devices or cartographic methods: Dot method, choropleth method, pie diagram 2) Statistical methods: Percentage distribution, Density and Rank size 3) Categorical methods: rural-urban distribution, Community size distribution.

UNIT II

a) Human Ecology. Population growth and Ecological imbalance, Global warming, Greenhouse effect,

b) Changing pattern of land use. Need for conservation and management of resources, policies and programs for better Environmental management.

UNIT III

a) Basic concepts and definition of urban, definitional and conceptual problems of urban in Indian Census. Process of urbanization in India, growth of mega cities in India,

b) Measures of urbanization. Degree of Urbanization, Percentage distribution, Ratio of Rural and Urban population, Tempo of urbanization

UNIT IV

Salient features of urbanization In the developed and developing countries, Rural Urban growth differentials. Urban problems in developing countries with focus on India

UNIT V

Urban policies in developing countries with particular reference to IndiaAtal Mission for Rejuvenation and Urban Transformation (AMRUT); Pradhan Mantri Awas Yojana (PMAY) – Housing for All (Urban);Smart Cities Mission (SCM); Swatch Bharat Mission (SBM);Heritage City Development and Augmentation Yojana (HRIDAY) Deen Dayal Antodaya Yojana - National Urban Livelihoods Mission (DAY – NULM)

15. Population reports, Series M, No. 15, Special Topics on Population and Environment: The Global Challenge, Feb. 2001,

Course Outcome

1. Enumerate the geographical factors affecting the distribution of population
2. Awareness and understanding of trends in urbanization and its impact on ecological imbalance, global warming, greenhouse effects.
3. Able to assess changing pattern of land use, conservation of resources and critical thinking of policies, programmes for better management of environment
4.

CORE: PSC – 302: RESEARCH METHODOLOGY

Course Objectives

1. Impart knowledge on objectives, scope and problems of social science research in India.

2. Understand the knowledge on research design and type of research design.

3. know the knowledge on the research proposal preparation and its types.

UNIT - I

a) Introduction and meaning of research, aim, objectives, scope and problems of social science research in India.

b) Steps in research Selection of a problem, Formulation of research project, objectives, Theoretical frame, formulation of hypotheses, and other steps in research process.

UNIT - II

Research design need for Research Design, features of a good Research Design, concepts relating to Research Design, developing a research plan, types of Research Designs Exploratory, Descriptive, Experimental and Formative designs, and Case control studies.

UNIT - III

Methods of data collection: a) Methods of Data Collection: Types of data Primary and secondary, Data collection methods Observation, Interview.

b) Tools of Data Collection: Schedule and Questionnaire, construction of schedule and questionnaire, qualities of a good schedule and questionnaire.

UNIT - IV

Data Analysis and report writing: a) Nature and propose of analysis tabulation, Editing and Coding, Statistical analysis and inferences.

b) Report Writing: Purpose, structure, and writing style of a research report.

UNIT - V

Preparation of Research Proposal: Definition, Importance -Types - Qualities and Content of a research proposal, Budget, Staff and Training.

GE: PSC -303 (A): POPULATION PSYCHOLOGY

Course Objectives

1. Acquire knowledge on basic concepts on the elements of psychology and its relationship with population studies.
2. Impart knowledge on mechanism of cognition and theories of learning.
3. Familiarized the theories of motivation and its relation to contraceptive behavior

UNIT - I

Definition, Nature and Scope of Psychology, Relationship with Population Studies, value of children and fertility

UNIT - II

a) Family size and personality development in children.

b) Juvenile delinquency. Role of family in juvenile delinquency and remedial measures

UNIT - III

a) Mechanism of cognition. Cognitive consonance theory, cognitive dissonance theory, and balance theory. Selective perception and its influence on fertility and contraceptive behaviour

b) Theories of learning: Theory of connectionism, theory of contiguous conditioning, and theory of operant conditioning. Application of learning theories in promoting family planning behaviour

UNIT - IV

Theories of Motivation: Maslow's theory and Theory of Achievement Motivation. Linkage of these theories to fertility and contraceptive behaviour

UNIT - V

a) Nature and formation of attitudes. Measurement of attitudes: Thurston, Likert, Bogardus. Techniques of attitude change and behavioural modification with special reference to acceptance of contraception and small family norm

b) Definition and categories of Leadership. Characteristics of Leaders, functions of leaders Role of leaders in promoting family, planning behaviour

GF: PSC – 303 (B): POPULATION POLICY AND PROGRAMMES

Course Objectives

1. Able to know the population policies and its genesis.

2. Impart knowledge on the development on family welfare program in India.

3. Familiarized the administrative setup of family welfare programs at the national, state, district and PHC levels with special reference to Andhra Pradesh.

UNIT - I

(a) Population policies: Definition, policies influencing fertility, mortality and migration. Genesis and development of Population policy in India

(b) Acts relating to Medical Termination of Pregnancy (MTP) Age at Marriage, Registration of births and deaths.

UNIT - II

Historical development of family welfare programme in India. Contraceptives: a) Spacing temporary methods including safe period, MTP and breast feeding b) Terminal Tubectomy, Vasectomy and Laparoscopy. Target free approach- Causes for slow progress of family welfare programme in India.

UNIT - III

World Population Conferences held in Bucharest, 1974, International Conference on Women held in Beijing, 1998. Cairo – Conference (ICPD) – 1994.

UNIT - IV

Strategies for promoting family welfare programme: Involvement of satisfied adopters, community leaders and dais, community participation, NGO's, Incentives and disincentives, IEC programmes and social marketing of contraceptives.

UNIT - V

a. Administrative set up of family welfare programme at the National, State, district and PHC levels.

b. Success of family welfare programme in Andhra Pradesh and National Rural Health Mission.

GF: PSC - 303 (C): GERONTOLOGY

Course Objectives

1. Understand the characteristics of elder and its demography dimensions in *I*ndia,
2. Explore the problems needs and magnitude of elderly population.
3. Familiarize the policies and programs for older and innervations to deal elder issues.

UNIT-I

Gerontology: Definition, Characteristics of elders

Demographic dimensions of the elders in India and other countries

UNIT-II

Changes in the status of elderly health: Functional changes in the biological system of the aged, Physical challenges

Psychological functions: Attention, Perception, memory, Learning, Psychomotor functions and Loneliness, Death, Anxiety

UNIT-III

Problems & Needs of the elderly: Magnitude and Dimensions of the problems

Older persons and Livelihood:

Work participation of old persons in organized and un- organized sectors

Intervention needs or special needs:

Retirement planning, Promoting Savings, Investments, Making Will, Training and Opportunities for income generation and Employment Sponsorship and adoption programs

UNIT-IV

Policies and Programmers for the older persons: National Council for Older Persons National Policy for Older Persons -1999, Schemes for the welfare of the aged:Institutional and Non-institutional Services by Governmental and Non-governmental Organizations for the older persons

UNIT-V

Intervention to deal Elderly issues like Neglect, Abuse, Violence and Abandonment Care giver roles and responsibilities, Care giver stress, Needs of Counseling to Elderly People.

GE: PSC – 303 (D): POPULATION ECOLOGY, URBANIZATION AND MIGRATION

Course Objectives

1. Explore the linkage between population and environment and types of pollution,

2. Examine the determents and consequent on population distribution urbanization and migration.

3. Relate the migration theories effecting present emigrational characteristics

UNIT-I

Population and Environment - Human Geography and its importance; Ecology and eco-system; Population growth and environmental deterioration; Water pollution, Air pollution, noise pollution etc.,

UNIT-II

Population Distribution - Importance of study; Measures; Factors affecting the spatial distribution of Population and temporal changes, Population distribution in India; Determinants and Consequences.

UNIT-III

Urbanization - Meaning, definition, Determinants of urbanization; process of urbanization; Levels and Trends of Urbanization in India; Urban-rural growth differentials; Problems of urbanization and over-urbanization; Policies and Programmes affecting urbanization.

UNIT-IV

Migration: concepts, definitions, Importance of study;

Types of Migration; Factors influencing Migration; Trends and differentials and pattern of internal migration in India; Characteristics of migrants; International migration

UNIT-V

Migration Theories: Push and Pull Factors, Everett Lee`s theory of migration,

Revenstien`s laws of migration; Hypotheses related to volume of migration, streams and counter streams and characteristics of migrants.

SOC: PSC -304 (A): SOFT AND EMPLOYABILITY SKILLS

Course Objectives

1. Illustrate the scope need of soft skills and listing.
2. Acquire knowledge on communication skills – verbal and written communication.
3. Import knowledge on inter personal skills employability skills and professional skills

UNIT-I

Soft Skills and Listening

Soft Skills: Meaning and Importance - Hard Skills versus Soft Skills - Self Concept: Self - Awareness, Self Development and Self Realization – Power of Positive Attitude – Etiquette and Manners.

Listening: Types of Listening, Effective Listening and Barriers to Listening – Assertive Communication

UNIT-II

Communication Skills

Verbal or Oral Communication: Forms, Types of Speeches and Public Speaking – Presentation: Elements of Effective Presentation and Use of Visual Aids in Presentation.

Written Communication: Strategies of Writing – Business Letters: Form, Structure and Formats –Types of Business Letters – Memos – Agenda and Minutes.

Non-verbal Communication: Body Language and Proxemics.

UNIT-III

Interpersonal Skills: Relationship Development and Maintenance and Transactional Analysis. Conflict Resolution Skills: Levels of Conflict and Handling Conflict - Persuasion -Empathy - Managing Emotions – Negotiation: Types, Stages and Skills.

UNIT –IV

Employability Skills

Goal Setting, Career Planning, Corporate Skills, Group Discussion, Interview Skills, Types of Interview, Email Writing, Job Application, Cover Letter, Resume Preparation.

UNIT-V

Professional Skills

Decision Making Skills – Problem Solving – Emotional Intelligence – Team Building Skills – Team Spirit – Time Management

Stress Management: Resolving Techniques.

O.E. PSC – 305 (A): PRINCIPLES OF POPULATION STUDIES

Course Objectives

1. Academic basic knowledge on basic concepts in pollution studies and components of population change.

2. Understand the basic concepts of fertility motility and its measurements.

3. Impacts knowledge on the concepts of mobility and migration and its measurements

UNIT - I

Definition, Nature and scope of population studies, Components of Population change. Population structure: Need for the study of Age and Sex structure, their determinants, population pyramids. Trends in size and growth of population of world, developed and developing Nations; Population Size, growth and age sex structure in India.

UNIT - II

Definition of basic concepts fertility period and cohort, fecundity, sub fecundity, conception, pregnancy roaster, pregnancy rate, parity, order, parity progression ratio, birth interval open and closed birth intervals, live birth, still birth, menarche, sterility, menopause. Intrinsic birth and death rates, Stable population

UNIT - III

Definition and basic concepts of Mortality: Measures of Mortality: Crude death rate, Age and sex specific death rates, infant mortality rate: child mortality rate, cause specific mortality rate; maternal mortality rate.

UNIT - IV

Measures of Internal Migration (Direct Methods): Places of birth, Duration of residence, Place of last residence, and Place of residence

Methods of estimation (Indirect methods): National Growth Rate Method, and Residual Method

UNIT - V

Concept of Mobility and Migration:. Sources and quality of data; Types of migration; Types of migration in India . Multi regional demography: Meaning and development, uses and limitations – conventional Vs multidimensional demography.

O.E. PSC – 305 (B): POPULATION, SOCIETY AND ENVIRONMENT

Course Objectives

1. Acquire knowledge on the basic concepts of fertility mortality and its data sources.

2. Explore the linkage between population growth and socio Economic changes.

3. Understand the relationship between man and environment in relation to population growth.

UNIT-I

Components of population change, fertility and mortality, concepts, definitions and data sources.

UNIT-II

Social consequences and implication of Demographic changes in fertility, mortality and migration

UNIT-III

Population and Socio-economic changes-social consequences of demographic changes, beggary, dowry, poverty, unemployment etc

UNIT-IV

Ecology and Environment, Definition and meaning importance a relationship between man and environment, over population, environment detraction

UNIT-V

Sustainable development: concepts and meaning, Areas of sustainable development: Climate change, Biodiversity, Disaster risk reduction, Sustainable consumption and production

Reference

1. Nam, Charles, Population and society Bostan Houton, Mifin co 1968
2. Bogue, Donald J, principles of demography New York 1969

Course Outcomes

1. Import knowledge on components of population changes and its social changes.
2. Discover the population and socio-economic changes and its consequences of demography and social problems.
3. Expose to ecology and Environment sustainable development in relation to population growth.

SEMESTER – IV

CORE: PSC - 401: COMMUNICATION FOR FAMILY WELFARE PROGRAMMES

Course Objectives

1. Understand the elements process problems and channels of Communication.

2. Acquire knowledge on different approach the communication and models of mass communication.

3. Femi arise the role of husband and wife commination and mass media in promoting family planning.

UNIT - I

Communication: Meaning and main elements in the communication process, Communication Problems. Channels of communication: Types, merits and limitations. Homophily and Heterophily in Communication

UNIT - II

a) Different approaches to communication: Information transmission approach, Persuasion approach and Dialogue approach.

b) Innovation Decision process: Meaning and stages in innovation decision process, role of mass media, peer groups and opinion leaders in innovation decision process.

UNIT - III

a) Models of Mass communication flow of ideas: a) Hypodermic Needle Model b) Two step flow model and c) Multi step flow model

b) Communication and Social change. Barriers to Communication in Family Planning,

UNIT - IV

Husband wife communication in Family planning: Linkage to contraception and fertility. Factors influencing husband wife communication, Demographic, socio economic, cultural, familial and psychological.

UNIT - V

Mass media in Family Planning Communication: Studies on media reach and effectiveness in promotion of Family Planning in India.

CORE: PSC - 402: REPRODUCTIVE HEALTH AND ADOLESCENT ISSUES

Course Objectives

1. Acquire basic knowledge on anatomy and physiology human reproduction concepts and pregnancy.

2. Explore the female and reproductive problems.

3. Examine the adolescent issues and policies to protect reproductive health.

UNIT - I

Reproductive Health-Scope, Concepts- Anatomy and Physiology of Human Reproduction, conception and pregnancy, Reproductive problems of women and men including adolescents

UNIT - II

a) Female reproductive health problems: Gynecological-Menstrual problems, reproductive tract infections (RTI), Obstetrical problems: prenatal, intra natal and post natal problems.

b) Male reproductive problems: nocturnal ejaculations, burning urination, discharge from urethra, impotence, infertility.

UNIT - III

Sexually transmitted diseases (STD), HIV/AIDS transmission-heterosexual and homosexual, mother to child transmissions, injections, and tattooing.

UNIT - IV

Adolescent issues: Social Problems-Drugs, alcohol, violence, abuse, prostitution, psychological depressions.

UNIT - V

a) HIV/AIDS prevention programmes of Government and Non-government agencies Sustainable Development Goals

b) Reproductive and Child Health Programme in India

GE: PSC – 403 (A): POPULATION GROWTH AND DEVELOPMENT

Course Objectives

1. Understand the linkage between population growth and Economic development.

2. Acquire knowledge on the concepts of Economic inequality and causes of inequality in India.

3. Femi arise the concepts of self-help group and understand the linkage between women and development.

UNIT - I

Economic Development: Indicators of Development; Population growth and Development in India

UNIT - II

a) Economic inequalities and causes of inequalities in India, Incidence of Poverty, Poverty Alleviation Programmes

b) Population and Employment: Economically active Population, unemployment, and types of unemployment

UNIT - III

Women and Development: Self-Help Group, empowerment of women and demographic consequences of women empowerment and development in India

UNIT - IV

a) Programmes of Rural Development in India: Barriers in the implementation of rural development programme.

b) Role of NGO's in Rural Development

UNIT - V

Role of Science and Technology; Rural Industrialization and Information education and communication in rural development

GE: PSC – 403 (B): HEALTH ECONOMICS

Course Objectives

1. Acquire the knowledge on basic concepts of health economics and its relation to population dynamic.

2. Understand the concepts of Economic evaluation, type of economic evaluation and costing in health economic.

3. Impact knowledge on measuring health outcomes general health status and quality of life.

UNIT-I

Introduction to Health Economics: Basic concepts in Economics with special reference to health. Health Economics and Population Dynamics - Demographic aging, obesity, disability and malnutrition.

UNIT-II

Costing and Health Economics: The importance of costing in Health Economics, Alternative definitions of cost.

UNIT-III

Economic Evaluation– What is economic evaluation? Various types of economic evaluation used in health care, measuring outcome, Cost effectiveness analysis (CEA),

UNIT-IV

Economic Evaluation – Importance of Measures of General health status and quality of life, Measuring Health Outcomes, Assigning monetary values to health outcomes. Health – Economic evaluate on of prevention programs (include ADL and IADL for aged)

UNIT-V

Efficiency and Equity in Health: An overview of the normative economics of the health sector,

Health Care and Welfare State, Private versus public health care, Public and Private Partnership in Health Care

GE: PSC – 403 (C): DEMOGRAPHY OF ANDHRA PRADESH

Course Objectives

1. Explore the trends on population growth age and sex composition, distribution of Population in Andhra Pradesh.

2. Familiarize population process and programmers, Nutritional programs.

3. Understand the concepts of migration and Urbanization, and its level of Andhra Pradesh

UNIT - I

Demographic Profile of Andhra Pradesh: Trends in Population Growth, Age and Sex Composition, Distribution of Population

UNIT - II

Fertility: Fertility levels, Trends and Differentials in AP. Factors Responsible for the Recent Decline in Birth Rates, Women Empowerment and Family Welfare Programmes.

UNIT - III

Mortality: Mortality levels and Trends, Infant Mortality: levels and trends, causes of death, maternal Mortality.

UNIT - IV

Migration and Urbanization: Inter and Intra – State Migration, Migration Factors, and Urbanization in AP: levels and trends, Problems of Slums and Related Policies.

UNIT - V

Population Policy and Programmes of Andhra Pradesh: Trends in Population Policies and Programmes, Programmes on Literacy and Education, Nutritional Status, Noon Meal Programme

Reference

GE: PSC – 403 (D): DEMOGRAPHIC TECHNIQUES

Course Objectives

1. Acquire knowledge and life table and its applications.

2. Analyze the Technics and method of measurements of migration and its application,

3. Understand the methods of population projection and evaluation of projection.

UNIT – I

Life table: Model life table, U.N Model Life Tables, Coale and Demeny Regional model life Tables: Multiple decrement life table and their importance; Indirect Techniques of Mortality estimates: overall survival ratio method; Differencing method; Census survival ratio method; Stable population Analysis method , Mortality estimate from Children Ever Born and Children Surviving;

UNIT – II

Stable Population Theory: Concepts, Definitions, Assumptions, Derivations; Intrinsic rate of natural increases and Stable age distribution; Fertility Models: Estimation of Vital rates through stable population technique, Quasi-stable and Stationary population Models; Ansley Coale, Brass, Bourgeois-pichat; Reverse Survival Method; Own Children Method, Fertility estimate from survey data on birth and children ever born,; Current fertility estimate from pregnancy histories.

UNIT – III

Measurement of Migration: Direct and Indirect methods: Place of Birth Approach, Place of Last Residence Approach; Duration of Stay at the Place of Residence; their advantages and Limitations; Indirect techniques of estimating Net Internal Migration: National Growth Rate Method, Vital Statistical Method, and Survival Ratio Method: advantages and limitations.

UNIT – IV

Digit preference indexes, U.N. Age sex Accuracy index, Balancing equation, Population growth Rates: Linear, Geometric and Exponential; Doubling time, Location of events in time; Lexis diagram and its uses. Population Estimate: Nature, uses, types, methods of estimates for statistically undeveloped areas; Tools of estimation: Model Life table technique, Stable Population models and methods based on the data from censuses and surveys;

UNIT – V

Interpolation smoothing of age data & Graduation techniques, Methods of Population Projection; Mathematical methods: Assumptions, types; Component methods; Assumptions,Projections of Fertility, Mortality and Migration; Ratio Method; Evaluation of Projection: Specific Projections;

9. _____, Methods of Estimating Basic Demographic Measure from Incomplete Data ST\SOA\, Series A,42
10. Demographic Year Books (Various Years)

Course Outcomes

1. Import knowledge on demographic techniques - life table, UN model life table, coale and demeny regional model life table.
2. Discover the stable population theory and its concept, measurement of migration and vital statistic methods.
3. Identity the interpolation smoothing of Age data and graduation techniques, projection of fertility, mortality and migration, Evaluation of projection.

MC/PW: PSC – 404: DISERTATION / PROJECT WORK

Course Objectives

1. Get the awareness on various demographic aspects and technics
2. Apply the demographic measures in the field surveys
3 . Frame the population policies based on the knowledge gain in field work / surveys

- **Dissertation/Project Work**

Course Outcomes

1. Develop in-depth knowledge of field work and community surveys
2. Acquire the skills to present and discuss the findings through seminars
3. Explore the skills in preparation and presentation of research findings

O.E: PSC -405 (A): RURAL, URBAN AND TRIBAL COMMUNITY DEVELOPMENT

Course Objectives

1. Know the characteristics and changes of rural urban and tribal communication.
2. Explore the issues reacted to communication and programs for community development
3. Understand community development approaches by the using participatory technics.

Unit-I

Rural community-Definition, Characteristics of Rural Communities, Changes in Rural Communities Urban Community: Definition, Urbanization, Characteristics of Urban CommunitiesTribal community: Definition, and Characteristics of Tribal communities Differences between Rural, Urban and Tribal Communities

Unit-II

Community development: Definition, Community development experiment and projects in Rural areas: Srinikatan Marthandom, Gurgon, Boroda, Firka, Nilokhere and Earth wah projects Urban areas: Delhi pilot project, Baroda pilot project, Ahmadabad pilot project Tribal areas: Hill area development programs

Unit-III

Issues related to communitiesGeneral issues: Poverty, Indebtedness, Unemployment, Sanitation, Health and Nutrition Specific issues: Problems of Women, Children, Youth and Elderly Rural specific issues: Agriculture, Land and Land related problemsUrban specific issues: Migration Slums, Urban, Industrial Related problems, Issues related to settlement understanding the issues of the community development .Tribal specific issues: Employment, Economic aspects.

Unit-IV

Programmes for community development:

Rural:

IRDP (Integrated Rural Development Programme),

DWCRA (Development of Women and Children in Rural Areas),

(Swarnajayanti Gram Swarazgar Yojana),

REGS (Rural Employment Guarantee Schemes) National and State level,

Indira Kranthi patham

Urban:

SJSRY (Swarnajayanti Shehari Rojgar Yojana),

DWCUA (Development of Women and Children in Urban Areas),

Slum clearance projects

Tribal:

ITDA (Integrated Tribal Development Agency),

GDC (Girijan Development Corporation),

Constitutional provisions for Scheduled Tribes

Social workers Response: Creating awareness Work for effective Implementation of the programmes.

Unit-V

Community development approachesTarget approach: Welfare programmes, Developing Relationships, Demonstrating the purpose, providing knowledge, Empowering the Target Group, Providing Direction, Support, Networking, using Participatory Techniques

O.E: PSC -405 (B): SOCIAL POLICY AND PLANNING

Course Objectives

1. Know the nature and approaches of social policy
2. Differentiate the social welfare polices implemented for women, children, education, health and environment
3. Understand the role of social workers in formulation, planning and implementation o policies

UNIT-I

Social Policy: Definition, Objectives, Social policies and social development, Social policy in relation to Indian Constitution, Fundamental rights, Directive principles of state policy.

UNIT-II

Approaches to social policy:

- Unified , Integrated and Sectoral
- Formulation and Implementation of social policy, Process, Role of government and NGO's etc
- Family Related Polices

UNIT-III

Social welfare policies and their implementation:Education, Health, Women, Youth, Children, Urban, Rural, and Tribal development policies, Environment

UNIT –IV

Social and developmental planning: concept, approaches to social planning, Linkage between Social Policy and Planning.Planning process in India Planning Commission – Center and State and its Functions

UNIT-V

Decentralization: Need for Decentralization of planning, plan implementation, monitoring, budget and financial management, personnel management, academic management, and provision of infrastructure including procurement. Participatory planning

SRI VENKATESWARA UNIVERSITY: TIRUPATI

S.V.U. COLLEGE OF ARTS

DEPARTMENT OF POPULATION STUDIES

Course

M.A. MASTERS IN SOCIAL WORK (M.S.W)

Choice Based Credit System (CBCS)

Academic Year 2023 – 24

Amended as per NEP-2020

About the department

- The department of Population Studies came into existence in 1973 with generous funding of Family Planning Association of India. The department now occupies premier position in the field of population in India. The department conducts Teaching, Research, Outreach programmes and Training.

Vision

- The department of Population Studies came into existence 1973 with generous funding of Family Planning Association of India. The department now occupies premier positions in the field of Population and it is the 1st Department which started M.A. Population Studies in India. The Department conducts Teaching, Research, Out-reach programmes.
- The Department of Population Studies intends to be a resource centre for knowledge generation and training point for demographic & family welfare aspects. The department is an asset to **anti-spate** skill fall social work professionals for social welfare and community development.

Mission

- The Department of Population Studies is dynamic body for empowering, encouraging the young as employable manpower of overall constructive and sustainable development of themselves and the society through its Teaching, Research, Out-reach (extension) and Training-campers community activities consistently.

program Specific Outcome

At the end of the MSW program, the student will be able to:

- Discover the knowledge on Social Work Theories and Practices and, demonstrate its methods with Individuals, Families, Communities, Community Organization and Social Welfare administration
- Develop skills to demonstrate values and ethics of Professional Social Work practice by working with diverse and vulnerable population
- Carryout evidence based research on contemporary issues and applies suitable interventions to solve the problems of the people

- Identify various Laws, Legislations, Policies and programmes at State, National and International levels related to welfare and recommend future policies for implementation
- Obtain knowledge on specialized fields like Counseling, Medical and Psychiatric Social Work, Gerontology, Human Resource Management and Industrial relations that provides an employment opportunity in various fields
- Acquire professional skills and abilities that train them challenges to tackle in their own life and career
- Capability of conducting independent research on burning social issues, with relevant interventional programmes so as to give scientific solutions to the problem.

Program Objectives

1. To assist with students' development of understanding and integration of social work theories and practice.
2. To develop student's professional social work values and ethics.
3. To apply systems concepts to practice across the micro and macro continuum.
4. To allow students to demonstrate an understanding of social work concepts based in systems theory.
5. Expose students to the history, current realities, and future implications of social welfare system with regard to the local and global continuum.

Programme Outcomes (POs)

- After successful completion of two year degree programme in Population Studies, student should be able to:
- **PO1: (KB) Knowledge Based**
- Ability to demonstrate comprehensive knowledge and understanding the professional social work, social problems, social action and, social legislations in the context of social development
- **PO2: (PA)Problem analysis**
- Illustrate the theory in to practice through social work methods in solving various problems and challenges of individual, group and community.
- **PO3: (Inv)Investigation**
- Equip Knowledge to investigate on contemporary burning issues and problems of the community in a scientific way

- **PO4: (Des) Design**
- Develop skills and scientific attitude in identification of problems, develop research design, carryout research, conduct case and interventional studies and prepare report by applying appropriate software.
- **PO5: (Tools) Use of Tools**
- Experiment different skills in conducting scientific studies, apply its finding into practice, if necessary with suitable interventional strategies.
- **PO6: (Team) Individual Team Work**
- Capability to involve effectively in diverse teams as a group and team member (Observation visits, Concurrent field work, Rural Camp, Study tour and Block Field work) will facilitate cooperative and coordinated efforts working together in the interest of common issues.
- **PO7: (Comm) Communication skills**
- Critically analyze and express thoughts and ideas and present clear and precise information through verbal and nonverbal communication and presentation. Acquire skills to use ICT& IEC in different situations, demonstrate ability to access, evaluate and use of different information sources as applicable to professional needs.
- **PO8: (Prof) Professionalism**
- Understand and discover the knowledge on organizational services and its aims acquire practical knowledge and experience by working with people and examine policy ideas and priority of the community through research and theoretical ideas by safeguarding ethics and values of social work profession. Demonstrate to work in a thoughtful and systematic way, justify methods of working with a meaningful intervention, and apply skills by combine thinking using the senses.
- **PO9: (Impact) Impacts of course on society and environment**
- Demonstrate immense impact on communities through awareness and empowerment programmes by applying relevant social work methods. Help people in solving personal, familial and societal problems through adjustment and adaptation by way of social justice. Able to organize various environments related programs sensitize the people on environmental issues in order to maintain public eco-friendly relations.
- **PO10: (Ethics) Ethics and Equities**
- Illustrate the professional principles of ethics and values like confidentiality, non-judgmental attitude, acceptance etc., and develop self-esteem levels in conducting one's-life. Capable of

demonstrating the ability to identify ethical issues and values in all aspects of social work profession

- **PO11: (LLL) Life Long Learning**
- Associate in self-discipline and self-directed continues learning by involving in national and international professional organizations and thereby aims to improve the personal and professional development in social work methods.
- **PO12: Physicist & Society**
- To assess and solve the problems related to societal, health and safety issues using the professional skill learned

Program Educational Objectives

- Apply critical thinking within the context of professional social work practice.
- Understand the value base of the profession and its ethical standards and principles, and practice accordingly.
- Practice without discrimination and with respect, knowledge, and skills related to a client's age, class, color, culture, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, and sexual orientation.
- Understand and interpret the history of the social work profession and its contemporary structures and issues.
- Use theoretical frameworks supported by empirical evidence to understand individual development and behavior across the life span and the interactions among individuals, and between individuals and families, groups, organizations, and communities.

SEMESTER-I

CORE: MSW-101: SOCIOLOGY FOR SOCIAL WORK

Course Objectives

1. Know the basic concepts relating to society and relation between individual and society.

2. Describe socialization, social institutions and social groups

3. Disseminate knowledge regarding social stratification, social deviance, social change and social problems

UNIT-I

Sociology: Definition and Scope, Relation of Social Work to other Social Sciences.Applied Sociology: concept, definition, Difference between Academic and Applied Sociology Society: Definition, Characteristics, Structure and Functions of society, Relationship between Individuals and society.

UNIT-II

Socialization: Process and Mechanisms of Socializations Social Institutions: Marriage, Family, Religion, Social groups: Definition, Characteristics and Classification of Social Groups. Primary, Secondary and Reference Groups

UNIT-III

Social Stratification: Social Stratification in India – Class and Caste stratificationSocial Deviance and Social Control: Definition, Process and Mechanisms of Social Control

UNIT-IV

Social change: Concept, Definition and Factors leading to Social Change, Globalization and Society

UNIT-V

Social problems: Suicide Domestic Violence, Alcoholism, Trafficking, Juvenile Delinquency, Agrarian Crisis, Farmer Suicide

CORE: MSW - 102: HUMAN GROWTH AND PERSONALITY DEVELOPMENT

Course Objectives

1. Know the various stages of human growth and development

2. Explain different concepts of human behavior like motivation, perception, learning and attitudes

3. Assess the client in solving their psycho social problems through personality development and adjustment

UNIT - I

Life-span Approach to Human Growth and Development; Principles of growth and Development in a life- span, Role of Heredity and Environment in Human Growth and Development

UNIT-II

Motivation: Concept, Definition, Types of Motives, Theories of Motivation, Social Motives.

Perception: Definition, Process of Perceptions, Factors Influencing Perception.

UNIT-III

Learning: Meaning & Definition, Principles of Classical Conditioning, Operant Conditioning and Cognitive Learning

UNIT- IV

Attitudes: Definitions, Formation of Attitudes and attitudes change in Individuals and Groups, and Measurement of attitudes.

Personality development: Definition, Theories of Personality: Psychodynamic, and Behavior theories.

UNIT-V

Adjustment: Concept of Adjustment and Maladjustment, Factors Influencing stress, coping with stress.

CORE: MSW – 103: SOCIAL WORK PROFESSION AND FIELD WORK ORIENTION

Course Objective

1. Able to understand the concepts like Social Service, Social welfare, Social Development and Social Work

2. Acquire knowledge about Ethical Values of Professional Social Work.

3. Understand the challenges and prospects of social work profession and Field work orientation.

Unit-I

The concepts of Social Service, Social welfare, Social Development and Social Work

Religious Roots of Charity and Philanthropy, its relevance to Professional Social Work in UK, USA and in India

Unit-II

Social Work Profession: Definition, Goals, Principles, Ethical Values of Professional Social Worker.

Unit-III

Current Trends in professionals Social Work, Ecological Social Work, International Social Work, Human Rights and social justice.

Unit-IV

Field work in Social Work:

Objectives, Nature of Field Work.

Components of Field Work, Objectives and Guide lines for Observation

Visits and Concurrent Field Work in Social Work

Unit-V

Professional development; Knowledge, Skills required by Social Work trainees for:

Identification of needs

Planning interventions

Involving the client in problem solving process

CORE: MSW-104 SOCIAL WORK PRACTICE WITH INDIVIDUALS AND GROUPS

Course Objective

1. Familiarize with the basics concepts, techniques and skills of case work
2. Able to apply approaches of Case work and Group work methods.
3. Learn the application of Social Case Work and Group Work at various settings like Schools, Hospitals, and Correctional institutions.

Unit-I

Social Case work: Definition, Purpose, Historical development of Social Case Work, Scope, Values, Components and Principles of Social Case Work, Social case work process.

Unit-II

Techniques and skills of social case work: Interviewing Techniques, Observation and Home Visits Recording in Social Case Work – Contents of Recording, Principles of Recording Types of Records

Unit-III

Approaches to Case Work:

- Psycho- Social approach
- Behavioral modification theory.
- Crisis intervention
- Empowering approach
- Eclectic approach

Unit-IV

Definition of Social Group Work, Scope, Objectives and Purpose of Group Work

- Historical development of Group Work.
- Principles of Group Work.
- Group Work process
- Types of groups, Skills of group workers.
- Propramme planning in group work.
- Recording in group work.

Unit-V

Assessment in Case Work – Genogram, Ecomap and Support net work map

Assessment in Group Work – Sociogram, Sociometry

Approaches in Group Work: Transactional Analysis, Role Play, Buzz Group, Brain Storming.

Application of Social Case Work and Group Work at various settings – Schools, Hospitals, Correctional Settings and in Communities

C.F: MSW -105 (B): ISSUES AND CONCERNS IN OCCUPATIONAL SOCIAL WORK

Course Objectives

1.Know the work,workers and working organizations

2.assess the unique opportunities of the profession to affect the decisions and provisions of management and labour

3.Identify the leverage to Provide expert service and to become agents of social change

UNIT - I

Occupational social work: Concepts and Scope

- Occupational social work-history, scope, components, principles and methods
- Changing profile of work, workers and work place organizations
- Indian workers: Needs, Issues and Problems affecting work life and organizational life
- Changes in the labour policy-Implications for the work force, Decent work, ILO initiatives and Indian realities

UNIT - II

Workers in organized sector: Issues and challenges

- Contemporary issues for factory workers: employment nature and security, wages and social security,
- Industrial relations: determinants and reflectors, legislations, Industrial Employment Standing orders
- Trade unionism- historical development, legal environment and changing scenario
- Labour welfare in a welfare state, Labour Welfare Officer: duties, issues, challenges;
- Welfare to Wellbeing of workers: Concept, needs and programmes

UNIT - III

Working Conditions and Conditions of Work

- Physical and mechanical environment-provisions of Factories Act; Working conditions and problems at workplace

- Conditions of work: Wages, dearness allowances, perks and incentives, leave, holidays, Code on Wages
- Social security for organized sector: measures, issues and challenges

UNIT - IV

Workers in Unorganized Sector

- Unorganized sector workforce-issues, and concerns, statutory and non –statutory initiatives
- Issues and concerns of Building and construction workers and agricultural workers,
- Child workers in India in different occupation, Rescue and rehabilitation; Domestic Workers;
- Women workers/employees in different occupations: Needs problems and issues, Specific issues and concerns o f persons with disability and employees on contract basis.

UNIT - V

Emerging Issues and Concerns for Occupational Social work

- Mental health issues at workplace; Work life balance
- Employee Assistance programmes- nature, scope, philosophy, models, services,
- Corporate social responsibility–policies, programmes and practices
- Occupational Social work : emerging issues and concerns
- Select case studies on work place interventions

C.F: MSW -105 (C): SOCIAL WORK PRACTICE AND INFORMATION COMMUNICATION AND TECHNOLOGY

Course Objective

1. Know the influence of ICTS in the careers of social workers and the clients they serve.

2. Describe the need to incorporate ICTs into training social workers, delivering social work services, and the conduct of social work research

3. Relate the opportunity to transform the social work profession to be ready to respond to and leverage any technology that becomes available

UNIT – I

Importance and scope of ICT in Social Work

Concept and meaning of Information, communication and technology

Applications and functions in Social Change contexts

Applications of different technological devices and social networking: Apps, Mobile, G IS, Community Radio, Face book, what's app, twitter etc.

UNIT - II

Technology for Change: Legislations and Policies

IT Act, Cyber Crime, Ethical hacking, surveillance and right to privacy

ICT for fund raising and Advocacy

Understand the social and ethical behaviour in cyberspace.

UNIT - III

ICT for empowerment of vulnerable groups:

Rural communities, Gender, Elderly and Disability

Use of social networking sites for empowering vulnerable communities

UNIT - IV

ICT in human relations: impact on human relations, community participation, social dynamics of ICT

ICT in social development: Technology to mobilize communities, disseminate information, and constituents in mezzo and macro interventions, Developments and Applications in Social Development, ICT and Social inclusion

UNIT - V

ICT and Social Work Practice:

Practicing social and life skills through effective use of ICT

Designing: writing blogs, making apps, websites, creating social media groups, community map, GIS, community radio for social work practice, ICT influence on rural social work practice

E.F: MSW – 106 (B): CORPORATE SOCIAL RESPONSIBILITY, SOCIAL ENTREPRENEURSHIP AND SOCIAL WORK

Course Objective

1.Know the phenomena of corporate social responsibility from the perspective of social work

2.Describe the concepts such as social issues, economic inequality and social inequality

3. recognize the interdependence of Corporate Social Responsibility and social work

UNIT I

Corporate Social Responsibility: Concept, factors and Evolution

Models and perspectives on CSR

Stakeholders in CSR, Legal obligations, Compliances and reporting in CSR

UNIT II

Corporate Social Responsibility:

Skills for Planning, implementing, monitoring and evaluation of CSR activities

Identifying implementing partners

Sustainability and CSR

Ethics and governance

Case Studies and best practices

UNIT III

Social entrepreneurship:

The history, concept, and theories on Social entrepreneurship

Social entrepreneurship and the socio-economic context

Social enterprises; Models and types of Social Enterprises

UNIT IV

Theories of Change, Social Return on Investment

The motivation of a Social Entrepreneur

Skills and competencies of a social entrepreneur-financial Management and Fund Raising; Sustainability of social enterprises

Case Studies and best practices

Unit – V

Role and importance of Social Worker in CSR - Assisting individual workers, advocating on behalf of employees, developing philanthropic and community development programmes, implementing diversity programmes in workplace and corporate campaign.

CORE: MSW-201: SOCIAL WORK PROFESSION AND FIELD WORK ORIENTION

Course Objective

1.Describe the scope and significance for social work practice in various fields

2.Know the importance of field work in social work profession

3. Asess the scope of training and awareness programmes in field work settings.

UNIT-I:

Fields of Social Work:

Scope and significance for social work practice in various fields –

- Family and Child Welfare
- Medical and Psychiatric social work,
- Human Resource Management
- Criminology and Correctional administration.
- Community Development
- Gerontological social work

UNIT- II

Field work in Social Work Profession: Objectives and Guide - lines for Concurrent Field Work, Rural Camps, Summer Block Field Work in Social Work Profession.

UNIT-III

Knowledge and Skills Essentials for Working with Groups:

Significance of Working with Groups

Use of relevant Model in group work practice

Understanding group dynamics

Use of principles, skills and appropriate program media during field work

UNIT-IV

Knowledge and Skills Essentials for Working with Communities:

- Identification of Issues for Intervention among Clients Involved in Difficult Situations.
- Using Appropriate Interventions
- Effective Communication at Individual, Group and Mass level interventions.

UNIT-V

Social work practice: Role of Government and Non government Organizations in the Social Development.

Understanding of the functioning of government organizations at Panchayat, Mandal and District level

Importance of Capacity Building and organizing, training and awareness programmes in the Field Work Settings.

CORE: MSW-202: SOCIAL WORK PRACTICE WITH COMMUNITIES

Course Objectives

1. Develop an understanding of the centrality of community in the experience of society, and the significance of community mobilizing and organizing.

2. Equip students with the knowledge base, skills and techniques for becoming an effective community organizer.

3. Understand to apply PRA Techniques for promoting Community Participation

UNIT-1

Community Organization and Social Work Practice: Definition and Types of CommunitiesConcept of Human Rights, Power, Empowerment and Relevance to Community WorkCommunity Organization; Definition, History, Process and Principles of Community Organization, Role of a Community Organizer

UNIT-II

Approaches of Community organization:

Directive and Non directive, Marshalls - Means and Goals, Cornhouser's theory on Accessibility of Elites and Availability of Masses, Indigenous approaches to community work

Models of community organization:

Rothman model: Locality development, social planning and social action.

Neil Bracht model for community for work and health

Weil and Gamble's eight models of Community Practice

UNIT-III

Current issues in community organization:

Community conflict – Definition, Nature, Extent, Causes, Impact on development, Conflict Resolution and Management

Disaster – Definition, Types of disasters, Impact of disasters, Pre-disaster prevention, Preparedness, Restoration and resource mobilization.

UNIT-IV

Community participation: Definition, Objectives, Need, Importance and Advantages, Obstacles to Community Participation.

RRA and PRA: Origin and Emergence, Sources, Principles of PRA, Features of PRA

UNIT-V

Community participation – using PRA methods:

Purpose, Process and Limitation for Different PRA methods

Space related methods: Social map, Resource map etc

Time related methods: Time line, Trend analysis and seasonal diagram.

Relation related methods: Venn diagram, Force field analysis, Livelihood analysis.

Tools for designing community interventions: Community Profiling, PLA, LFA, Problem Analysis, Stakeholder Analysis and Strategic Planning

CORE: MSW-203: SOCIAL ACTION AND SOCIAL LEGISLATION FOR SOCIAL WORK PRATICE

Course Objectives

1. Know the concept of Social Action and understand the process of Social Action
2. Disseminate social legislations and connect with Social work Practice
3. Able to empower the community with regard to laws related to women, children and aged.

UNIT-I

Social action, Definition, Principles, Strategies, Models and Process of Social Action,

UNIT-II

Social legislation: Definition, and use of Social Legislation in Social Work Practice.

UNIT-III

Laws pertaining to Women and Social Work Practice;

Legal provisions related to Women

Law related to Trafficking of women

Sexual Harassment at workplace Act

Indecent Representation of Women Act

UNIT-IV

Laws pertaining to children and Aged and Social Work Practice;

i. Juvenile Justice Act, 2000 (2015).
ii. Child labour Act,
iii. Right to Education Act 2009,
iv. Maintenance and welfare of parents and senior citizens act, 2007 (Amd. 2017)
v. The Protection of Children from Sexual Offences Act (POCSO Act) 2012
vi. Probation Offenders Act,

UNIT-V

Laws in General:

i. Right to Information Act, 2005
ii. Domestic Violence Act, 2005
iii. Protection of Human Right Act, 1993
iv. Disability Act, 1995
v. Public Interest Litigation (PIL)

CORE: MSW - 204: SOCIAL WORK RESEARCH

Course Objectives

1. Know about Social work Research and Basic Statistics
2. Understand various Research designs and their application in Social work Research
3. Describe the methods of sampling, data collection, data analysis and suitability of statistical methods and report writing.

UNIT - I

Introduction – Meaning of Research, Aim, Objectives, Scope and Limitations of Social Science Research and Social Work Research

Social Work Research Process: Identification of problem, Need assessment, Selection of social work Research design, Intervention, Assessment of Intervention Effects

UNIT-II

Single –Subject Research Designs: Types, AB, ABAB, ABCD use of Single Subject Designs in Social Work Practice

Evaluation research designs: Concept, Purpose, Models, and Types of Evaluation Research.

Evaluation research designs, Cost benefit and Cost Effective Analysis, use of Evaluation Research, Program Evaluation and Contents of Evaluation Report

UNIT-III

Research Designs: Concept and Need of Research design. Types of Research Designs, Exploratory, Descriptive, Experimental and Formative Designs

Sampling: Concept, Purpose of Sampling, Types of Sampling.

Probability: Simple Random Sampling, Stratified, Sampling, Cluster Sampling.

Non probability sampling: Availability sampling, Purpose sampling, Quota sampling, Snow Ball sampling.

UNIT-IV

Methods of Data Collection: Types of Data- Primary and Secondary Data; Data Collection, methods – Observation, Interview, Questionnaire.

Tools of Data Collection: Schedule and Questionnaire, Construction, and Qualities of a Good schedule and questionnaire

Data analysis: Nature and Purpose of Analysis, Tabulation, Categorization, Editing and Coding, Statistical Analysis and Inferences

UNIT-V

Importance of Statistics in Social Research: Measures of central tendency, Measures of Dispersion, T-test, Chi-Square test, Correlation and Regression Report writing: Purpose, Structure, Writing Style of a Research Report

C.F: MSW – 205 B: SOCIAL WORK PRACTICE WITH DIFFERENTLY ABLED

Course Objectives

1.Understand the relevance of social work practice with differently abled people

2. Know to work in partnership with families, carers, staff and service providers to identify needs, provide emotional and empower to enhance their quality of life.

3. Address the issue of grief, loss and bereavement associated with physical and mental disability

UNIT - I

Disability: Concept, Definitions and Nature

Definitions: Impairment, Handicap and Disability; Types/Categories of Disability.

Model of Managing Disability: The Charity Model, the Medical Model (individual), Social Model, Rights Based Model

Disability in India: History, Trends and Current situation

UNIT - II

Disability Issues, Problems and Responses

Societal attitude toward Persons with Disability (PWD): Stigma, Discrimination, oppression and social exclusion

Issues of access to education, employment, health, technology; safety and accessibility; marginalization and psychosocial challenges

Integration and Inclusion of the persons with disability: prospects and challenges

Responses: Special Provisions; Inclusive Education and Employment; Mainstreaming.

UNIT - III

Policy, Legal Framework, Services and Programmes

United Nations Convention on Rights of Person with Disabilities

Various legislations (RCI Act, RPD Act & National Trust Act)

Services and programmes for Persons with Disabilities: Role of government and civil society

Disability Counseling: Components and Approaches

Gendered aspects of disability

UNIT - IV

Rehabilitation of Persons with Disability

Rehabilitation services for the PWD (Educational, vocational, economic & social)

Community based rehabilitation: Philosophy approaches and programmes

Roles and functions of Social Worker with disabilities

Theoretical Perspectives and their Application to Disability Rehabilitation in Social Work

UNIT - V

Assistive Technology and Disability

Introduction to Assistive Technology

Cognitive assistance, including computer and electrical assistive devices

Infrastructural assistance Devices for effective communication

C.F: MSW – 205 C: SOCIAL WORK AND DISASTER MANAGEMENT

Course Objectives

1. Understand the Disaster Management and its importance.
2. Describe the environmental hazards and its techniques of prevention.
3. sensitize students about the environmental issues and motivate to work for environmental Conservation

UNIT - I

Disaster: Meaning - Concept of Hazard, Risk, Vulnerability and Disaster, Impact of disasters: Physical, economic, political, psychosocial, ecological, and others;

UNIT II

Disaster Management Cycle: Mitigation and prevention, Preparedness, Prediction and Early warning, Rescue and Relief, Impact assessment, Response, Recovery, Reconstruction; Disaster Risk Reduction; Community Based Disaster Management (CBDRM);

UNIT III

Global issues and initiatives- World Conference on Disaster Reduction (2005),

Hyogo Framework for Action (2005-15), Sphere Standards – 2012, Disaster Management Act 2005; National Disaster Management Policy 2009;

UNIT IV

Role of the Central and the State Governments, Local bodies, Community, Media,

International and National Non-Governmental Organizations, Charitable trusts, Educational Institutions, Voluntary Organizations, Community Based Organizations, Youth groups, Others

Administrative and institutional structure f or disaster management; Techno-legal framework

UNIT V:

Impact on the individual, family and society, mental health consequences of

Disaster: grief reactions, post-traumatic stress disorders

Role of social worker in disaster management

E.F: MSW – 206 (A): COUNSELLING IN SOCIAL WORK PRATICE

Course Objectives

1. Know about the what, why and how of counselling services;
2. Provide both academic learning and professional education and training in counselling,
3. Describe the role of counselor in families, family courts, correctional settings,
   Schools, health setting, rehabilitation and De - addiction centers

UNIT-I

Counseling: Concept, Goal and ethics of counseling, Historical development of counseling, types of Counseling, Principles of Counseling

UNIT-II

Approaches to counseling and Techniques of Counseling:

Client –centered Counseling,

Psychoanalytic Counseling,

Behavioral Counseling

Development of counseling strategies in Social Work Profession in India

UNIT - III

Roles and characteristics of a counselor,

Counseling: skills, competencies and therapeutic relationship

The counseling relationship: Relationship as the medium of facilitating change

UNIT- IV

Phases of counseling; Termination of counseling: Indications and contraindication, and counseling Process

UNIT - V

Counseling in different field and legal issues:

Health counseling:

School counseling:

Crisis counseling: theory, methods and techniques of crisis intervention

Marriage and Family counseling: Techniques and process

Alcoholism Counseling: Motivational Intervention for sobriety

Counseling of children: developmental needs and age-related issues; Special problems of physical and sexual abuse, and substance abuse, Special Population Counseling

E.F: MSW 206 (B): SOCIAL WELFARE PROJECT FORMULATION AND MANGEMENT

Course Objectives

1. Understand the concepts in social welfare project formulation and management
2. Know the application of skills, tools and techniques to project activities
3. Describe the project management frame work and project life cycle

UNIT-I

Social welfare – Development and Administration:

Definition, Nature, Scope, Principles of Social Welfare Administration

Administration process: Planning, Organization, Staffing, Direction, Co-ordination, Reporting and Budgeting

UNIT-II

Registration of an organization: Process, Constitution, By Laws/Memorandum of Association and Registration.

Related Acts and laws: Societies Registration Act 1860, Andhra Pradesh Societies Registration Act -2001

UNIT-III

Organizational management:

Guide lines for Project Formulation, Programme Planning, Monitoring and Evaluation

Organizational management: Governance, Financial aspects

UNIT-IV

Social welfare, Governmental agencies:

Autonomous boards: Central Social Welfare Boards (CSWB) , AP State Welfare Board (APSSWB) Understanding Functioning of Union Level Departments and Ministries of welfare and Development.

Role of local bodies in the welfare and development

UNIT-V

Social Welfare – Non Governmental Organizations: Concept , Types and Functions of Non Governmental Organizations, NGO's role in development.
