Annexure-10

This is to certify that for each programme (M.Sc), the department will obtain feedback from the students, parents, mentors and alumni.

In each year for the programme, 30 percent of the students will be randomly selected and requested to provide their feedback. Simultaneously the parents of the students (students will be blinded) will be contacted over phone or during their visit to the department and obtain their feedback. Every year we seek feedback from one or two alumni. The feedback will be analysed through scaling method. The overall opinion of the mentor on students will also be documented.

The feed back analysis clearly states to introduce soft skill development relevant to Anthropological Research. Accordingly the department is taking necessary steps to introduce the Data Management and Computer Applications.
